

Wheeler Real Estate Investment Trust, Inc.

This is Prospectus Supplement No. 15 (this “Prospectus Supplement”) to our Prospectus, dated September 29, 2023 (the “Prospectus”), relating to the issuance from time to time by Wheeler Real Estate Investment Trust, Inc. of up to 101,100,000 shares of our common stock, par value \$0.01 (“Common Stock”). Terms used but not defined in this Prospectus Supplement have the meanings ascribed to them in the Prospectus.

The purposes of this Prospectus Supplement are as follows:

- to include our Annual Report on Form 10-K for the year ended December 31, 2023; and
- to update the “Experts” section of the Prospectus.

Annual Report on Form 10-K for the Year Ended December 31, 2023

On March 5, 2024, we filed with the Securities and Exchange Commission our Annual Report on Form 10-K for the year ended December 31, 2023, a copy of which is attached to this Prospectus Supplement as Appendix A.

Experts

The following disclosure is added to the “Experts” section of the Prospectus.

The historical consolidated financial statements of our Company as of December 31, 2023 and 2022 and for each of the two years in the period ended December 31, 2023 incorporated by reference in this Prospectus and in the Registration Statement have been so incorporated in reliance on the report of Cherry Bekaert LLP, an independent registered public accounting firm, incorporated herein by reference, given on the authority of such firm as experts on auditing and accounting.

Investing in our Common Stock involves a high degree of risk. You should review carefully the risks and uncertainties described under the heading “Risk Factors” beginning on page 4 of the Prospectus, and under similar headings in any amendments or supplements to the Prospectus.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of the Prospectus. Any representation to the contrary is a criminal offense.

The date of this Prospectus Supplement is March 6, 2024.

CAUTIONARY STATEMENT ON FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K (the "Form 10-K") of Wheeler Real Estate Investment Trust, Inc. (the "Trust," the "REIT," the "Company," "WHLR," "we," "our" or "us") contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act") that are subject to risks, uncertainties and other factors which may cause the actual results, performance or achievements to be

materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations, are generally identifiable by use of the words "may", "will", "should", "estimates", "projects", "anticipates", "believes", "expects", "intends", "future", and words of similar import, or the negative thereof. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements.

Forward-looking statements that were true at the time made may ultimately prove to be incorrect or false. You are cautioned to not place undue reliance on forward-looking statements, which reflect our management's view only as of the date of this Form 10-K. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results.

Factors that could cause actual results, performance or achievements to differ materially from any forward-looking statements made in this Form 10-K include, but are not limited to:

- the use of and demand for retail space;
- general and economic business conditions, including those affecting the ability of individuals to spend in retail shopping centers and/or the rate and other terms on which we are able to lease our properties;
- the loss or bankruptcy of the Company's tenants;
- the state of the U.S. economy generally, or specifically in the Mid-Atlantic, Southeast and Northeast where our properties are geographically concentrated;
- consumer spending and confidence trends;
- availability, terms and deployment of capital;
- substantial dilution of our common stock, par value \$0.01 ("Common Stock") and steep decline in its market value resulting from the exercise by the holders of our Series D Cumulative Convertible Preferred Stock (the "Series D Preferred Stock") of their redemption rights and downward adjustment of the conversion price on our outstanding 7.00% Subordinated Convertible Notes due 2031 (the "Convertible Notes"), each of which has already occurred and is anticipated to continue;
- the degree and nature of our competition;
- changes in governmental regulations, accounting rules, tax rates and similar matters;
- adverse economic or real estate developments in our markets of the Mid-Atlantic, Southeast and Northeast;
- the ability and willingness of the Company's tenants and other third parties to satisfy their obligations under their respective contractual arrangements with the Company;
- the ability and willingness of the Company's tenants to renew their leases with the Company upon expiration;
- the Company's ability to re-lease its properties on the same or better terms in the event of non-renewal or in the event the Company exercises its right to replace an existing tenant, and obligations the Company may incur in connection with the replacement of an existing tenant;
- litigation risks generally;
- the risk that shareholder litigation in connection with the Cedar Acquisition (as defined herein) may result in significant costs of defense, indemnification and liability;
- financing risks, such as the Company's inability to obtain new financing or refinancing on favorable terms as the result of market volatility or instability and increases in the Company's borrowing costs as a result of changes in interest rates and other factors;

- the impact of the Company's leverage on operating performance;
- risks related to the market for retail space generally, including reductions in consumer spending, variability in retailer demand for leased space, adverse impact of e-commerce, ongoing consolidation in the retail sector and changes in economic conditions and consumer confidence;
- risks endemic to real estate and the real estate industry generally;
- the adverse effect any future pandemic, endemic or outbreak of infectious diseases, and mitigation efforts, including government-imposed lockdowns, to control their spread;
- risks to our information systems - or those of our tenants or vendors - from service interruption, misappropriation of data, breaches of security or information technology, or other cyber-related attacks;
- competitive risks;
- risks related to the geographic concentration of the Company's properties in the Mid-Atlantic, Southeast and Northeast;
- the Company's ability to maintain listing on Nasdaq Capital Market ("Nasdaq");
- the effects of the one-for-ten reverse stock split of our Common Stock (which we refer to as the "Reverse Stock Split") on the trading market of our Common Stock;
- damage to the Company's properties from catastrophic weather and other natural events, and the physical effects of climate change;
- the risk that an uninsured loss on the Company's properties or a loss that exceeds the limits of the Company's insurance policies could subject the Company to lost capital or revenue on those properties;
- the risk that continued increases in the cost of necessary insurance could negatively impact the Company's profitability;

- the Company’s ability and willingness to maintain its qualification as a real estate investment trust (“REIT”) in light of economic, market, legal, tax and other considerations;
- the ability of our operating partnership, Wheeler REIT, L.P., and each of our other partnerships and limited liability companies to be classified as partnerships or disregarded entities for federal income tax purposes;
- the impact of e-commerce on our tenants’ business; and
- the inability to generate sufficient cash flows due to market conditions, competition, uninsured losses, changes in tax or other applicable laws.

Forward-looking statements in this Form 10-K should be read in light of these factors. Except for ongoing obligations to disclose material information as required by the federal securities laws, the Company undertakes no obligation to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. All of the above factors are difficult to predict, contain uncertainties that may materially affect the Company’s actual results and may be beyond the Company’s control. New factors emerge from time to time, and it is not possible for the Company’s management to predict all such factors or to assess the effects of each factor on the Company’s business. Accordingly, there can be no assurance that the Company’s current expectations will be realized.

Part I

Item 1. Business.

Overview

Wheeler Real Estate Investment Trust, Inc. is a Maryland corporation formed on June 23, 2011 in connection with the Company’s initial public offering. The Trust serves as the general partner of Wheeler REIT, L.P. (the “Operating Partnership”), which was formed as a Virginia limited partnership on April 5, 2012. Prior to the Cedar Acquisition (as defined below), substantially all of our assets were held by, and all of our operations were conducted through, our Operating Partnership. At December 31, 2023, the Company owned 99.13% of the Operating Partnership.

On August 22, 2022, the Company completed a merger transaction with Cedar Realty Trust, Inc. (“Cedar” or “CDR”). As a result of the merger, the Company acquired all of the outstanding shares of Cedar’s common stock (the “Cedar Acquisition”), which ceased to be publicly traded on the New York Stock Exchange (“NYSE”). Cedar’s outstanding 7.25% Series B Preferred Stock and 6.50% Series C Preferred Stock remain outstanding and continue to trade on the NYSE. As a result, Cedar became a subsidiary of the REIT. Cedar’s assets are held by, and its operations are conducted through, its operating partnership, Cedar Realty Trust Partnership, LP.

The Company has elected to be taxed as a REIT under applicable provisions of the Internal Revenue Code of 1986, as amended (the “Code”). To qualify as a REIT under those provisions, the Company must have a preponderant percentage of its assets invested in, and income derived from, real estate and related sources. The Company is a fully-integrated, self-managed commercial real estate investment company that owns, leases and operates income-producing retail properties with a primary focus on grocery-anchored centers.

For additional information on recent business developments, see Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations in this Form 10-K.

Portfolio

Our portfolio contains retail properties in secondary and tertiary markets, with a particular emphasis on grocery-anchored retail centers. Our properties are in communities that have stable demographics and have historically exhibited favorable trends, such as strong population and income growth. We generally lease our properties to national and regional retailers that offer consumer goods and services and generate regular consumer traffic. We believe our tenants carry goods and offer services that are less impacted by fluctuations in the broader U.S. economy and consumers’ disposable income, generating more predictable property level cash flows.

The Company’s portfolio of properties is dependent upon regional and local economic conditions. As of December 31, 2023, we own a portfolio consisting of seventy-nine properties, including seventy-five retail shopping centers, totaling 8,142,065 leasable square feet which is 93.7% leased (our “operating portfolio”), and four undeveloped land parcels totaling approximately 61 acres. The properties are geographically located in the Mid-Atlantic, Southeast and Northeast, which markets represented approximately 45%, 40% and 15%, respectively, of the total annualized base rent of the properties in its portfolio as of December 31, 2023.

No tenant represents greater than approximately 6% of the Company’s annualized base rent or 7% of gross leasable square footage. The top 10 tenants account for 23.4% or \$17.7 million of annualized base rent and 26.2% or \$2.1 million of gross leasable square footage at December 31, 2023.

Human Capital Management

As of December 31, 2023, we have 52 full-time employees. We seek to hire experienced leaders and team members and offer competitive wage and benefit programs. Employees are offered flexibility to meet personal and family needs, which was further expanded when the COVID-19 pandemic began. In addition to medical insurance support, the Company offers wellness programs, including free short- and long-term disability insurance, free basic life insurance policy with accidental death and dismemberment coverage, employee assistance programs that include emotional health support, gym memberships, volunteer time off and tuition assistance. Tuition assistance includes assistance to learn a new language as the Company identifies opportunities to better serve a diverse tenant base.

The Company takes steps to measure and improve upon its level of employee engagement and to create a diverse and inclusive workplace, all while creating value for our stakeholders. The Company’s employees are expected to exhibit honest, ethical and respectful conduct in the workplace. Every year, the Company requires its employees to review and certify their compliance with the Company’s various policies, including its Code of Business Conduct and Ethics.

Business Objectives and Investment Strategy

Our primary business objective is to maximize the value of our portfolio. We intend to achieve this objective utilizing the following investment strategies:

- **Focus on necessity-based retail.** Own and operate retail properties that serve the essential day-to-day shopping needs of the surrounding communities. These necessity-based centers attract high levels of daily traffic resulting in cross-selling of goods and services from our tenants. The majority of our tenants provide non-cyclical consumer goods and services that are less impacted by fluctuations in the economy. We believe these centers that provide essential goods and services such as groceries result in a stable, lower-risk portfolio of retail investment properties.
- **Focus on secondary and tertiary markets with strong demographics and demand.** Our properties are in markets that have strong demographics such as population density, population stability, consistent tenant sales trends and growth in household income. We seek to identify new tenants and renew leases with existing tenants in these locations that support the need for necessity-based retail and limited new supply. We aim to identify and pursue attractive investment opportunities in regions with low taxes and a pro-business environment.
- **Increase operating income through leasing strategies and expense management** We employ intensive lease management strategies to optimize occupancy. Management has extensive expertise in acquiring and managing under-performing properties and increasing operating income through more effective leasing strategies and expense management. Our leases generally require the tenant to reimburse us for a substantial portion of the expenses incurred in operating, maintaining, repairing, and managing the shopping center and the common areas, along with the associated insurance costs and real estate taxes. In many cases, the tenant is either fully or partially responsible for all maintenance of the property, thereby limiting our financial exposure towards maintaining the center and increasing our net income. We refer to this arrangement as a “triple net lease.”
- **Selectively utilize our capital to improve retail properties.** We intend to make capital investments where the risk adjusted returns on such capital is accretive to our stockholders. We allocate capital to value-added improvements of retail properties to increase rents, extend long-term leases with anchor tenants and increase occupancy. We selectively allocate capital to revenue enhancing projects that we believe will improve the market position of a given property.
- **Recycling and sensible management of our property portfolio.** We intend to sell non-income producing land parcels or non-core assets utilizing sales proceeds to deleverage the balance sheet and invest in higher yielding opportunities. Properties may be slated for disposition based upon management’s periodic review of our portfolio, and approval by our Board of Directors (the “Board of Directors”).
- **Strategy for optimizing capital structure.** The Company seeks to mitigate risk and optimize its capital structure through continuous focus on maintaining prudent leverage and lengthy average debt maturities, as well as access to a diverse selection of capital sources, including the secured and unsecured debt markets, unsecured lines of credit, and other sources.
- **Strategy for integrating acquisitions.** As the Company undertakes acquisitions, we seek to thoughtfully integrate the acquired properties and any software and personnel to maximize efficiencies both at the property and corporate level.

Governmental Regulations Affecting Our Properties

We and our properties are subject to a variety of federal, state and local environmental, health, safety, tax and similar laws. The application of these laws to a specific property that we own depends on a variety of property-specific circumstances, including the current and former uses of the property, the building materials used at the property and the physical layout of the property. Neither existing environmental, health, safety and similar laws nor the costs of our compliance with these laws has had a material adverse effect on our financial condition or results of operations, and management does not believe they will for the fiscal year ending December 31, 2024. In addition, we have not incurred, and do not expect to incur, any material costs or liabilities due to environmental contamination at properties we currently own or have owned in the past. However, we cannot predict the impact of new or changed laws or regulations on properties we currently own or may acquire in the future. We have no current plans for substantial capital expenditures with respect to compliance with environmental, health, safety and similar laws and we carry environmental insurance that covers a number of environmental risks for most of our properties.

Competition

Numerous commercial developers and real estate companies compete with us with respect to the leasing of properties. Some of these competitors may possess greater capital resources than we do, although we do not believe that any single competitor or group of competitors in any of the primary markets where our properties are located are dominant in that market. This competition may interfere with our ability to attract and retain tenants, leading to increased vacancy rates and/or reduced rents and adversely affect our ability to minimize operating expenses.

Retailers at our properties also face increasing competition from online retailers, outlet stores, discount shopping clubs, superstores, and other forms of sales and marketing of goods and services, such as direct mail. This competition could contribute to lease defaults and insolvency of tenants.

Climate

Some of our properties could be subject to natural or other disasters. In addition, we may acquire properties that are located in areas that are subject to natural disasters, such as earthquakes and droughts. Properties could also be affected by increases in the frequency or severity of tornadoes, hurricanes or other severe weather, whether such increases are caused by global climate changes or other factors. The occurrence of natural disasters or severe weather conditions can increase investment costs to repair or replace damaged properties, increase operating costs, increase future property insurance costs, and/or negatively impact the tenant demand for lease space. If insurance is unavailable to us, or is unavailable on acceptable terms, or if our insurance is not adequate to cover business interruption or losses from such events, our earnings, liquidity and/or capital resources could be adversely affected. While several of our properties are located in areas that have experienced hurricanes, tornados, severe rain storms, or snow during the past two years, there has been no substantial damage or change in operations related to weather events.

