Notes to Condensed Consolidated Financial Statements
(Unaudited)

1. Organization and Basis of Presentation and Consolidation

Wheeler Real Estate Investment Trust, Inc. (the “Trust” or “REIT”) is a Maryland corporation formed on June 23, 2011. The Trust serves as the general partner of Wheeler REIT, L.P. (the “Operating Partnership”), which was formed as a Virginia limited partnership on April 5, 2012. As of June 30, 2015, the Trust, through the Operating Partnership, owned and operated thirty-four centers and seven undeveloped properties in Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Oklahoma, Tennessee, Kentucky, New Jersey and West Virginia. Accordingly, the use of the word “Company” refers to the Trust and its consolidated subsidiaries, except where the context otherwise requires.

The condensed consolidated financial statements included in this Quarterly Report on Form 10-Q (the “Form 10-Q”) are unaudited and the results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for future periods or the year. However, amounts presented in the condensed consolidated balance sheet as of December 31, 2014 are derived from the Company’s audited consolidated financial statements as of that date, but do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (“GAAP”) for complete financial statements. The Company prepared the accompanying condensed consolidated financial statements in accordance with GAAP for interim financial statements. All material balances and transactions between the consolidated entities of the Company have been eliminated. You should read these condensed consolidated financial statements in conjunction with our 2014 Annual Report filed on Form 10-K for the year ended December 31, 2014 (the “2014 Form 10-K”).

2. Summary of Significant Accounting Policies

Rents and Other Tenant Receivables, net

Tenant receivables include base rents, tenant reimbursements and receivables attributable to recording rents on a straight-line basis. The Company determines an allowance for the uncollectible portion of accrued rents and accounts receivable based upon customer credit-worthiness (including expected recovery of a claim with respect to any tenants in bankruptcy), historical bad debt levels, and current economic trends. The Company considers a receivable past due once it becomes delinquent per the terms of the lease. The Company’s standard lease form considers a rent charge past due after five days. A past due receivable triggers certain events such as notices, fees and other allowable and required actions per the lease. As of June 30, 2015 and December 31, 2014, the Company’s allowance for uncollectible accounts totaled \$270,101 and \$186,517, respectively. During the three and six months ended June 30, 2015, the Company recorded bad debt expenses in the amounts of \$54,538 and \$101,736, respectively, related to tenant receivables that were specifically identified as potentially uncollectible based on an assessment of the tenant’s credit-worthiness. During the three and six months ended June 30, 2014, the Company reduced its allowance by \$28,032 due to improved credit-worthiness of certain tenants and the collection of previously past due amounts. During the three and six months ended June 30, 2015 and 2014, the Company did not realize any recoveries related to tenant receivables previously written off.

Above and Below Market Lease Intangibles, net

The Company determines the above and below market lease intangibles upon acquiring a property. Above and below market lease intangibles are amortized over the life of the respective leases. Amortization of above and below market lease intangibles is recorded as a component of rental revenues.

Deferred Costs and Other Assets, net

The Company’s deferred costs and other assets consist primarily of leasing commissions, fees incurred in order to obtain long-term financing, leases in place intangible assets, legal and marketing costs, tenant relationship intangible assets and deposits associated with acquisitions, and various property escrow accounts for real estate taxes, insurance, tenant improvements and replacements. The Company records amortization of financing costs using the effective interest method over the terms of the respective loans or agreements. The Company’s lease origination costs consist primarily of commissions paid in connection with lease originations and renewals. The Company records amortization of lease origination costs on a straight-line basis over the terms of the related leases. The Company’s leases in place intangible asset relates to values assigned leases associated with acquired properties. Leases in place are amortized over the term of the respective leases, while legal and marketing and tenant relationship intangible assets are amortized over their estimated useful lives. Acquisition deposits and escrows relate to advance funding of acquisitions to be completed.

