- uncertainties related to the national economy, the real estate industry in general and in our specific markets;
- legislative or regulatory changes, including changes to laws governing REITs;
- adverse economic or real estate developments in Virginia, Florida, Georgia, South Carolina, North Carolina, Oklahoma, Tennessee and New Jersey;
- increases in interest rates and operating costs;
- inability to obtain necessary outside financing;
- litigation risks;
- lease-up risks;

Part I

Item 1. Business

Overview

We are a Maryland corporation formed with the principal objective of acquiring, financing, developing, leasing, owning and managing income producing assets such as strip centers, neighborhood centers, grocery-anchored centers, community centers and free-standing retail properties. Our strategy is to opportunistically acquire and reinvigorate well-located, potentially dominant retail properties in secondary and tertiary markets that generate attractive risk-adjusted returns. We target competitively protected properties in communities that have stable demographics and have historically exhibited favorable trends, such as strong population and income growth. We generally lease our properties to national and regional retailers that offer consumer goods and generate regular consumer traffic. We believe our tenants carry goods that are less impacted by fluctuations in the broader U.S. economy and consumers' disposable income, generating more predictable property-level cash flows.

We currently own a portfolio consisting of twenty-three retail properties, including sixteen retail shopping centers, six free-standing retail properties and one office property, totaling 1,294,572 net rentable square feet of which were approximately 94% leased as of December 31, 2013.

We believe the current market environment creates a substantial number of favorable investment opportunities with attractive yields on investment and significant upside potential. We believe the markets we plan to pursue of the Northeast, Mid-Atlantic, Southeast and Southwest are characterized by strong demographics and dynamic, diversified economies that will continue to generate jobs and future demand for commercial real estate. We anticipate that the depth and breadth of our real estate experience allows us to capitalize on revenue-enhancing opportunities in our portfolio and source and execute new acquisition and development opportunities in our markets, while maintaining stable cash flows throughout various business and economic cycles.

Jon S. Wheeler, our Chairman and President, has 32 years of experience in the real estate sector with particular experience in strategic financial and market analyses and assessments of new or existing properties to maximize returns. We have an integrated team of professionals with experience across all stages of the real estate investment cycle.

We were organized as a Maryland corporation on June 23, 2011 and elected to be taxed as a REIT beginning with our taxable year ended December 31, 2012. We conduct substantially all of our business through Wheeler Real Estate Investment Trust, L.P., a Virginia limited partnership, of which we are the sole general partner (our "Operating Partnership"). We are structured as an UPREIT, which means that we will own most of our properties through our Operating Partnership and its subsidiaries. As an UPREIT, we may be able to acquire properties on more attractive terms from sellers who can defer tax obligations by contributing properties to our Operating Partnership in exchange for Operating Partnership units, which will be redeemable for cash or exchangeable for shares of our common stock at our election.

WHLR Management, LLC (our "Administrative Service Company"), which is wholly owned by Mr. Wheeler, provides administrative services to our company. Pursuant to the terms of an administrative services agreement between our Administrative Service Company and us, our Administrative Service Company is responsible for identifying targeted real estate investments; handling the disposition of the real estate investments our board of directors has chosen to sell; and administering our day-to-day business operations, including but not limited to, leasing duties, property management, payroll and accounting functions. We also benefit from Mr. Wheeler's partially or wholly owned related business and platform that specializes in retail real estate investment and management. Mr. Wheeler's organization includes (i) Wheeler Interests, LLC, an acquisition and asset management firm, (ii) Wheeler Real Estate, LLC, a real estate leasing management and administration firm, (iii) Wheeler Capital, LLC, a capital investment firm specializing in venture capital, financing, and small business loans, (v) Site Applications, LLC, a full service facility company equipped to handle all levels of building maintenance and (vi) TESR, LLC, a tenant coordination company specializing in tenant relations and community events (collectively, our "Services Companies"). The organization formerly included Wheeler Development, LLC, a full service real estate development firm, which was acquired by us on January 6, 2014. Our headquarters is located at Riversedge North, 2529 Virginia Beach Boulevard, Suite 200, Virginia Beach, Virginia 23452. Our telephone number is (757) 627-9088. Our website is located at WHLR.us. Our Internet website and the information contained therein or connected thereto does not constitute a part of this Form 10-K or any amendment or supplement hereto.

Business and Growth Strategies

Our strategy is to opportunistically acquire and reinvigorate well-located, potentially dominant retail properties in secondary and tertiary markets that generate attractive risk-adjusted returns. Specifically, we intend to pursue the following strategies to achieve these objectives:

Maximize value through proactive asset management. We believe our market expertise, targeted leasing strategies and proactive approach to asset management will enable us to maximize the operating performance of our portfolio. We will continue to implement an active asset management program to increase the long-term value of each of our properties. This may include expanding existing tenants, re-entitling site plans to allow for additional outparcels, which are small tracts of land used for freestanding development not attached to the main buildings, and repositioning tenant mixes to maximize traffic, tenant sales and percentage rents. As we grow our portfolio, we will seek to maintain a diverse pool of assets with respect to both geographic distribution and tenant mix, helping to minimize our portfolio risk. We will utilize our experience and market knowledge to effectively allocate capital to implement our investment strategy. We continually monitor our markets for opportunities to selectively dispose of properties where returns appear to have been maximized and redeploy proceeds into new acquisitions that have greater return prospects.

Pursue value oriented investment strategy targeting properties fitting within our acquisition profile. We believe the types of retail properties we seek to acquire will provide better risk-adjusted returns compared to other properties in the retail asset class, as well as other property types in general, due to the anticipated improvement in consumer spending habits resulting from a strengthening economy coupled with the long-term nature of the underlying leases and predictability of cash flows. We will acquire retail properties based on identified market and property characteristics, including:

Property type. We focus our investment strategy on income producing assets such as strip centers, neighborhood centers, grocery-anchored centers, community centers and free-standing retail properties. We will target these types of properties because they tend to be more focused on consumer goods as opposed to enclosed malls, which we believe are more oriented to discretionary spending that is susceptible to cyclical fluctuations.

Strip center. A strip center is an attached row of stores or service outlets managed as a coherent retail entity, with on-site parking usually located in front of the stores. Open canopies may connect the store fronts, but a strip center does not have enclosed walkways linking the stores. A strip center may be configured in a straight line or have an “L” or “U” shape.

Neighborhood centers. A neighborhood center is designed to provide convenience shopping for the day-to-day needs of consumers in the immediate neighborhood. Neighborhood centers are often anchored by a supermarket or drugstore. The anchors are supported by outparcels typically occupied by restaurants, fast food operators, financial institutions and in-line stores offering various products and services ranging from soft goods, healthcare and electronics.

[Table of Contents](#)

Community centers. A community center typically offers a wider range of apparel and other soft goods relative to a neighborhood center and in addition to supermarkets and drugstores, can include discount department stores as anchor tenants.

Freestanding retail properties. A freestanding retail property constitutes any retail building that is typically occupied by a single tenant. The lease terms are generally structured as triple-net with the tenant agreeing to pay rent as well as all taxes, insurance and maintenance expenses that arise from the use of the property.

Anchor tenant type. We will target properties with anchor tenants that offer consumer goods that are less impacted by fluctuations in consumers' disposable income. We believe nationally and regionally recognized anchor tenants that offer consumer goods provide more predictable property-level cash flows as they are typically higher credit quality tenants that generate stable revenues. We feel these properties will act as a catalyst for incremental leasing demand through increased property foot traffic. We will identify the credit quality of our anchor tenants by conducting a thorough analysis including, but not limited to, a review of tenant operating performance, liquidity and balance sheet strength.

Lease terms. In the near term, we intend to acquire properties that feature one or more of the following characteristics in their tenants' lease structure: properties with long-term leases (10 years remaining on the primary lease term) for anchor tenants; properties under triple-net leases, which are leases where the tenant agrees to pay rent as well as all taxes, insurance and maintenance expenses that arise from the use of the property; thereby minimizing our expenses; and properties with leases which incorporate gross percentage rent and/or rental escalations that act as an inflation hedge while maximizing operating cash flows. As a longer-term strategy, we will look to acquire properties with shorter-term lease structures (2-3 years) for in-line tenants, which are tenants that rent smaller spaces around the anchor tenants within a property, that have below market rents that can be renewed at higher market rates.

Geographic markets and demographics. We plan to seek investment opportunities throughout the United States; however, we will focus on the Northeast, Mid-Atlantic, Southeast and Southwest, which are characterized by attractive demographic and property fundamental trends. We will target competitively protected properties in communities that have stable demographics and have historically exhibited favorable trends, such as strong population and income growth. These communities will also have a combination of the following characteristics:

- established trade areas with high barriers to entry,
- high population base with expected annual growth rate higher than the national average,
- high retail sales per square foot compared to the national average,
- above average household income and expected growth,
- above-average household density,
- favorable infrastructure such as schools to retain and attract residents, and
- below-average unemployment rate.

Capitalize on network of relationships to pursue transactions. We plan to pursue transactions in our target markets through the relationships we have developed. Leveraging these relationships, we will target property owners that our management team has transacted with previously, many of whom, we feel, will consider us a preferred counterparty due to our track record of completing fair and timely transactions. We believe this dynamic gives us a competitive advantage in negotiating and executing favorable acquisitions.

Leverage our experienced property management platform. Our executive officers, together with the management teams of our Services Companies, have over 150 years of combined experience managing, operating and leasing retail properties. We consider our Services Companies to be in the best position to oversee the day-to-day operations of our properties, which in turn helps us service our tenants. We feel this generates higher renewal and occupancy rates, minimizes rent interruptions, reduces renewal costs and helps us achieve stronger operating results. Along with this, a major component of our leasing strategy is to cultivate long-term relationships through consistent tenant dialogue in conjunction with a proactive approach to meeting the space requirements of our tenants.

[Table of Contents](#)

Grow our platform through a comprehensive financing strategy. We believe our capital structure will provide us with sufficient financial capacity and flexibility to fund future growth. Based on our current capitalization, we believe we will have access to multiple sources of financing that are currently unavailable to many of our private market peers or overleveraged public competitors, which will provide us with a competitive advantage. Over time, these financing alternatives may include follow-on offerings of our common stock, unsecured corporate level debt, preferred equity and credit facilities. We have a ratio of debt to total market capitalization of approximately 65%. Although we are not required by our governing documents to maintain this ratio at any particular level, our Board of Directors will review our ratio of debt to total capital on a quarterly basis, with the goal of maintaining a reasonable rate consistent with our expected ratio of debt to total market capitalization going forward. This strategy will enable us to continue to grow our asset base well into the future.

Policies With Respect to Certain Activities

The following is a discussion of certain of our investment, financing and other policies. These policies have been determined by our board of directors and, in general, may be amended or revised from time to time by our board of directors without a vote of our stockholders.

Investment Policies

Investments in Real Estate or Interests in Real Estate

We will conduct all of our investment activities through our Operating Partnership and its subsidiaries. Our investment objectives are to maximize the cash flow of our properties, acquire properties with cash flow growth potential, provide monthly cash distributions and achieve long-term capital appreciation for our stockholders through increases in the value of our company. Consistent with our policy to acquire assets for both income and capital gain, our Operating Partnership intends to hold its properties for investment with a view to long-term appreciation, to engage in the business of acquiring, developing and owning its properties and to make occasional sales of the properties as are consistent with our investment objectives. We have not established a specific policy regarding the relative priority of these investment objectives.

We expect to pursue our investment objectives primarily through the ownership by our Operating Partnership of our portfolio of properties and other acquired properties and assets. We currently intend to invest primarily in retail properties. Future investment or development activities will not be limited to any geographic area, property type or to a specified percentage of our assets. While we may diversify in terms of property locations, size and market, we do not have any limit on the amount or percentage of our assets that may be invested in any one property or any one geographic area. We intend to engage in such future investment activities in a manner that is consistent with the maintenance of our status as a REIT for U.S. federal income tax purposes. In addition, we may purchase or lease income-producing properties for long-term investment, expand and improve the properties we presently own or other acquired properties, or sell such properties, in whole or in part, when circumstances warrant.

We may also participate with third parties in property ownership, through joint ventures or other types of co-ownership. We also may acquire real estate or interests in real estate in exchange for the issuance of common stock, units, preferred stock or options to purchase stock. These types of investments may permit us to own interests in larger assets without unduly restricting our diversification and, therefore, provide us with flexibility in structuring our portfolio. We will not, however, enter into a joint venture or other partnership arrangement to make an investment that would not otherwise meet our investment policies.

Equity investments in acquired properties may be subject to existing mortgage financing and other indebtedness or to new indebtedness which may be incurred in connection with acquiring or refinancing these properties. Debt service on such financing or indebtedness will have a priority over any dividends with respect to our common stock. Investments are also subject to our policy not to fall within the definition of an "investment company" under the Investment Company Act of 1940, as amended (the "1940 Act").

Investments in Real Estate Mortgages

We do not intend presently or at any time in the future to invest in real estate mortgages.

Securities of or Interests in Persons Primarily Engaged in Real Estate Activities and Other Issuers

Although not presently contemplated, subject to the percentage of ownership limitations and the income and asset tests necessary for REIT qualification, we may in the future invest in securities of other REITs, other entities engaged in real estate activities or securities of other issuers where such investment would be consistent with our investment objectives. We may invest in

[Table of Contents](#)

the debt or equity securities of such entities, including for the purpose of exercising control over such entities. We have no current plans to invest in entities that are not engaged in real estate activities. While we may attempt to diversify our investments with respect to the retail properties owned by such entities, in terms of property locations, size and market, we do not have any limit on the amount or percentage of our assets that may be invested in any one entity, property or geographic area. Our investment objectives are to maximize cash flow of our investments, acquire investments with growth potential and provide cash distributions and long-term capital appreciation to our stockholders through increases in the value of our company. We have not established a specific policy regarding the relative priority of these investment objectives. We will not underwrite the securities of any other issuers and will limit our investment in such securities so that we will not fall within the definition of an “investment company” under the 1940 Act.

