1. Organization and Basis of Presentation and Consolidation

Wheeler Real Estate Investment Trust, Inc. (the "Trust", the "REIT", or "Company") is a Maryland corporation formed on June 23, 2011. The Trust serves as the general partner of Wheeler REIT, L.P. (the "Operating Partnership"), which was formed as a Virginia limited partnership on April 5, 2012. As of March 31, 2018, the Trust, through the Operating Partnership, owned and operated sixty-five centers, one office building, seven undeveloped properties, and one redevelopment project in Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Oklahoma, Tennessee, Kentucky, New Jersey, Pennsylvania and West Virginia. Accordingly, the use of the word "Company" refers to the Trust and its consolidated subsidiaries, except where the context otherwise requires.

On October 24, 2014, the Trust, through the Operating Partnership, acquired (i) Wheeler Interests, LLC ("WI"), an acquisition and asset management firm, (ii) Wheeler Real Estate, LLC ("WRE"), a real estate leasing, management and administration firm and (iii) WHLR Management, LLC ("WM" and collectively with WI and WRE the "Operating Companies"), a real estate business operations firm, from Jon S. Wheeler, the Company's then Chairman and CEO, resulting in the Company becoming an internally-managed REIT. Accordingly, the responsibility for identifying targeted real estate investments, the handling of the disposition of real estate investments our Board of Directors chooses to sell, administering our day-to-day business operations, including but not limited to, leasing, property management, payroll and accounting functions, acquisitions, asset management and administration are now handled internally.

Prior to being acquired by the Company, the Operating Companies served as the external manager for the Company and its properties (the "REIT Properties") and performed property management and leasing functions for certain related and non-related third parties (the "Non-REIT Properties"). The Company will continue to perform these services for the Non-REIT Properties through the Operating Companies, primarily through WRE. Accordingly, the Company converted WRE to a Taxable REIT Subsidiary ("TRS") to accommodate serving the Non-REIT Properties since applicable REIT regulations consider the income derived from these services to be "bad" income subject to taxation. The regulations allow for costs incurred by the Company commensurate with the services performed for the Non-REIT Properties to be allocated to a TRS.

During January 2014, the Company acquired Wheeler Development, LLC ("WD") and converted it to a TRS. The Company began performing development activities for both REIT Properties and Non-REIT Properties during 2015.

The condensed consolidated financial statements included in this Quarterly Report on Form 10-Q (the "Form 10-Q") are unaudited and the results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for future periods or the year. However, amounts presented in the condensed consolidated balance sheet as of December 31, 2017 are derived from the Company's audited consolidated financial statements as of that date, but do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. The Company prepared the accompanying condensed consolidated financial statements in accordance with GAAP for interim financial statements. All material balances and transactions between the consolidated entities of the Company have been eliminated. You should read these condensed consolidated financial statements in conjunction with our 2017 Annual Report filed on Form 10-K for the year ended December 31, 2017 (the "2017 Form 10-K").

2. Summary of Significant Accounting Policies

Investment Properties

The Company records investment properties and related intangibles at fair value upon acquisition. Investment properties include both acquired and constructed assets. Improvements and major repairs and maintenance are capitalized when the repair and maintenance substantially extends the useful life, increases capacity or improves the efficiency of the asset. All other repair and maintenance costs are expensed as incurred. The Company capitalizes interest on projects during periods of construction until the projects reach the completion point that corresponds with their intended purpose.

The Company allocates the purchase price of acquisitions to the various components of the asset based upon the fair value of each component which may be derived from various observable or unobservable inputs and assumptions. Also, the Company may utilize third party valuation specialists. These components typically include buildings, land and any intangible assets related to out-of-market leases, tenant relationships and in-place leases the Company determines to exist. The Company

2. Summary of Significant Accounting Policies (continued)

determines fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends and specific market and economic conditions that may affect the property. Factors considered by management in the analysis of determining the as-if-vacant property value include an estimate of carrying costs during the expected lease-up periods considering market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and estimates of lost rentals at market rates during the expected lease-up periods, tenant demand and other economic conditions. Management also estimates costs to execute similar leases including leasing commissions, tenant improvements, legal and other related expenses. Intangibles related to out-of-market leases, tenant relationships and in-place lease value are recorded as acquired lease intangibles and are amortized as an adjustment to rental revenue or amortization expense, as appropriate, over the remaining terms of the underlying leases. Premiums or discounts on acquired out-of-market debt are amortized to interest expense over the remaining term of such debt.