The Company reports amortization of financing costs, amortization of premiums, and accretion of discounts as part of interest expense. Future amortization of lease origination costs, leases in place, financing costs, legal and marketing costs and tenant relationships is as follows:

Income Taxes

The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code and applicable Treasury regulations relating to REIT qualification. In order to maintain this REIT status, the regulations require the Company to distribute at least 90% of its taxable income to shareholders and meet certain other asset and income tests, as well as other requirements. Thus, the Company made no provision for federal income taxes for the REIT in the accompanying condensed consolidated financial statements. If the Company fails to qualify as a REIT, it will be subject to tax at regular corporate rates for the years in which it failed to qualify. If the Company loses its REIT status, it could not elect to be taxed as a REIT for five years unless the Company's failure to qualify was due to a reasonable cause and certain other conditions were satisfied.

Use of Estimates

The Company has made estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reported periods. The Company's actual results could differ from these estimates.

Noncontrolling Interests

Noncontrolling interests is the portion of equity in the Operating Partnership not attributable to the Trust. Accordingly, the Company has reported noncontrolling interests in equity on the June 30, 2015 unaudited condensed consolidated balance sheet but separate from the Company's shareholders' equity. On the June 30, 2015 and 2014 unaudited condensed consolidated statements of operations, the subsidiaries are reported at the consolidated amount, including both the amount attributable to the

Company and noncontrolling interests. The unaudited condensed consolidated statement of equity includes beginning balances, activity for the period and ending balances for shareholders' equity, noncontrolling interests and total equity.

The noncontrolling interest of the Operating Partnership common unit holders is calculated by multiplying the noncontrolling interest ownership percentage at the balance sheet date by the Operating Partnership's net assets (total assets less total liabilities). The noncontrolling interest percentage is calculated at any point in time by dividing the number of units not owned by the Company by the total number of units outstanding. The noncontrolling interest ownership percentage will change as additional units are issued or as units are redeemed for either cash or, if preferred by the Company, common stock. In accordance with GAAP, any changes in the value from period to period are charged to additional paid-in capital.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (the "FASB") issued Accounting Standards Update ("ASU") 2014-09, "Revenue from Contracts with Customers," which supersedes the revenue recognition requirements of Accounting Standards Codification ("ASC") Topic 605, "Revenue Recognition" and most industry-specific guidance on revenue recognition throughout the ASC. The new standard is principles based and provides a five step model to determine when and how revenue is recognized. The core principle of the new standard is that revenue should be recognized when a company transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The new standard also requires disclosure of qualitative and quantitative information surrounding the amount, nature, timing and uncertainty of revenues and cash flows arising from contracts with customers. The new standard will be effective for the Company in the first quarter of the year ended December 31, 2018 and can be applied either retrospectively to all periods presented or as a cumulative-effect adjustment as of the date of adoption. Early adoption is not permitted. The Company is currently evaluating the impact of adoption of the new standard on its consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, "Presentation of Financial Statements - Going Concern (Subtopic 205-40)." This ASU defines management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and provides guidance on required financial statement footnote disclosures. This ASU is effective for annual periods ending after December 15, 2016. The Company will adopt the ASU in 2016.

In April 2015, the FASB issued ASU 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. This new guidance requires the presentation of unamortized debt issuance costs to be shown in the liabilities section of the consolidated balance sheets as a reduction of the principal amount of the associated debt, rather than as an asset. ASU 2015-03 is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted, including adoption in an interim period. The new standard must be applied using a retrospective approach by

The Company is involved in various legal proceedings arising in the ordinary course of its business, including, but not limited to commercial disputes. The Company records a liability when it considers the loss probable and the amount can be reasonably estimated.