Insurance

The Company carries comprehensive liability, property, fire, flood, wind, extended coverage, business interruption and rental loss insurance covering all of the properties in its portfolio under an insurance policy, in addition to other coverages, such as trademark and pollution coverage that may be appropriate for certain of its properties. Additionally, the Company carries a directors’, officers’, entity and employment practices liability insurance policy that covers such claims made against the Company and its directors and officers. The Company believes the policy specifications and insured limits are appropriate and adequate for its properties given the relative risk of loss, the cost of the coverage and industry practice; however, its insurance coverage may not be sufficient to fully cover losses. Increases in the occurrence of natural disasters and severe weather patterns have led to a consistent increase in overall rates, deductibles and valuations from insurance carriers, which have resulted in increased costs of necessary insurance required to protect our assets.

Available Information

We are subject to the information reporting requirements of the Exchange Act. Therefore, we file reports, proxy statements and other information with the Securities and Exchange Commission (the “SEC”). The SEC maintains a website (www.sec.gov) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC, including us.

Additionally, we make available free of charge through our website <http://www.whlr.us> our most recent Annual Report on Form 10-K, including our audited consolidated financial statements, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, including exhibits, and amendments to those reports as soon as reasonably practicable after we electronically file or furnish such materials to the SEC. The content of our website is not incorporated by reference into this Annual Report on Form 10-K or in any other report or document we file with the SEC, and any references to our website is intended to be inactive textual references only.

Investors and others should note that we currently announce material information using SEC filings and press releases. In the future, we will continue to use these channels to distribute material information about the Company, and may also utilize public conference calls, webcasts, our website and/or various social media sites to communicate important information about the Company, key personnel, trends, corporate initiatives and other matters. Information that we post on our website or on social media channels could be deemed material; therefore, investors, the media, our customers, business partners and others interested in the Company should review the information posted on our website as well as on LinkedIn at <https://www.linkedin.com/company/wheeler-real-estate-investment-trust/>, in addition to following the Company's press releases and SEC filings. Any updates to the list of social media channels we may use to communicate material information will be posted on the Investor Relations page of our website at <http://www.whlr.us>. The information we post through these channels is not a part of this Annual Report on Form 10-K or any other document we file with the SEC, and the inclusion of our website addresses and LinkedIn account are as inactive textual references only.

Item 1A. Risk Factors.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information under this item.

Item 1B. Unresolved Staff Comments.

None.

Item 1C. Cybersecurity.

Cybersecurity Risk Management and Strategy

The Company depends on the proper functioning, availability and security of its information systems, including financial, data processing, communications and operating systems. Several information systems are software applications provided by third parties. Although risks from cybersecurity threats have to date not materially affected, and we do not believe they are reasonably likely to materially affect, us, our business strategy, results of operations or financial condition, like other companies in our industry, we could, from time to time, experience threats and security incidents related to our and our third-party vendors' information systems, including attempts to gain unauthorized access to our confidential data, and other electronic security breaches. Such cybersecurity attacks can range from individual attempts to gain unauthorized access to our information technology systems to more sophisticated security threats. While we employ a number of measures to prevent, detect and mitigate these threats, there is no guarantee such efforts will be successful in preventing a cybersecurity attack. A cybersecurity attack could compromise the confidential information of our employees, tenants and vendors. A successful cybersecurity attack could disrupt and otherwise adversely affect our business operations.

Assessment, identification and management of cybersecurity related risks are integrated into our overall risk management process. Cybersecurity related risks are included in the risk universe we evaluate to assess top risks to the Company at least annually. To the extent our processes identify a heightened cybersecurity related risk, risk owners are assigned to develop risk mitigation plans, which are then tracked to completion.

Cybersecurity Governance

Our Board of Directors considers cybersecurity risk as part of its risk oversight function and has delegated oversight of cybersecurity risk strategy and governance and of other information technology risks to the Audit Committee of the Board of Directors (the "Audit Committee"). The Audit Committee reports to the full Board of Directors regarding its activities, including those related to cybersecurity. Senior management, including the Company's CEO, CFO, and General Counsel, is responsible for assessing and managing cybersecurity risk, and provides briefings regarding the assessment and management of such risk to the Audit Committee, which then reports, as necessary, to the Board of Directors. Although members of our senior management do not have direct cybersecurity expertise obtained through certifications, their experience managing the Company, which includes consulting and coordinating as necessary with a third party information technology expert referred to below, enables them to effectively assess and manage material risks from cybersecurity threats.

The Company retained an information technology expert third party company to assist in managing relevant risks. In particular, the Company outsources its information technology function and monitoring to a third party provider whereby it benefits from a professionally managed network monitoring, management, maintenance, detection and response system and a 24/7 security operations center with both onsite and remote support services. Any cybersecurity incident would be reported to the Company promptly by our third party consultant and material and potentially material incidents would be assessed by management and the Audit Committee for remediation and future prevention and detection.

The Company, at least annually, updates its policies or procedures that could help mitigate cybersecurity risks. Notwithstanding the extensive approach we take to cybersecurity, we may not be successful in preventing or mitigating a cybersecurity incident that could have a material adverse effect on us. The Company has incorporated cybersecurity coverage in its insurance policies; however, there is no assurance that the insurance the Company maintains will cover all cybersecurity breaches or that policy limits will be sufficient to cover all related losses.

Property Management and Leasing Strategy

We self-administer our property management and substantially all of our leasing activities and operating and administrative functions (including leasing, legal, acquisitions, development, data processing, finance and accounting). On-site functions such as maintenance, landscaping, sweeping, plumbing and electrical are subcontracted out at each location and, to the extent permitted by their respective leases, the cost of these functions is passed on to the tenants.

We believe that focused property management, leasing and customer retention are essential to maximizing the revenue per square foot, operating cash flow and value of our properties. Our primary goal in property management is to maintain an attractive shopping environment on a cost effective basis for our tenants.

The majority of our property management and leasing functions are supervised and administered by us. We maintain regular contact with our tenants and frequently visit each asset to ensure the proper implementation and execution of our market strategies. As part of our ongoing property management, we conduct regular physical property reviews to improve our properties, react to changing market conditions and ensure proper maintenance.

Our leasing representatives are experienced in the markets in which we operate; they are familiar with current tenants and potential local, regional, and national tenants that would complement our current tenant base. We study demographics, customer sales, merchandising mix and cultivate tenant relationships to optimize the sales performance of our centers and thereby increase rents. We believe this hands-on approach maximizes the value of our shopping centers.

Approximate Number of Holders of Our Common Stock

As of March 4, 2024 there were 147 holders of record of our Common Stock. This number excludes stockholders whose stock is held in nominee or street name by brokers.

Dividend Policy

In March 2018, the Board of Directors suspended the payment of dividends on our Common Stock. The Board of Directors also suspended the quarterly dividends on shares of our Series A Preferred Stock (“Series A Preferred”), Series B Convertible Preferred Stock (“Series B Preferred”) and Series D Cumulative Convertible Preferred Stock (“Series D Preferred Stock”), beginning with the three months ended December 31, 2018.

As the Company has failed to pay cash dividends on the outstanding Series D Preferred Stock, the annual dividend rate on the Series D Preferred Stock has increased to 10.75%; commencing on the first day after the first missed quarterly payment, January 1, 2019 and will continue until such time as the Company has paid all accumulated and unpaid dividends on the Series D Preferred Stock in full. Commencing September 21, 2023, the Series D Preferred Stock holders are entitled to cumulative cash dividends at an annual dividend rate of 12.75% increased by 2% of the liquidation preference per annum on each subsequent anniversary thereafter, subject to a maximum annual dividend rate of 16%, including the 2% default rate. See Note 10, Equity and Mezzanine Equity, to the accompanying audited consolidated financial statements.

As a result of the dividend suspension on the Series D Preferred Stock, our Charter provides that no dividends may be declared or paid on the Common Stock or on our other outstanding preferred until all accumulated accrued and unpaid dividends on the Series D Preferred Stock have been paid in full. At this time, the Company does not intend to pay dividends other than those required dividend distributions, if any, that will enable us to maintain our REIT status and to eliminate or minimize our obligation to pay income and excise taxes. See “Management’s Discussion and Analysis of Financial Condition and Results of Operations-Future Liquidity Needs.”

Item 6. Reserved**Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**

You should read the following discussion of our financial condition and results of operations in conjunction with our audited consolidated financial statements and the notes thereto included in this Form 10-K. All per share amounts, common units and shares outstanding, stock-based compensation, warrants, and conversion features of our Convertible Notes for all periods presented reflect the one-for-ten Reverse Stock Split, which took effect on August 17, 2023. For more detailed information regarding the basis of presentation for the following information, you should read the notes to the audited consolidated financial statements included in this Form 10-K.

Company Overview

We are a Maryland corporation focused on owning, leasing and operating income producing grocery-anchored centers, neighborhood centers, community centers and free-standing retail properties. We have targeted properties located within developed areas, commonly referred to as in-fill, that are surrounded by communities that have strong demographics and dynamic, diversified economies that will continue to generate jobs and future demand for commercial real estate. Our primary target markets include the Mid-Atlantic, Southeast and Northeast.

Our portfolio is comprised of seventy-five retail shopping centers and four undeveloped land parcels. Twenty-one of these properties are located in South Carolina, twelve in Georgia, ten in Virginia, eight in Pennsylvania, six in North Carolina, four in Massachusetts, four in New Jersey, three in Florida, three in Connecticut, two in Kentucky, two in Tennessee, one in Alabama, one in Maryland, one in West Virginia, and one in Oklahoma. The Company’s portfolio had total gross rentable space of approximately 8,142,000 square feet and a leased level of approximately 93.7% at December 31, 2023.

In August 2022, the Company acquired Cedar, and as a result of such transaction acquired 19 shopping centers (the majority of which are grocery-anchored), which increased the Company’s presence in the Northeast.

The consolidated financial statements included in this Form 10-K include Cedar starting from the date of acquisition. We have determined that this acquisition is not a variable interest entity, as defined under the consolidation topic of the Financial Accounting Standards Board (the “FASB”), Accounting Standards Codification, or ASC, and we evaluated such entity under the voting model and concluded we should consolidate the entity. Under the voting model, we consolidate the entity if we determine that we, directly or indirectly, have greater than 50% of the voting rights and that other equity holders do not have substantive participating rights.

Recent Trends and Activities

There have been several significant events in 2023 that have impacted our Company. These events are summarized below.

Series D Preferred Stock - Exchange Offer and Consent Solicitation

On November 22, 2022, the Company commenced an exchange offer (the “Exchange Offer”), which, as subsequently amended, provided for the exchange of up to 2,112,103 outstanding shares of Series D Preferred Stock, representing 67% of the outstanding shares of Series D Preferred Stock, for (i) 6.00% Subordinated Convertible Notes due 2028, and (ii) Common Stock, in each case to have been newly issued by the Company. As of the expiration of the Exchange Offer on January 20, 2023, 864,391 shares of Series D Preferred Stock (representing 26.8% of the total outstanding Series D Preferred Stock) had been validly tendered (and not validly withdrawn) in the Exchange Offer. Accordingly, the condition that the holders of at least 66 2/3% of the outstanding shares of Series D Preferred Stock validly tender their Series D Preferred Stock into the Exchange Offer had not been satisfied and the Exchange Offer expired on January 20, 2023.

Series D Preferred Stock - Redemptions

After September 21, 2023, each holder of the Series D Preferred Stock has the right, at such holder’s option, to request that the Company redeem any or all of such holder’s shares on a monthly basis (each redemption date, a “Holder Redemption Date”), at a redemption price of \$25.00 per share, plus an amount equal to all accrued and unpaid dividends, if any, to and including the Holder Redemption Date, payable in cash or in shares of Common Stock, or any combination thereof, at the Company’s option. Redemptions commenced on September 22, 2023, and the first Holder Redemption Date was October 5, 2023.

During the year ended December 31, 2023, the Company processed 175 redemption requests, collectively redeeming 864,070 shares of Series D Preferred Stock. Accordingly, during the year ended December 31, 2023, the Company issued 52,788,687 shares of Common Stock in settlement of an aggregate redemption price of approximately \$32.7 million.

At December 31, 2023, the Company had received requests to redeem 9,843 shares of Series D Preferred Stock with respect to the January 2024 Holder Redemption Date. As such, the redemption of these Series D Preferred Stock is considered certain at December 31, 2023 and the liquidation value associated with these shares of \$0.4 million is presented as a liability.

The Company’s Convertible Notes bear interest at a rate of 7.00% per annum. Interest on the Convertible Notes is payable semi-annually in arrears on June 30 and December 31 of each year.

Interest expense on the Convertible Notes consists of the following (in thousands, except for shares):

For the years ended December 31,	Series B Preferred number of shares (1)	Series D Preferred Stock number of shares (1)	Convertible Note interest at 7% coupon	Fair value adjustment	Interest expense
2023	—	306,380	\$ 2,259	\$ 1,649	\$ 3,908
2022	1,511,541	—	\$ 2,310	\$ 1,429	\$ 3,739

(1) Shares issued as interest payment on Convertible Notes.

On June 8, 2023, the Company paid down \$0.6 million of the Convertible Notes through an open market purchase of 23,784 units totaling \$1.2 million. On September 11, 2023, the Company paid down \$0.9 million of the Convertible Notes through an open market purchase of 35,000 units totaling \$1.9 million. As a result of these transactions the Company recognized a \$1.6 million loss for the year ended December 31, 2023 which represents the fair value of the purchase over principal pay down. The loss is included in “other expense” on the consolidated statements of operations.

As of December 5, 2023, the Conversion Price (as defined below) for the Convertible Notes was approximately \$0.21 per share of the Company’s Common Stock (approximately 116.46 shares of Common Stock for each \$25.00 of principal amount of the Convertible Notes being converted).

As of February 5, 2024, the Conversion Price for the Convertible Notes was approximately \$0.12 per share of the Company’s Common Stock (approximately 209.84 shares of Common Stock for each \$25.00 of principal amount of the Convertible Notes being converted).

Related Party Transactions

Management and Leasing Services for Cedar

The Company performs property management and leasing services for Cedar, a subsidiary of the Company. During the years ended December 31, 2023 and 2022, Cedar paid the Company \$2.1 million and \$1.0 million, respectively, for these services. Related party amounts due to the Company from Cedar were \$8.1 million and \$7.3 million as of December 31, 2023 and 2022, respectively, and have been eliminated for consolidation purposes.

Investment in Stilwell Activist Investments, L.P

On June 1, 2023, the Company subscribed for an investment in the amount of \$3.0 million for limited partnership interests in Stilwell Activist Investments, L.P., a Delaware limited partnership (“SAI”). On September 1, 2023 and November 30, 2023, the Company subscribed for additional investments each in the amount of \$3.5 million for limited partnership interests in SAI.