The Company records depreciation on buildings and improvements utilizing the straight-line method over the estimated useful life of the asset, generally 5 to 40 years. The Company reviews depreciable lives of investment properties periodically and makes adjustments to reflect a shorter economic life, when necessary. Tenant allowances, tenant inducements and tenant improvements are amortized utilizing the straight-line method over the term of the related lease or occupancy term of the tenant, if shorter.

Amounts allocated to buildings are depreciated over the estimated remaining life of the acquired building or related improvements. The Company amortizes amounts allocated to tenant improvements, in-place lease assets and other lease-related intangibles over the remaining life of the underlying leases. The Company also estimates the value of other acquired intangible assets, if any, and amortizes them over the remaining life of the underlying related intangibles.

The Company reviews investment properties for impairment on a property-by-property basis whenever events or changes in circumstances indicate that the carrying value of investment properties may not be recoverable, but at least annually. These circumstances include, but are not limited to, declines in the property's cash flows, occupancy and fair market value. The Company measures any impairment of investment property when the estimated undiscounted operating income before depreciation and amortization, plus its residual value, is less than the carrying value of the property. Estimated undiscounted operating income before depreciation and amortization includes various level 3 fair value assumptions including renewal and renegotiations of current leases, estimates of operating costs and fluctuating market conditions. The renewal and renegotiations of leases in some cases must be approved by additional third parties outside the control of the Company and the tenant. If such renewed or renegotiated leases are approved at amounts below correct estimates, then impairment adjustments may be necessary in the future. To the extent impairment has occurred, the Company charges to income the excess of the carrying value of the property over its estimated fair value. The Company estimates fair value using unobservable data such as operating income, estimated capitalization rates, or multiples, leasing prospects and local market information. The Company may decide to sell properties that are held for use and the sale prices of these properties may differ from their carrying values. The Company did not record any impairment adjustments to its properties during the three months ended March 31, 2018 and 2017.

Cash and Cash Equivalents and Restricted Cash

The Company considers all highly liquid investments purchased with an original maturity of 90 days or less to be cash and cash equivalents. Cash equivalents are carried at cost, which approximates fair value. Cash equivalents consist primarily of bank operating accounts and money markets. Financial instruments that potentially subject the Company to concentrations of credit risk include its cash and cash equivalents and its trade accounts receivable. The Company places its cash and cash equivalents with institutions of high credit quality.

Restricted cash represents amounts held by lenders for real estate taxes, insurance, reserves for capital improvements and tenant security deposits.

The Company places its cash and cash equivalents and restricted cash on deposit with financial institutions in the United States, which are insured by the Federal Deposit Insurance Company ("FDIC") up to \$250 thousand. The Company's credit loss in the event of failure of these financial institutions is represented by the difference between the FDIC limit and the total amounts on deposit. Management monitors the financial institutions credit worthiness in conjunction with balances on deposit to minimize risk.

2. Summary of Significant Accounting Policies (continued)

Tenant Receivables and Unbilled Rent

Tenant receivables include base rents, tenant reimbursements and receivables attributable to recording rents on a straight-line basis. The Company determines an allowance for the uncollectible portion of accrued rents and accounts receivable based upon customer credit-worthiness (including expected recovery of a claim with respect to any tenants in bankruptcy), historical bad debt levels, and current economic trends. The Company considers a receivable past due once it becomes delinquent per the terms of the lease. The Company's standard lease form considers a rent charge past due after five days. A past due receivable triggers certain events such as notices, fees and other allowable and required actions per the lease. As of March 31, 2018 and December 31, 2017, the Company's allowance for uncollectible accounts totaled \$723 thousand and \$705 thousand, respectively. During the three months ended March 31, 2018 and 2017, the Company recorded bad debt expenses in the amount of \$98 thousand and \$252 thousand, respectively, related to tenant receivables that were specifically identified as potentially uncollectible based on an assessment of the tenant's credit-worthiness. During the three months ended March 31, 2018 and 2017, the Company did not realize any recoveries related to tenant receivables previously written off.

Notes Receivable

Notes receivable represent financing to Sea Turtle Development as discussed in Note 4 for development of the project. The notes are secured by the underlying real estate known as Sea Turtle Development. The Company evaluates the collectability of both the interest on and principal of the notes receivable based primarily upon the projected fair market value of the project at stabilization. The notes receivable are determined to be impaired when, based upon current information, it is no longer probable that the Company will be able to collect all contractual amounts due from the borrower. The amount of impairment loss recognized is measured as the difference between the carrying amount of the loan and its estimated realizable value.