On July 10, 2008, one of the Company's subsidiaries, Perimeter Associates, LLC ("Perimeter"), sued a tenant for breach of contract, guaranty of the contract and fraud related to an executed lease. In response, on August 22, 2008, the defendant filed a counterclaim against Perimeter for breach of contract, unjust enrichment and fraud. Subsequent to the initial judgment, the defendant's attorney applied to the court to be reimbursed for approximately \$368,000 in legal fees incurred by the defendant during litigation. On July 9, 2013, the lower court awarded the defendant approximately \$267,000 of the defendant's legal fees. Executive Overview

The June 30, 2015 three and six month periods includes the combined operations of all properties owned at December 31, 2014 as described in our 2014 Form 10-K, approximately six months of operations for Pierpont Centre, a full quarter of Alex City Marketplace, and a partial quarter of operations for Butler Square and Brook Run. Conversely, the June 2014 three and six month periods only include a full period of combined operations for all properties owned at December 31, 2013 as described in our 2013 Annual Report on Form 10-K for the year ended December 31, 2013 ("2013 Form 10-K"). The June 2015 three and six month period results also include the full impact from internalizing the Operating Companies. In providing the following discussion and analysis of our results of operations, we have separately identified the activities of properties owned for the entire 2014 annual period (collectively referred to as "same stores") and of those properties acquired during 2014 and 2015 (collectively referred to as "new stores"). This illustrates the significant impact the properties acquired during 2014 and 2015 had on our results of operations.

Leasing Activity

Renewals during the three months ended June 30, 2015 consisted of sixteen deals totaling 67,138 square feet with a weighted-average increase of \$0.32 per square foot, representing an increase of 4.05% over prior rates. The rates on negotiated renewals resulted in a weighted-average increase of \$0.98 per square foot on nine renewals, a \$4.00 decrease on one renewal and no change per square foot on six renewals. Three renewals represented options being exercised. Additionally, we signed six new leases totaling 9,462 square feet during the three months ended June 30, 2015 with weighted-average rents of \$13.01.

Renewals during the first six months of 2015 were comprised of twenty-six deals totaling 155,963 square feet with a weighted-average increase of \$0.66 per square foot, representing an increase of 7.24% over prior rates. The rates on negotiated renewals resulted in a weighted-average increase of \$0.97 per square foot on eighteen renewals, a \$3.07 weighted-average decrease on two renewals and no changes per square foot on six renewals. Seven renewals represented options being exercised.

Approximately 11.31% of our gross leasable area is subject to leases that expire during the twelve months ending June 30, 2016 that have not already been renewed. Based on recent market trends, we believe that these leases will be renewed at amounts and terms comparable to existing lease agreements.

Property Revenues

Total same store property revenues for the three and six month periods ended June 30, 2015 were \$3.89 million and \$7.51 million, respectively, compared to \$3.63 million and \$7.30 million, respectively, for the three and six month periods ended June 30, 2014. Same store revenues fluctuated primarily due to Riversedge North ceasing to pay rent due to management internalization, increases in tenant reimbursements and contractual rent adjustments. Riversedge North contributed \$99,000 and \$197,000, respectively, to property revenues for the three and six month periods ended June 30, 2014. Excluding the impact of Riversedge North on the 2014 property revenues, same store property revenues increased approximately \$351,000 and \$412,000, respectively, for the three and six month periods ended June 30, 2015 as compared to the prior periods.

The three and six month periods ended June 30, 2015 represent full periods of operations reported for the twelve acquisitions made in 2014, and partial periods of operations for the Pierpont Centre, Alex City Marketplace, Butler Square and Brook Run acquisitions made in the three and six month periods ended June 30, 2015. These properties (new stores) contributed \$2.58 million and \$4.39 million, respectively, in revenues for the three and six month periods ended June 30, 2015, respectively, compared to no contributions to revenue for the three and six month periods ended June 30, 2014. Going forward we believe these properties will generate a significant amount of revenue for us and we will benefit from future contractual rent increases and expansion opportunities.

Property Expenses

Total same store property expenses for the three and six month periods ended June 30, 2015 were \$1.06 million and \$2.15 million, respectively, compared to \$909,037 and \$1.83 million, respectively, for the three and six month periods ended June 30, 2014. The increase was primarily due to the nature and timing of repairs and maintenance, increases in real estate taxes due to property reassessments of prior acquisitions, and increases in cost allocations associated with managing the properties for the three and six months ended June 30, 2015 as compared to the 2014 three and six month periods.