The Company’s SAI investment is accounted for under the equity method and measured at net asset value as a practical expedient and has not been classified within the fair value hierarchy. All gains and losses, realized and unrealized, and fees are recorded through “gains (losses) on investment securities, net” on the consolidated statements of operations. As of December 31, 2023, the fair value of the Company’s SAI investment was \$10.7 million, which includes \$10.0 million from subscriptions and \$0.2 million in fees. Unrealized gains on investment securities, net of fees were \$0.7 million for the year ended December 31, 2023. See Note 4 to the accompanying audited consolidated financial statements for additional details.

The Company’s initial subscription in SAI was approved by the disinterested directors of the Company, and, after the formation of the Related Person Transactions Committee, the further subscriptions in SAI were approved by that Committee.

Excepted Holder Limits

On December 4, 2023, the Board of Directors, under the terms of the Charter, created a Capital Stock Excepted Holder Limit of 55% and a Common Stock Excepted Holder Limit of 86% for each of SAI, Stilwell Activist Fund, L.P., Stilwell Value Partners VII, L.P., and Stilwell Associates, L.P. (collectively, the “Investors”). Joseph Stilwell, a member of our Board of Directors, is the managing member and owner of Stilwell Value LLC, which is the general partner of each of the Investors.

On December 5, 2023, the Company entered into an Excepted Holder Agreement with the Investors with respect to such limits. The Capital Stock Excepted Holder Limit provides that the Investors are exempted from the Charter’s aggregate stock ownership limit of not more than 9.8% in value of the aggregate of the outstanding shares of all classes of the Company’s capital stock (as calculated under the definitions of “Aggregate Stock Ownership Limit” and “Beneficial Ownership” in the Charter) and are instead subject to the percentage limit established by the Board of Directors. The Common Stock Excepted Holder Limit provides that the Investors are exempted from the Charter’s common stock ownership limit of not more than 9.8% in value of the aggregate of the outstanding shares of the Company’s Common Stock (as calculated under the definitions of “Common Stock Ownership Limit” and “Beneficial Ownership” in the Charter) and is instead subject to the percentage limit established by the Board of Directors. The Capital Stock Excepted Holder Limit and Common Stock Excepted Holder Limit will automatically terminate upon reduction of the Investors’ capital stock and Common Stock ownership below 9.8%, respectively.

In consideration of the grant of these Excepted Holder Limits, the Investors concurrently entered into a one-year letter agreement with the Company whereby each Investor agreed that it will not exercise its right to convert the Convertible Notes into shares of Common Stock to the extent that such conversion would result in such Investor, whether on its own or as part of a “group” within the meaning of Section 13(d) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), becoming the direct or indirect “beneficial owner”, as defined in Rule 13d-3 under the Exchange Act, of common equity of the Company representing 50% or more of the total voting power of all outstanding shares of common equity of the Company that is entitled to vote generally in the election of directors.

Following the transfer of Common Stock to the Investors in consideration of the February 2024 Series D Preferred Stock redemptions made by the Investors, the Investors would have beneficially owned or constructively owned an amount of capital stock in excess of the Prior Excepted Holder Limits. On February 5, 2024, the Board of Directors agreed to increase the prior Excepted Holder Limits to permit this additional ownership and, accordingly, the Company entered into an amendment to the Excepted Holder Agreement with the Investors under which the Company increased the Capital Stock Excepted Holder Limit granted to Investors under the Excepted Holder Agreement to 60% and the Common Stock Excepted Holder Limit to 90%.

Preferred Dividends

Commencing September 21, 2023, the Series D Preferred Stock holders were entitled to cumulative cash dividends at an annual dividend rate of 12.75% increased by 2% of the liquidation preference per annum on each subsequent anniversary thereafter, subject to a maximum annual dividend rate of 16%, including the 2% default rate. The total cumulative dividends in arrears for Series D Preferred Stock is \$32.3 million as of December 31, 2023 (per share \$12.48).

Critical Accounting Estimates

The following discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements included in this Form 10-K, which have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). The preparation of these consolidated financial statements requires us to make estimates, assumptions and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The critical accounting estimates and policies summarized in this section are discussed in further detail in the notes to the consolidated financial statements appearing elsewhere in this Form 10-K. We believe that the application of these policies on a consistent basis enables us to provide useful and reliable financial information about our operating results and financial condition. The following accounting estimates are considered critical because they are particularly dependent on management’s judgment about matters that have a significant level of uncertainty at the time the accounting estimates are made, and changes to those estimates could have a material impact on our financial condition or operating results.

Revenue Recognition

Principal components of our total revenues include base and percentage rents and tenant reimbursements. The Company combines lease and nonlease components in lease contracts, which includes combining base rent and tenant reimbursement revenue. We accrue minimum (base) rent on a straight-line basis over the terms of the respective leases which results in an unbilled rent asset or deferred rent liability being recorded on the balance sheet. Certain lease agreements contain provisions that grant additional rents based on tenants’ sales volumes (contingent or percentage rent) which we recognize when the tenants achieve the specified targets as defined in their lease agreements. Although we periodically review the valuation of the asset/liability resulting from the straight-line accounting treatment of our leases in light of any changes in lease terms, financial condition or other factors concerning our tenants, they are subject to uncertainty. These assessments are inherently sensitive as they are based on the judgment of management and information available at the time of evaluation.

Rents and Other Tenant Receivables

We record a tenant receivable for amounts due from tenants such as base rents, tenant reimbursements and other charges allowed under the lease terms. We periodically review tenant receivables for collectability and determine the need for an allowance for the uncollectible portion of accrued rents and other accounts receivable based upon customer creditworthiness (including expected recovery of a claim with respect to any tenants in bankruptcy), historical bad debt levels and current economic trends. We consider a receivable past due once it becomes delinquent per the terms of the lease; our standard lease form considers a rent charge past due after five days. A past due receivable triggers certain events such as notices, fees and other allowable and required actions per the lease.

Acquired Properties and Lease Intangibles

We allocate the purchase price of the acquired properties to land, building and improvements, identifiable intangible assets and to the acquired liabilities based on their respective fair values. Identifiable intangibles include amounts allocated to acquired out-of-market leases, tenant relationships, the value of in-place leases and ground. We determine fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends and specific market and economic conditions that may affect the property. Management also estimates costs to execute similar leases including leasing commissions, tenant improvements, legal and other related expenses. Such amounts are based on estimates and forecasts which, by their nature, are highly subjective and may result in future changes in the event forecasts are not realized.

Impairment of Long-Lived Assets

We periodically review investment properties for impairment on a property-by-property basis or whenever events or changes in circumstances indicate that the carrying value of investment properties may not be recoverable, with an evaluation performed at least annually. These circumstances include, but are not limited to, declines in the property’s cash flows, occupancy and fair market value. We measure any impairment of investment property when the estimated undiscounted future operating income before

depreciation and amortization, plus its residual value, is less than the carrying value of the property. To the extent impairment has occurred, we charge to income the excess of carrying value of the property over its estimated fair value. We estimate fair value using unobservable data such as operating income, estimated capitalization rates or multiples, leasing prospects and local market information. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company may decide to sell properties. Properties classified as held for sale are reported at the lower of their carrying value or their fair value, less estimated costs to sell. When the carrying value exceeds the fair value, less estimated costs to sell, an impairment expense is recognized. The Company estimates fair value, less estimated closing costs, based on similar real estate sales transactions. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 2 and 3 inputs. Level 2 inputs are quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets in markets that are not active; and inputs other than quoted prices. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including stock purchase warrants and convertible notes, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the consolidated statement of operations. The assumptions used in these fair value estimates are based on the three-level valuation hierarchy for fair value measurement and represent Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Series D Preferred Stock

The Series D Preferred Stock was initially classified as mezzanine equity because the redemption provisions were conditional upon the occurrence of an event that was not certain. The Series D Preferred Stock was valued at net proceeds plus accrued and unpaid dividends. In 2023, this event became certain and in accordance with Accounting Standards Codification (“ASC”) 480, the Series D Preferred Stock was revalued at the redemption price which includes undeclared dividends, representing liquidation value. The adjustment to liquidation value was recognized in accumulated deficit as an adjustment to redemption value. Additionally, in accordance with ASC 480, as holders exercise their redemption rights the Series D Preferred Stock becomes mandatorily redeemable and the liquidation value of their exercise is classified as a liability.

Liquidity and Capital Resources

At December 31, 2023, our consolidated cash, cash equivalents and restricted cash totaled \$39.8 million compared to consolidated cash, cash equivalents and restricted cash of \$55.9 million at December 31, 2022. Cash flows from operating activities, investing activities and financing activities for the years ended December 31, 2023 and 2022 are as follows (in thousands):

	Years Ended December 31,		Year Over Year Change	
	2023	2022	\$	%
Operating activities	\$ 20,934	\$ 30,758	\$ (9,824)	(31.9)%
Investing activities	\$ (31,521)	\$ (133,512)	\$ 101,991	76.4%
Financing activities	\$ (5,471)	\$ 118,200	\$ (123,671)	(104.6)%

Operating Activities

Our cash flows from operating activities were \$20.9 million and \$30.8 million during the years ended December 31, 2023 and 2022, respectively, representing a decrease of 31.9% or \$9.8 million primarily due to (1) a \$12.5 million decrease in net changes in operating assets and liabilities due to timing of receipts and payments, (2) an \$11.1 increase in corporate administrative expenses, interest expense and other expenses, offset by (3) a \$13.5 million increase in net operating income (“NOI”) not attributable to same properties a result of the Cedar Acquisition.

Investing Activities

Our cash flows used in investing activities were \$31.5 million during the year ended December 31, 2023, compared to cash flows used in investing activities of \$133.5 million during the year ended December 31, 2022, representing a decrease of 76.4% primarily due to (1) \$135.5 million costs due to the Cedar Acquisition, described in Note 3 included in the accompanying audited consolidated financial statements, partially offset by (2) \$11.5 million increase in capital expenditures, (3) \$10.0 million subscription in SAI, (4) \$4.2 million in 2023 acquisitions and (5) \$7.8 million decrease in cash received from disposal of properties.

Financing Activities

Our cash flows used in financing activities were \$5.5 million during the year ended December 31, 2023, compared to cash flows from financing activities of \$118.2 million for the comparable period in 2022.

Financing activities during the year ended December 31, 2023 primarily consists of:

Cash inflows:

- \$16.4 million 2023 loan refinancing activities, net, including the Timpany Plaza Loan Agreement;

Cash outflows:

- \$10.8 million for distributions paid on noncontrolling interests;
- \$4.4 million payments for deferred financing costs;
- \$1.8 million defeasance payments;

- \$3.1 million repurchase of debt securities; and
- \$1.8 million scheduled loan principal payments on debt.

Financing activities during the year ended December 31, 2022 primarily consisted of:

Cash inflows:

- \$19.3 million 2022 loan refinancing activities, net; and
- \$130.0 million loan related to the Cedar Acquisition;

Cash outflows:

- \$12.7 million payments for deferred financing costs;
- \$4.4 million scheduled loan principal payments on debt;
- \$5.6 million loan principal payment related to the sale of Butler Square;
- \$3.1 million loan principal payment related to the sale of Walnut Hill Plaza;
- \$2.7 million for distributions paid on noncontrolling interests; and
- \$2.6 million defeasance payments.

The Company continues to endeavor to manage its debt prudently with the objective of achieving a conservative capital structure and minimizing leverage within the Company. Our debt balances, excluding unamortized debt issuance costs, consisted of the following (in thousands):

	December 31,	
	2023	2022
Fixed-rate notes	\$ 495,572	\$ 482,447
Total debt	<u>\$ 495,572</u>	<u>\$ 482,447</u>

The weighted average interest rate and term of our fixed-rate debt are 5.42% and 8.2 years, respectively, at December 31, 2023. The weighted average interest rate and term of our fixed-rate debt was 4.99% and 7.4 years, respectively, at December 31, 2022. We have \$7.2 million of debt maturing during the year ending December 31, 2024. While we anticipate being able to refinance all the loans at reasonable market terms upon maturity, our inability to do so may materially impact our financial position and results of operations. See Note 6 to the accompanying audited consolidated financial statements for additional mortgage indebtedness details.

Nasdaq Notices

On June 26, 2023, the listing qualifications staff (the “Staff”) of Nasdaq notified the Company that based on the Common Stock’s bid price closing below \$1.00 per share for 30 consecutive business days, the Company no longer complied with Nasdaq Listing Rule 5550(a)(2) (the “Bid Price Rule”) and that it had 180 calendar days to regain compliance. This rule requires listed securities to maintain a minimum bid price of \$1.00 per share, and Nasdaq Listing Rule 5810(c)(3)(A) provides that a failure to meet the minimum bid price requirement exists if the deficiency continues for a period of 30 consecutive business days.

In response, the Board of Directors determined that it was advisable to amend the Company’s charter to effect a one-for-ten reverse stock split of the Company’s Common Stock, which reverse stock split was subsequently effected on August 17, 2023.

Primarily as a result of this reverse stock split, the closing bid price of the Company’s Common Stock was at least \$1.00 per share for a minimum of ten consecutive business days, and the Company regained compliance with Nasdaq’s Bid Price Rule on September 1, 2023.

However, the Company’s Common Stock bid price has again come under significant downward pressure primarily as a result of the Company’s Series D Preferred Stock holders having the right, at each such holder’s option, after September 21, 2023, to require the Company to redeem on a monthly basis any or all of such holder’s shares of Series D Preferred Stock at a redemption price of \$25.00 per share, plus an amount equal to all accrued but unpaid dividends, if any, to and including the Holder Redemption Date. This holder redemption price may be paid in cash or in equal value of shares of Common Stock, or in any combination thereof, at the Company’s option.

The Company has chosen to pay the monthly redemption price in equal value of shares of Common Stock.

On December 7, 2023, the Staff again notified the Company that based on the Common Stock’s bid price closing below \$1.00 per share for 30 consecutive business days, the Company no longer complied with Nasdaq’s Bid Price Rule and that it had a 180-day compliance period until June 4, 2024 to regain compliance.

Material Cash Requirements, Contractual Obligations and Commitments

Our expected material cash requirements for the year ended December 31, 2024 and thereafter are comprised of (i) contractually obligated expenditures; (ii) other essential expenditures; and (iii) opportunistic expenditures.

The primary liquidity needs of the Company, in addition to the funding of our ongoing operations, at December 31, 2023 are \$7.2 million in principal and regularly scheduled payments due in the year ended December 31, 2024 as described in Note 6 to the accompanying audited consolidated financial statements.

In addition, the Company has \$3.1 million outstanding construction commitments at December 31, 2023.

In addition to liquidity required to fund debt payments and construction commitments, we may incur some level of capital expenditures during the year for our existing properties that cannot be passed on to our tenants.