Goodwill

Goodwill is deemed to have an indefinite economic life and is not subject to amortization. Goodwill is tested annually for impairment and is tested for impairment more frequently if events and circumstances indicate that the asset might be impaired. To test for impairment, the Company first assesses qualitative factors, such as current macroeconomic conditions and our overall financial and operating performance, to determine the likelihood that the fair value of a reporting unit is less than its carrying amount. If the Company determines it is more likely than not that the fair value of a reporting unit is less than its carrying amount, the Company proceeds with the two-step approach to evaluating impairment. First, the Company estimates the fair value of the reporting unit and compares it to the reporting unit's carrying value. If the carrying value exceeds fair value, the Company proceeds with the second step, which requires us to assign the fair value of the reporting unit to all of the assets and liabilities of the reporting unit as if it had been acquired in a business combination at the date of the impairment test. The excess fair value of the reporting unit over the amounts assigned to the assets and liabilities is the implied value of goodwill and is used to determine the amount of impairment. The Company would recognize an impairment loss to the extent the carrying value of goodwill exceeds the implied value. As of March 31, 2018 and December 31, 2017, no adjustments were made to goodwill.

Above and Below Market Lease Intangibles, net

The Company determines the above and below market lease intangibles upon acquiring a property. Above and below market lease intangibles are amortized over the life of the respective leases. Amortization of above and below market lease intangibles is recorded as a component of rental revenues.

Deferred Costs and Other Assets, net

The Company's deferred costs and other assets consist primarily of leasing commissions, leases in place, capitalized legal and marketing costs, tenant relationship and ground lease sandwich interest intangibles associated with acquisitions. The Company's lease origination costs consist primarily of the portion of property acquisitions allocated to lease originations and commissions paid in connection with lease originations.

Revenue Recognition**Adoption of ASC Topic 606, "Revenue from Contracts with Customers"**

As detailed in "Recent Accounting Pronouncements", the Company adopted Topic 606, *Revenue from Contracts with Customers* on January 1, 2018 with the cumulative effect of initially applying the standard recognized on this date. As a result, the Company has changed its accounting policies for revenue recognized on non-real estate lease contracts. As of adoption, non-lease revenue streams are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under Topic 605.

Lease Contract Revenue

The Company retains substantially all of the risks and benefits of ownership of the investment properties and accounts for its leases as operating leases. The Company accrues minimum rents on a straight-line basis over the terms of the respective leases which results in an unbilled rent asset or deferred rent liability being recorded on the balance sheet. At March 31, 2018 and December 31, 2017, there were \$2.42 million and \$2.34 million in unbilled rent which is included in "rents and other tenant receivables, net." Additionally, certain of the lease agreements contain provisions that grant additional rents based on tenants'

sales volumes (contingent or percentage rent). Percentage rents are recognized when the tenants achieve the specified targets as defined in their lease agreements.

The Company's leases generally require the tenant to reimburse the Company for a substantial portion of its expenses incurred in operating, maintaining, repairing, insuring and managing the shopping center and common areas (collectively defined as Common Area Maintenance or "CAM" expenses). This significantly reduces the Company's exposure to increases in costs and operating expenses resulting from inflation or other outside factors. The Company accrues reimbursements from tenants for recoverable portions of all these expenses as revenue in the period the applicable expenditures are incurred. The Company calculates the tenant's share of operating costs by multiplying the total amount of the operating costs by a fraction, the numerator of which is the total number of square feet being leased by the tenant, and the denominator of which is the average total square footage of all leasable buildings at the property. The Company also receives escrow payments for these reimbursements from substantially all its tenants throughout the year. The Company recognizes differences between estimated recoveries and the final billed amounts in the subsequent year. These differences were not material for the three months ended March 31, 2018 and 2017.

The Company recognizes lease termination fees in the year that the lease is terminated and collection of the fee is reasonably assured. Upon early lease termination, the Company provides for losses related to unrecovered intangibles and other assets.

Asset Management Fees

Asset management fees are generated from Non-REIT properties. The Non-REIT Properties pay WRE property management and/or asset management fees of 3% and 2% of collected revenues, respectively for services performed. Revenues are governed by the management fee agreements for the various properties. Obligations under the agreements include and are not limited to: managing of maintenance, janitorial, security, landscaping, vendors, back office (collecting rents, paying bills), etc. Each of the obligations are bundled together to be one service and are satisfied over time. Non-REIT Properties are billed monthly and typically pay monthly for these services.