There were no significant unusual or non-recurring items included in new store property expenses for the three and six month periods ended June 30, 2015.

Property Net Operating Income

Total property net operating income was \$4.57 million and \$8.37 million for the three and six month periods ended June 30, 2015, respectively, compared to \$2.72 million and \$5.47 million for the three and six month periods ended June 30, 2014, respectively. The June 2015 three and six month periods results represent increases of \$1.84 million and \$2.90 million, respectively, over the comparable June 2014 periods. New stores accounted for the majority of these increases by generating \$1.75 million and \$3.01 million, respectively, in property net operating income for the three and six month periods ended June 30, 2015, compared to \$0 for the three and six month periods ended June 30, 2014.

Other Operating Expenses

Same store other operating expenses for the three and six month periods ended June 30, 2015 period were \$4.62 million and \$8.11 million, respectively, representing an increase of \$1.52 million and \$2.40 million, respectively, over the three and six month periods ended June 30, 2014, respectively. This increase in same store operating expenses resulted from increases of \$1.49 million and \$2.48 million for the three and six month periods, respectively, in general and administrative expenses offset by decreases of \$60,873 and \$197,693 in depreciation and amortization expenses. The decreases in same store depreciation and amortization expense for the three and six month periods ended June 30, 2015, resulted from more assets becoming fully depreciated and amortized since the June 2014 periods.

Total general and administrative expenses for the three and six month periods ended June 30, 2015 increased by \$2.13 million and \$3.61 million, respectively, as compared to the 2014 periods. General and administrative expenses during the June 2015 three and six month periods included approximately \$1.75 million and \$2.60 million, respectively, of non-recurring expenses related to acquisitions, capital events, legal expenses, commissions, marketing, Sarbanes-Oxley compliance, employee recruitment and other miscellaneous items which are detailed below.

	Three Months Ended June 30, 2015	Six Months Ended June 30, 2015
	(unaudited)	
Acquisition costs	\$ 740,223	\$ 1,433,739
Capital related costs	553,132	621,650
Perimeter legal accrual	124,300	124,300
Commission expenses	115,287	115,287

Employee recruitment	49,000	49,000
Other	42,127	67,127
	\$ 1,745,135	\$ 2,596,669

Acquisition expenses were primarily related to financial statement audits, appraisals and legal matters for the acquisitions completed in the six months ended June 30, 2015 and sourcing and due diligence of potential acquisitions currently in our pipeline. Capital related costs resulted from the March 2015 Series C Preferred Stock offering and subsequent conversion, and the Series A Preferred Stock and Series B Preferred Stock Exchange Offer completed in July 2015. Additionally, there were approximately \$150,700 and \$348,700 of costs related to our audit and tax return preparation, retail and investor events, fees and subscriptions and other one-time annual costs that were expensed during the three and six month periods ended June 30, 2015, respectively. General and administrative expenses for the three and six months ended June 30, 2015 reflect the internalization of the Operating Companies, including approximately \$1.04 million and \$1.70 million of compensation and benefits expenses that

were not incurred during the 2014 periods, respectively, and other operating costs resulting from internalizing the Operating Companies.

Interest Expense

Same store interest expense was \$1.40 million and \$3.11 million, respectively, for the three and six month periods ended June 30, 2015, which represents a decrease of \$139,852 and an increase of \$207,425, respectively, as compared to \$1.54 million and \$2.91 million for the three and six month periods ended June 30, 2014. The quarterly decrease primarily resulted from the \$3.00 million reduction in senior convertible debt, the repayment of the Lumber River loan and a decline in outstanding debt for same stores. The six month increase primarily resulted from the acceleration of amortization expense on loan costs related to the \$3,000,000 of senior convertible debt that was converted in Series C Preferred Stock in March 2015. Total interest expense for the three and six months ended June 30, 2015 increased \$680,955 and \$1.69 million, respectively. In addition to the impact of the senior debt, total interest expense was affected by the issuance of \$68.6 million of acquisition-related debt since June 2014.