To meet these future liquidity needs, the Company:

- had \$18.4 million in cash and cash equivalents at December 31, 2023;
- had \$21.4 million held in lender reserves for the purpose of tenant improvements, lease commissions, real estate taxes and insurance at December 31, 2023; and
- intends to use cash generated from operations during the year ended December 31, 2024.

Additionally, the Company plans to undertake measures to grow its operations and increase liquidity through delivering space currently leased but not yet occupied, backfilling vacant anchor spaces, replacing tenants who are in default of their lease terms, increasing future lease revenue through tenant improvements partially funded by restricted cash, disposition of non-core assets in the ordinary course of business and refinancing properties.

Our success in executing on our strategy will dictate our liquidity needs going forward. If we are unable to execute in these areas, our ability to grow may be limited without additional capital.

Convertible Notes

The Convertible Notes could have the effect of causing, if interest is paid in the future in shares of Series D Preferred Stock, substantial dilution of the Series D Preferred Stock and reduction in the value of any Series D Preferred Stock. In addition, depending on the prices at which the ongoing monthly redemptions of Series D Preferred Stock occur, the conversion price for the Convertible Notes could be repeatedly adjusted downwards which would in turn cause significant pressure on the value of the Company's Common Stock.

Series D Preferred Stock

As of December 31, 2023, the outstanding Series D Preferred Stock had an aggregate liquidation preference of approximately \$64.8 million, with aggregate accrued and unpaid dividends in the amount of approximately \$32.3 million, for a total liquidation value of \$97.1 million. After September 21, 2023, each holder of Series D Preferred Stock has the right, at such holder's option, to request that the Company redeem any or all of such holder's shares of Series D Preferred Stock on a monthly basis.

As the Series D Preferred Holders' continue to exercise their redemption rights on a monthly basis, the Company will continue to pay the aggregate redemption price in shares of our Common Stock. The Company does not believe it is in its interests to liquidate assets or incur indebtedness to fund cash redemptions of the Series D Preferred Stock and, accordingly, it has no intention of doing so. Therefore, the Company intends to continue to settle redemptions of Series D Preferred Stock in Common Stock. We believe that the issuance of Common Stock to settle redemptions in Common Stock will continue to result in a substantial dilution of the outstanding Common Stock.

Net Loss Attributable to Wheeler REIT	\$ (4,687)	\$ (12,454)	\$ 7,767	

Revenues were higher primarily as a result of (1) an increase in rental revenues of \$25.1 million, which is primarily due to a \$21.1 million increase in property revenues from the Cedar Acquisition, partially offset by 2022 property sales, (2) an increase of \$2.8 million in market lease amortization and (3) an increase of \$1.1 million in same-property revenues. See Same-Property Net Operating Income for further details about the changes within operating revenue.

Property Operating expenses were higher primarily as a result of (1) an increase of \$7.6 million in property operating expenses from the Cedar Acquisition, partially offset by 2022 property sales and (2) an increase of \$1.5 million in same-property expenses.

Impairment was lower primarily as a result of the Harbor Point Land Parcel (defined below) held for sale in 2022.

Depreciation and amortization were higher primarily as a result of the Cedar Acquisition.

Corporate general and administrative expenses were higher primarily as a result of (1) an increase of \$1.2 million in professional fees primarily a result of the Cedar Acquisition, (2) an increase of \$1.1 million in compensation and benefits primarily driven by hiring more employees due to the Cedar Acquisition and payroll related costs, and (3) an increase of \$0.7 million in corporate administration costs primarily a result of the Cedar Acquisition.

Interest expense was higher primarily as a result of a full year of the Cedar Acquisition. Below is a comparison of the components which make up interest expense (in thousands):

	December 31,		Changes	
	2023	2022	Dollars	% Change
Property debt interest - excluding Cedar debt	\$ 16,153	\$ 14,717	\$ 1,436	9.8%

Amortization of deferred financing costs	2,860	6,098	(3,238)	(53.1)%
Property debt interest - Cedar	7,635	2,939	4,696	159.8%
Total Interest Expense	\$ 32,314	\$ 30,107	\$ 2,207	7.3%

(1) Includes the fair value adjustment for the paid-in-kind interest.

Net changes in the fair value of derivative liabilities increased, which represents a non-cash adjustment from a change in the fair value that includes adjustments in valuation assumptions. See Note 7 to the accompanying audited consolidated financial statements for additional details.

Gain on preferred stock redemptions is a result of the redemptions of Series D Preferred Stock. The value of the Common Stock issued to holders redeeming their Series D Preferred Stock is the volume weighted average price per share of our Common Stock for the ten consecutive trading days immediately preceding, but not including, the Holder Redemption Date as reported on Nasdaq (the "VWAP"). During the year ended December 31, 2023, the Company has realized a gain of \$9.9 million in the aggregate due to the closing price of the Common Stock on the last VWAP date differing from the VWAP used to calculate the shares issued in each redemption round.

Other expense represents expenses which are non-operating in nature. Other expenses were \$5.5 million for the year ended December 31, 2023, which consists of capital structure transaction costs. Other expenses were \$0.7 million for the year ended December 31, 2022, which consisted of legal settlement costs.

Same-Property Net Operating Income

NOI is a widely-used non-GAAP financial measure for REITs. The Company believes that NOI is a useful measure of the Company's property operating performance. The Company defines NOI as property revenues (rental and other revenues) less property and related expenses (property operation and maintenance and real estate taxes). Because NOI excludes general and administrative expenses, depreciation and amortization, interest expense, interest income, provision for income taxes, gain or loss on sale or capital expenditures and leasing costs and impairment charges, it provides a performance measure, that when compared year over year, reflects the revenues and expenses directly associated with owning and operating commercial real estate properties and the impact to operations from trends in occupancy rates, rental rates and operating costs, providing perspective not immediately apparent from net income. The Company uses NOI to evaluate its operating performance since NOI allows the Company to evaluate the impact of factors, such as occupancy levels, lease structure, lease rates and tenant base, have on the Company's results, margins and returns. NOI should not be viewed as a measure of the Company's overall financial performance since it does not reflect general and administrative expenses, depreciation and amortization, involuntary conversion, interest expense, interest income, provision for income taxes, straight-line rents, market lease amortization, gain or loss on sale or disposition of assets, and the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company's properties. Other REITs may use different methodologies for calculating NOI, and accordingly, the Company's NOI may not be comparable to that of other REITs.

The following table is a reconciliation of same-property NOI from operating income (the most directly comparable GAAP financial measure). Same-property NOI consists only of those properties owned during the entirety of all periods presented.

	Year Ended December 31,	
	2023	2022
	(in thousands)	
Operating Income	\$ 29,407	\$ 24,598
Adjustments:		
Gain on disposal of properties	(2,204)	(2,604)
Corporate general & administrative	11,750	8,620
Impairment of assets held for sale	—	760
Depreciation and amortization	28,502	19,540
Straight-line rents	(1,370)	(800)
Above (below) market lease amortization, net	(4,849)	(2,079)
Other non-property revenue	(135)	(23)
NOI related to properties not defined as same-property	(20,061)	(6,607)
Same-Property Net Operating Income	\$ 41,040	\$ 41,405

Total same-property NOI was \$41.0 million and \$41.4 million for the years ended December 31, 2023 and 2022, respectively, representing a decrease of 0.9%. Same-property NOI was impacted by (1) \$1.3 million increase in rental revenue driven by strong leasing activity, (2) \$0.3 million increase in other revenues due to termination fees and enterprise zone credits; (3) \$0.2 million savings in rent expense due to the purchase of the Devine Street Land Acquisition, which terminated the Company's ground lease associated with this property, offset by a (4) \$1.4 million increase in property operating expenses necessary as part of financing requirements, (5) \$0.3 million demolition of an outparcel building that was placed out of service and (6) an increase in credit losses from tenants of \$0.5 million.

NOI related to properties not defined as same-properties for the year ended December 31, 2023 and 2022 is attributable to the Cedar Acquisition and the 2022 property sales. The Cedar Acquisition had property revenues of \$33.2 million and \$11.0 million, respectively, and property expenses of \$13.1 million and \$5.0 million, respectively, for

the years ended December 31, 2023 and 2022.

Funds from Operations

We use funds from operations (“FFO”), a non-GAAP measure, as an alternative measure of our operating performance, specifically as it relates to results of operations and liquidity. We compute FFO in accordance with standards established by the Board of Governors of Nareit in its March 1995 White Paper (as amended in November 1999, April 2002 and December 2018). As defined by Nareit, FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property, plus real estate-related depreciation and amortization (excluding amortization of loan origination costs), plus impairment of real estate related long-lived assets and after adjustments for unconsolidated partnerships and joint ventures. Most industry analysts and equity REITs, including us, consider FFO to be an appropriate supplemental measure of operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company’s real estate between periods, or as compared to different companies. Management uses FFO as a supplemental measure to conduct and evaluate our business because there are certain limitations associated with using GAAP net income alone as the primary measure of our operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, while historically real estate values have risen or fallen with market conditions. Accordingly, we believe FFO provides a valuable alternative measurement tool to GAAP when presenting our operating results.

21

We believe the computation of FFO in accordance with Nareit’s definition includes certain items that are not indicative of the results provided by our operating portfolio and affect the comparability of our period-over-period performance. These items include, but are not limited to, legal settlements, non-cash share-based compensation expense, non-cash amortization on loans and acquisition costs. Therefore, in addition to FFO, management uses Adjusted FFO (“AFFO”), which we define to exclude such items. Management believes that these adjustments are appropriate in determining AFFO as they are not indicative of the operating performance of our assets. In addition, we believe that AFFO is a useful supplemental measure for the investing community to use in comparing us to other REITs as many REITs provide some form of adjusted or modified FFO. However, there can be no assurance that AFFO presented by us is comparable to the adjusted or modified FFO of other REITs.

A reconciliation of net income (loss) to FFO available for common shareholders and AFFO (in thousands):

Recurring capital expenditures tenant improvement reserves	(1,628)	(1,354)
AFFO	\$ (247)	\$ 7,904

Other non-recurring and non-cash expenses are costs of the Company that we believe will not be incurred on a go-forward basis. Other non-recurring expenses of \$2.1 million for the year ended December 31, 2023, were primarily a result of \$1.8 million in loan defeasance payments and \$0.3 million costs to demolish decommissioned space not included in the Company’s gross leasable area. For the year ended December 31, 2022, other non-recurring expenses totaled \$3.1 million, primarily including \$2.6 million in loan defeasance payments a result of the 2022 loan refinancing activities and \$0.7 million legal settlement costs and severance, partially offset with \$0.4 million nonrecurring revenue related to Cedar’s recognition of easement revenue.

Inflation, Deflation and Economic Condition Considerations

The U.S. is experiencing elevated levels of inflation, which could continue or worsen. Substantially all of the Company’s tenant leases contain provisions designed to partially mitigate the negative impact of inflation in the near term. Such lease provisions include clauses that require tenants to reimburse the Company for inflation-sensitive costs such as real estate taxes, insurance and many of the operating expenses it incurs. In addition, many of our leases are for terms of less than ten years, which permits us to seek increased rents upon re-rental at market rates. However, significant inflation rate increases over a prolonged period of time may have a material adverse impact on the Company’s business. Conversely, deflation could lead to downward pressure on rents and other sources of income.

22

Interest rate increases could result in higher incremental borrowing costs for the Company and our tenants. The duration of the Company’s indebtedness and our relatively low exposure to floating rate debt have mitigated the direct impact of inflation and interest rate increases. The degree and pace of these changes have had and may continue to have impacts on our business.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information under this item.

Item 8. Financial Statements and Supplementary Data.

The information required by this Item 8 is incorporated by reference to our Financial Statements beginning on page 30 of this Annual Report on Form 10-K.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Disclosure Controls and Procedures

Our management, under the supervision and with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such information is accumulated and communicated to our management, as appropriate, to allow timely decisions regarding required disclosure. Based on such evaluation, our principal executive officer and principal financial officer have concluded that, as of December 31, 2023, such disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed by us in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and to provide reasonable assurance that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting, as defined in rules promulgated under the Exchange Act, is a process designed by, or under the supervision of, our CEO and CFO and effected by our Board of Directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. Internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that our receipts and expenditures are being made only in accordance with authorizations of our management and our Board of Directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

23

Our internal control over financial reporting is evaluated on a regular basis by personnel in our organization. The overall goals of these various evaluation activities are to monitor our internal control over financial reporting and to make modifications as necessary, as disclosure and internal controls are intended to be dynamic systems that change (including improvements and corrections) as conditions warrant.

Management conducted an assessment of the effectiveness of our company's internal control over financial reporting as of December 31, 2023, utilizing the framework established in "INTERNAL CONTROL-INTEGRATED FRAMEWORK" issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013). Based on this assessment, management has determined that our internal controls over financial reporting as of December 31, 2023 were effective.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

This Form 10-K does not include an attestation report of our independent registered public accounting firm regarding internal controls over financial reporting. Management's report was not subject to attestation by our independent registered public accounting firm in accordance with SEC rules.

Item 9B. Other Information.

During the three months ended December 31, 2023, none of our officers or directors adopted or terminated any contract, instruction or written plan for the purchase or sale of our securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any "non-Rule 10b5-1 trading arrangement," as defined in Item 408 of Regulation S-K.

Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections.

Not applicable.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders
Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Virginia Beach, Virginia

Opinion on the Consolidated Financial Statements

We have audited the accompanying consolidated balance sheets of Wheeler Real Estate Investment Trust, Inc. and Subsidiaries (the “Company”) as of December 31, 2023 and 2022, and the related consolidated statements of operations, equity, and cash flows for each of the years in the two-year period ended December 31, 2023, and the related notes and schedules (collectively referred to as the “consolidated financial statements”). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2023 and 2022, and the results of its operations and its cash flows for each of the years in the two-year period ended, December 31, 2023, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s consolidated financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current period audit of the consolidated financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Evaluation of Real Estate for Impairment

Description of Matter

At December 31, 2023, the Company’s net real estate totaled \$565.1 million. As more fully described in Note 2 to the consolidated financial statements, the Company evaluates its real estate investments for impairment whenever events or changes in circumstances indicate that the carrying value of a real estate investment may not be recoverable. Management evaluates various qualitative factors in determining whether or not events or changes in circumstances indicate that the carrying amount of a real estate investment may not be recoverable.

Auditing the Company’s impairment assessment involved subjectivity due to the estimation required to assess significant assumptions utilized in the recoverability of the real estate based on undiscounted operating income and residual values, such as assumptions related to renewal and renegotiations of current leases, estimates of new leases on vacant spaces, and estimates of operating costs.