Commissions

Commissions are generated from Non-REIT properties. The Non-REIT Properties pay WRE leasing commissions based on the total contractual revenues to be generated under the new/renewed lease agreement (6% for new leases and 3% for renewals). Revenues are governed by the leasing commission agreements for the various properties. Obligations under the agreements include and are not limited to: monitoring upcoming vacancies, new tenant identification, proposal preparation, lease negotiation, document preparation, etc. Each of the obligations are bundled together to be one service as the overall objective of these services is to maintain the overall occupancy of the property. Revenue is recognized and billed upon lease execution.

Development Income

Non-REIT properties pay development fees of 5% of hard costs. Revenues are governed by the development agreements for each development. Obligations under the agreements include overseeing the development of the project. The Company's performance creates or enhances the project that the Non-REIT property controls as such this revenue is recognized over time. The projects are billed monthly and typically pay monthly for these services.

Income Taxes

The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code and applicable Treasury regulations relating to REIT qualification. In order to maintain this REIT status, the regulations require the Company to distribute at least 90% of its taxable income to shareholders and meet certain other asset and income tests, as well as other requirements. The TRS' have accrued \$98 thousand and \$15 thousand for federal and state income taxes as of March 31, 2018 and December 31, 2017. If the Company fails to qualify as a REIT, it will be subject to tax at regular corporate rates for the years in which it fails to qualify. If the Company loses its REIT status, it could not elect to be taxed as a REIT for five years unless the Company's failure to qualify was due to a reasonable cause and certain other conditions were satisfied.

Taxable REIT Subsidiary Cost Allocation

The Company's overall philosophy regarding cost allocation centers around the premise that the Trust exists to acquire, lease and manage properties for the benefit of its investors. Accordingly, a majority of the Company's operations occur at the property level. Each property must carry its own weight by absorbing the costs associated with generating its revenues. Additionally, leases generally allow the Company to pass through to the tenant most of the costs involved in operating the property, including, but not limited to, the direct costs associated with owning and maintaining the property (landscaping, repairs and maintenance, taxes, insurance, etc.), property management and certain administrative costs.

Service vendors bill the majority of the direct costs of operating the properties directly to the REIT Properties and Non-REIT Properties and each property pays them accordingly. The Non-REIT Properties pay WRE property management and/or asset management fees of 3% and 2% of collected revenues, respectively. The Non-REIT Properties also pay WRE leasing commissions based on the total contractual revenues to be generated under the new/renewed lease agreement (6% for new leases and 3% for renewals). Non-REIT properties pay development fees of 5% of hard costs.

Costs incurred to manage, lease and administer the Non-REIT Properties are allocated to the TRS. These costs include compensation and benefits, property management, leasing and other corporate, general and administrative expenses associated with generating the TRS' revenues.

Financial Instruments

The carrying amount of financial instruments included in assets and liabilities approximates fair market value due to their immediate or short-term maturity.

2. Summary of Significant Accounting Policies (continued)*Use of Estimates*

The Company has made estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reported periods. The Company's actual results could differ from these estimates.

Advertising Costs

The Company expenses advertising and promotion costs as incurred. The Company incurred advertising and promotion costs of \$43 thousand and \$60 thousand for the three months ended March 31, 2018 and 2017, respectively.

Assets Held For Sale and Discontinued Operations

The Company records assets as held for sale when management has committed to a plan to sell the assets, actively seeks a buyer for the assets, and the consummation of the sale is considered probable and is expected within one year.

Assets held for sale are presented as discontinued operations in all periods presented if the disposition represents a strategic shift that has, or will have, a major effect on the Company's financial position or results of operations. This includes the net gain (or loss) upon disposal of property held for sale, the property's operating results, depreciation and interest expense.

Corporate General and Administrative Expense

A detail for the "Corporate General & Administrative" line item from the Condensed Consolidated Statements of Operations is presented below (in thousands):

	Three Months Ended March 31,	
	2018	2017
Professional fees	\$ 931	\$ 637
Compensation and benefits	903	683
Corporate administration	336	257
Taxes and Licenses	165	49
Travel	70	66
Capital related costs	53	220
Advertising	43	60
Acquisition costs	7	260
Total Corporate General & Administrative	\$ 2,508	\$ 2,232

An allocation of professional fees, compensation and benefits, corporate administration and travel is included in Non-REIT management and leasing services on the statements of operations, which can vary period to period depending on the relative operational fluctuations of these respective services.

Noncontrolling Interests

Noncontrolling interests is the portion of equity in the Operating Partnership not attributable to the Trust. The ownership interests not held by the Company are considered noncontrolling interests. Accordingly, noncontrolling interests have been reported in equity on the condensed consolidated balance sheets but separate from the Company's equity. On the condensed consolidated statements of operations, the subsidiaries are reported at the consolidated amount, including both the amount attributable to the Company and noncontrolling interests. Condensed consolidated statement of equity includes

2. Summary of Significant Accounting Policies (continued)

beginning balances, activity for the period and ending balances for shareholders' equity, noncontrolling interests and total equity.