Investments in Other Securities

Other than as described above, we do not currently intend to invest in any additional securities such as bonds, preferred stocks or common stock, although we reserve the right to do so if our board of directors determines that such action would be in our best interests.

Dispositions

We do not currently intend to dispose of any of our properties, although we reserve the right to do so if, based upon management’s periodic review of our portfolio, our board of directors determines that such action would be in our best interests. The tax consequences to our directors and executive officers who hold units resulting from a proposed disposition of a property may influence their decision as to the desirability of such proposed disposition.

Financings and Leverage Policy

In the future, we anticipate using a number of different sources to finance our acquisitions and operations, including cash flows from operations, asset sales, seller financing, issuance of debt securities, private financings (such as additional bank credit facilities, which may or may not be secured by our assets), property-level mortgage debt, common or preferred equity issuances or any combination of these sources, to the extent available to us, or other sources that may become available from time to time. Any debt that we incur may be recourse or non-recourse and may be secured or unsecured. We also may take advantage of joint venture or other partnering opportunities as such opportunities arise in order to acquire properties that would otherwise be unavailable to us. We may use the proceeds of our borrowings to acquire assets, to refinance existing debt or for general corporate purposes.

Although we are not required by our governing documents to maintain a ratio of debt to total market capitalization at any particular level, our Board of Directors will review our ratio of debt to total capital on a quarterly basis, with the goal of maintaining a reasonable rate consistent with our expected ratio of debt to total market capitalization going forward. Additionally, we intend, when appropriate, to employ prudent amounts of leverage and to use debt as a means of providing additional funds for the acquisition of assets, to refinance existing debt or for general corporate purposes. We expect to use leverage conservatively, assessing the appropriateness of new equity or debt capital based on market conditions, including prudent assumptions regarding future cash flow, the creditworthiness of tenants and future rental rates. Our charter and bylaws do not limit the amount of debt that we may incur. Our board of directors has not adopted a policy limiting the total amount of debt that we may incur.

Our board of directors will consider a number of factors in evaluating the amount of debt that we may incur. If we adopt a debt policy, our board of directors may from time to time modify such policy in light of then-current economic conditions, relative costs of debt and equity capital, market values of our properties, general conditions in the market for debt and equity securities, fluctuations in the market price of our common stock, growth and acquisition opportunities and other factors. Our decision to use leverage in the future to finance our assets will be at our discretion and will not be subject to the approval of our stockholders, and we are not restricted by our governing documents or otherwise in the amount of leverage that we may use.

Lending Policies

We have not made any loans to third parties, although we do not have a policy limiting our ability to make loans to other persons. We may consider offering purchase money financing in connection with the sale of properties where the provision of that financing will increase the value to be received by us for the property sold. We also may make loans to joint ventures in which we participate. However, we do not intend to engage in significant lending activities. Any loan we make will be consistent with maintaining our status as a REIT.

Equity Capital Policies

To the extent that our board of directors recommends that we obtain additional capital, we may issue debt or equity securities, including additional units or senior securities of our Operating Partnership, retain earnings (subject to provisions in the Code

[Table of Contents](#)

requiring distributions of income to maintain REIT qualification) or pursue a combination of these methods. As long as our Operating Partnership is in existence, we will generally contribute the proceeds of all equity capital raised by us to our Operating Partnership in exchange for additional interests in our Operating Partnership, which will dilute the ownership interests of the limited partners in our Operating Partnership.

Existing stockholders will have no preemptive rights to common or preferred stock or units issued in any securities offering by us, and any such offering might cause a dilution of a stockholder's investment in us. Although we have no current plans to do so, we may in the future issue shares of common stock or units in connection with acquisitions of property.

We may, under certain circumstances, purchase shares of our common stock or other securities in the open market or in private transactions with our stockholders, provided that those purchases are approved by our board of directors. Our board of directors has no present intention of causing us to repurchase any shares of our common stock or other securities, and any such action would only be taken in conformity with applicable federal and state laws and the applicable requirements for qualification as a REIT.

Change in Investment and Financing Objectives and Policies

Our investment policies and objectives and the methods of implementing our investment objectives and policies, except to the extent set forth in our charter, may be altered by our board of directors, without approval of our stockholders. If we change these policies during the offering period, we will disclose these changes in a prospectus supplement prior to the effective time of these changes. If we change these policies after the offering, we will inform our stockholders of the change within ten days after our board of directors alters our investment objectives and policies, by either a press release or notice of an "other event" on a Current Report on Form 8-K or another method deemed reasonable by our board of directors.

Conflict of Interest Policies

Overview. Conflicts of interest could arise in the future as a result of the relationships between us and our affiliates, on the one hand, and our Operating Partnership or any partner thereof, on the other. Our directors and officers have duties to our company under applicable Maryland law in connection with their management of our company. At the same time, we, as the general partner of our Operating Partnership, have fiduciary duties and obligations to our Operating Partnership and its other partners under Virginia law and the Partnership Agreement in connection with the management of our Operating Partnership. Our fiduciary duties and obligations, as the general partner of our Operating Partnership, may come into conflict with the duties of our directors and officers to our company.

Under Virginia law (where our Operating Partnership is formed), a general partner of a Virginia limited partnership has fiduciary duties of loyalty and care to the partnership and its partners and must discharge its duties and exercise its rights as general partner under the Partnership Agreement or Virginia law consistently with the obligation of good faith and fair dealing. The duty of loyalty requires a general partner of a Virginia general partnership to account to the partnership and hold as trustee for it any property, profit, or benefit derived by the general partner in the conduct of the partnership business or derived from a use by the general partner of partnership property, including the appropriation of a partnership opportunity, to refrain from dealing with the partnership in the conduct of the partnership's business as or on behalf of a party having an interest adverse to the partnership and to refrain from competing with the partnership in the conduct of the partnership business, although the Partnership Agreement may identify specific types or categories of activities that do not violate the duty of loyalty. The Partnership Agreement provides that, in the event of a conflict between the interests of our Operating Partnership or any partner, on the one hand, and the separate interests of our company or our stockholders, on the other hand, we, in our capacity as the general partner of our Operating Partnership, are under no obligation not to give priority to the separate interests of our company or our stockholders, and that any action or failure to act on our part or on the part of our directors that gives priority to the separate interests of our company or our stockholders that does not result in a violation of the contract rights of the limited partners of the Operating Partnership under its Partnership Agreement does not violate the duty of loyalty that we, in our capacity as the general partner of our Operating Partnership, owe to the Operating Partnership and its partners. The duty of care requires a general partner to refrain from engaging in grossly negligent or reckless conduct, intentional misconduct or a knowing violation of law, and this duty may not be unreasonably reduced by the Partnership Agreement.

The Partnership Agreement provides that we are not liable to our Operating Partnership or any partner for monetary damages for losses sustained, liabilities incurred or benefits not derived by our Operating Partnership or any limited partner, except for liability for our intentional harm or gross negligence. The Partnership Agreement also provides that any obligation or liability in our capacity as the general partner of our Operating Partnership that may arise at any time under the Partnership Agreement or any other instrument, transaction or undertaking contemplated by the Partnership Agreement will be satisfied, if at all, out of our assets or the assets of our Operating Partnership only, and no obligation or liability of the general partner will be personally binding upon any of our directors, stockholders, officers, employees or agents, regardless of whether such obligation or liability is in the nature of contract, tort or otherwise, and none of our directors or officers will be liable or accountable in damages or otherwise to the partnership, any partner or any assignee of a partner for losses sustained, liabilities incurred or benefits not derived as a result of errors in judgment or mistakes

[Table of Contents](#)

of fact or law or any act or omission. Our Operating Partnership must indemnify us, our directors and officers, officers of our Operating Partnership and any other person designated by us against any and all losses, claims, damages, liabilities (whether joint or several), expenses (including, without limitation, attorneys' fees and other legal fees and expenses), judgments, fines, settlements and other amounts arising from any and all claims, demands, actions, suits or proceedings, whether civil, criminal, administrative or investigative, that relate to the operations of the Operating Partnership, unless (1) an act or omission of the person was material to the matter giving rise to the action and either was committed in bad faith or was the result of active and deliberate dishonesty, (2) for any transaction for which such person actually received an improper personal benefit in violation or breach of any provision of the Partnership Agreement, or (3) in the case of a criminal proceeding, the person had reasonable cause to believe the act or omission was unlawful.

Our Operating Partnership must also pay or reimburse the reasonable expenses of any such person upon its receipt of a written affirmation of the person's good faith belief that the standard of conduct necessary for indemnification has been met and a written undertaking to repay any amounts paid or advanced if it is ultimately determined that the person did not meet the standard of conduct for indemnification. Our Operating Partnership will not indemnify or advance funds to any person with respect to any action initiated by the person seeking indemnification without our approval (except for any proceeding brought to enforce such person's right to indemnification under the Partnership Agreement) or if the person is found to be liable to our Operating Partnership on any portion of any claim in the action.

No reported decision of a Virginia appellate court has interpreted provisions similar to the provisions of the Partnership Agreement of our Operating Partnership that modify or reduce the fiduciary duties and obligations of a general partner or reduce or eliminate our liability for money damages to the Operating Partnership and its partners, and we have not obtained an opinion of counsel as to the enforceability of the provisions set forth in the Partnership Agreement that purport to modify or reduce our fiduciary duties that would be in effect were it not for the Partnership Agreement.

Sale or Refinancing of Properties. Upon the sale of certain of the properties to be owned by us, certain unit-holders could incur adverse tax consequences which are different from the tax consequences to us and to holders of our common stock. Consequently, unitholders may have differing objectives regarding the appropriate pricing and timing of any such sale or repayment of indebtedness.

While we will have the exclusive authority under the Partnership Agreement to determine whether, when, and on what terms to sell a property or when to refinance or repay indebtedness, any such decision would require the approval of our board of directors.

Policies Applicable to All Directors and Officers. Our charter and bylaws do not restrict any of our directors, officers, stockholders or affiliates from having a pecuniary interest in an investment or transaction that we have an interest in or from conducting, for their own account, business activities of the type we conduct. We intend, however, to adopt policies that are designed to eliminate or minimize potential conflicts of interest, including a policy for the review, approval or ratification of any related party transactions. This policy will provide that the audit committee of our board of directors will review the relevant facts and circumstances of each related party transaction, including if the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party before approving such transaction. We have adopted a code of business conduct and ethics, which provides that all of our directors, officers and employees are prohibited from taking for themselves opportunities that are discovered through the use of corporate property, information or position without our consent. However, we cannot assure you that these policies or provisions of law will always be successful in eliminating the influence of such conflicts, and if they are not successful, decisions could be made that might fail to reflect fully the interests of all stockholders.

Interested Director and Officer Transactions

Pursuant to the Maryland General Corporation Law ("MGCL"), a contract or other transaction between us and a director or between us and any other corporation or other entity in which any of our directors is a director or has a material financial interest is not void or voidable solely on the grounds of such common directorship or interest, the presence of such director at the meeting at which the contract or transaction is authorized, approved or ratified or the counting of the director's vote in favor thereof, provided that:

- the fact of the common directorship or interest is disclosed or known to our board of directors or a committee of our board, and our board or such committee authorizes, approves or ratifies the transaction or contract by the affirmative vote of a majority of disinterested directors, even if the disinterested directors constitute less than a quorum;
- the fact of the common directorship or interest is disclosed or known to our stockholders entitled to vote thereon, and the transaction or contract is authorized, approved or ratified by a majority of the votes cast by the stockholders entitled to vote other than the votes of shares owned of record or beneficially by the interested director or corporation, firm or other entity; or
- the transaction or contract is fair and reasonable to us at the time it is authorized, ratified or approved.

Furthermore, under Virginia law, we, as general partner, have a fiduciary duty of loyalty to our Operating Partnership and its partners and, consequently, such transactions also are subject to the duties that we, as general partner, owe to the Operating Partnership and its limited partners (as such duty has been modified by the Partnership Agreement). We have adopted a policy that requires that all contracts and transactions between us, our Operating Partnership or any of our subsidiaries, on the one hand, and any of our directors or executive officers or any entity in which such director or executive officer is a director or has a material financial interest, on the other hand, must be approved by the affirmative vote of a majority of our disinterested directors even if less than a quorum. Where appropriate, in the judgment of the disinterested directors, our board of directors may obtain a fairness opinion or engage independent counsel to represent the interests of non-affiliated security holders, although our board of directors will have no obligation to do so.

Policies With Respect To Other Activities

We will have authority to offer common stock, preferred stock or options to purchase stock in exchange for property and to repurchase or otherwise acquire our common stock or other securities in the open market or otherwise, and we may engage in such activities in the future. We expect, but are not obligated, to issue common stock to holders of common units upon exercise of their redemption rights. Our board of directors has the authority, without further stockholder approval, to amend our charter to increase or decrease the number of authorized shares of common stock or preferred stock and authorize us to issue additional shares of common stock or preferred stock, in one or more series, including senior securities, in any manner, and on the terms and for the consideration, it deems appropriate. We have not engaged in trading, underwriting or agency distribution or sale of securities of other issuers other than our Operating Partnership and do not intend to do so. At all times, we intend to make investments in such a manner as to qualify as a REIT, unless because of circumstances or changes in the Code, or the Treasury regulations, our board of directors determines that it is no longer in our best interest to qualify as a REIT. In addition, we intend to make investments in such a way that we will not be treated as an investment company under the 1940 Act.