How We Addressed the Matter in Our Audit

To test the Company’s evaluation of net real estate for impairment, we performed audit procedures that included, among others, assessing the methodologies applied, evaluating the significant assumptions discussed above and testing the completeness and accuracy of the underlying data used in the analysis. We compared the recoverability calculated to the remaining net book value of the assets to ensure recoverability for the properties’ remaining useful lives. We compared the significant assumptions used by management to relevant market information and other applicable sources. As part of our evaluation, we performed sensitivity analyses of significant assumptions to evaluate the changes in the undiscounted cash flows of the related property that would result from changes in the assumptions.

Derivative Liabilities

Description of Matter

At December 31, 2023, the Company had convertible notes with an outstanding principal balance of \$31.5 million and 106,171 common stock warrants. Calculations and accounting for the notes payable and embedded conversion features as well as the warrants require management’s judgments related to initial and subsequent recognition, use of a valuation model, and determination of the appropriate inputs used in the selected valuation model. As more fully described in Note 7 to the consolidated financial statements, the Company utilizes a multinomial lattice model valuation technique in measuring the fair value of the notes’ conversion features and the Black-Scholes valuation method in measuring the fair value of the warrants.

Auditing management’s valuations of the derivative liabilities was challenging due to the complexity of valuation model and the inputs that are highly sensitive to changes such as the common stock market price, volatility, risk free rates, and yields.

How We Addressed the Matter in Our Audit

To test the accounting for the derivative liabilities resulting from the issuance of warrants and convertible notes, our audit procedures included, among others, inspection of the contracts, and testing completeness and accuracy of the data used as well as management’s application of the relevant accounting guidance. We also involved our valuation specialists to evaluate the Company’s determination of the fair value of the derivative liabilities, including testing the appropriateness of the methodology used and assessing the reasonableness of the underlying inputs.

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated Financial Statements

1. Organization and Basis of Presentation and Consolidation

Wheeler Real Estate Investment Trust, Inc. is a Maryland corporation formed on June 23, 2011. The Trust serves as the general partner of the Operating Partnership, which was formed as a Virginia limited partnership on April 5, 2012. At December 31, 2023, the Company owned 99.13% of the Operating Partnership. As of December 31, 2023, the Trust, through the Operating Partnership, owned and operated seventy-five centers and four undeveloped properties. Twenty-one of these properties are located in South Carolina, twelve in Georgia, ten in Virginia, eight in Pennsylvania, six in North Carolina, four in Massachusetts, four in New Jersey, three in Florida, three in Connecticut, two in Kentucky, two in Tennessee, one in Alabama, one in Maryland, one in West Virginia, and one in Oklahoma. Accordingly, the use of the word “Company”, “we,” “our” or “us” refers to the Trust and its consolidated subsidiaries, except where the context otherwise requires. The Company includes the Trust, the Operating Partnership, the entities included in the REIT formation and the entities acquired since November 2012. The Company prepared the accompanying consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, or GAAP. All material balances and transactions between the consolidated entities of the Company have been eliminated.

The Company owns, leases and operates income producing grocery-anchored centers, neighborhood centers, community centers and free-standing retail properties with a strategy to acquire high quality retail properties that generate attractive risk-adjusted returns. The Company targets properties in communities that have stable demographics. The Company considers properties that are generally located in the most prominent shopping districts in their respective markets, ideally situated at major “Main

and Main” intersections. The Company generally leases its properties to national and regional supermarket chains and selects retailers that offer necessity and value-oriented services and items, and generate regular consumer traffic. The Company’s tenants carry goods and offer services that are less impacted by fluctuations in the broader U.S. economy and consumers’ disposable income, which it believes generates more predictable property-level cash flows.

The Trust through the Operating Partnership owns Wheeler Interests, LLC (“WI”) and Wheeler Real Estate, LLC (“WRE”) (WRE and, together with WI, the “Operating Companies”). The Operating Companies are Taxable REIT Subsidiaries (“TRS”) to accommodate serving the Non-REIT Properties since applicable REIT regulations consider the income derived from these services to be “bad” income subject to taxation. The regulations allow for costs incurred by the Company commensurate with the services performed for the Non-REIT Properties to be allocated to a TRS.

Acquisition of Cedar Realty Trust

On March 2, 2022, the Company entered into an Agreement and Plan of Merger (as amended, the “Merger Agreement”) with Cedar, Cedar Realty Trust Partnership, L.P., (“Cedar OP”), WHLR Merger Sub Inc., a wholly owned subsidiary of the Company, and WHLR OP Merger Sub LLC, a wholly owned subsidiary of Merger Sub I (“Merger Sub II”), pursuant to which the Company agreed to acquire Cedar, including 19 of its shopping center assets, in an all-cash merger transaction consisting, in accordance with the terms of the Merger Agreement, of a payment to Cedar common shareholders of merger consideration of \$9.48 per common share.

On August 22, 2022, the Company completed the merger transaction with Cedar. As a result of the merger, the Company acquired all of the outstanding shares of the Cedar’s common stock, which ceased to be publicly traded on the NYSE. Cedar’s outstanding 7.25% Series B Preferred Stock and 6.50% Series C Preferred Stock remain outstanding and continue to trade on the NYSE. Each outstanding share of common stock of Cedar and outstanding common unit of the Cedar OP held by persons other than Cedar immediately prior to the merger were cancelled and converted into the right to receive a cash payment of \$9.48 per share or unit. As a result Cedar became a subsidiary of the REIT.

During the year ended December 31, 2022 the Company incurred acquisition related costs of \$5.51 million for the merger. These costs were capitalized as part of the acquisition and are primarily comprised of professional fees and legal fees, see Note 3 for further details.

The consolidated financial statements included in this Form 10-K include Cedar starting from the date of acquisition. We have determined that this acquisition is not a variable interest entity, as defined under the consolidation topic of the FASB, Accounting Standards Codification (“ASC”), and we evaluated such entity under the voting model and concluded we should consolidate the entity. Under the voting model, we consolidate the entity if we determine that we, directly or indirectly, have greater than 50% of the voting rights and that other equity holders do not have substantive participating rights.

2. Summary of Significant Accounting Policies

Real Estate Investments

The Company records investment properties and related intangibles at fair value upon acquisition. Investment properties include both acquired and constructed assets. Improvements and major repairs and maintenance are capitalized when the repair and maintenance substantially extends the useful life, increases capacity or improves the efficiency of the asset. All other repair and maintenance costs are expensed as incurred.

The Company allocates the purchase price of acquisitions to the various components of the asset based upon the fair value of each component which may be derived from various observable or unobservable inputs and assumptions. Also, the Company may utilize third party valuation specialists. These components typically include buildings, land and any intangible assets related to out-of-market leases, tenant relationships and in-place leases the Company determines to exist. The Company determines fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends and specific market and economic conditions that may affect the property. Factors considered by management in the analysis of determining the as-if-vacant property value include an estimate of carrying costs during the expected lease-up periods considering market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and estimates of lost rentals at market rates during the expected lease-up periods, tenant demand and other economic conditions. Management also estimates costs to execute similar leases including leasing commissions, tenant improvements, legal and other related expenses. Intangibles related to out-of-market leases, tenant relationships and in-place lease value are recorded at fair value as acquired lease intangibles and are amortized as an adjustment to rental revenue or amortization expense, as appropriate, over the remaining terms of the underlying leases.

The Company records depreciation on buildings and improvements utilizing the straight-line method over the estimated useful life of the asset, generally 5 to 40 years. The Company reviews depreciable lives of investment properties periodically and makes adjustments to reflect a shorter economic life, when necessary. Tenant allowances, tenant inducements and tenant improvements are amortized utilizing the straight-line method over the term of the related lease or occupancy term of the tenant, if shorter.

Amounts allocated to buildings are depreciated over the estimated remaining life of the acquired building or related improvements. The Company amortizes amounts allocated to tenant improvements, in-place lease assets and other lease-related intangibles over the remaining life of the underlying leases. The Company also estimates the value of other acquired intangible assets, if any, and amortizes them over the remaining life of the underlying related intangibles.

The Company reviews investment properties for impairment on a property-by-property basis or whenever events or changes in circumstances indicate that the carrying value of investment properties may not be recoverable. These circumstances include, but are not limited to, declines in the property’s cash flows, occupancy and fair market value. The Company measures any impairment of investment property when the estimated undiscounted future operating income before depreciation and amortization, plus its residual value, is less than the carrying value of the property. Estimated undiscounted operating income before depreciation and amortization include renewal and renegotiations of current leases, estimates of new leases on vacant spaces, estimates of operating costs and fluctuating market conditions. The renewal and renegotiations of leases in some cases must be approved by additional third parties outside the control of the Company and the tenant. If such renewed or renegotiated leases are approved at amounts below current estimates, then impairment adjustments may be necessary in the future. To the extent impairment has occurred, the Company charges to income the excess of the carrying value of the property over its estimated fair value. The Company estimates fair value using unobservable data such as operating income, estimated capitalization rates, or multiples, leasing prospects for vacant spaces and local market information. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Assets Held For Sale and Discontinued Operations

The Company may decide to sell properties that are held for use. The Company records these properties as held for sale when management has committed to a plan to sell the assets, actively seeks a buyer for the assets, and the consummation of the sale is considered probable and is expected within one year. Properties classified as held for sale are reported at the lower of their carrying value or their fair value, less estimated costs to sell. When the carrying value exceeds the fair value, less estimated costs to sell, an impairment expense is recognized. The Company estimates fair value, less estimated closing costs, based on similar real estate sales transactions. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 2 and 3 inputs. Level 2 inputs are quoted prices for similar assets or liabilities in

active markets; quoted prices for identical or similar assets in markets that are not active; and inputs other than quoted prices. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. See Note 3 for additional details on impairment of assets held for sale for the years ended December 31, 2023 and 2022.

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Continued)

2. Summary of Significant Accounting Policies (continued)

Assets held for sale are presented as discontinued operations in all periods presented if the disposition represents a strategic shift that has, or will have, a major effect on the Company's financial position or results of operations. This includes the net gain (or loss) upon disposal of property held for sale, the property's operating results, depreciation and interest expense.

Conditional Asset Retirement Obligation

A conditional asset retirement obligation represents a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement depends on a future event that may or may not be within the Company's control. Currently, the Company does not have any conditional asset retirement obligations. However, any such obligations identified in the future would result in the Company recording a liability if the fair value of the obligation can be reasonably estimated. Environmental studies conducted at the time the Company acquired its properties did not reveal any material environmental liabilities, and the Company is unaware of any subsequent environmental matters that would have created a material liability. The Company believes that its properties are currently in material compliance with applicable environmental, as well as non-environmental, statutory and regulatory requirements. The Company did not record any conditional asset retirement obligation liabilities as of December 31, 2023 and 2022.

Cash and Cash Equivalents and Restricted Cash

The Company considers all highly liquid investments purchased with an original maturity of 90 days or less to be cash and cash equivalents. Cash equivalents are carried at cost, which approximates fair value. Cash equivalents consist primarily of bank operating accounts and money markets. Financial instruments that potentially subject the Company to concentrations of credit risk include its cash and cash equivalents and its trade accounts receivable. The Company places its cash and cash equivalents with institutions of high credit quality.

Restricted cash represents amounts held by lenders for real estate taxes, insurance, reserves for capital improvements, leasing costs and tenant security deposits.

The Company places its cash and cash equivalents and restricted cash on deposit with financial institutions in the United States, which are insured by the Federal Deposit Insurance Company ("FDIC") up to \$250 thousand. The Company's loss in the event of failure of these financial institutions is represented by the difference between the FDIC limit and the total amounts on deposit. Management monitors the financial institutions credit worthiness in conjunction with balances on deposit to minimize risk.

Tenant Receivables

Tenant receivables include base rents, tenant reimbursements and receivables attributable to recording rents on a straight-line basis. The Company determines an allowance for the uncollectible portion of accrued rents and accounts receivable based upon customer credit-worthiness (including expected recovery of a claim with respect to any tenants in bankruptcy), historical bad debt levels, and current economic trends. The Company considers a receivable past due once it becomes delinquent per the terms of the lease. The Company's standard lease form considers a rent charge past due after five days. A past due receivable triggers certain events such as notices, fees and other allowable and required actions per the lease.

Above and Below Market Lease Intangibles, net

The Company determines the above and below market lease intangibles upon acquiring a property. Above and below market lease intangibles are amortized over the life of the respective leases. Amortization of above and below market lease intangibles is recorded as a component of rental revenues.

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Continued)

2. Summary of Significant Accounting Policies (continued)

Deferred Costs and Other Assets, net

The Company's deferred costs and other assets consist primarily of leasing commissions, leases in place, capitalized legal and marketing costs, tenant relationships and ground lease sandwich interest intangibles associated with acquisitions. The Company's lease origination costs consist primarily of the portion of property acquisitions allocated to lease originations and commissions paid to third parties in connection with lease originations. The Company generally records amortization of lease origination costs on a straight-line basis over the terms of the related leases. Amortization of deferred costs and other assets represents a component of depreciation and amortization expense.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including stock purchase warrants and convertible notes, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the consolidated statements of operations. The assumptions used in these fair value estimates are based on the three-level valuation hierarchy for fair value measurement and represent Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Debt Issuance Costs

The Company may incur debt issuance costs in connection with raising funds through debt. These costs may be paid in the form of cash, or equity (such as warrants

and convertible notes). These costs are amortized to interest expense over the life of the debt. If a conversion of the underlying debt occurs, a proportionate share of the unamortized amounts is immediately expensed. Debt issuance costs are presented as a direct deduction from the carrying value of the associated debt liability in the consolidated balance sheets.

Series D Preferred Stock

The Series D Preferred Stock was initially classified as mezzanine equity because the redemption provisions were conditional upon the occurrence of an event that was not certain. The Series D Preferred Stock was valued at net proceeds plus accrued and unpaid dividends. In 2023, this event became certain and in accordance with ASC 480, the Series D Preferred Stock was revalued at the redemption price which includes undeclared dividends, representing liquidation value. The adjustment to liquidation value was recognized in accumulated deficit as an adjustment to redemption value. Additionally, in accordance with ASC 480, as holders exercise their redemption rights the Series D Preferred Stock becomes mandatorily redeemable and the liquidation value of their exercise is classified as a liability.

Operating Partnership Purchase of Stock

The Operating Partnership purchased 71,343 shares of the Series D Preferred Stock on September 22, 2020 from an unaffiliated investor at \$15.50 per share. The Company considers the purchase of the REIT's equity securities to be retired in the consolidated financial statements.

Revenue Recognition

Lease Contract Revenue

The Company has two classes of underlying assets relating to rental revenue activity, retail and office space. The Company retains substantially all of the risks and benefits of ownership of these underlying assets and accounts for these leases as operating leases. The Company combines lease and nonlease components in lease contracts, which includes combining base rent and tenant reimbursement revenue.

The Company accrues minimum rents on a straight-line basis over the terms of the respective leases which results in an unbilled rent asset or deferred rent liability being recorded on the balance sheet. Additionally, certain lease agreements contain provisions that grant additional rents based on tenants' sales volumes (contingent or percentage rent). Percentage rents are recognized when the tenants achieve the specified targets as defined in their lease agreements as variable lease income.