The noncontrolling interest of the Operating Partnership common unit holders is calculated by multiplying the noncontrolling interest ownership percentage at the balance sheet date by the Operating Partnership's net assets (total assets less total liabilities). The noncontrolling interest percentage is calculated at any point in time by dividing the number of units not owned by the Company by the total number of units outstanding. The noncontrolling interest ownership percentage will change as additional units are issued or as units are exchanged for the Company's common stock \$0.01 par value per share ("Common Stock"). In accordance with GAAP, any changes in the value from period to period are charged to additional paid-in capital.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, "Revenue from Contracts with Customers," which supersedes the revenue recognition requirements of Accounting Standards Codification ("ASC") Topic 605, "Revenue Recognition" and most industry-specific guidance on revenue recognition throughout the ASC. The new standard is principles based and provides a five step model to determine when and how revenue is recognized. The core principle of the new standard is that revenue should be recognized when a company transfers promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The new standard also requires disclosure of qualitative and quantitative information surrounding the amount, nature, timing and uncertainty of revenues and cash flows arising from contracts with customers. In March 2016, the FASB issued ASU No. 2016-08, "Revenue from Contracts with Customers (Topic 606): Principal versus Agent Considerations (Reporting Revenue Gross versus Net)," which clarifies the implementation guidance on principal versus agent considerations. In April 2016, the FASB issued ASU 2016-10, "Revenue from contracts with customers (Topic 606): Identifying Performance Obligations and Licensing," which provides further guidance on identifying performance obligations and intellectual property licensing implementation. In June 2016, the FASB issued ASU 2016-12, "Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients," which relates to assessing collectability, presentation of sales taxes, noncash consideration and completed contracts and contract modifications in transition. In December 2016, the FASB issued 2016-20, "Technical Corrections and Improvements to Topic 606, Revenue from Contracts with Customers," which clarifies or corrects unintended application of the standard. Companies are permitted to adopt the ASUs as early as fiscal years beginning after December 15, 2016, but the adoption is required for fiscal years beginning after December 15, 2017. In September 2017, the FASB issued ASU 2017-13, "Revenue Recognition (Topic 605)," "Revenue from Contracts with Customers (Topic 606)," "Leases (Topic 840)," and "Leases (Topic 842)." These amendments provide additional clarification and implementation guidance on the previously issued ASU 2014-09, "Revenue from Contracts with Customers (Topic 606)."

On January 1, 2018, the Company adopted Topic 606 retrospectively with the cumulative effect of initially applying the standard as of this date to those contracts which were not completed as of January 1, 2018. Results for reporting periods beginning after January 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under Topic 605. The majority of the Company's revenue is based on real estate lease contracts which are not within the scope of this ASU. The Company has identified its non-lease revenue streams and adoption of this standard does not have a material impact on our financial position or results of operations. The Company has increased disclosures around revenue recognition in the notes to condensed consolidated financial statements to comply with the standard.

In February 2016, the FASB issued ASU 2016-02, "Leases (Topic 842)." ASU 2016-02 is intended to improve financial reporting about leasing transactions. The ASU affects all companies and other organizations that lease assets such as real estate, airplanes, and manufacturing equipment. The ASU will require organizations that lease assets referred to as "Lessees" to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. An organization is to provide disclosures designed to enable users of financial statements to understand the amount, timing, and uncertainty of cash flows arising from leases. These disclosures include qualitative and quantitative requirements concerning additional information about the amounts recorded in the financial statements. Under the new guidance, a lessee will be required to recognize assets and liabilities for leases with lease terms of more than 12 months. Consistent with current GAAP, the recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee primarily will depend on its classification as a finance or operating lease. However, unlike current GAAP which requires only capital leases to be recognized on the balance sheet the new ASU will require both types of leases (i.e. operating and capital) to be recognized

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Condensed Consolidated Financial Statements (Continued)
(Unaudited)

2. Summary of Significant Accounting Policies (continued)

on the balance sheet. The FASB lessee accounting model will continue to account for both types of leases. The capital lease will be accounted for in substantially the same manner as capital leases are accounted for under existing GAAP. The operating lease will be accounted for in a manner similar to operating leases under existing GAAP, except that lessees will recognize a lease liability and a lease asset for all of those leases.