Reporting Policies

We intend to make available to our stockholders our annual reports, including our audited consolidated financial statements. After this offering, we will become subject to the information reporting requirements of the Exchange Act. Pursuant to those requirements, we will be required to file annual and periodic reports, proxy statements and other information, including audited consolidated financial statements, with the SEC.

Property Management and Leasing Strategy

Our property management and substantially all of our leasing activities and operating and administrative functions (including leasing, legal, acquisitions, development, data processing, finance and accounting) are administered or coordinated by our Administrative Service Company. On-site functions such as maintenance, landscaping, sweeping, plumbing and electrical are subcontracted out at each location and, to the extent permitted by their respective leases, the cost of these functions is passed on to the tenants.

We believe that focused property management, leasing and customer retention are essential to maximizing the sales per square foot, operating cash flow and value of our properties. Our primary goal in property management is to maintain an attractive shopping environment on a cost effective basis for our tenants.

The majority of our property management and leasing functions are supervised and administered by our Administrative Service Company. Our Administrative Service Company maintains regular contact with our tenants and frequently visits each asset to ensure the proper implementation and execution of our market strategies. As part of our ongoing property management, our Administrative Service Company conducts regular physical property reviews to improve our properties, react to changing market conditions and ensure proper maintenance.

Our leasing representatives have become experienced in the markets in which we operate by becoming familiar with current tenants as well as potential local, regional and national tenants that would complement our current tenant base. We study demographics, customer sales and merchandising mix to optimize the sales performance of our centers and thereby increase rents. We believe this hands-on approach maximizes the value of our shopping centers.

Item 3. Legal Proceedings

We are subject to various legal proceedings and claims that arise in the ordinary course of business. These matters are generally covered by insurance. While the resolution of these matters cannot be predicted with certainty, management believes the final outcome of such matters will not have a material adverse effect on our financial position, results of operation or liquidity.

On July 10, 2008, one of our subsidiaries, Perimeter Associates, LLC (“Perimeter”), sued a tenant for breach of contract, guaranty of the contract and fraud related to an executed lease. In response, on August 22, 2008, the defendant filed a counterclaim against Perimeter for breach of contract, unjust enrichment and fraud. On April 8, 2013, the court found in favor of the defendant and assessed damages against Perimeter in the amount of \$13,300. On or about May 8, 2013, Perimeter appealed the judgment of the lower court to the Oklahoma Supreme Court. Subsequent to the initial judgment, the defendant’s attorney applied to the court to be reimbursed for approximately \$368,000 in legal fees incurred by the defendant during litigation. On July 9, 2013, the lower court awarded the defendant approximately \$267,000 of the defendant’s legal fees. Perimeter expects to amend its appeal with the Oklahoma Supreme Court to include the issue of the award of legal fees. We have posted bonds for both judgments and have accrued for the judgments in our financial statements. We will continue to vigorously litigate the issues raised upon appeal.

On May 22, 2013, WHLR-HPA-1, LLC, (“Harp’s”), a subsidiary of our Operating Partnership that owns our Harps and Harbor Point property, (“Harp’s Food Store”), filed suit against Crossland Heavy Contractors (“Crossland”) for equitable relief to divide a mechanic and materialmen’s lien (“Lien”) of approximately \$856,000 filed on three properties which includes the Harp’s Food Store property and two adjacent properties owned by our affiliates. Crossland subsequently filed a counterclaim adding us, among others, as a defendant to the case. The Lien relates to cost overruns incurred by Crossland during the construction and development process that occurred prior to us acquiring the Harp’s Food Store property. On October 22, 2013, the parties reached a settlement whereby it was agreed that the Lien would be paid in full by November 22, 2013, which was subsequently extended. Since the Lien related to construction and development costs incurred prior to us acquiring the property, the affiliated parties that developed the property intended to fully satisfy the Lien, resulting in no liability to us. However, since there was no evidence as of September 30, 2013 that the affiliated parties had finalized their funding sources to satisfy the Lien, management concluded that the appropriate treatment was to accrue the \$856,000 in the financial statements. On January 31, 2014, Crossland removed the lien as our affiliates fulfilled their obligation to pay the Lien. Accordingly, the accrual has been reversed as of December 31, 2013 since the Lien was satisfied without liability to us and the consolidated and combined financial statements had not been issued when the Lien was released.

Dividend Policy

We pay cash dividends to holders of our common stock on a monthly basis. We paid a pro rata dividend with respect to the period commencing on the completion of our initial public offering and ending December 31, 2012 based on an annualized amount of \$0.42 per share. We intend to make dividend distributions that will enable us to meet the distribution requirements applicable to REITs and to eliminate or minimize our obligation to pay income and excise taxes. We may in the future also choose to pay dividends in shares of our common stock. While we intend to maintain the annual \$0.42 per share dividend for the foreseeable future, our current cash flow does not support this amount. Accordingly, we may be forced to reduce the annual dividend if the cash flow deficit continues for an extended period of time. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations-Future Liquidity Needs.”

Financing Activities

The Riversedge North loan matured on April 16, 2013, and was subsequently extended to January 16, 2014. On January 16, 2014, we renewed the loan until January 16, 2019. The loan requires monthly principal and interest payments based on a 15 year amortization with a fixed interest rate of 6.00%.

On March 11, 2013, we entered into a promissory note for \$4.0 million to refinance the Shoppes at Eagle Harbor loan that matured in February 2013. The new loan matures on March 11, 2018 and requires monthly principal and interest payments based on a 20 year amortization and a 4.34% interest rate.

On April 19, 2013, we entered in a promissory note for \$6.5 million to refinance the Shoppes at TJ Maxx loan that matured on that date. The new loan matures on May 1, 2020 and requires monthly principal and interest payments based on a 25 year amortization and a 3.88% fixed interest rate.

On June 3, 2013, we entered into a Promissory Note (the "Note") with Monarch Bank for a \$2.0 million line of credit. The Note matures on May 12, 2014, provides for an interest rate of 4.5% per annum and is guaranteed by a Deed of Trust and Assignment of Rents on real property.

Certain debt agreements into which we have entered have covenants with which we must comply. As of December 31, 2013, we believe we are in compliance with the applicable covenants.

On December 16, 2013, we completed a \$10.0 million private placement transaction with eight accredited investors (the "Buyers"). Pursuant to the securities purchase agreement, dated as of December 16, 2013 (the "December 2013 Securities Purchase Agreement"), we sold convertible and nonconvertible 9% senior notes and warrants to purchase shares of our common stock totaling \$10.0 million dollars. We completed the financings in two concurrent tranches. The first tranche consisted of \$6.0 million in convertible senior notes due December 15, 2018. During the first two years, the convertible notes will only be available for conversion upon the completion of a secondary offering of common stock in excess of \$20 million at a conversion rate of the lesser of 95% of the secondary offering's per share price or \$5.50. After two years, holders of the convertible notes can convert at their discretion at a conversion rate of the lesser of 90% of the market price of our common stock or \$5.50. The maximum number of shares of stock issuable upon conversion of the convertible notes is 1,417,079 shares.

The second tranche consisted of \$4.0 million in nonconvertible senior notes due December 15, 2015. In addition to the non-convertible notes, we issued 421,053 warrants with an exercise price of \$4.75. The warrants are not exercisable unless we obtain shareholder approval for the transaction and the issuance of the common stock underlying the warrants.

In connection with the private placement transaction, we and the Buyers entered into a Registration Rights Agreement, dated as of December 16, 2013 (the "December 2013 Registration Rights Agreement"). Pursuant to the December 2013 Registration Rights Agreement, we agreed to file and maintain a registration statement with the Securities and Exchange Commission for the resale of the shares of common stock underlying the convertible notes and the warrants. Interest on the convertible and nonconvertible senior notes of 9% per annum will be payable monthly.

Pursuant to a First Amendment to the December 2013 Securities Purchase Agreement, dated as of January 31, 2014 (the “First Amendment”), we and the Initial Investors amended the December 2013 Securities Purchase Agreement solely to increase the maximum size of the offering to an aggregate of \$12.16 million. In accordance with the terms of the December 2013 Securities Purchase Agreement, as amended by the First Amendment, as of January 31, 2014, we completed a second closing (the “Second Closing”) consisting of the private placement of \$2.160 million of non-convertible notes and warrants to purchase shares of our common stock with fourteen accredited investors (the “Secondary Investors”). The non-convertible senior notes have an interest rate of 9.0% (which will be paid monthly) and mature on January 31, 2016. The warrants issued permit the Secondary Investors to purchase an aggregate 227,372 shares of our common stock, have an exercise price of \$4.75 per share, expire on January 31, 2019 and are not exercisable unless we obtain shareholder approval for this transaction and the issuance of the common stock underlying the warrants.

New Leases, Leasing Renewals and Expirations

New leases during the year ended December 31, 2013 were comprised of nine deals totaling 18,932 square feet with a weighted average rate of \$7.63 per square foot. The commission rate per square foot equated to \$3.48. One new lease included tenant improvement concessions of \$8.50 per square foot and another new lease included tenant improvement concessions of \$8.00 per square foot.

Renewals during the year ended December 31, 2013 were comprised of nineteen deals totaling 152,774 square feet with a weighted average increase of \$0.06 per square foot. One renewal included tenant improvement concessions of \$8.57 per square foot, and the commission rate per square foot equated to \$1.19. The rates on negotiated renewals resulted in a weighted average increase of \$0.79 per square foot on five renewals and a \$1.29 per square foot decrease on one renewal. Thirteen of these renewals represented options being exercised.

We entered into a relocation and expansion agreement with one tenant that resulted in a \$1.76 decrease in their per square foot rent, but will result in annual rental income at the center increasing approximately \$17,000 due to increased square footage leased. This expansion included a \$0.54 per square foot tenant improvement concession and a \$4.18 per square foot commission rate. We also had two lease assignments for a 3,696 square foot space with all lease terms remaining the same. There were no leases that expired during the period that were not renewed by the tenant.

Approximately 4.56% of our gross leasable area is subject to leases that expire during the twelve months ending December 31, 2014 that have not already been renewed. Based on recent market trends, we believe that these leases will be renewed at amounts and terms comparable to existing lease agreements.

Funds from Operations

We use Funds From Operations (“FFO”) as an alternative measure of our operating performance, specifically as it relates to results of operations and liquidity. We compute FFO in accordance with standards established by the Board of Governors of the National Association of Real Estate Investment Trusts (“NAREIT”) in its March 1995 White Paper (as amended in November 1999 and April 2002). As defined by NAREIT, FFO represents net income (computed in accordance with accounting principles generally accepted in the United States, or “GAAP”), excluding gains (or losses) from sales of property, plus real estate related depreciation and amortization (excluding amortization of loan origination costs) and after adjustments for unconsolidated partnerships and joint ventures. Most industry analysts and equity REITs, including us, consider FFO to be an appropriate supplemental measure of operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company’s real estate between periods, or as compared to different companies. Management uses FFO as a supplemental measure to conduct and evaluate our business because there are certain limitations associated with using GAAP net income alone as the primary measure of our operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, while historically real estate values have risen or fallen with market conditions. Accordingly, we believe FFO provides a valuable alternative measurement tool to GAAP when presenting our operating results.

Critical Accounting Policies

The following discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements included in this Form 10-K, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

[Table of Contents](#)

The critical accounting policies summarized in this section are discussed in further detail in the notes to the financial statements appearing elsewhere in this Form 10-K. Management believes that the application of these policies on a consistent basis enables us to provide useful and reliable financial information about our operating results and financial condition.

Revenue Recognition

Principal components of our total revenues include base and percentage rents and tenant reimbursements. We accrue minimum (base) rent on a straight-line basis over the terms of the respective leases which results in an unbilled rent asset or deferred rent liability being recorded on the balance sheet. Certain lease agreements contain provisions that grant additional rents based on tenants' sales volumes (contingent or percentage rent) which we recognize when the tenants achieve the specified targets as defined in their lease agreements. We periodically review the valuation of the asset/liability resulting from the straight-line accounting treatment of our leases in light of any changes in lease terms, financial condition or other factors concerning our tenants.

Receivables

We record a tenant receivable for amounts due from tenants such as base rents, tenant reimbursements and other charges allowed under the lease terms. We periodically review tenant receivables for collectability and determine the need for an allowance for the uncollectible portion of accrued rents and other accounts receivable based upon customer creditworthiness (including expected recovery of a claim with respect to any tenants in bankruptcy), historical bad debt levels and current economic trends. We consider a receivable past due once it becomes delinquent per the terms of the lease; our standard lease form considers a rent charge past due after five days. A past due receivable triggers certain events such as notices, fees and other allowable and required actions per the lease.

Acquired Properties and Lease Intangibles

We allocate the purchase price of the acquired properties to land, building and improvements, identifiable intangible assets and to the acquired liabilities based on their respective fair values. Identifiable intangibles include amounts allocated to acquired out-of-market leases and the value of in-place leases. We determine fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends and specific market and economic conditions that may affect the property. Management also estimates costs to execute similar leases including leasing commissions, tenant improvements, legal and other related expenses. Such amounts are based on estimates and forecasts which, by their nature, are highly subjective and may result in future changes in the event forecasts are not realized.