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries Notes to Consolidated Financial Statements (Continued)

2. Summary of Significant Accounting Policies (continued)

The Company's leases generally require the tenant to reimburse the Company for a substantial portion of its expenses incurred in operating, maintaining, repairing, insuring and managing the shopping center and common areas (collectively defined as Common Area Maintenance or "CAM" expenses). This significantly reduces the Company's exposure to increases in costs and operating expenses resulting from inflation or other outside factors. These reimbursements are considered nonlease components which the Company combines with the lease component. The Company calculates the tenant's share of operating costs by multiplying the total amount of the operating costs by the tenant's pro-rata percentage of square footage to total square footage of the property. The Company also receives payments for these reimbursements from substantially all its tenants throughout the year. The Company recognizes tenant reimbursements as variable lease income.

Additionally, the Company has tenants who pay real estate taxes directly to the taxing authority. The Company excludes these Company costs paid directly by the tenant to third parties on the Company's behalf from both variable revenue payments recognized and the associated property operating expenses. The Company does not evaluate whether certain sales taxes and other similar taxes are the Company's costs or tenants' costs. Instead, the Company accounts for these costs as tenant costs.

The Company recognizes lease termination fees, which are included in "other revenues" on the consolidated statements of operations, in the year that the lease is terminated and collection of the fee is reasonably assured. Upon early lease termination, the Company records losses related to unrecovered intangibles and other assets.

Segment Information

The Company's primary business is the ownership and operation of grocery-anchored shopping centers. The Company reviews operating and financial information for each property on an individual basis and, accordingly, each property represents an individual operating segment. The Company evaluates financial performance using property operating income, which consists of rental income and other property income, less operating expenses and real estate taxes. The Company has no operations outside of the United States of America. Therefore, the Company has aggregated its properties into one reportable segment as the properties share similar long-term economic characteristics and have other similarities including the fact that they are operated using consistent business strategies, are typically located in similar markets, and have similar tenant mixes.

Income Taxes

The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code and applicable Treasury regulations relating to REIT qualification. In order to maintain this REIT status, the regulations require the Company to distribute at least 90% of its taxable income to stockholders and meet certain other asset and income tests, as well as other requirements. If the Company fails to qualify as a REIT, it will be subject to tax at regular corporate rates for the years in which it fails to qualify. If the Company loses its REIT status it could not elect to be taxed as a REIT for five years unless the Company's failure to qualify was due to reasonable cause and certain other conditions were satisfied.

Management has evaluated the effect of the guidance provided by generally accepted accounting principles on *Accounting for Uncertainty of Income Taxes* and has determined that the Company had no uncertain income tax positions.

Financial Instruments

The carrying amount of financial instruments included in assets and liabilities approximates fair market value due to their immediate or short-term maturity.

Use of Estimates

The Company has made estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reported periods. The Company's actual results could differ from these estimates.

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Continued)

2. Summary of Significant Accounting Policies (continued)

Other Expense

Other expense represents expenses which are non-operating in nature. Other expenses were \$5.5 million for the year ended December 31, 2023, which consists of capital structure transaction costs. Other expenses were \$0.7 million for the year ended December 31, 2022, which consisted of legal settlement costs.

Lease Commitments

The Company determines if an arrangement is a lease at inception. Operating leases, in which the Company is the lessee, are included in operating lease right-of-use (“ROU”) assets and operating lease liabilities on our consolidated balance sheets.

ROU assets represent the right to use an underlying asset for the lease term and the lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of the Company’s leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. The operating lease ROU assets include any lease payments made and excludes lease incentives. The Company’s lease terms may include options to extend the lease when it is reasonably certain that the company will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

The Company elects the practical expedient to combine lease and associated nonlease components. The lease components are the majority of its leasing arrangements and the Company accounts for the combined component as an operating lease. In the event the Company modifies existing ground leases or enters into new ground leases, such leases may be classified as finance leases.

Noncontrolling Interests

Noncontrolling interests is the portion of equity in the Operating Partnership not attributable to the Trust and noncontrolling interest attributable to the acquisition of Cedar. The ownership interests not held by the parent are considered noncontrolling interests. Accordingly, noncontrolling interests have been reported in equity on the consolidated balance sheets but separate from the Company’s equity. On the consolidated statements of operations, the subsidiaries are reported at the consolidated amount, including both the amount attributable to the Company and noncontrolling interests. Consolidated statements of equity include beginning balances, activity for the period and ending balances for stockholders’ equity, noncontrolling interests and total equity.

The noncontrolling interest of the Operating Partnership common unit holders is calculated by multiplying the noncontrolling interest ownership percentage at the balance sheet date by the Operating Partnership’s net assets (total assets less total liabilities). The noncontrolling interest percentage is calculated at any point in time by dividing the number of units not owned by the Company by the total number of units outstanding. The noncontrolling interest ownership percentage will change as additional units are issued or as units are exchanged for the Company’s \$0.01 par value per share common stock (“Common Stock”). In accordance with GAAP, any changes in the value from period to period are charged to additional paid-in capital.

The noncontrolling interest attributable to the acquisition of Cedar represents the fair value of Cedar’s outstanding 7.25% Series B Preferred Stock (“Cedar Series B Preferred”) and 6.50% Series C Preferred Stock (“Cedar Series C Preferred”) as of August 22, 2022, the date of acquisition. The valuation assumption was based on the three-level valuation hierarchy for fair value measurements and represents Level 1 inputs. Level 1 inputs represent observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets. The total cumulative dividends for the Cedar Series B Preferred and Cedar Series C Preferred were \$10.8 million and \$3.9 million as of December 31, 2023 and 2022, respectively, and are included as an increase to net loss attributable to Wheeler REIT Common Stockholders on the consolidated statements of operations.

Reclassifications

The Company has reclassified certain prior period amounts in the accompanying consolidated financial statements in order to be consistent with the current period presentation. These reclassifications had no effect on net loss. All per share amounts, common units and shares outstanding, warrants, and conversion features of the Convertible Notes for all periods presented reflect our one-for-ten Reverse Stock Split, which was effective August 17, 2023.

Recently Issued Accounting Pronouncements

In November 2023, the FASB issued guidance which requires disclosure of incremental segment information on both an annual and interim basis. The guidance will require that the Company continue to disclose existing segment information required by FASB Accounting Standards Codification Topic 280, as well as significant segment expenses and other segment items that are regularly provided to the chief operating decision maker (“CODM”). The Company will also be required to disclose the title and position of the CODM and how the CODM uses reported measures of segment profit or loss in assessing segment performance and deciding how to allocate resources. The guidance will be effective for the Company’s fiscal year beginning on January 1, 2024 and interim periods within the Company’s fiscal year beginning on January 1, 2025. The Company is currently in the process of evaluating the guidance, but does not believe it will have a material effect on the Company’s consolidated financial statements.

Other accounting standards that have been recently issued or proposed by the FASB or other standard-setting bodies are not currently applicable to the Company or are not expected to have a significant impact on the Company’s financial position, results of operations and cash flows.

3. Real Estate

A significant portion of the Company’s land, buildings and improvements serve as collateral for its mortgage loans. Accordingly, restrictions exist as to the encumbered property’s transferability, use and other common rights typically associated with property ownership.

The Company’s depreciation expense on investment properties was \$18.1 million and \$13.5 million for the years ended December 31, 2023 and 2022, respectively.

St. George Plaza Land Acquisition

On February 21, 2023, the Company purchased a 2.5 acre land parcel adjacent to St. George Plaza, located in St. George, South Carolina, for \$0.2 million.

Devine Street Land Acquisition

On August 18, 2023, the Company purchased a 3.25 acre land parcel within Devine Street, located in Columbia, South Carolina, for \$4.1 million. The Devine Street Land Acquisition terminated the Company’s ground lease associated with this property.

Held for Sale, Impairment and Dispositions

Impairment expenses on assets held for sale are a result of reducing the carrying value for the amount that exceeded the property’s fair value less estimated selling costs. The valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 2 inputs. No impairment expense was recorded for the year ended December 31, 2023. Impairment expense was \$0.8 million for the year ended December 31, 2022 resulting from reducing the carrying value of an approximately 5 acre land parcel held by Harbor Point Associates, LLC, a wholly-owned subsidiary of the Company (the “Harbor Point Land Parcel”). The Harbor Point Land Parcel did not meet the requirements to be classified as held for sale at December 31, 2023 or 2022.

The following properties were sold during the years ended December 31, 2023 and 2022 (in thousands):

3. Real Estate (continued)

The following summarizes the consideration paid and the purchase allocation of assets acquired and liabilities assumed in conjunction with the acquisition described above in accordance with Accounting Standards Update (“ASU”) 2017-01, along with a description of the methods used to determine the purchase price allocation (in thousands, unaudited). In determining the purchase price allocation, the Company considered many factors including, but not limited to, cash flows, market capitalization rates, location, occupancy rates, appraisals, other acquisitions and management’s knowledge of the current acquisition market for similar properties. The following table summarizes the purchase price allocation based on the Company’s initial valuation, including estimates and assumptions of the acquisition date fair value of the tangible and intangible assets acquired and liabilities assumed (in thousands):

Building and building improvements (a)	\$ 137,120
Land and land improvements (a)	47,899
Lease intangibles (b)	28,215
Above market lease (c)	1,718
Right of use asset adjustment, ground lease (d)	2,913
Cash, accounts receivable and other assets	14,242
Total assets acquired	232,107

Below market lease (c)	(23,622)
Lease Liabilities, ground lease (d)	(3,552)
Accounts payable and other liabilities	(4,578)
Total liabilities acquired	<u>(31,752)</u>

Purchase price allocation of net assets acquired, excluding noncontrolling interests	<u>\$ 135,510</u>
Purchase consideration: (f)	
Cash merger consideration	\$ 130,000
Capitalized acquisition costs	<u>5,510</u>
	<u>\$ 135,510</u>

- a. Represents the purchase price allocation of the net investment properties acquired, which includes land, buildings, site improvements and tenant improvements. The purchase price allocation was determined using following approaches:
- i. the market approach valuation methodology for land by considering similar transactions in the markets;
 - ii. a combination of the cost approach and income approach valuation methodologies for buildings, including replacement cost evaluations, “go dark” analyses and residual calculations incorporating the land values; and
 - iii. the cost approach valuation methodology for site and tenant improvements, including replacement costs and prevailing quoted market rates.
- b. Represents the purchase price allocation of lease intangibles and other assets. Lease intangibles include in place leases. The income approach was used to determine the allocation of these intangible assets which included estimated market rates and expenses.
- c. Represents the purchase price allocation of above and below market leases. The income approach was used to determine the allocation of above/below market leases using market rental rates for similar properties.
- d. Represents the purchase price allocation of the lease liability and corresponding right of use asset associated with a ground lease expiring in 2071. The Company used an incremental borrowing rate of 5.25% for the purpose of calculating the lease liability.
- e. Represents the fair market value of Cedar’s outstanding 7.25% Series B Preferred Stock and 6.50% Series C Preferred Stock.
- f. Represents merger consideration and capitalized transaction costs.

4. Investments Securities - Related Party

On June 1, 2023, the Company subscribed for an investment in the amount of \$3.0 million for limited partnership interests in Stilwell Activist Investments, L.P., a Delaware limited partnership (“SAI”). On September 1, 2023, and November 30, 2023, the Company subscribed for additional investments each in the amount of \$3.5 million for limited partnership interests in SAI. The investment objective of SAI is to seek long-term capital appreciation through investing primarily in publicly-traded undervalued financial institutions or businesses with a strong financial component, or the securities of any of them, and pursuing an activist shareholder agenda with respect to those institutions.

Stilwell Value LLC (“Value”) is the general partner of SAI. Joseph Stilwell, a member of the Company’s Board of Directors, is the managing member of Value and a limited partner in funds advised by Value. Additionally, E.J. Borrack, a member of the Board of Directors, serves as the General Counsel to Value and its affiliated entities, including SAI and related funds, and is a limited partner in one of the funds advised by Value. Megan Parisi, a member of the Company’s Board of Directors, serves as the Director of Communications to Value and its affiliated entities, including SAI and related funds, is a non-managing member of Value and is a limited partner in one of the funds advised by Value.

The Company’s initial subscription in SAI was approved by the disinterested directors of the Company, and, after the formation of the Related Person Transactions Committee, the further subscriptions in SAI were approved by that Committee.

A portion of SAI’s underlying investments are in the Company’s own equity and debt securities.

SAI records investment transactions based on trade date. Realized gains and losses from investment transactions are determined on a specific identification basis. Dividend income, net of withholding taxes, and dividend expense are recognized on the ex-dividend date, and interest income and expense are recognized on an accrual basis. Discounts and premiums to the face amount of debt securities are accreted and amortized using the effective interest rate method over the lives of the respective debt securities.

The Company may not withdraw its capital from SAI for a period of one year measured from the date of the Company’s initial investment, subject to certain exceptions.

In consideration for management, administrative and operational services, limited partners of SAI pay a management fee to an affiliate of Value each calendar quarter, in advance, equal to 0.25% (an annualized rate of 1%) of each limited partner’s capital account balance on the first day of such calendar quarter. In addition, as of the last day of each specified performance period, an incentive allocation of 20% of the amount by which the “positive performance change,” if any, that has been credited to the capital account of a limited partner during such period exceeds any positive balance in such limited partner’s “carryforward account,” is debited from the limited partner’s capital account and is simultaneously credited to the capital account of Value.

The Company’s SAI investment is accounted for under the equity method and measured at net asset value as a practical expedient and has not been classified within the fair value hierarchy. All gains and losses, realized and unrealized, and fees are recorded through “gain on investment securities, net” on the consolidated statements of operations. As of December 31, 2023, the fair value of the Company’s SAI investment was \$10.7 million, which includes \$10.0 million from subscriptions and \$0.2 million in fees. Unrealized gains on investment securities, net of fees were \$0.7 million for the year ended December 31, 2023.

Convertible Notes

The Company's Convertible Notes bear interest at a rate of 7.00% per annum. Interest on the Convertible Notes is payable semi-annually in arrears on June 30 and December 31 of each year, at the Company's election: (a) in cash; (b) in shares of Series B Preferred; (c) in shares of Series D Preferred Stock; or (d) in any combination of (a), (b), and/or (c). For purposes of determining the value of Series B Preferred and Series D Preferred Stock paid as interest on the Convertible Notes, each share of Series B Preferred and Series D Preferred Stock shall be deemed to have a value equal to the product of (x) the average of the VWAPs (as defined in the Indenture) for the Series B Preferred or the Series D Preferred Stock, as the case may be, for the 15 consecutive trading days ending on the third business day immediately preceding the relevant interest payment date, and (y) 0.55.