In September 2017, the FASB issued ASU 2017-13, "Revenue Recognition (Topic 605)," "Revenue from Contracts with Customers (Topic 606)," "Leases (Topic 840)," and "Leases (Topic 842)," which provides additional implementation guidance on the previously issued ASU 2016-02. "Leases (Topic 842)."

The leasing standard will be effective for calendar year-end public companies beginning after December 15, 2018. Public companies will be required to adopt the new leasing standard for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption will be permitted for all companies and organizations upon issuance of the standard. For calendar year-end public companies, this means an adoption date of January 1, 2019 and retrospective application to previously issued annual and interim financial statements for 2018 and 2017. The accounting for leases under which we are the lessor remains largely unchanged. Lessees with a large portfolio of leases are likely to see a significant increase in balance sheet assets and liabilities. While we are currently assessing the impact of the standard on our financial position and results of operations we expect the primary impact to be on those ground leases which we are the lessor. The new standard will result in the recording of right of use assets and lease obligations. See Note 9 for the Company's current lease commitments. The Company continues to evaluate the impact of ASU 2016-02 on its financial statements.

In November 2016, the FASB issued ASU 2016-18, "Statement of Cash Flows (Topic 230): Restricted Cash (a consensus of the FASB Emerging Issues Task Force)." The ASU provides guidance on the presentation of restricted cash or restricted cash equivalents in the statement of cash flows in an effort to reduce diversity in practice. The standard requires a reconciliation of total cash, cash equivalents and restricted cash in the cash flow statement or in the notes to the financial statements. This ASU is effective for annual and interim reporting periods beginning after December 15, 2017 and early adoption is permitted. The new standard is to be applied retrospectively for all periods presented. The Company adopted this ASU as of January 1, 2018 and applied retrospectively. The adoption resulted in a reduction of \$329 thousand in net cash from operating activities and \$1 thousand increase in net cash from investing activities for the three months ended March 31, 2017 on the Condensed Consolidated Statements of Cash Flows.

In January 2017, the FASB issued ASU 2017-01, "Business Combinations (Topic 805): Clarifying the Definition of a Business." The ASU clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. This ASU is effective for annual and interim reporting periods beginning after December 15, 2017 and early adoption is permitted. The new standard is to be applied prospectively. The adoption of this standard will most likely result in less real estate acquisitions qualifying as businesses and, accordingly, acquisition costs for those acquisitions that are not businesses will be capitalized rather than expensed. The Company adopted this ASU as of January 1, 2018. As a result of this adoption, the acquisition costs associated with the purchase of JANAF were capitalized as a cost of the asset.

In January 2017, the FASB issued ASU 2017-04, "Intangibles - Goodwill and Other (Topic 350): Simplifying the test for Goodwill Impairment." The amendments in ASU 2017-04 eliminate the current two-step approach used to test goodwill for impairment and require an entity to apply a one-step quantitative test and record the amount of goodwill impairment as the excess of a reporting unit's carrying amount over its fair value, not to exceed the total amount of goodwill allocated to the reporting unit. This ASU is effective for annual and interim reporting periods beginning after December 15, 2019 and early adoption is permitted on testing dates after January 1, 2017. The new standard is to be applied prospectively. The Company will adopt this ASU in 2020 and does not expect the adoption to materially impact its financial position or results of operations.

In February 2017, the FASB issued ASU 2017-05, "Other Income-Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets." This amendment provides guidance for partial sales of nonfinancial assets. This ASU is effective for annual periods beginning after December 15, 2017. Early adoption is permitted. The standard is to be applied retrospectively or modified retrospectively. The Company adopted this ASU as of January 1, 2018. The adoption did not have a material impact on the financial position or results of operations.

2. Summary of Significant Accounting Policies (continued)

In May 2017, the FASB issued ASU 2017-09, "Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting." This update clarifies when modification accounting guidance in Topic 718 should be applied to a change in terms or conditions of a share-based payment award. This ASU is effective for annual and interim periods beginning after December 15, 2017 with early adoption permitted. The new standard is to be applied prospectively to an award modified on or after the adoption date. The Company adopted this ASU as of January 1, 2018. The adoption did not have a material impact on the financial position or results of operations.

Other accounting standards that have been issued or proposed by the FASB or other standard-setting bodies are not currently applicable to the Company or are not expected to have a significant impact on the Company's financial position, results of operations and cash flows.