Impairment of Long-Lived Assets

We periodically review investment properties for impairment on a property-by-property basis whenever events or changes in circumstances indicate that the carrying value of investment properties may not be recoverable, with an evaluation performed at least annually. These circumstances include, but are not limited to, declines in the property's cash flows, occupancy and fair market value. We measure any impairment of investment property when the estimated undiscounted operating income before depreciation and amortization, plus its residual value, is less than the carrying value of the property. To the extent impairment has occurred, we charge to income the excess of carrying value of the property over its estimated fair value. We estimate fair value using unobservable data such as operating income, estimated capitalization rates or multiples, leasing prospects and local market information. We may decide to sell properties that are held for use and the sale prices of these properties may differ from their carrying values. We did not record any impairment charges during the years ended December 31, 2013 and 2012.

Liquidity and Capital Resources

At December 31, 2013, our consolidated cash and cash equivalents totaled \$1.16 million compared to consolidated cash and cash equivalents of \$2.05 million at December 31, 2012. Cash flows from operating activities, investing activities and financing activities for the years ended December 31, 2013 and 2012 are as follows:

	Years Ended December 31,		Period Over Period Change	
	2013	2012	\$	%
Operating activities	\$ (2,451,570)	\$ (289,884)	\$ (2,161,686)	(745.71%)
Investing activities	\$(22,582,154)	\$ (8,802,055)	\$(13,780,099)	(156.56%)
Financing activities	\$ 24,135,615	\$11,041,124	\$ 13,094,491	118.60%

Operating Activities

During the year ended December 31, 2013, our cash flows used in operating activities were \$2,451,570, compared to cash flows used in operating activities of \$289,884 during the year ended December 31, 2012. Operating cash flows were primarily impacted by the \$3,169,569 increase in our consolidated net loss due to the factors discussed in the Results of Operations section below, specifically the \$3,990,015 increase in total corporate general and administrative expenses associated with operating the REIT and acquiring and operating twelve additional properties in 2013. Due to these factors, our FFO decreased \$524,764 for the year ended December 31, 2013, compared to the same period in 2012. FFO is a non-GAAP measurement. (See Funds from Operations reconciliation to net income below).

Investing Activities

During the year ended December 31, 2013, our cash flows used in investing activities were \$22,582,154, compared to cash flows used in investing activities of \$8,802,055 during the year ended December 31, 2012. The increase primarily related to approximately \$21,875,000 for the acquisitions of Bixby Commons, Forrest Gallery, Tampa Festival, Jenks Reasors, Starbucks/Verizon, Winslow Plaza, Jenks Plaza and the SC Food Lions, which were completed in 2013.

Financing Activities

During the year ended December 31, 2013, our cash flows from financing activities were \$24,135,615, compared to \$11,041,124 of cash flows from financing activities during the year ended December 31, 2012. During the year ended December 31, 2013, we received \$3,943,936 of proceeds from the sale of preferred stock used to finance the Bixby Commons acquisition, and \$11,862,198 from the completion of our secondary common stock offering on August 26, 2013. In December 2013, we also received \$10.0 million in proceeds from the issuance of the senior convertible and non-convertible notes. These proceeds were partially offset by dividends and distributions, which increased to \$2,886,574 in the year ended December 31, 2013 period from \$126,084 during the year ended December 31, 2012 period as a result of the \$0.035 monthly dividend currently being paid to our investors, and \$100,716 paid to the preferred shareholders.

Mortgage indebtedness activity during the year ended December 31, 2013 included the refinancing of a \$10.3 million in loans that matured during the period, the \$10.0 million in senior notes and \$51.2 million in loans in conjunction with the acquisitions of Bixby Commons, Forrest Gallery, Tampa Festival, Jenks Reasors, Starbucks/Verizon, Winslow Plaza, and the SC Food Lions. Excluding the net impact of the refinancing transactions, principal payments on mortgage indebtedness was approximately \$814,000 during the year ended December 31, 2013.

We intend to continue managing our debt prudently so as to maintain a conservative capital structure and minimize leverage within our company. As of December 31, 2013 and December 31, 2012, our debt balances consisted of the following:

	December 31,	
	2013	2012
Fixed-rate notes	<u>\$94,562,503</u>	<u>\$31,843,503</u>

The increase in total mortgage indebtedness at December 31, 2013 is primarily due to \$51.2 million in debt from acquisitions made during 2013, and also from the \$10 million in senior convertible and non-convertible notes issued in December 2013. The weighted average interest rate and term of our fixed-rate debt are 5.31% and 5.61 years, respectively, at December 31,

[Table of Contents](#)

2013. We have \$6.40 million of debt maturing during the year ending December 31, 2014, comprised primarily of a \$3.50 million fixed-rate loan for Walnut Hill Plaza, which matures in April 2014. While we anticipate being able to refinance all the loans at reasonable market terms upon maturity, our inability to do so may materially impact our financial position and results of operations. See the financial statements included elsewhere in this Form 10-K for additional mortgage indebtedness details.

Future Liquidity Needs

The \$6.4 million in debt maturities, ongoing debt service and the \$0.42 per share targeted dividend we intend to pay for the next 12 months represent the most significant factors outside of normal operating activities impacting cash flow over the next year. Our success in refinancing the debt and executing on the acquisition strategy discussed below will dictate our liquidity needs going forward. If we are unable to execute in these areas, our ability to grow and pay future dividends may be limited without additional capital. Additionally, distributions paid in excess of earnings and profits may represent a return of capital for U.S. federal income tax purposes.

We believe significant opportunities exist in the current commercial real estate environment that will enable us to sufficiently leverage the funds received in the offering to fund planned distributions. Several factors are contributing to an increased supply in available properties for acquisition, including a significant level of maturities of commercial mortgage backed securities ("CMBS") debt, strategic shifts by larger REITs to reduce debt levels and exit certain markets, and the negative impact on the real estate industry as a result of the economic downturn experienced over the past four years. We believe the public REIT model provides a unique growth vehicle whereby we can either acquire properties through traditional third party acquisitions using a combination of cash generated in the capital markets and debt financing; contributions of properties by third parties in exchange for common units issued by the Operating Partnership; and contributions of existing properties owned and managed by Mr. Wheeler and his affiliates in exchange for common units issued by the Operating Partnership. Additionally, access to public market capital enhances our ability to formulate acquisition structures and terms that better meet our growth strategies.

We envision acquiring properties during the next twelve months, consisting primarily of a blend of traditional acquisitions using equity capital and external financing, and property contributions in exchange for common units and debt assumption. Based on our knowledge of the property acquisition markets, there appears to be an ample inventory of properties available to enable us to meet our acquisition goals over the next twelve months, especially as it relates to those in the secondary and tertiary markets where we have historically excelled. Current cap rates in these markets have typically ranged from 8% to 10% and beyond. We believe that acquisitions at these price ranges, assuming a reasonable blend of traditional acquisition strategies and property contributions in exchange for common units and external debt financing, will produce excess cash flow sufficient to fund current and future dividends to our stockholders and common unit holders. We intend to aggressively pursue acquisitions that fit these parameters and that will generate sufficient cash flow to support our operating model. Since 1999, Jon S. Wheeler and his affiliates have acquired in excess of 60 properties. We believe our experience and success in acquiring and managing these properties will enable us to execute on our strategies.

In addition to liquidity required to fund debt payments, distributions and acquisitions, we may incur some level of capital expenditures during the year for the existing twenty-three properties that cannot be passed on to our tenants. The majority of these expenditures occur subsequent to acquiring a new property that requires significant improvements to maximize occupancy and lease rates, with an existing property that needs a facelift to improve its marketability or when tenant improvements are required to make a space fit a particular tenant's needs.

Property Revenues

Total same store property revenues for the year ended December 31, 2013 were \$1,988,710, compared to \$2,008,460 for the year ended December 31, 2012, representing a decrease of \$19,750, or 0.98%. Same store revenues fluctuated primarily due to the amount and timing of prior year tenant reimbursement reconciliation adjustments, contractual rent adjustments, and a nominal reduction in occupancy due to a 1,286 square foot vacancy arising at one of our centers. Four of the five centers representing same stores are 100% leased and the fifth center is 94.48% leased, resulting in nominal fluctuations in revenues at these centers.

The year ended December 31, 2013 represents a full year of operations reported for the properties acquired as part of the our November 2012 formation and those acquired during December 2012, and a partial year of operations for the twelve acquisitions made in 2013. The 2013 acquisitions contributed \$6.7 million in revenues for the year ended December 31, 2013. Going forward we believe these properties will generate a significant amount of revenue for our company and we will benefit from future contractual rent increases.

Property Expenses

Total same store operating expenses for the year ended December 31, 2013 were \$419,101, compared to \$425,660 for the year ended December 31, 2012, respectively. The decrease was primarily due to decreases in repairs and maintenance and utility expenses which typically fluctuate from period to period depending on timing and weather. Three of the five same store centers are free-standing buildings, with the other two consisting of a center built in 2009 and a center that was significantly renovated during 2008. Accordingly, those centers require minimal maintenance. Additionally, two of the free-standing buildings have triple-net leases in which the tenant is responsible for the majority of all operating costs to the properties.

Other Operating Expenses

Same store other operating expenses for the year ended December 31, 2013 were \$3,091,749, representing an increase of \$1,171,017 over the year ended December 31, 2012. The increase is primarily associated with increases in professional fees and other expenses as a result of being a publicly traded company, property acquisitions and legal matters. The expenses related to being a publicly traded company primarily consisted of costs associated with legal, audit, tax, Board of Directors fees, directors' and officers' insurance, investor relations, REIT management fees and consulting fees.

Total acquisition expenses for same and new stores were approximately \$2,856,000, which included \$2,102,000 in acquisition fees, and approximately \$754,000 for legal, accounting and other professional costs associated with these acquisitions contemplated in our stock offerings. Additionally, we accrued approximately \$267,000 in legal costs for the Perimeter case (discussed in Part II, Item 1, Legal Proceedings).

Same store depreciation and amortization expense for the year ended December 31, 2013 decreased \$164,240, or 25.14%, resulting from more assets becoming fully depreciated and amortized.

Interest Expense

Same store interest expense declined \$71,468 or 8.88% for the year ended December 31, 2013, compared to \$805,068 for the year ended December 31, 2012. The decrease primarily resulted from the payoff of a \$320,000 loan during November 2012, a principal curtailment of approximately of \$511,000 during December 2012 on an existing loan, refinancing one note at a lower interest rate and the impact of declining balances on outstanding debt. The refinanced note consisted of a \$3.9 million loan refinanced at an interest rate of 4.34%, compared to the previous rate of 6.20%.

Below is a comparison of same store FFO, which is a non-GAAP measurement, for the years ended December 31, 2013 and 2012:

During the year ended December 31, 2013, same store FFO decreased \$1,276,980 as compared to the year ended December 31, 2012, primarily due to an increase of \$1,331,731 in same store corporate general and administrative expenses for the year ended December 31, 2013. The increase in corporate general and administrative expenses is discussed in the "Other Operating Expenses" section above. Excluding the impact of acquisition and legal related costs, total FFO for the years ended December 31, 2013 would have been approximately \$2,214,731 and \$183,495, respectively, as shown in the table below:

Property Revenues

Total same store property revenues for the 2012 period increased \$83,183, or 4.32%, to \$2.01 million, compared to \$1.93 million for the 2011 period. Improvements in base rents, primarily at The Shoppes at Eagle Harbor and Walnut Hill Plaza, accounted for the majority of the increase, while higher tenant reimbursements also contributed to the increase. Excluding the impact of approximately \$97,000 of non-recurring income items included in other income for the 2011 period, total revenues would have increased approximately 9.86%.

Rent revenues at The Shoppes at Eagle Harbor increased approximately \$72,000, consisting of \$36,000 in base rent increases and \$36,000 related to straight-line rent amortization. The base rent increase was primarily due to the property being 100% leased for the entire 2012 period compared to being 100% leased for only six months during the 2011 period. Additionally, we benefited from a significant rent increase related to the expansion and subsequent stabilization of a large tenant at the property. Rent revenues at Walnut Hill Plaza increased approximately \$68,000 for the 2012 period as compared to the 2011 period, consisting of \$74,000 of base rent increases and a \$6,000 negative impact due to straight-line rent amortization. The base rent increases were primarily due to contractual rent adjustments.

Same store tenant reimbursements increased \$58,000, or 17.26%, during the 2012 period as compared to the 2011 period, primarily due to an increase of approximately \$21,000 in the prior year Common Area Maintenance (“CAM”), tax and insurance reconciliation adjustments and an increase of approximately \$43,000 in regular monthly reimbursement charges for the 2012 period versus the 2011 period.

The fourth quarter 2012 acquisitions (the new stores) contributed \$425,519 of property revenues during the 2012 period which contributed to our total revenues increasing \$508,702 to \$2.43 million as compared to \$1.93 million during the 2011 period. We estimate that property revenues for these new stores would have been approximately \$4.0 million, excluding below market lease intangible amortization, during the year ending December 31, 2012 if the properties had been part of our portfolio for all of 2012.

Property Expenses

Total same store operating expenses for the 2012 period declined \$94,656, or 18.19%, to \$425,660, compared to \$520,316 for the 2011 period. The 2011 period included approximately \$65,000 of accounting, auditing and other professional fees related to preparing the properties for the REIT formation process. During the 2012 period and in future periods, the majority of these types of costs will be classified as corporate general and administrative expenses as they will primarily relate corporate overhead. Other factors effecting property expenses included an \$11,200 reduction in landscaping expenses, primarily at The Shoppes at Eagle Harbor and Walnut Hill Plaza, a \$15,500 decrease in utility expenses, a \$3,000 reduction in real estate taxes and a \$4,000 reduction in repairs and maintenance expenses.