Funds from Operations

We use Funds from Operations ("FFO"), a non-GAAP measure, as an alternative measure of our operating performance, specifically as it relates to results of operations and liquidity. We compute FFO in accordance with standards established by the Board of Governors of NAREIT in its March 1995 White Paper (as amended in November 1999 and April 2002). As defined by NAREIT, FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property, plus real estate related depreciation and amortization (excluding amortization of loan origination costs) and after adjustments for unconsolidated partnerships and joint ventures. Most industry analysts and equity REITs, including us, consider FFO to be an appropriate supplemental measure of operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company's real estate between periods, or as compared to different companies. Management uses FFO as a supplemental measure to conduct and evaluate our business because there are certain limitations associated with using GAAP net income alone as the primary measure of our operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, while historically real estate values have risen or fallen with market conditions. Accordingly, we believe FFO provides a valuable alternative measurement tool to GAAP when presenting our operating results.

Below is a comparison of same and new store FFO for the three and six month periods ended June 30, 2015 and 2014:

During the three and six month periods ended June 30, 2015, same store FFO decreased \$1.35 million and \$2.91 million, respectively, primarily due to increases of \$1.49 million and \$2.48 million, respectively, in corporate general and administrative expenses for the three and six month period ended June 30, 2015. Total FFO decreased \$1.05 million and \$2.58 million, respectively, for the three and six month periods ended June 30, 2015, primarily for the same reasons. The increases in interest expense and corporate general and administrative expenses are discussed in the “Other Operating Expenses” section above.

We believe the computation of FFO in accordance with NAREIT's definition includes certain items that are not indicative of the results provided by our operating portfolio and affect the comparability of our period-over-period performance. These items include, but are not limited to, legal settlements, non-cash share-based compensation expense, non-cash amortization on loans and acquisition costs. Therefore, in addition to FFO, management uses Core FFO, which we define to exclude such items. Management believes that these adjustments are appropriate in determining Core FFO as they are not indicative of the operating performance of our assets. In addition, we believe that Core FFO is a useful supplemental measure for the investing community to use in comparing us to other REITs as many REITs provide some form of adjusted or modified FFO. However, there can be no assurance that Core FFO presented by us is comparable to the adjusted or modified FFO of other REITs.

Total Core FFO for the three and six month periods ended June 30, 2015, respectively, is shown in the table below:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2015	2014	2015	2014

Preferred stock dividends for the three and six month period ended June 30, 2015 include approximately \$1.63 million and \$1.98 million of dividends (excluding the impact of accretion adjustments), respectively, related to the Series C Preferred Stock.

The preferred stock accretion adjustments represent the amortization of offering costs associated with raising the Series B and Series C Preferred Stock. The Series C Preferred Stock adjustment represents the majority of the total since the related offering costs were amortized until June 11, 2015, when we closed on the Series C Preferred Stock conversion.

Liquidity and Capital Resources

At June 30, 2015, our consolidated cash and cash equivalents totaled \$49.17 million compared to consolidated cash and cash equivalents of \$9.97 million at December 31, 2014. Cash flows from operating activities, investing activities and financing activities for the six month periods ended June 30, 2015 and 2014 were as follows:

	Six Months Ended June 30,		Period Over Period Change	
	2015	2014	\$	%
Operating activities	\$ (12,190,319)	\$ (1,622,819)	\$ (10,567,500)	651.18%
Investing activities	\$ (19,243,868)	\$ (187,507)	\$ (19,056,361)	10,163.01%
Financing activities	\$ 70,630,283	\$ 16,899,110	\$ 53,731,173	317.95%