3. Investment Properties

Investment properties consist of the following (in thousands):

	<u>March 31, 2018</u>	<u>December 31, 2017</u>
	<u>(unaudited)</u>	
Land and land improvements	\$ 99,313	\$ 91,108
Land held for improvement	2,305	11,228
Buildings and improvements	381,137	313,043

Less accumulated depreciation	(34,200)	(31,045)
Investment properties, net	\$ 448,555	\$ 384,334

The Company's depreciation expense on investment properties was \$3.17 million and \$2.67 million for the three months ended March 31, 2018 and 2017, respectively.

A significant portion of the Company's land, buildings and improvements serves as collateral for its mortgage loans payable portfolio. Accordingly, restrictions exist as to the encumbered property's transferability, use and other common rights typically associated with property ownership.

Disposition

On January 12, 2018, the Company completed the sale of the Chipotle ground lease at Conyers Crossing for a contract price of \$1.27 million, resulting in a gain of \$1.06 million with net proceeds of \$1.16 million.

The sale of the Chipotle ground lease at Conyers Crossing did not represent a strategic shift that has a major effect on the Company's financial position or results of operations. Accordingly, the operating results of this property remains classified within continuing operations for all periods presented.

JANAF Acquisition

On January 18, 2018, the Company acquired JANAF, a retail shopping center located in Norfolk, Virginia, for a purchase price of \$85.65 million, paid through a combination of cash, restricted cash, debt assumption and the issuance of 150,000 shares of Common Stock at \$7.53 per share. The shopping center, anchored by BJ's Wholesale Club, totals 810,137 square feet and was 94% leased at the acquisition date.

The following summarizes the consideration paid and the purchase allocation of assets acquired and liabilities assumed in conjunction with the acquisition described above in accordance with ASU 2017-01, along with a description of the methods used to determine the purchase price allocation (in thousands, unaudited). In determining the purchase price allocation, the Company considered many factors including, but not limited to, cash flows, market cap rates, location, occupancy rates, appraisals, other acquisitions and management's knowledge of the current acquisition market for similar properties.

- i. the market approach valuation methodology for land by considering similar transactions in the markets;
 - ii. a combination of the cost approach and income approach valuation methodologies for buildings, including replacement cost evaluations, “go dark” analyses and residual calculations incorporating the land values; and
 - iii. the cost approach valuation methodology for site and tenant improvements, including replacement costs and prevailing quoted market rates.
- b. Represents the purchase price allocation of lease intangibles and other assets. Lease intangibles includes in place leases and ground lease sandwich interests associated with replacing existing leases. The income approach was used to determine the allocation of these intangible assets which included estimated market rates and expenses.
- c. Represents the purchase price allocation of deleveraging reserve (the “Deleveraging Reserve”) released upon the maturity or earlier payment in full of the loan or until the reduction of the principal balance of the loan to \$50,000,000.
- d. Represents the purchase price allocation of above/below market leases. The income approach was used to determine the allocation of above/below market leases using market rental rates for similar properties.
- e. Assumption of \$53.71 million of debt at a rate of 4.49%, maturing July 2023 with monthly principal and interest payments of \$333,159 and assumption of \$5.16 million of debt at a rate of 4.95%, maturing January 2026 with monthly principal and interest payments of \$29,964.
- f. Represents the components of purchase consideration paid.

Unaudited pro forma financial information in the aggregate is presented below for the acquisition of JANAF. The unaudited pro forma information presented below includes the effects of the JANAF acquisition as if it had been consummated as of the beginning of the prior fiscal year. The pro forma results include adjustments for depreciation and amortization associated with acquired tangible and intangible assets, straight-line rent adjustments, interest expense related to debt incurred and assumed. The unaudited pro forma financial information is presented for informational purposes only and may not be indicative of the results of operations that would have been achieved if these acquisition had taken place in January 1, 2018 or 2017.

4. Notes Receivable

On September 29, 2016, the Company entered into an \$11.00 million note receivable for the partial funding of the Sea Turtle Development and a \$1.00 million note receivable in consideration for the sale of 10.39 acres of land owned by the Company. Both promissory notes are collateralized by a 2nd deed of trust on the property and accrue interest at a rate of 12% annually. Interest only payments at a rate of 8% are due on the notes at the beginning of every calendar quarter starting October 2016. Interest at a rate of 4% accrues and is due at maturity. The notes mature the earlier of September 29, 2021 or the disposition of the property. As of December 31, 2017, the Company recognized a \$5.26 million impairment charge on the notes receivable reducing the carrying value to \$6.74 million as of March 31, 2018 and December 31, 2017. The Company placed the notes receivable on nonaccrual status and has not recognized \$355 thousand of interest income due on the notes for the three months ended March 31, 2018.