The Shoppes at Eagle Harbor was constructed during 2009 and Walnut Hill Plaza was significantly renovated in 2009, both processes resulting in a significant amount of landscaping being required. The decline in utilities expense occurred because the Riversedge property tenant began paying their utilities directly during 2012 as opposed to handling them through the CAM reimbursement process. Additionally, the 2011 utilities expense for The Shoppes at Eagle Harbor included prior period amounts due to a billing error by the utility company. The increases in real estate taxes and repairs and maintenance resulted from normal tax adjustments and fluctuations occurring during the year.

[Table of Contents](#)

The new stores acquired incurred \$93,560 of property expenses during the 2012 period which offset most of the decline in same store property expenses realized, resulting in our total property expenses remaining relatively flat at \$519,220 as compared to \$520,316 during the 2011 period. We estimate that property expenses for these new stores would have been approximately \$900,000 during the year ending December 31, 2012 if the properties had been part of our portfolio for all of 2012.

Other Operating Expenses

Total same store other operating expenses increased \$767,141 to \$1.92 million during the 2012 period, primarily resulting from an \$878,857 increase in corporate general and administrative expenses. The additional corporate general and administrative expenses were primarily associated with our REIT formation process that concluded in November 2012 and fees associated with the December property acquisitions. The REIT expenses consisted of professional fees, additional personnel and other required internal and external resources required to complete the formation of the REIT. Corporate general and administrative expenses will continue to be at a similar level as a result of operating a publicly traded company.

Same store depreciation and amortization expense for the 2012 period decreased \$91,715, or 12.31%, resulting from more assets becoming fully depreciated and amortized. The same store provision for loan loss decreased \$20,000 during the 2012 period. The 2011 period amount related to a specific receivable and all same store amounts outstanding are deemed collectible.

The new stores acquired incurred \$233,571 of other operating expenses during the 2012 period which contributed to our total other operating expenses increasing \$1.0 million to \$2.15 million as compared to \$1.15 million during the 2011 period. We estimate that other operating expenses for these new stores would have been approximately \$2.4 million during the year ending December 31, 2012, primarily consisting of approximately \$2.1 million of depreciation and amortization, if the properties had been part of our portfolio for all of 2012.

Same store interest expense remained flat at \$805,068 during the 2012 period. Additional interest expense on the Amscot loan resulting from the property being refinanced during 2011 offset the impact of declining balances on outstanding debt. We estimate that interest expense for these new stores would have been approximately \$1.19 million during the year ending December 31, 2012 if the properties had been part of our portfolio for all of 2012.

Funds from Operations

Below is a comparison of same store FFO, which is a non-GAAP measurement, for the year ended December 31, 2012 and 2011:

	Years Ended December 31,						Period Over Period	
	Same Stores		New Stores		Total		Changes	
	2012	2011	2012	2011	2012	2011	\$	%
Net income (loss)	\$(1,143,000)	\$(554,599)	\$(62,657)	\$—	\$(1,205,657)	\$(554,599)	\$(651,058)	(117.39%)
Depreciation of real estate assets	653,215	744,931	168,937	—	822,152	744,931	77,221	10.37%
Total FFO	<u>\$ (489,785)</u>	<u>\$ 190,332</u>	<u>\$ 106,280</u>	<u>\$—</u>	<u>\$ (383,505)</u>	<u>\$ 190,332</u>	<u>\$(573,837)</u>	<u>(301.49%)</u>

During the 2012 period, FFO decreased \$573,837 as compared to the 2011 period. The primary factors impacting FFO included the \$878,857 increase in same store corporate general and administrative expenses which was partially offset by the \$177,839 increase in same store property net operating income and the \$106,280 of FFO contributed by the properties acquired during the fourth quarter of 2012. We estimate that these new stores would have generated approximately \$1.6 million in total FFO during the year ending December 31, 2012 if the properties had been part of our portfolio for all of 2012.

Off-Balance Sheet Arrangements

As of December 31, 2013, we were not involved in any significant off-balance sheet arrangements that are likely to have a material effect on our financial condition, revenues or expenses, results of operations, liquidity, capital resources or capital expenditures.

New Accounting Pronouncements

In July 2012, the FASB issued Accounting Standards Update, or ASU, 2012-02 "Impairment Goodwill and Other (Topic 350)." This amendment would give us the option to first assess qualitative factors to determine whether the existence of an event or circumstance indicates that it is more likely than not that intangible assets are impaired before having to determine the fair value using the current quantitative approach. This ASU is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after September 15, 2012, early adoption permitted. We adopted this ASU during the year ended December 31, 2012. We evaluate intangibles for impairment annually unless factors arise that would create the need to perform an evaluation during interim periods. For the year ended December 31, 2013, there were no factors that indicated any impairment.

Item 8. Financial Statements and Supplementary Data

Item 9A. Controls and Procedures.

Disclosure Controls and Procedures

Our management, under the supervision and with the participation of our principal executive and financial officer, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such information is accumulated and communicated to our company's management, as appropriate, to allow timely decisions regarding required disclosure. Based on such evaluation, our principal executive and financial officer have concluded that such disclosure controls and procedures were effective as of December 31, 2013 (the end of the period covered by this Annual Report).

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting, as defined in rules promulgated under the Exchange Act, is a process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer and effected by our Board of Directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. Internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that our receipts and expenditures are being made only in accordance with authorizations of our management and our Board of Directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Our internal control over financial reporting is evaluated on a regular basis by personnel in our organization. The overall goals of these various evaluation activities are to monitor our internal control over financial reporting and to make modifications as necessary, as disclosure and internal controls are intended to be dynamic systems that change (including improvements and corrections) as conditions warrant. Part of this evaluation is to determine whether there were any significant deficiencies or material weaknesses in our internal control over financial reporting, or whether we had identified any acts of fraud involving personnel who have a significant role in our internal control over financial reporting. Significant deficiencies are control issues that could have a significant adverse effect on the ability to record, process, summarize and report financial data in the financial statements. Material weaknesses are particularly serious conditions where the internal control over financial reporting does not reduce to a relatively low level the risk that misstatements caused by error or fraud may occur in amounts that would be material in relation to the financial statements and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Management conducted an assessment of the effectiveness of our company's internal control over financial reporting as of December 31, 2013, utilizing the framework established in "INTERNAL CONTROL-INTEGRATED FRAMEWORK" issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management has determined that our internal controls over financial reporting as of December 31, 2013 were effective.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control Over Financial Reporting

During our evaluation of the effectiveness of our disclosure controls and procedures for the September 30, 2013 quarter, we identified a material weakness in our internal control system related to the Trust's accounting for and reporting of potential contingent liabilities that arise from matters involving our affiliated entities. Specifically, the Trust was attached to a lien that resulted from activities of affiliated entities involving an asset that was subsequently acquired by the Trust. While this contingent liability was properly accounted for and disclosed in the September 30, 2013 Form 10-Q, the occurrence of this liability was not reported in a timely manner as specified in SEC rules

and forms. Management has remediated the weakness and instituted procedures during the fourth quarter of 2013 whereby all potential contingent liabilities of both the Trust and affiliated entities are reviewed weekly to ensure the proper accounting and reporting of these matters as they arise.

There were no changes in our internal control over financial reporting for the year ended December 31, 2013 that materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

Corporate Governance Profile

Our board consists of eight directors, five of whom are independent as determined in accordance with the listing standards established by the Nasdaq Capital Market, and our board makes an affirmative determination as to the independence of each of our directors on an annual basis. We have adopted a code of business ethics and corporate governance principles.

Role of the Board in Risk Oversight

One of the key functions of our board of directors is informed oversight of our risk management process. Our board of directors administers this oversight function directly, with support from its three standing committees, the audit committee, the nominating and corporate governance committee and the compensation committee, each of which addresses risks specific to their respective areas of oversight. In particular, our audit committee has the responsibility to consider and discuss our major financial risk exposures and the steps our management has taken to monitor and control these exposures, including guidelines and policies to govern the process by which risk assessment and management is undertaken. The audit committee also monitors compliance with legal and regulatory requirements, in addition to oversight of the performance of our internal audit function. Our nominating and corporate governance committee monitors the effectiveness of our corporate governance guidelines, including whether they are successful in preventing illegal or improper liability-creating conduct. Our compensation committee assesses and monitors whether any of our compensation policies and programs has the potential to encourage excessive risk-taking.

Board Committees

Our board of directors has established three standing committees: an audit committee, a compensation committee and a nominating and corporate governance committee. The principal functions of each committee are briefly described below. Each of these committees is comprised exclusively of independent directors. Additionally, our board of directors may from time to time establish certain other committees to facilitate the management of our company.

Audit Committee

Our audit committee consists of three of our independent directors: Carl B. McGowan, Jr., William W. King and Sanjay Madhu. Dr. McGowan, the chairman of our audit committee, qualifies as an “audit committee financial expert” as that term is defined by the applicable SEC regulations and Nasdaq Capital Market corporate governance requirements. In addition, each of the audit committee members is “financially sophisticated” as that term is defined by the Nasdaq Capital Market corporate governance requirements. The audit committee has adopted a charter which details the principal functions of the audit committee, including oversight related to:

- our accounting and financial reporting processes;
- the integrity of our consolidated financial statements and financial reporting process;
- our systems of disclosure controls and procedures and internal control over financial reporting;
- our compliance with financial, legal and regulatory requirements;
- the evaluation of the qualifications, independence and performance of our independent registered public accounting firm;
- the performance of our internal audit function; and
- our overall risk profile.

The audit committee is also responsible for engaging an independent registered public accounting firm, reviewing with the independent registered public accounting firm the plans and results of the audit engagement, approving professional services provided by the independent registered public accounting firm, including all audit and non-audit services, reviewing the independence of the independent registered public accounting firm, considering the range of audit and non-audit fees and reviewing the adequacy of our internal accounting controls. The audit committee also prepares the audit committee report required by SEC regulations to be included in our annual proxy statement. The Audit Committee met four times in 2013.

Nominating and Corporate Governance Committee

Our nominating and corporate governance committee consists of three of our independent directors: Sanjay Madhu, William W. King and Christopher J. Ettl. The Nominating and Corporate Governance Committee has adopted a committee charter which details the principal functions of the nominating and corporate governance committee, including:

- identifying and recommending to the full board of directors qualified candidates for election as directors and recommending nominees for election as directors at the annual meeting of stockholders;
- developing and recommending to the board of directors corporate governance guidelines and implementing and monitoring such guidelines;
- reviewing and making recommendations on matters involving the general operation of the board of directors, including board size and composition, and committee composition and structure;
- recommending to the board of directors nominees for each committee of the board of directors;
- annually facilitating the assessment of the board of directors' performance as a whole and of the individual directors, as required by applicable law, regulations and the Nasdaq Capital Market corporate governance requirements; and

In identifying and recommending nominees for directors, the nominating and corporate governance committee may consider diversity of relevant experience, expertise and background. Mr. Madhu has been designated as chair of this committee. The Nominating and Corporate Governance Committee met four times in 2013.

Section 16(a) Beneficial Ownership Reporting Compliance

Based solely on a review of Forms 3 and 4 and any amendments thereto furnished us pursuant to Rule 16a-3(e) under the Securities Exchange Act of 1934, or representations that no Forms 5 were required, we believe that with respect to fiscal 2013 and 2012 our officers, directors, and beneficial owners of more than 10% of our equity timely complied with all applicable Section 16(a) filing requirements.

Code of Business Conduct and Ethics

Our board of directors has established a code of business conduct and ethics that applies to our officers, directors and employees. Among other matters, our code of business conduct and ethics is designed to deter wrongdoing and to promote:

honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;

full, fair, accurate, timely and understandable disclosure in our SEC reports and other public communications;

[Table of Contents](#)

- compliance with laws, rules and regulations;
- prompt internal reporting of violations of the code to appropriate persons identified in the code; and
- accountability for adherence to the code of business conduct and ethics.

Any waiver of the code of business conduct and ethics for our executive officers or directors must be approved by a majority of our independent directors, and any such waiver shall be promptly disclosed as required by law or Nasdaq Capital Market regulations. Copies of our code of business conduct and ethics are available without charge on our website, www.whlr.us or by writing or calling Robin Hanisch, Secretary, Wheeler Real Estate Investment Trust, Inc., 2529 Virginia Beach, Virginia 23452, (757) 627-9088.

Limitation of Liability and Indemnification

We have entered into indemnification agreements with each of our directors and executive officers that obligate us, if a director or executive officer is or is threatened to be made a party to any proceeding by reason of such director's or executive officer's status as a present or former director, officer, employee or agent of our company or as a director, trustee, officer, partner, manager, managing member, fiduciary, employee or agent of another enterprise that the director or executive officer served in such capacity at our request, to indemnify such director or executive officer, and advance expenses actually and reasonably incurred by him or her, or on his or her behalf, unless it has been established that:

- the act or omission of the director or executive officer was material to the matter giving rise to the proceeding and was committed in bad faith or was the result of active and deliberate dishonesty;
- the director or executive officer actually received an improper personal benefit in money, property or services; or
- with respect to any criminal action or proceeding, the director or executive officer had reasonable cause to believe his or her conduct was unlawful.

In addition, except as described below, our directors and executive officers are not entitled to indemnification pursuant to the indemnification agreement:

- if the proceeding was one brought by us or in our right and the director or executive officer is adjudged to be liable to us;
- if the director or executive officer is adjudged to be liable on the basis that personal benefit was improperly received in a proceeding charging improper personal benefit to the director or executive officer; or
- in any proceeding brought by the director or executive officer other than to enforce his or her rights under the indemnification agreement, and then only to the extent provided by the agreement, and except as may be expressly provided in our charter, our bylaws, a resolution of our board of directors or of our stockholders entitled to vote generally in the election of directors or an agreement approved by our board of directors.