Interest expense on the Convertible Notes consists of the following (in thousands, except for shares):

For the years ended December 31,	Series B Preferred number of shares (1)	Series D Preferred Stock number of shares (1)	Convertible Note interest at 7% coupon	Fair value adjustment	Interest expense
2023	—	306,380	\$ 2,259	\$ 1,649	\$ 3,908
2022	1,511,541	—	\$ 2,310	\$ 1,429	\$ 3,739

(1) Shares issued as interest payment on Convertible Notes.

On June 8, 2023, the Company paid down \$0.6 million of the Convertible Notes through an open market purchase of 23,784 units totaling \$1.2 million. On September 11, 2023, the Company paid down \$0.9 million of the Convertible Notes through an open market purchase of 35,000 units totaling \$1.9 million. As a result of these transactions the Company recognized a \$1.6 million loss for the year ended December 31, 2023 which represents the fair value of the purchase over principal pay down. The loss is included in "other expense" on the consolidated statements of operations.

The Convertible Notes are convertible, in whole or in part, at any time, at the option of the holders of the Convertible Notes, into shares of the Company's Common Stock at a conversion price of \$62.50 per share of the Company's Common Stock (the "Conversion Price"); provided, however, that if at any time after September 21, 2023, holders of the Series D Preferred Stock have required the Company to redeem (payable in cash or stock) in the aggregate at least 100,000 shares of Series D Preferred Stock, then the Conversion Price will be adjusted to the lower of (i) 55% of the Conversion Price or (ii) a 45% discount to the lowest price at which any Series D Preferred Stock was converted into the Common Stock. Upon a change of control, each Convertible Note will mandatorily convert into shares of the Company's Common Stock equal to: (i) the principal amount of each Convertible Note divided by (ii) the product of (x) the average of the per share volume-weighted average prices for the Common Stock for the 15 consecutive trading days ending on the third business day immediately preceding the date of such change of control, and (y) 0.55. After January 1, 2024, the Company may redeem the Convertible Notes at any time (in whole or in part) at the Company's option at a redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest as of the redemption date (the "Note Redemption Price"). The Note Redemption Price may be paid: (a) in cash; (b) in shares of Common Stock; or (c) in any combination of (a) and (b).

As of December 5, 2023, the Conversion Price for the Convertible Notes was approximately \$0.21 per share of the Company's Common Stock (approximately 116.46 shares of Common Stock for each \$25.00 of principal amount of the Convertible Notes being converted).

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries Notes to Consolidated Financial Statements (Continued)

6. Loans Payable, net (continued)

The Convertible Notes are subordinate and junior in right of payment to the Company's obligations to the holders of senior indebtedness, and that in the case of any insolvency, receivership, conservatorship, reorganization, readjustment of debt, marshalling of assets and liabilities or similar proceedings or any liquidation or winding-up of or relating to the Company as a whole, whether voluntary or involuntary, all obligations to holders of senior indebtedness shall be entitled to be paid in full before any payment shall be made on account of the principal or interest on the Convertible Notes.

Fair Value Measurements

The fair value of the Company's fixed rate secured term loans was estimated using available market information and discounted cash flow analyses based on borrowing rates the Company believes it could obtain with a similar term and maturities. As of December 31, 2023 and December 31, 2022, the fair value of the Company's fixed rate secured term loans, which were determined to be Level 3 within the valuation hierarchy, was \$420.8 million and \$429.1 million, respectively, and the carrying value of such loans, was \$451.2 million and \$440.2 million, respectively.

The fair value of the Convertible Notes was estimated using available market information. As of December 31, 2023 and December 31, 2022, the fair value of the Convertible Notes, which were determined to be Level 1 within the valuation hierarchy, was \$75.7 million and \$40.9 million, respectively, and the carrying value, was \$26.4 million and \$25.8 million, respectively.

7. Derivative Liabilities

Fair Value of Warrants

The Company utilized the Black-Scholes valuation method to calculate the fair value of the warrants noted below. Significant observable and unobservable inputs include stock price, conversion price, risk-free rate, term, likelihood of an event of contractual conversion and expected volatility. The Black-Scholes valuation method simulation is a Level 3 valuation technique because it requires the development of significant internal assumptions in addition to observable market indicators. The warrants noted below contain terms and features that give rise to derivative liability classification.

Warrants to purchase shares of common stock outstanding at December 31, 2023 and 2022 are as follows:

Warrant Name	Warrants	Exercise Price	Expiration Date
Powerscourt Warrant	49,641	\$ 31.20	12/22/2023
Wilmington Warrant Tranche A	51,020	\$ 34.30	3/12/2026
Wilmington Warrant Tranche B	42,424	\$ 41.25	3/12/2026
Wilmington Warrant Tranche C	12,727	\$ 68.75	3/12/2026

In measuring the warrant liability, the Company used the following inputs:

	For the Years Ended December 31,	
	2023	2022
Common Stock price	\$ 0.31	\$ 13.96
Weighted average contractual term to maturity	2.2 years	2.5 years
Range of expected market volatility %	137.71%	66.00% - 72.88%
Range of risk-free interest rate	4.23%	4.14% - 4.68%

Fair Value of Conversion Features Related to Convertible Notes

The Company identified certain embedded derivatives related to the conversion features of the Convertible Notes. In accordance with ASC 815-40, *Derivatives and Hedging Activities*, the embedded conversion options contained within the Convertible Notes were accounted for as derivative liabilities at the date of issuance and shall be adjusted to fair value through each reporting date. The Company utilized a binomial lattice model to calculate the fair value of the embedded derivatives.

7. Derivative Liabilities (continued)

Significant observable and unobservable inputs include conversion price, stock price, dividend rate, expected volatility, risk-free rate, optional conversion price and term. The binomial lattice model is a Level 3 valuation technique because it requires the development of significant internal assumptions in addition to observable market indicators.

In measuring the embedded derivative liability, the Company used the following inputs:

	December 31, 2023	December 31, 2022
Conversion price	\$0.16(1)	\$ 62.50
Common Stock price	\$ 0.31	\$ 13.96

8. Commitments and Contingencies

Lease Commitments

The Company is the lessee under several ground leases and for its corporate headquarters; all are accounted for as operating leases. Most leases include one or more options to renew, with renewal terms that can extend the lease term from 5 to 50 years. As of December 31, 2023 and 2022, the weighted average remaining lease term of our leases was 36 and 34 years, respectively. Rent expense under the operating lease agreements were \$1.1 million and \$1.2 million for the years ended December 31, 2023 and

2022, respectively.

The following table represents a reconciliation of the Company's undiscounted future minimum lease payments for its ground lease and corporate headquarters lease agreements applicable to lease liabilities as of December 31, 2023 (in thousands):

Insurance

The Company carries comprehensive liability, property, fire, flood, wind, extended coverage, business interruption and rental loss insurance covering all of the properties in its portfolio under an insurance policy, in addition to other coverages, such as trademark and pollution coverage, that may be appropriate for certain of its properties. Additionally, the Company carries a directors', officers', entity and employment practices liability insurance policy that covers such claims made against the Company and its directors and officers. The Company believes the policy specifications and insured limits are appropriate and adequate for its properties given the relative risk of loss, the cost of the coverage and industry practice; however, its insurance coverage may not be sufficient to fully cover losses.

Concentration of Credit Risk

The Company is subject to risks incidental to the ownership and operation of commercial real estate. These risks include, among others, the risks normally associated with changes in the general economic climate, trends in the retail industry, creditworthiness of tenants, competition for tenants and customers, changes in tax laws, interest rates, the availability of financing and potential liability under environmental and other laws.

The Company's portfolio of properties is dependent upon regional and local economic conditions and is geographically located in the Mid-Atlantic, Southeast, and Northeast, which markets represented approximately 45%, 40% and 15%, respectively, of the total annualized base rent of the properties in its portfolio as of December 31, 2023. The Company's geographic concentration may cause it to be more susceptible to adverse developments in those markets than if it owned a more geographically diverse portfolio. Additionally, the Company's retail shopping center properties depend on anchor stores or major tenants to attract shoppers and could be adversely affected by the loss of, or a store closure by, one or more of these tenants.

Regulatory and Environmental

As the owner of the buildings on our properties, the Company could face liability for the presence of hazardous materials (e.g., asbestos or lead) or other adverse conditions (e.g., poor indoor air quality) in its buildings. Environmental laws govern the presence, maintenance, and removal of hazardous materials in buildings, and if the Company does not comply with such laws, it could face fines for such noncompliance. Also, the Company could be liable to third parties (e.g., occupants of the buildings) for damages related to exposure to hazardous materials or adverse conditions in its buildings, and the Company could incur material expenses with respect to abatement or remediation of hazardous materials or other adverse conditions in its buildings. In addition, some of the Company's tenants routinely handle and use hazardous or regulated substances and wastes as part of their operations at our properties, which are subject to regulation. Such environmental and health and safety laws and regulations could subject the Company or its tenants to liability resulting from these activities. Environmental liabilities could affect a tenant's ability to make rental payments to the Company, and changes in laws could increase the potential liability for noncompliance. This may result in significant unanticipated expenditures or may otherwise materially and adversely affect the Company's operations. The Company is not aware of any material contingent liabilities, regulatory matters or environmental matters that may exist.

Litigation

The Company is involved in various legal proceedings arising in the ordinary course of its business, including, but not limited to commercial disputes. The Company believes that such litigation, claims and administrative proceedings will not have a material adverse impact on its financial position or its results of operations. The Company records a liability when it considers the loss probable and the amount can be reasonably estimated. In addition, the below legal proceedings are in process:

On April 8, 2022, several purported holders of Cedar's outstanding preferred stock filed a putative class action complaint against Cedar, Cedar's of Directors prior to the Merger, and WHLR in Montgomery County Circuit Court, Maryland entitled *Sydney, et al. v. Cedar Realty Trust, Inc., et al.*, (Case No. C-15-CV-22-001527).

On May 6, 2022, the Plaintiffs in *Sydney* filed a motion for a preliminary injunction. Also on May, 6, 2022, a purported holder of Cedar's outstanding preferred stock filed a separate putative class action complaint against Cedar and Cedar's Board of Directors prior to the Cedar Acquisition in the United States District Court for the District of Maryland, entitled *Kim v. Cedar Realty Trust, Inc., et al.*, Civil Action No. 22-cv-01103. On May 11, 2022, Cedar, former Board of Directors of Cedar and the Company removed the *Sydney* action to the United States District Court for the District of Maryland, Case No. 8:22-cv-01142-GLR. On May 16, 2022, the court ordered that a hearing on the *Sydney* Plaintiffs' motion for preliminary injunction be held on June 22, 2022. On June 2, 2022, the Plaintiffs in *Kim* also filed a motion for a preliminary injunction. The court consolidated the motions for preliminary injunction.

On June 23, 2022, following a hearing, the court issued an order denying both motions for preliminary injunction, holding that the Plaintiffs in both cases were unlikely to succeed on the merits and that Plaintiffs had not established that they would suffer irreparable harm if the injunction was denied.

By order dated July 11, 2022, the court consolidated the *Sydney* and *Kim* cases and set an August 24, 2022 deadline for the Plaintiffs in both cases to file a consolidated amended complaint. Plaintiffs filed their amended complaint on August 24, 2022. The amended complaint alleges on behalf of a putative class of holders of Cedar's preferred stock, among other things, claims for breach of contract against Cedar and Cedar's former Board of Directors with respect to the articles supplementary governing the terms of Cedar's preferred stock, breach of fiduciary duty against Cedar's former Board of Directors, and tortious interference and aiding and abetting breach of fiduciary duty against the Company. On October 7, 2022, Defendants moved to dismiss the amended complaint. Plaintiffs opposed the motion to dismiss and filed a motion to certify a question of law to Maryland's Supreme Court. On August 1, 2023, the court issued a decision and order granting Defendants' motions to

dismiss, without leave to amend, and denying Plaintiffs' motion to certify a question of law to the Maryland Supreme Court. The Plaintiffs appealed the dismissal to the United States Court of Appeals for the Fourth Circuit, Case No. 23-1905, docketed on August 30, 2023. The Court has set a briefing schedule. The appeal has been fully briefed. At this juncture, the outcome of the litigation remains uncertain.

On July 11, 2022, a purported holder of Cedar's outstanding preferred stock filed a complaint against Cedar and Cedar's Board of Directors prior to the Merger in the United States District Court for the Eastern District of New York, entitled *High Income Securities Fund v. Cedar Realty Trust, Inc., et al.*, No. 2:22-cv-4031. The complaint alleged that the Defendants violated Section 10(b) of the Exchange Act and SEC Rule 10b-5 promulgated thereunder by making false and misleading statements and omissions, and that Cedar's former Board of Directors are control persons under Section 20(a) of the Exchange Act. On September 25, 2023, the Court granted Defendants' motion to dismiss the complaint with prejudice, and the time within which the Plaintiff could have appealed such decision has passed.

On October 14, 2022, a purported holder of the Company's outstanding preferred stock filed a putative class action against Cedar, Cedar's Board of Directors prior to the Merger, and WHLR in Nassau County Supreme Court, New York entitled *Krasner v. Cedar Realty Trust, Inc., et al.*, Case No. 613985/2022. The complaint alleges on behalf of a putative class of holders of Cedar's preferred stock, among other things, claims for breach of contract against Cedar and Cedar's Board of Directors with respect to the articles supplementary governing the terms of Cedar's preferred stock, breach of fiduciary duty against Cedar's former Board of Directors, and tortious interference and aiding and abetting breach of fiduciary duty against WHLR. The complaint seeks, among other relief, an award of monetary damages, attorneys' fees, and expert fees. The Defendants filed motions in the Nassau County action to dismiss or stay the case based both on the pendency of the lawsuit in Maryland in which the same claims were asserted by other preferred stockholders and on the merits. The court held a hearing on the motions on October 27, 2023, and on December 4, 2023 granted the motions to dismiss based on the pendency of the lawsuit in Maryland without addressing the merits.

Harbor Point Tax Increment Financing

On September 1, 2011, the Grove Economic Development Authority issued the Grove Economic Development Authority Tax Increment Revenue Note, Taxable Series 2011 in the amount of \$2.42 million, bearing a variable interest rate of 2.29%, not to exceed 14% and payable in 50 semi-annual installments. The proceeds of the bonds were to provide funding for the construction of public infrastructure and other site improvements and to be repaid by incremental additional property taxes generated by development. Harbor Point, then owned by an affiliate of former CEO, Jon Wheeler, entered into an Economic Development Agreement with the Grove Economic Development Authority for this infrastructure development and in the event the ad valorem taxes were insufficient to cover annual debt service, Harbor Point would reimburse the Grove Economic Development Authority (the "Harbor Point Agreement"). In 2014, Harbor Point was acquired by the Company.