Operating Activities

During the six months ended June 30, 2015, our cash flows used by operating activities were \$12.19 million, compared to cash flows used in operating activities of \$1.62 million during the six months ended June 30, 2014. Operating cash flows were primarily impacted by the \$6.37 million increase in our consolidated net loss due to the factors discussed in the Results of Operations section above, specifically the \$3.61 million increase in total general and administrative expenses associated with operating the REIT and the addition of nineteen properties since June 2014. Also impacting operating cash flows was approximately \$9.5 million paid in escrows (included in deferred cost and other assets, net on condensed consolidated balance sheets as of June 30, 2015) on our contemplated acquisitions, \$7.60 million of which related to Beaver Ruin Village I and Beaver Ruin Village II, with \$1.90 million related to Columbia Fire Station, which were all completed subsequent to June 30, 2015, but required the equity funds to be escrowed on June 30, 2015.

Investing Activities

During the six months ended June 30, 2015, our cash flows used in investing activities were \$19.24 million, compared to cash flows used in investing activities of \$187,507 during the six months ended June 30, 2014. The 2015 amount reflects the cash used to acquire the six properties in the six months ended June 30, 2015.

Financing Activities

During the six months ended June 30, 2015, our cash flows from financing activities were \$70.63 million, compared to \$16.90 million of cash flows from financing activities during the six months ended June 30, 2014. During the six months ended June 30, 2015, we received \$83.42 million from the completion of our Series C Preferred Stock offering in March 2015. These proceeds were partially offset by dividends and distributions, which increased to \$5.67 million in the six months ended June 30, 2015 from \$2.01 million during the six months ended June 30, 2014 period as a result of the additional common shares, common units and preferred shares issued during the period from July 2014 to June 2015. These increases were offset by the payoffs of the Lumber River note and the VantageSouth line of credit, which totaled \$4.9 million.

There was no refinancing activity during the six month periods ended June 30, 2015 and 2014.

As of June 30, 2015 and December 31, 2014, our debt balances consisted of the following:

	June 30, 2015	December 31, 2014
Fixed-rate notes	\$ 163,826,466	\$ 141,450,143

The weighted-average interest rate and term of our fixed-rate debt are 4.86% and 6.62 years, respectively, at June 30, 2015. We have \$20.83 million of debt maturing during the twelve months ending June 30, 2016. While we anticipate being able to refinance our maturing loans at reasonable market terms upon maturity, our inability to do so may materially impact our financial position and results of operations. See the financial statements included elsewhere in this Form 10-Q for additional mortgage indebtedness details.

Future Liquidity Needs

The \$20.83 million in debt maturities, ongoing debt service, preferred stock dividends and the \$0.21 per share targeted annual common stock dividend we are currently paying represent the most significant factors outside of normal operating activities impacting cash flow over the next year. Our success in refinancing the debt and executing on our growth strategy will dictate our liquidity needs going forward. If we are unable to execute in these areas, our ability to grow and pay future dividends may be limited without additional capital.

In addition to liquidity required to fund debt payments, distributions and acquisitions, we may incur some level of capital expenditures during the year for the existing thirty-nine properties that cannot be passed on to our tenants. The majority of these expenditures occur subsequent to acquiring a new property that requires significant improvements to maximize occupancy and lease rates, with an existing property that needs a facelift to improve its marketability or when tenant improvements are required to make a space fit a particular tenant's needs. Significant capital expenditures could also impact our ability to grow and pay future dividends.

Off-Balance Sheet Arrangements

As of June 30, 2015, the KeyBank and VantageSouth lines of credit represent the only significant off-balance sheet arrangements that are likely to have a material effect on our financial condition, revenues or expenses, results of operations, liquidity, capital resources or capital expenditures.

New Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which supersedes the revenue recognition requirements of ASC Topic 605, "Revenue Recognition" and most industry-specific guidance on revenue recognition throughout the ASC. The new standard is principles based and provides a five step model to determine when and how revenue is recognized. The core principle of the new standard is that revenue should be recognized when a company transfers promised goods or services to customers in an amount that reflects the consideration to which we expect to be entitled in exchange for those goods or services. The new standard also requires disclosure of qualitative and quantitative information surrounding the amount, nature, timing and uncertainty of revenues and cash flows arising from contracts with customers. The new standard will be effective for us in the first quarter of the year ended December 31, 2018 and can be applied either retrospectively to all periods presented or as a cumulative-effect adjustment as of the date of adoption. Early adoption is not permitted. We are currently evaluating the impact of adoption of the new standard on its consolidated financial statements.