Notwithstanding the limitations on indemnification described above, on application by a director or executive officer of our company to a court of appropriate jurisdiction, the court may order indemnification of such director or executive officer if the court determines that such director or executive officer is fairly and reasonably entitled to indemnification in view of all the relevant circumstances, whether or not the director or executive officer (1) has met the standards of conduct set forth above or (2) has been adjudged liable for receipt of an "improper personal benefit"; however, our indemnification obligations to such director or executive officer will be limited to the expenses actually and reasonably incurred by him or her, or on his or her behalf, in connection with any proceeding by or in the right of our company or in which the officer or director shall have been adjudged liable for receipt of an improper personal benefit. If the court determines the director or executive officer is so entitled to indemnification, the director or executive officer will also be entitled to recover from us the expenses of securing such indemnification.

Notwithstanding, and without limiting, any other provisions of the indemnification agreements, if a director or executive officer is or is threatened to be made a party to any proceeding by reason of such director's or executive officer's status as a director, officer, employee or agent of our company or as a director, trustee, officer, partner, manager, managing member, fiduciary, employee or agent of another entity that the director or executive officer served in such capacity at our request, and such director or executive officer is successful, on the merits or otherwise, as to one or more (even if less than all) claims, issues or matters in such proceeding, we must indemnify such director or executive officer for all expenses actually and reasonably incurred by him or her, or on his or her behalf, in connection with each successfully resolved claim, issue or matter, including any claim, issue or matter in such a proceeding that is terminated by dismissal, with or without prejudice.

[Table of Contents](#)

In addition, the indemnification agreements require us to advance reasonable expenses incurred by the indemnitee within ten days of the receipt by us of a statement from the indemnitee requesting the advance, provided the statement evidences the expenses and is accompanied by:

- a written affirmation of the indemnitee's good faith belief that he or she has met the standard of conduct necessary for indemnification; and
- a written undertaking to reimburse us if a court of competent jurisdiction determines that the director or executive officer is not entitled to indemnification.

The indemnification agreements also provide for procedures for the determination of entitlement to indemnification, including a requirement that such determination be made by independent counsel after a change of control of us.

Our charter permits us and our bylaws obligate us, to the maximum extent permitted by Maryland law, to indemnify and to pay or reimburse reasonable expenses in advance of final disposition of a proceeding to (1) any of our present or former directors or officers who is made or threatened to be made a party to the proceeding by reason of his service in that capacity or (2) any individual who, while serving as our director or officer and at our request, serves or has served as a director, officer, partner, trustee, member or manager of another corporation, real estate investment trust, limited liability company, partnership, joint venture, trust, employee benefit plan or other enterprise, and who is made or threatened to be made a party to the proceeding by reason of his service in that capacity.

[Table of Contents](#)

Generally, Maryland law permits a Maryland corporation to indemnify its present and former directors and officers except in instances where the person seeking indemnification acted in bad faith or with active and deliberate dishonesty, actually received an improper personal benefit in money, property or services or, in the case of a criminal proceeding, had reasonable cause to believe that his or her actions were unlawful. Under Maryland law, a Maryland corporation also may not indemnify a director or officer in a suit by or in the right of the corporation in which the director or officer was adjudged liable to the corporation or for a judgment of liability on the basis that a personal benefit was improperly received. A court may order indemnification if it determines that the director or officer is fairly and reasonably entitled to indemnification, even though the director or officer did not meet the prescribed standard of conduct; however, indemnification for an adverse judgment in a suit by us or in our right, or for a judgment of liability on the basis that personal benefit was improperly received, is limited to expenses.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling our company pursuant to the foregoing provisions, we have been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Item 11. Executive Compensation

Our Compensation Committee compensation policies are based on factors such as the desire to retain our named executive officers' services over the long term, aligning their interests with those of our stockholders, incentivizing them over the near, medium and long term, rewarding them for exceptional performance and such other factors as our compensation committee may consider in shaping its compensation philosophy. Our compensation strategy focuses on providing a total compensation package that will not only attract and retain high-caliber executive officers, but will also be utilized as a tool to align employee contributions with our corporate objectives and stockholder interests. We aim to provide a competitive total compensation package and will share our success with our executive officers when our objectives are met.

The following is a non-exhaustive list of items that our compensation committee considers in applying our compensation philosophy to the implementation of our overall compensation program for executive officers:

- goals of the compensation program;
- role of our compensation committee;
- engagement and role(s) of an external compensation consultant and other advisors;
- involvement of management in compensation decisions;
- components of compensation, including equity, cash, incentive, fixed, short-, medium- and long-term compensation, and the interaction of these various components with one another;
- equity grant guidelines with regard to timing, type, vesting and other terms and conditions of equity grants;
- stock ownership guidelines and their role in aligning the interests of named executive officers with our stockholders;
- severance and change of control protections;
- perquisites, enhanced benefits and insurance;
- deferred compensation and other tax-efficient compensation programs;
- retirement and other savings programs;
- peer compensation, benchmarking and survey data; and
- risk mitigation and related protective and remedial measures.

Employment Agreements

Generally

We have entered into employment agreements with each of our executive officers. We believe that the protections contained in these employment agreements help to ensure the day-to-day stability necessary to our executives to enable them to properly focus their attention on their duties and responsibilities with the company and provide security with regard to some of the most uncertain events relating to continued employment, thereby limiting concern and uncertainty and promoting productivity. Each of our employment agreements with our executive officers provides for an initial term of one year. Upon a termination of employment by reason of death or disability, such terminated executive officer or his estate will be entitled to regular base salary payments for a period of two (2) months. Such employment agreements also contain customary confidentiality and non-solicitation provisions. The following is a summary of the material terms of the agreements.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Shareholder Matters

The following table sets forth certain information regarding the beneficial ownership of shares of our common stock and shares of common stock into which common units are exchangeable for (1) each person who is the beneficial owner of 5% or more of our outstanding common stock, (2) each of our directors and named executive officers, and (3) all of our directors and executive officers as a group. Each person named in the table has sole voting and investment power with respect to all of the shares of our common stock shown as beneficially owned by such person, except as otherwise set forth in the notes to the table. The extent to which a person will hold shares of common stock as opposed to units is set forth in the footnotes below.

The SEC has defined "beneficial ownership" of a security to mean the possession, directly or indirectly, of voting power and/or investment power over such security. A stockholder is also deemed to be, as of any date, the beneficial owner of all securities that such stockholder has the right to acquire within 60 days after that date through (1) the exercise of any option, warrant or right, (2) the conversion of a security, (3) the power to revoke a trust, discretionary account or similar arrangement or (4) the automatic termination of a trust, discretionary account or similar arrangement. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, common shares subject to options or other rights (as set forth above) held by that person that are exercisable as of this filing or will become exercisable within 60 days thereafter, are deemed outstanding, while such shares are not deemed outstanding for purposes of computing percentage ownership of any other person. As of March 19, 2014, we had 43 stockholders of record. This number excludes our common shares owned by shareholders holding under nominee security position listings.

In addition, amounts for individuals assume that all common units held by the person are exchanged for shares of our common stock, and amounts for all directors, director nominees and executive officers as a group assume all common units held by them are exchanged for shares of our common stock in each case, regardless of when such common units are currently exchangeable. The total number of shares of our common stock outstanding used in calculating this percentage assumes that none of the common units held by other persons are exchanged for shares of our common stock.
- (2) Based upon 7,121,000 shares of our common stock and 2,072,352 common units, which units may be redeemed for cash or, at our option, exchanged for shares of our common stock outstanding on December 31, 2013, subject to certain lock-up agreements.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Partnership Agreement

In connection with the completion of our initial public offering, we entered into a partnership agreement with the various persons receiving common units in the formation transactions, including Mr. Wheeler, his affiliates and certain other executive officers of our company. As a result, these persons became limited partners of our Operating Partnership.

Pursuant to the Partnership Agreement, limited partners of our Operating Partnership and some assignees of limited partners will have the right, beginning 12 months after the completion of the initial public offering, to require our Operating Partnership to redeem part or all of their common units for cash equal to the then-current market value of an equal number of shares of our common stock (determined in accordance with and subject to adjustment under the Partnership Agreement), or, at our election, to exchange their common units for shares of our common stock on a one-for-one basis, subject to certain adjustments and the restrictions on ownership and transfer of our stock set forth in our charter.

Employment Agreements

We have entered into employment agreements with each of our executive officers, which provide for salary, bonus and other benefits, and severance upon a termination of employment under certain circumstances. The material terms of the agreements with our named executive officers are described under "Executive Compensation—Employment Agreements" and "Executive Compensation—Compensation Tables."

Share Incentive Plan

We adopted our 2012 Share Incentive Plan. Such plan authorized the issuance of up to 500,000 shares of our common stock. As of March 21, 2014, we have not issued any securities under the plan.

Indemnification of Officers and Directors

Our charter and bylaws provide for certain indemnification rights for our directors and officers and we will enter into an indemnification agreement with each of our executive officers and directors, providing for procedures for indemnification and advancements by us of certain expenses and costs relating to claims, suits or proceedings arising from their service to us or, at our request, service to other entities, as officers or directors to the maximum extent permitted by Maryland law.

Other Related Party Transactions

Mr. Wheeler, when combined with his affiliates, represents the Company's largest stockholder. Our Administrative Service Company, which is wholly owned by Mr. Wheeler, provides administrative services to the Company, including management, administrative, accounting, marketing, development and design services. The Company also benefits from Mr. Wheeler's current organization and platform that specializes in retail real estate investment and management.

Wheeler Interests, LLC, a company controlled by Mr. Wheeler, leases our Riversedge property under a 10 year operating lease expiring in November 2017, with four five-year renewal options available. The lease currently requires monthly base rental payments of \$23,600 and provides for annual increases throughout the term of the lease and subsequent option periods. Additionally, Wheeler Interests, LLC reimburses us for a portion of the property's operating expenses and real estate taxes. We consider the terms of the lease agreement with Wheeler Interests, LLC to be comparable to those received by other nonrelated third parties.

The following summarizes related party activity of the combined Ownership Entities for the year ended December 31, 2013 and 2012.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of
Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Virginia Beach, Virginia

We have audited the accompanying consolidated and combined balance sheets of Wheeler Real Estate Investment Trust, Inc. and Subsidiaries (the "Company") as of December 31, 2013 and 2012 and the related consolidated and combined statements of operations, equity and cash flows for each of the years in the two-year period ended December 31, 2013. In connection with our audits of the consolidated and combined financial statements, we have also audited the financial statement schedules as listed in the accompanying index. The Company's management is responsible for these consolidated and combined financial statements and the financial statement schedules. Our responsibility is to express an opinion on these consolidated and combined financial statements and financial statement schedules based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated and combined financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated and combined financial statements referred to above present fairly, in all material respects, the financial position of Wheeler Real Estate Investment Trust, Inc. and Subsidiaries as of December 31, 2013 and 2012 and the results of their operations and their cash flows for each of the years in the two-year period ended December 31, 2013, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated and combined financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

Notes to Consolidated and Combined Financial Statements

1. Organization and Basis of Presentation and Consolidation

Wheeler Real Estate Investment Trust, Inc. (the "Trust" or "REIT" or "Company") is a Maryland corporation formed on June 23, 2011 to acquire the entities owning various controlling and noncontrolling interests in real estate assets owned and/or managed by Jon S. Wheeler and/or his affiliates, including certain entities controlled by Plume Street Financial, LLC ("PSF Entities"). In conjunction with acquiring these entities, the Trust filed a Registration Statement with the Securities and Exchange Commission ("SEC") on Form S-11 in order to complete an initial public offering. On October 23, 2012, the Trust's Registration Statement became effective and the common stock was priced at \$5.25. On November 16, 2012, the Trust closed the formation and offering transactions by acquiring the ownership interests of the entities described below and by selling 3,016,045 shares of common stock at \$5.25 per share, generating approximately \$15.83 million in gross proceeds. The Company used approximately \$2.70 million to cover offering expenses, approximately \$4.18 million to cash-out prior investors in the properties, approximately \$1.78 million to directly purchase The Shoppes at Eagle Harbor and approximately \$322,000 to repay the outstanding indebtedness on the Amscot Building.

The formation transactions consisted of acquiring the ownership interests of five entities controlled by Jon S. Wheeler and/or his affiliates ("Controlled Entities") and three entities controlled by Plume Street Financial, of which Mr. Wheeler is a 50% partner ("Noncontrolled Entities"). The entities and respective properties party to the transactions are as follows:

Controlled Entities (Predecessor):

- Wheeler Real Estate Investment Trust, Inc.
- Wheeler Real Estate Investment Trust, L.P.
- DF-1 Carrollton, LLC – The Shoppes at Eagle Harbor (Carrollton, VA)
- Lynnhaven Parkway Associates, LLC – Monarch Bank Building (Virginia Beach, VA)
- Northpointe Investors, LLC – Northpointe Crossing/Amscot Building (Tampa, FL)
- Riversedge Office Associates, LLC – Riversedge North (Virginia Beach, VA)
- Walnut Hill Plaza Associates, LLC – Walnut Hill Plaza (Petersburg, VA)

Noncontrolled Entities (PSF Entities):

- Lumber River Associates, LLC – Lumber River Village (Lumberton, NC)
- Perimeter Associates, LLC – Perimeter Square (Tulsa, OK)
- Tuckernuck Associates, LLC – Shoppes at TJ Maxx (Richmond, VA)

The contribution of or acquisition by merger of interests in the Controlled Entities was accounted for as a transaction between entities under common control and, therefore, the acquisition of interests in each of the Controlled Entities was recorded at historical cost. Management determined that Walnut Hill Plaza Associates, LLC was the acquirer for accounting purposes as it represented the largest of the five entities in both asset size and total revenues and the exchange of equity interests related to this entity resulted in the largest number of common units being received by Mr. Wheeler and its other investors. Since Mr. Wheeler did not own a controlling interest in the PSF Entities, the acquisition of the Noncontrolled Entities listed above were accounted for as an acquisition under the purchase accounting method and recognized at the fair value of acquired assets and assumed liabilities on the date of such contribution or acquisition. The fair value of these assets and liabilities was allocated in accordance with ASC section 805-10, *Business Combinations*. The methodology of allocating the cost of acquisitions to assets acquired and liabilities assumed was based on fair values, replacement cost and appraised values. Management determined the fair value of acquired tangible assets (consisting of land, building and improvements), identified intangible lease assets and liabilities (consisting of acquired above-market leases, acquired in-place lease value, and acquired below-market leases) and assumed debt. The value of the consideration paid to each of the PSF Entities' prior investors was based upon the terms of the applicable contribution agreement among the Operating Partnership and the PSF Entities' investor or investors and was determined based on a relative equity valuation analysis of the PSF Entities. In exchange for contributing their interests in the PSF Entities, the PSF Entities' investors received an aggregate of \$2.98 million and 916,923 common units.