The total debt service shortfall over the life of the bond is uncertain as it is based on ad valorem taxes, assessed property values, property tax rates, LIBOR and future potential development ranging until 2036. The Company's future total principal obligation under the Harbor Point Agreement will be no more than \$2.0 million, the principal amount of the bonds, as of December 31, 2023. In addition, the Company may have an interest obligation on the note based on the principal balance and LIBOR rates in effect at future payment dates. The Company funded approximately \$41 thousand and \$42 thousand, during the years ended December 31, 2023 and 2022, respectively, in debt service shortfalls. As of December 31, 2023, \$78 thousand was accrued for the December 2023 debt service payment shortfall. Future debt service shortfalls cannot be determined based on the variables noted above, as such have not been accrued.

9. Rental Revenue and Tenant Receivables

Tenant Receivables

As of December 31, 2023 and 2022, the Company's allowance for uncollectible tenant receivables totaled \$0.9 million and \$3.1 million, respectively. At December 31, 2023 and 2022, there were \$7.9 million and \$6.5 million, respectively, in unbilled straight-line rent, which is included in "receivables, net."

10. Equity and Mezzanine Equity

The Company has authority to issue 215,000,000 shares of stock, consisting of 200,000,000 shares of \$0.01 par value Common Stock and 15,000,000 shares of preferred stock of which 5,000,000 shares have been classified as no par value Series B Preferred, 6,000,000 shares as Series D Preferred Stock and 4,500 shares of Series A Preferred.

Substantially all of our business is conducted through the Company's Operating Partnership. The Trust is the sole general partner of the Operating Partnership and owned a 99.13% and 99.05% interest in the Operating Partnership as of December 31, 2023 and 2022, respectively. Limited partners in the Operating Partnership have the right to redeem their common units for cash or Common Stock, at our option. Distributions to common unit holders are paid at the same rate per unit as dividends per share to the Trust's common stockholders.

Common Stock One-for-Ten Reverse Stock Split

On August 7, 2023, we announced that our Board of Directors had approved the Reverse Stock Split. The Reverse Stock Split took effect as of 5:00 p.m., Eastern Standard Time, on August 17, 2023 (the "Effective Time"). At the Effective Time, every ten issued and outstanding shares of Common Stock were converted into one share of Common Stock, and as a result, the number of outstanding shares of Common Stock was reduced from approximately 9,809,195 to approximately 980,919. The par value of each share of Common Stock remained unchanged. No fractional shares were issued in connection with the Reverse Stock Split. Stockholders who would have otherwise been issued a fractional share of the Company's Common Stock as a result of the Reverse Stock Split instead received a cash payment in lieu of such fractional share in an amount equal to the applicable fraction multiplied by the closing price of the Company's Common Stock on the Nasdaq on August 17, 2023 (as adjusted for the Reverse Stock Split), without any interest. presented in this Annual Report on Form 10-K, including our consolidated financial statements, has been retroactively adjusted to reflect the decreased number of shares resulting from the Reverse Stock Split.

Series A Preferred Stock

The Company has the right to redeem the 562 shares of Series A Preferred, on a pro rata basis, at any time at a price equal to 103% of the purchase price for the Series A Preferred.

Series B Preferred Stock

Holders of Series B Preferred shares have the right to receive, only when and as authorized by the Board of Directors and declared by the Company, out of funds legally available for the payment of dividends, cash dividends, at a rate of 9% per annum of the \$25 liquidation preference per share. The Series B Preferred has no redemption rights. However, the Series B Preferred is subject to a mandatory conversion once the 20-trading day volume-weighted average closing price of our Common Stock, exceeds \$580 per share; once this weighted average closing price is met, each share of our Series B Preferred will automatically convert into shares of our Common Stock at a conversion price equal to \$400.00 per share of Common Stock. In addition, holders of our Series B Preferred also have the option, at any time, to convert shares of our Series B Preferred into shares of our Common Stock at a conversion price of \$400.00 per share of Common Stock. Upon any voluntary or involuntary liquidation, dissolution or winding up of our company, the holders of shares of our Series B Preferred shall be entitled to be paid out of our assets a liquidation preference of \$25.00 per share. The Series B Preferred has no maturity date and will remain outstanding indefinitely unless subject to a mandatory or voluntary conversion as described above.

Series D Preferred Stock - Redeemable Preferred Stock

At December 31, 2023 and 2022, the Company had 2,590,458 and 3,152,392 issued shares, respectively and 6,000,000 authorized shares of Series D Preferred Stock, without par value with a \$25.00 liquidation preference per share, or \$97.1 million and \$113.4 million in aggregate liquidation value, respectively.

Until September 21, 2023, the holders of the Series D Preferred Stock were entitled to receive cumulative cash dividends at a rate of 8.75% per annum of the \$25.00 liquidation preference per share (the "Initial Rate"). Commencing September 21, 2023, the holders were entitled to cumulative cash dividends at an annual dividend rate of the Initial Rate increased by 2% of the liquidation preference per annum on each subsequent anniversary thereafter, subject to a maximum annual dividend rate of 14%. Dividends are payable quarterly in arrears on or before January 15th, April 15th, July 15th and October 15th of each year.

Dividends on the Series D Preferred Stock cumulate from the end of the most recent dividend period for which dividends have been paid. Dividends on the Series D Preferred Stock cumulate whether or not (i) we have earnings, (ii) there are funds legally available for the payment of such dividends and (iii) such dividends are authorized by our Board of Directors or declared by us. Dividends on the Series D Preferred Stock do not bear interest. If the Company fails to pay any dividend within three (3) business days after the payment date for such dividend, the then-current dividend rate increases following the payment date by an additional 2.0% of the \$25.00 stated liquidation preference per share until we pay the dividend, subject to our ability to cure the failure. On December 20, 2018, the Company suspended the Series D Preferred dividend. As such, the Series D Preferred Stock shares began accumulating dividends at 10.75% beginning January 1, 2019 and will continue to accumulate dividends at this rate until all accumulated dividends have been paid. Commencing September 21, 2023, the Series D Preferred Stock holders were entitled to cumulative cash dividends at an annual dividend rate of 12.75%, subject to a maximum annual dividend rate of 16%, including the 2% default rate.

Holders of shares of the Series D Preferred Stock have no voting rights. Pursuant to the Company's Articles Supplementary, if dividends on the Series D Preferred are in arrears for six or more consecutive quarterly periods (a "Preferred Dividend Default"), holders of shares of the Series D Preferred Stock and the holders of Series A Preferred and Series B Preferred upon which like voting rights have been conferred and are exercisable (such the Series A Preferred and Series B Preferred together, being the "Parity Preferred Stock"), shall be entitled to vote for the election of two additional directors to serve on the Board of Directors (the "Series D Preferred Directors"). A Preferred Dividend Default occurred on April 15, 2020. The election of the Series D Preferred Directors will take place upon the written request of the holders of record of at least 20% of

deliver such written request for the election of the Series D Preferred Directors. The Series D Preferred Directors may serve on our Board of Directors, until all unpaid dividends on such Series D Preferred Stock and Parity Preferred Stock, if any, have been paid or declared and a sum sufficient for the payment thereof is set apart for payment.

The Series D Preferred Stock requires the Company maintain asset coverage of at least 200%. If we fail to maintain asset coverage of at least 200% calculated by determining the percentage value of (i) our total assets plus accumulated depreciation and accumulated amortization minus our total liabilities and indebtedness as reported in our financial statements prepared in accordance with GAAP (exclusive of the book value of any Redeemable and Term Preferred Stock (defined below)) over (ii) the aggregate liquidation preference, plus an amount equal to all accrued and unpaid dividends, of outstanding shares of our Series D Preferred Stock and any outstanding shares of term preferred stock or preferred stock providing for a fixed mandatory redemption date or maturity date (collectively referred to as “Redeemable and Term Preferred Stock”) on the last business day of any calendar quarter (“Asset Coverage Ratio”), and such failure is not cured by the close of business on the date that is 30 calendar days following the filing date of our Annual Report on Form 10-K or Quarterly Report on Form 10-Q, as applicable, for that quarter, or the “Asset Coverage Cure Date,” then we will be required to redeem, within 90 calendar days of the Asset Coverage Cure Date, shares of Redeemable and Term Preferred Stock, which may include Series D Preferred Stock, at least equal to the lesser of (i) the minimum number of shares of Redeemable and Term Preferred Stock that will result in us having a coverage ratio of at least 200% and (ii) the maximum number of shares of Redeemable and Term Preferred Stock that can be redeemed solely out of funds legally available for such redemption. In connection with any redemption for failure to maintain the Asset Coverage Ratio, we may, in our sole option, redeem any shares of Redeemable and Term Preferred Stock we select, including on a non-pro rata basis. We may elect not to redeem any Series D Preferred Stock to cure such failure as long as we cure our failure to meet the Asset Coverage Ratio by or on the Asset Coverage Cure Date. If shares of Series D Preferred Stock are to be redeemed for failure to maintain the Asset Coverage Ratio, such shares will be redeemed solely in cash at a redemption price equal to \$25.00 per share plus an amount equal to all accrued but unpaid dividends, if any, on such shares (whether or not declared) to and including the redemption date.

On or after September 21, 2021, the Company may, at its option, redeem the Series D Preferred Stock, for cash at a redemption price of \$25.00 per share, plus an amount equal to all accrued and unpaid dividends, if any, to and including the redemption date. The holder of the Series D Preferred Stock may convert shares at any time into shares of the Company’s Common Stock at an initial conversion rate of \$169.60 per share of Common Stock. After September 21, 2023, each holder of the Series D Preferred Stock may, at their option, request that the Company redeem any or all of their shares on a monthly basis at a redemption price of \$25.00 per share, plus an amount equal to all accrued and unpaid dividends, if any, to and including the Holder Redemption Date, payable in cash or in shares of Common Stock, or any combination thereof, at the Company’s option. Redemptions commenced on September 22, 2023, and the first Holder Redemption Date was October 5, 2023.

During the year ended December 31, 2023, the Company processed 175 redemption requests, collectively redeeming 864,070 shares of Series D Preferred Stock. Accordingly, the Company issued 52,788,687 shares of Common Stock in settlement of an aggregate Redemption Price of approximately \$32.7 million.

The value of the Common Stock issued to holders redeeming their Series D Preferred Stock is the volume weighted average price per share of our Common Stock for the ten consecutive trading days immediately preceding, but not including, the Holder Redemption Date as reported on Nasdaq (the “VWAP”). As of December 31, 2023, the Company has realized a gain of \$9.9 million in the aggregate due to the closing price of the Common Stock on the last VWAP date differing from the VWAP used to calculate the shares issued in each redemption round.

At December 31, 2023, the Company had received requests to redeem 9,843 shares of Series D Preferred Stock with respect to the January 2024 Holder Redemption Date. As such, the redemption of these Series D Preferred Stock is considered certain at December 31, 2023 and the liquidation value associated with these shares of \$0.4 million is presented as a liability.

The changes in the carrying value of the Series D Preferred Stock for the years ended December 31, 2023 and 2022 is as follows (in thousands, except per share data):

Earnings per share

Basic earnings per share (“EPS”) is calculated by dividing net income (loss) attributable to the Company’s common shareholders by the weighted average number of common shares outstanding for the period including participating securities.

Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into shares of common stock.

The following table summarizes the potential dilution of conversion of Operating Partnership common units (“Common Units”), Series B Preferred, Series D Preferred Stock, warrants and Convertible Notes into the Company’s Common Stock. These have been excluded from the Company’s diluted earnings per share calculation because their inclusion would be antidilutive.

2015 Long-Term Incentive Plan

On June 4, 2015, the Company’s stockholders approved the 2015 Long-Term Incentive Plan (the “2015 Incentive Plan”). The 2015 Incentive Plan allows for issuance of up to 12,500 shares of the Company’s Common Stock to employees, directors, officers and consultants for services rendered to the Company. The 2015 Incentive Plan replaced the 2012 Stock Incentive Plan.

As of December 31, 2023, there are 4,110 shares available for issuance under the Company’s 2015 Incentive Plan and there were no shares issued in 2023 or 2022.

2016 Long-Term Incentive Plan

On June 15, 2016, the Company’s stockholders approved the 2016 Long-Term Incentive Plan (the “2016 Incentive Plan”). The 2016 Incentive Plan allows for issuance of up to 62,500 shares of the Company’s Common Stock to employees, directors, officers and consultants for services rendered to the Company.

As of December 31, 2023, there are 12,770 shares available for issuance under the Company’s 2016 Incentive Plan and there were no shares issued in 2023 or 2022.

11. Related Party Transactions

Related Party Transactions with Cedar

The Company performs property management and leasing services for Cedar, a subsidiary of the Company, pursuant to the Wheeler Real Estate Company Management Agreement. During the years ended December 31, 2023 and 2022, Cedar paid the Company \$2.1 million and \$1.0 million, respectively, for these services. The Operating Partnership and Cedar’s operating partnership, Cedar Realty Trust Partnership, L.P., are party to a cost sharing and reimbursement agreement, pursuant to which the parties agreed to share costs and expenses associated with certain employees, certain facilities and property, and certain arrangements with third parties (the “Cost Sharing Agreement”). Related party amounts due to the Company from Cedar as of December 31, 2023 and 2022 are comprised of (in thousands):

	December 31, 2023 (b)	December 31, 2022 (b)

12. Subsequent Events

Convertible Notes - open market purchase

On January 17, 2024, the Company paid down \$0.6 million of the Convertible Notes through an open market purchase of 23,280 units at a total purchase price of \$1.3 million.

Adjustment to Conversion Price of Convertible Notes

For the February 2024 Series D Preferred Stock redemptions, the lowest price at which any Series D Preferred Stock was converted by a holder into Common Stock was approximately \$0.22.

Accordingly, pursuant to Section 14.02 (Optional Conversion) of the indenture governing the Convertible Notes, the Conversion Price for the Convertible Notes was further adjusted to approximately \$0.12 per share of Common Stock (approximately 209.84 shares of Common Stock for each \$25.00 of principal amount of the Convertible Notes being converted), representing a 45% discount to \$0.22.

Cumulative Series D Preferred Stock Redemption Information

The Company has processed 84,561 shares of Series D Preferred Stock. Accordingly, the Company has issued 14,253,931 shares of Common Stock in settlement of an aggregate Redemption Price of approximately \$3.2 million.

Cedar Revolving Credit Agreement

On February 29, 2024, the Company entered into a revolving credit agreement with KeyBank National Association to draw up to \$9.5 million (the "Cedar Revolving Credit Agreement"). The interest rate under the Cedar Revolving Credit Agreement is the daily SOFR, plus applicable margins of 0.10% plus 2.75%. Interest payments are due monthly, and principal is due at maturity on February 28, 2025. The Cedar Revolving Credit Agreement may be extended, at the Company's option, for up to two additional three-month periods, subject to customary conditions. The Cedar Revolving Credit Agreement is collateralized by 6 properties, consisting of Carll's Corner, Fieldstone Marketplace, Oakland Commons, Kings Plaza, Oregon Avenue and South Philadelphia, and proceeds will be used for capital expenditures and tenant improvements for such properties.