In August 2014, the FASB issued ASU 2014-15, "Presentation of Financial Statements - Going Concern (Subtopic 205-40)." This ASU defines management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and provides guidance on required financial statement footnote disclosures. This ASU will be effective for annual periods ending after December 15, 2016. We will adopt the ASU in 2016.

In April 2015, the FASB issued ASU 2015-03, Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. This new guidance requires the presentation of unamortized debt issuance costs to be shown in the liabilities section of the consolidated balance sheets as a reduction of the principal amount of the associated debt, rather than as an asset. ASU 2015-03 is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted, including adoption in an interim period. The new standard must be applied using a retrospective approach by restating prior period comparative consolidated balance sheets. We do not expect the adoption of ASU 2015-03 to materially impact its financial position or results of operations.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The management of the Trust, under the supervision and with the participation of our principal executive and financial officers, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such information is accumulated and communicated to the Trust's management, as appropriate, to allow timely decisions regarding required disclosure. Based on such evaluation, our principal executive and financial officers have concluded that such disclosure controls and procedures were effective as of June 30, 2015 (the end of the period covered by this Form 10-Q).

Changes in Internal Control Over Financial Reporting

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are subject to various legal proceedings and claims that arise in the ordinary course of business. These matters are generally covered by insurance. While the resolution of these matters cannot be predicted with certainty, management believes the final outcome of such matters will not have a material adverse effect on our financial position, results of operation or liquidity.

On July 10, 2008, one of our subsidiaries, Perimeter Associates, LLC ("Perimeter"), sued a tenant for breach of contract, guaranty of the contract and fraud related to an executed lease. In response, on August 22, 2008, the defendant filed a counterclaim against Perimeter for breach of contract, unjust enrichment and fraud. On April 8, 2013, the court found in favor of the defendant and assessed damages against Perimeter in the amount of \$13,300. On or about May 8, 2013, Perimeter appealed the judgment of the lower court to the Oklahoma Supreme Court. Subsequent to the initial judgment, the defendant's attorney applied to the court to be reimbursed for approximately \$368,000 in legal fees incurred by the defendant during

litigation. On July 9, 2013, the lower court awarded the defendant approximately \$267,000 of the defendant's legal fees. On July 24, 2015, the Oklahoma Court of Civil Appeals affirmed the judgment against Perimeter, resulting in a total award of approximately \$352,000. The Company will appeal the judgment to the Oklahoma Supreme Court. The Company has posted bonds for both judgments and has accrued for the judgments in its financial statements. The Company will continue to vigorously litigate the issues raised upon appeal.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(a) On June 2, 2015, in connection with the acquisition of Brook Run Shopping Center and pursuant to the terms of the Contribution and Subscription Agreement between the Operating Partnership and 19 accredited investors (the "Brook Run Contributors"), the Operating Partnership exchanged an aggregate of 574,743 of its Common Units worth \$1.33 million for the Brook Run Contributors' membership interests in Brook Run Associates, LLC, a Virginia limited liability company. The Common Units issued to the Brook Run Contributors represents, in the aggregate, 14.09% of the Common Units in the Operating Partnership.

The Common Units are redeemable for cash equal to the then-current market value of one share of the Trust's common stock or, at the Trust's option, one share of the Trust's common stock, commencing 12 months following the completion of this exchange. The Operating Partnership did not receive any proceeds from the exchange. The Operating Partnership only received membership interests in Brook Run Associates, LLC. The issuance of the Common Units was exempt from registration pursuant to the exemption provided by Rule 506 of Regulation D under the Securities Act of 1933, as amended.

No underwriter was used in connection with the issuance of these Common Units.