The following summarizes the consideration paid and the preliminary fair values of assets acquired and liabilities assumed in conjunction with the Trust acquiring the PSF Entities, along with a description of the methods used to determine fair value. In determining fair values, management considered many factors including, but not limited to, cash flows, market cap rates, location, occupancy rates, appraisals, other acquisitions and our knowledge of the current acquisition market for similar properties.

- a. Represents the fair value of the net investment properties acquired which includes land, buildings, site improvements, tenant improvements and in place leases. The fair value was determined using following approaches:
- i. the market approach valuation methodology for land by considering similar transactions in the markets;
 - ii. a combination of the cost approach and income approach valuation methodologies for buildings, including replacement cost evaluations, “go dark” analyses and residual calculations incorporating the land values;
 - iii. the cost approach valuation methodology for site and tenant improvements, including replacement costs and prevailing quoted market rates; and
 - iv. the income approach valuation methodology for in place leases which considered estimated market rental rates, expenses reimbursements and time required to replace leases.
- b. Represents the fair value of tenant and other receivables and other current assets. It was determined that carrying value approximated fair value for all amounts in these categories.
- c. Represents the fair value of other lease intangibles which includes leasing commissions and legal and marketing fees associated with replacing existing leases. The income approach was used to determine the fair value of these intangible assets which included estimated market rates and expenses.
- d. Represents the fair value of mortgages payable which was calculated by performing a discounted cash flow analysis on debt service using current prevailing market interest on comparable debt.
- e. Represents the fair value of accounts payable, accrued expenses and other liabilities. It was determined that carrying value approximated fair value for all amounts in these categories.
- f. Represents the fair value of above/(below) market leases. The income approach was used to determine the fair value of above/(below) market leases using market rental rates for similar properties.
- g. Represents the components of purchase consideration to be paid.

Wheeler Real Estate Investment Trust, L.P., our “Operating Partnership”, was formed as a Virginia limited partnership on April 5, 2012. All operations are primarily carried out through our Operating Partnership. The Trust, as the sole general partner of our Operating Partnership, controls our Operating Partnership. Accordingly, the accompanying consolidated and combined financial statements include the assets, liabilities and results of operations of the Trust and our Operating Partnership. The Trust contributed substantially all of the net proceeds from the offering to the Operating Partnership in exchange for Operating Partnership units therein. The Trust’s interest in the Operating Partnership will generally entitle it to share in cash distributions from, and in the profits and losses of, the Operating Partnership in proportion to the Trust’s percentage ownership. As the sole general partner of the Operating Partnership, the Trust will generally have the exclusive power under the partnership agreement to manage and conduct the Operating Partnership’s business and affairs, subject to certain limited approval and voting rights of the limited partners.

The Company includes the Trust, the Operating Partnership, the original eight entities included in the REIT formation and the fifteen entities acquired since November 2012 (See Note 3 “Investment Properties”). The Company prepared the accompanying consolidated and combined financial statements in accordance with accounting principles generally accepted in the United States of America, or GAAP. Accordingly, the Company relied on GAAP applicable to transactions between entities under common control and business combinations when preparing consolidated and combined financial statements. In accordance with these principles, the Company combined the historical accounting records for the original Controlled Entities and has included their historical financial position, results of operations and cash flows through the closing date of the formation transactions. The Company recorded the financial position of the original Noncontrolled Entities and the fifteen entities acquired subsequent to the formation transactions at fair value on the acquisition date. Accordingly, the consolidated and combined financial statements only include the results of operations and cash flows of these entities since they were acquired. From the closing of the formation and offering transactions and the applicable acquisition dates, the Company has consolidated the financial position, results of operations and cash flows of the aforementioned entities. All material balances and transactions between the consolidated and combined entities of the Company have been eliminated.

The Company was formed with the principle objective of acquiring, financing, developing, leasing, owning and managing income producing, strip centers, neighborhood, grocery-anchored, community and free-standing retail properties. Its strategy is to acquire high quality, well-located, dominant retail properties that generate attractive risk-adjusted returns. The Company targets competitively protected properties in communities that have stable demographics and have historically exhibited favorable trends, such as strong population and income growth. The Company considers competitively protected properties to be located in the most prominent shopping districts in their respective markets, ideally situated at major "Main and Main" intersections. The Company generally leases its properties to national and regional supermarket chains and select retailers that offer necessity and value oriented items and generate regular consumer traffic. The Company's tenants carry goods that are less impacted by fluctuations in the broader U.S. economy and consumers' disposable income, which it believes generates more predictable property-level cash flows.

The Company's portfolio had total net rentable space of approximately 1,295,000 square feet and an occupancy level of approximately 94% at December 31, 2013. The Company's portfolio is comprised of sixteen retail shopping centers, six free-standing retail properties and one office building. Six of these properties are located in Virginia, two are located in Florida, one is located in North Carolina, six are located in South Carolina, one is located in Georgia, one is in Tennessee, one is in New Jersey, and five are located in Oklahoma.

2. Summary of Significant Accounting Policies***Investment Properties***

The Company records investment properties and related intangibles at cost or fair value upon acquisition less accumulated depreciation and amortization. Investment properties include both acquired and constructed assets. Improvements and major repairs and maintenance are capitalized when the repair and maintenance substantially extends the useful life, increases capacity or improves the efficiency of the asset. All other repair and maintenance costs are expensed as incurred. The Company capitalizes interest on projects during periods of construction until the projects reach the completion point that corresponds with their intended purpose.

The Company allocates the purchase price of acquisitions to the various components of the acquisition based upon the fair value of each component which may be derived from various observable or unobservable inputs and assumptions. Also, the Company may utilize third party valuation specialists. These components typically include buildings, land and any intangible assets related to out-of-the-market leases and in-place leases the Company determines to exist. The Company determines fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends and specific market and economic conditions that may affect the property. Factors considered by management in the analysis of determining the as-if-vacant property value include an estimate of carrying costs during the expected lease-up periods considering market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and estimates of lost rentals at market rates during the expected lease-up periods, tenant demand and other economic conditions. Management also estimates costs to execute similar leases including leasing commissions, tenant improvements, legal and other related expenses. Intangibles related to out-of-market leases and in-place lease value are recorded as acquired lease intangibles and are amortized as an adjustment to rental revenue or amortization expense, as appropriate, over the remaining terms of the underlying leases. Premiums or discounts on acquired out-of-market debt are amortized to interest expense over the remaining term of such debt.

The Company records depreciation on buildings and improvements utilizing the straight-line method over the estimated useful life of the asset, generally 5 to 40 years. The Company reviews depreciable lives of investment properties periodically and makes adjustments to reflect a shorter economic life, when necessary. Tenant allowances, tenant inducements and tenant improvements are amortized utilizing the straight-line method over the term of the related lease or occupancy term of the tenant, if shorter.

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated and Combined Financial Statements (Continued)

2. Summary of Significant Accounting Policies (continued)

Amounts allocated to buildings are depreciated over the estimated remaining life of the acquired building or related improvements. The Company amortizes amounts allocated to tenant improvements, in-place lease assets and other lease-related intangibles over the remaining life of the underlying leases. The Company also estimates the value of other acquired intangible assets, if any, and amortizes them over the remaining life of the underlying related intangibles.

The Company reviews investment properties for impairment on a property-by-property basis whenever events or changes in circumstances indicate that the carrying value of investment properties may not be recoverable, but at least annually. These circumstances include, but are not limited to, declines in the property's cash flows, occupancy and fair market value. The Company measures any impairment of investment property when the estimated undiscounted operating income before depreciation and amortization, plus its residual value, is less than the carrying value of the property. To the extent impairment has occurred, the Company charges to income the excess of the carrying value of the property over its estimated fair value. The Company estimates fair value using unobservable data such as operating income, estimated capitalization rates, or multiples, leasing prospects and local market information. The Company may decide to sell properties that are held for use and the sale prices of these properties may differ from their carrying values. The Company did not record any impairment adjustments to its properties during the years ended December 31, 2013 and 2012.

Conditional Asset Retirement Obligation

A conditional asset retirement obligation represents a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement depends on a future event that may or may not be with the Company's control. Currently, the Company does not have any conditional asset retirement obligations. However, any such obligations identified in the future would result in the Company recording a liability if the fair value of the obligation can be reasonably estimated. Environmental studies conducted at the time the Company acquired its properties did not reveal any material environmental liabilities, and the Company is unaware of any subsequent environmental matters that would have created a material liability. The Company believes that its properties are currently in material compliance with applicable environmental, as well as non-environmental, statutory and regulatory requirements. The Company did not record any conditional asset retirement obligation liabilities during the years ended December 31, 2013 and 2012.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of 90 days or less to be cash and cash equivalents. Cash equivalents are carried at cost, which approximates fair value. Cash equivalents consist primarily of bank operating accounts and money markets. Financial instruments that potentially subject the Company to concentrations of credit risk include its cash and cash equivalents and its trade accounts receivable. The Company places its cash and cash equivalents with institutions of high credit quality.

The Company places its cash and cash equivalents on deposit with financial institutions in the United States. Beginning December 31, 2010, through December 31, 2012, all noninterest-bearing transaction accounts were fully insured by the Federal Deposit Insurance Company ("FDIC"), regardless of the balance of the account, at all FDIC-insured institutions. However, this provision expired on December 31, 2012 and beginning January 1, 2013 noninterest-bearing deposits now receive the same \$250,000 insurance coverage provided to a depositor's other deposit accounts held at an FDIC-insured institution.

Tenant Receivables and Unbilled Rent

Tenant receivables include base rents, tenant reimbursements and receivables attributable to recording rents on a straight-line basis. The Company determines an allowance for the uncollectible portion of accrued rents and accounts receivable based upon customer credit-worthiness (including expected recovery of a claim with respect to any tenants in bankruptcy), historical bad debt levels, and current economic trends. The Company considers a receivable past due once it becomes delinquent per the terms of the lease. The Company's standard lease form considers a rent charge past due after five days. A past due receivable triggers certain events such as notices, fees and other allowable and required actions per the lease. As of December 31, 2013 and 2012, the Company's allowance for uncollectible accounts totaled \$182,078 and \$75,250, respectively. During the years ended December 31, 2013 and 2012, the Company recorded bad debt expenses in the amount of \$106,828 and \$25,000, respectively, related to tenant receivables that were specifically identified as potentially uncollectible based on the an assessment of the tenant's credit-worthiness. During the years ended December 31, 2013 and 2012, the Company did not realize any recoveries related to tenant receivables previously charged off.

Deferred Costs and Other Assets

The Company's deferred costs and other assets consists primarily of internal and external leasing commissions, fees incurred in order to obtain long-term financing, capitalized legal and marketing costs and tenant relationship intangibles associated with acquisitions, and various property escrow accounts for real estate taxes, insurance and tenant improvements and replacements. The Company records amortization of financing costs using the effective interest method over the terms of the respective loans or agreements. The Company's lease origination costs consist primarily of commissions paid in connection with lease originations.

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated and Combined Financial Statements (Continued)

2. Summary of Significant Accounting Policies (continued)

The Company generally records amortization of lease origination costs on a straight-line basis over the terms of the related leases. Details of these deferred costs, net of amortization and other assets are as follows:

	December 31,	
	2013	2012
Lease origination costs, net	\$ 3,720,812	\$1,941,457

Amortization of lease origination costs, in place leases, legal and marketing costs and tenant relationships represent a component of depreciation and amortization expense. The Company reports amortization of financing costs, amortization of premiums and accretion of discounts as part of interest expense. The Company accounts for in place lease assets as a component of the investment properties' cost basis (See Note 3 "Investment Properties"). Future amortization of lease origination costs, leases in place, financing costs, legal and marketing costs and tenant relationships is as follows:

For the Years Ending December 31,	Lease Origination Costs	Leases In Place	Financing Costs	Legal & Marketing Costs	Tenant Relationships
	2014	\$ 476,589	\$2,317,788	\$ 746,912	\$ 49,890

Revenue Recognition

The Company retains substantially all of the risks and benefits of ownership of the investment properties and accounts for its leases as operating leases. The Company accrues minimum rents on a straight-line basis over the terms of the respective leases which results in an unbilled rent asset or deferred rent liability being recorded on the balance sheet. Additionally, certain of the lease agreements contain provisions that grant additional rents based on tenants' sales volumes (contingent or percentage rent). Percentage rents are recognized when the tenants achieve the specified targets as defined in their lease agreements. During the years ended December 31, 2013 and 2012, the Company recognized percentage rents of \$15,472 and \$9,360, respectively.

The Company's leases generally require the tenant to reimburse the Company for a substantial portion of its expenses incurred in operating, maintaining, repairing, insuring and managing the shopping center and common areas (collectively defined as Common Area Maintenance or "CAM" expenses). This significantly reduces the Company's exposure to increases in costs and operating expenses resulting from inflation or other outside factors. The Company accrues reimbursements from tenants for recoverable portions of all these expenses as revenue in the period the applicable expenditures are incurred. The Company calculates the tenant's share of operating costs by multiplying the total amount of the operating costs by a fraction, the numerator of which is the total number of square feet being leased by the tenant, and the denominator of which is the average total square footage of all leasable buildings in the property. The Company also receives escrow payments for these reimbursements from substantially all its tenants throughout the year. The Company recognizes differences between estimated recoveries and the final billed amounts in the subsequent year. These differences were not material for the years ended December 31, 2013 and 2012.

The Company recognizes lease termination fees in the period that the lease is terminated and collection of the fees is reasonably assured. Upon early lease termination, the Company provides for losses related to unrecovered intangibles and other assets. The Company did not recognize any lease termination fees during the years ended December 31, 2013 and 2012.

Income Taxes

The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code and applicable Treasury regulations relating to REIT qualification. In order to maintain this REIT status, the regulations require the Company to distribute at least 90% of its taxable income to stockholders and meet certain other asset and income tests, as well as other requirements. The Company made no provision for federal income taxes for the REIT in the accompanying consolidated financial statements. If the Company fails to qualify as a REIT, it will be subject to tax at regular corporate rates for the years in which it fails to qualify. If the Company loses its REIT status it could not elect to be taxed as a REIT for five years unless the Company's failure to qualify was due to reasonable cause and certain other conditions were satisfied.

Notes to Consolidated and Combined Financial Statements (Continued)

2. Summary of Significant Accounting Policies (continued)

Management has evaluated the effect of the guidance provided by GAAP on *Accounting for Uncertainty of Income Taxes* and has determined that the Company had no uncertain income tax positions that could have a significant effect on the financial statements for the years ended December 31, 2013 and 2012.

As the REIT was formed in November 2012, it is subject to examination by the Internal Revenue Service and state tax authorities from the date of formation.

Financial Instruments

The carrying amount of financial instruments included in assets and liabilities approximates fair market value due to their immediate or short-term maturity.

Use of Estimates

The Company has made estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reported period. The Company's actual results could differ from these estimates.

Advertising Costs

The Company expenses advertising and promotion costs as incurred. The Company incurred advertising and promotion costs of \$49,110 and \$35,765 for the years ended December 31, 2013 and 2012, respectively.

Noncontrolling Interests

Noncontrolling interests is the portion of equity in the Operating Partnership not attributable to the Trust. The ownership interests not held by the parent are considered noncontrolling interests. Accordingly, noncontrolling interests have been reported in equity on the consolidated balance sheets but separate from the Company's equity. On the consolidated statements of operations, the subsidiaries are reported at the consolidated amount, including both the amount attributable to the Company and noncontrolling interests. Consolidated statements of changes in equity include beginning balances, activity for the period and ending balances for shareholders' equity, noncontrolling interests and total equity.

The noncontrolling interest of the Operating Partnership common unit holders is calculated by multiplying the noncontrolling interest ownership percentage at the balance sheet date by the Operating Partnership's net assets (total assets less total liabilities). The noncontrolling interest percentage is calculated at any point in time by dividing the number of units not owned by the Company by the total number of units outstanding. The noncontrolling interest ownership percentage will change as additional units are issued or as units are exchanged for the Company's Common Stock. In accordance with GAAP, any changes in the value from period to period are charged to additional paid-in capital.

Recent Accounting Pronouncements

In July 2012, the FASB issued Accounting Standards update, or ASU, 2012-02 "Impairment Goodwill and Other (Topic 350)." This amendment would give the Company the option to first assess qualitative factors to determine whether the existence of an event or circumstance indicates that it is more likely than not that intangible assets are impaired before having to determine the fair value using the current quantitative approach. This ASU is effective for annual and interim goodwill impairment tests performed for fiscal years beginning after September 15, 2012, with early adoption permitted. The Company adopted this ASU during the year ended December 31, 2012. We evaluate intangibles for impairment annually unless factors arise that would create the need to perform an evaluation during interim periods. For the years ended December 31, 2013 and 2012, there were no factors that indicated any impairment.

Other accounting standards that have been issued or proposed by the FASB or other standard-setting bodies are not currently applicable to the Company or are not expected to have a significant impact on the Company's financial position, results of operations and cash flows.

In contemplation of future stock offerings, the Company increased the number of shares of Common Stock authorized from 15,000,000 to 75,000,000 during June 2013.

Substantially all of our business is conducted through the Company's Operating Partnership. The Trust is the sole general partner of the Operating Partnership and owned a 79.89% interest in the Operating Partnership as of December 31, 2013. Limited partners in the Operating Partnership have the right to convert their common units into cash or, at our option, common shares at a ratio of one common unit for one common share. Distributions to common unit holders are paid at the same rate per unit as dividends per share to the Trust's common shareholders. As of December 31, 2013 and December 31, 2012, there were 10,304,202 and 5,159,570, respectively, of common units outstanding with the Trust owning 8,231,850 and 3,301,502, respectively, of these common units.

June 2013 private placement

On June 10, 2013, the Company completed a \$4.5 million private placement transaction with 21 accredited investors (the "Buyers"). Pursuant to the Securities Purchase Agreement, dated as of June 10, 2013 (the "June 2013 Securities Purchase Agreement"), the Company issued an aggregate of 4,500 shares of Preferred Stock to the Buyers. The Preferred Stock accrues cumulative dividends at a rate of 9% per annum, which will be paid quarterly. In accordance with the June 2013 Securities Purchase Agreement, 2,691 shares of Preferred Stock converted automatically into 656,998 shares of the Company's Common Stock upon the August 26, 2013 completion of the Company's secondary offering ("Offering") at a price equal to \$4.085 per share, or 95% of the \$4.30 per share price at which the Common Stock was sold in the Offering (the "Primary Conversion").

The Company has the right to redeem the remaining 1,809 shares of Preferred Stock, on a pro rata basis, at any time at a price equal to 103% of the purchase price for the Preferred Stock plus any accrued but unpaid dividends. Since the Preferred Stock features certain redemption rights that are considered by the Company to be outside of the Company's control and subject to the occurrence of uncertain future events, the initial Preferred Stock amount of \$4,157,000 was previously presented as a liability in the Company's condensed consolidated and combined balance sheet. Upon completion of the Primary Conversion, the remaining Preferred Stock was reclassified to the shareholders' equity section of the Company's condensed consolidated and combined balance sheet, since the Preferred Stock no longer possesses the redemption features previously considered outside the Company's control.

In connection with the investment, the Company and the Buyers entered into a Registration Rights Agreement, dated as of June 10, 2013 (the "June 2013 Registration Rights Agreement"). Pursuant to the June 2013 Registration Rights Agreement, the Company agreed to file and

December 2013 private placement

In association with the December 2013 Securities Purchase Agreement, the Company issued 421,053 warrants with an exercise price of \$4.75. The warrants are not exercisable unless the Company obtains shareholder approval for the transaction. The Company has determined that the warrants qualify for equity treatment under applicable GAAP.

Earnings per share

Basic earnings per share for the Company's common shareholders is calculated by dividing income from continuing operations excluding amounts attributable to preferred stockholders and the net loss attributable to noncontrolling interests, by the Company's weighted-average shares of Common Stock outstanding during the period. Diluted earnings per share is computed by dividing the net income attributable to common shareholders, excluding amounts attributable to preferred shareholders and the net loss attributable to noncontrolling interests by the weighted-average number of common shares including any dilutive shares, which would include warrants.

The Operating Partnership's 1,858,068 common units outstanding at December 31, 2012 related to noncontrolling interests became eligible to be converted into shares of Common Stock on a one-to-one basis during the quarter ended December 31, 2013. These common units have been excluded from the Company's diluted earnings per share calculation because they would be antidilutive.

For the year ended December 31, 2013, dividends of \$2,853,243 were made to holders of common shares and common units. On December 13, 2013, the Company declared a \$0.035 per share dividend to common share and common unit holders of record as of December 31, 2013 to be paid on January 31, 2014. 7. Commitments and Contingencies (continued)

Insurance

The Company carries comprehensive liability, fire, extended coverage, business interruption and rental loss insurance covering all of the properties in its portfolio under a blanket insurance policy, in addition to other coverages, such as trademark and pollution coverage, that may be appropriate for certain of its properties. Additionally, the Company carries a directors', officers', entity and employment practices liability insurance policy that covers such claims made against the Company and its directors and officers. The Company believes the policy specifications and insured limits are appropriate and adequate for its properties given the relative risk of loss, the cost of the coverage and industry practice; however, its insurance coverage may not be sufficient to fully cover its losses.

Concentration of Credit Risk

The Company is subject to risks incidental to the ownership and operation of commercial real estate. These risks include, among others, the risks normally associated with changes in the general economic climate, trends in the retail industry, creditworthiness of tenants, competition for tenants and customers, changes in tax laws, interest rates, the availability of financing and potential liability under environmental and other laws.

The Company's portfolio of properties is dependent upon regional and local economic conditions and is geographically concentrated in the Northeast, Mid-Atlantic, Southeast and Southwest, which markets represented approximately 5%, 22%, 48% and 25%, respectively, of the total annualized base rent of the properties in its portfolio as of December 31, 2013. The Company's geographic concentration may cause it to be more susceptible to adverse developments in those markets than if it owned a more geographically diverse portfolio. Additionally, the Company's retail shopping center properties depend on anchor stores or major tenants to attract shoppers and could be adversely affected by the loss of, or a store closure by, one or more of these tenants.

Regulatory and Environmental

As the owner of the buildings on our properties, the Company could face liability for the presence of hazardous materials (e.g., asbestos or lead) or other adverse conditions (e.g., poor indoor air quality) in its buildings. Environmental laws govern the presence, maintenance, and removal of hazardous materials in buildings, and if the Company does not comply with such laws, it could face fines for such noncompliance. Also, the Company could be liable to third parties (e.g., occupants of the buildings) for damages related to exposure to hazardous materials or adverse conditions in its buildings, and the Company could incur material expenses with respect to abatement or remediation of hazardous materials or other adverse conditions in its buildings. In addition, some of the Company's tenants routinely handle and use hazardous or regulated substances and wastes as part of their operations at our properties, which are subject to regulation. Such environmental and health and safety laws and regulations could subject the Company or its tenants to liability resulting from these activities. Environmental liabilities could affect a tenant's ability to make rental payments to the Company, and changes in laws could increase the potential liability for noncompliance. This may result in significant unanticipated expenditures or may otherwise materially and adversely affect the Company's operations. The Company is not aware of any material contingent liabilities, regulatory matters or environmental matters that may exist.

Litigation

The Company is involved in various legal proceedings arising in the ordinary course of its business, including, but not limited to commercial disputes. The Company believes that such litigation, claims and administrative proceedings will not have a material adverse impact on its financial position or its results of operations. The Company records a liability when it considers the loss probable and the amount can be reasonably estimated.

On July 10, 2008, one of the Company's subsidiaries, Perimeter Associates, LLC ("Perimeter"), sued a tenant for breach of contract, guaranty of the contract and fraud related to an executed lease. In response, on August 22, 2008, the defendant filed a counterclaim against Perimeter for breach of contract, unjust enrichment and fraud. On April 8, 2013, the court found in favor of the defendant and assessed damages against Perimeter in the amount of \$13,300. On or about May 8, 2013, Perimeter appealed the judgment of the lower court to the Oklahoma Supreme Court. Subsequent to the initial judgment, the defendant's attorney applied to the court to be reimbursed for approximately \$368,000 in legal fees incurred by the defendant during litigation. On July 9, 2013, the lower court awarded the defendant approximately \$267,000 of the defendant's legal fees. Perimeter expects to amend its appeal with the Oklahoma Supreme Court to include the issue of the award of legal fees. The Company has posted bonds for both judgments and has accrued for the judgments in the financial statements. The Company will continue to vigorously litigate the issues raised upon appeal.

On May 22, 2013, WHLR-HPA-1, LLC, ("Harp's"), a subsidiary of the Operating Partnership that owns the Trust's Harps and Harbor Point property, ("Harp's Food Store"), filed suit against Crossland Heavy Contractors ("Crossland") for equitable relief to divide a mechanic and materialmen's lien ("Lien") of approximately \$856,000 filed on three properties which includes the Harp's Food Store property and two adjacent properties owned by affiliates of the Trust. Crossland subsequently filed a counterclaim adding the Trust, among others, as a defendant to the case. The Lien relates to cost overruns incurred by Crossland during the construction and development process that occurred prior to the Trust acquiring the Harp's Food Store property. On October 22, 2013, the parties reached a settlement whereby it was agreed that the Lien would be paid in full by November 22, 2013. Since the Lien related to construction and development costs incurred prior to the Trust acquiring the property, the affiliated parties that developed the property intended to fully satisfy the Lien, resulting in no liability to the Trust. However, since there was no evidence as of September 30, 2013 that the affiliated parties had finalized their funding sources to satisfy the Lien, management concluded that the appropriate treatment was to accrue the \$856,000 in the financial statements. On January 31, 2014, Crossland removed the lien as the affiliates of the Trust fulfilled their obligation to pay the Lien. Accordingly, the accrual has been reversed since the Lien was satisfied without liability to the Trust and the financial statements had not been issued when the Lien was released.