As of March 31, 2018, the Company believes the estimated fair market value of the development upon stabilization at a future date will provide for the cash required to repay the \$6.74 million carrying value of the notes receivable due the Company in the event of a sale. The Company's estimated fair value of the project is based upon cash flow models that include development costs to date, anticipated cost to complete, executed leases, and financing available to complete and stabilize the project. Capitalization rates utilized in these models are based upon rates that the Company believes to be within a reasonable range of current market rates for the respective project. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. If the holder of the 1st deed of trust proceeds to foreclosure, this may have an adverse effect on assumptions used in the Company's fair value analysis leading to further impairment.

5. Assets Held for Sale

In August 2015, the Company's management and Board of Directors committed to a plan to sell Bixby Commons, Jenks Reasors, Harps at Harbor Point, Starbucks/Verizon and the ground leases for Ruby Tuesday's and Outback Steakhouse at Pierpont Centre (the "Freestanding Properties") as part of the Company's continuous evaluation of strategic alternatives. On February 28, 2017, the Company completed its sale of the last remaining Freestanding Properties, Ruby Tuesday's and Outback Steakhouse at Pierpont Centre, for a contract price of approximately \$2.29 million, resulting in a gain of \$1.51 million.

In February 2018, the Company's management and Board of Directors committed to a plan to sell the seven undeveloped land parcels (the "Land Parcels") as part of Company's strategic initiative. Accordingly, the Land Parcels have been classified as held for sale.

As of March 31, 2018 and December 31, 2017, assets held for sale consisted of the following (in thousands):

KeyBank Credit Agreement

On December 21, 2017, the Company entered into an Amended and Restated Credit Agreement to the KeyBank Credit Agreement (the "Amended and Restated Credit Agreement"). The Amended and Restated Credit Agreement provides for an increase in borrowing capacity from \$50.00 million to \$52.50 million and also increases the accordion feature by \$50.00 million to \$150.00 million. Additionally, the Amended and Restated Credit Agreement provides for an extension of the requirement to reduce the outstanding borrowings under the facility from \$68.03 million to \$52.50 million by July 1, 2018. The revolving facility will mature on December 21, 2019, but may be extended at the Company's option for an additional one year period, subject to certain customary conditions. The interest rate remains the same at LIBOR plus 250 basis points based on the Company's Consolidated Leverage Ratio (as defined in the Amended and Restated Credit Agreement). The unutilized amounts available to the Company under the Credit Agreement accrue fees which are paid at a rate of 0.25%.

On March 2, 2018, KeyBank reduced the liquidity requirement from \$5.00 million to \$3.50 million through March 31, 2018. The liquidity requirement reverts back to \$5.00 million subsequent to March 31, 2018 until such time as the Total Commitment (as defined in the Amended and Restated Credit Agreement) has been reduced to \$52.50 million and \$3.50 million at all times thereafter.

As of March 31, 2018, the Company has borrowed \$68.03 million under the Credit Agreement, which is collateralized by 16 properties. At March 31, 2018, the outstanding borrowings are accruing interest at 4.38%. The Amended and Restated Credit Agreement contains certain financial covenants that the Company must meet, including minimum leverage, fixed charge coverage and debt service coverage ratios as well as a minimum tangible net worth requirement. The Company was in compliance with the financial covenants as of March 31, 2018. The Amended and Restated Credit Agreement also contains certain events of default that if they occur may cause KeyBank to terminate the Amended and Restated Credit Agreement and declare amounts owed to become immediately payable. As of March 31, 2018, the Company has not incurred an event of default.

Bank Line of Credit Renewal

On January 10, 2018, the Company extended the \$3.00 million bank line of credit ("Bank Line of Credit") to June 15, 2018 with interest only payments due monthly at a rate of Libor + 3.00% with a floor of 4.25%.

JANAF

On January 18, 2018, the Company executed a promissory note for \$53.71 million for the purchase of JANAF at a rate of 4.49%. The loan matures in July 2023 with monthly principal and interest payments of \$333,159.

JANAF - BJ's

On January 18, 2018, the Company executed a promissory note for \$5.16 million for the purchase of JANAF at a rate of 4.95%. The loan matures in January 2026 with monthly principal and interest payments of \$29,964.

JANAF - Bravo

On January 18, 2018, the Company executed a promissory note for \$6.50 million for the purchase of JANAF at a rate of 4.65%. The loan matures in January 2021 with interest due monthly.

Eagle Harbor Renewal

On March 11, 2018, the Company renewed the promissory note for \$3.32 million on Eagle Harbor for five years. The loan matures on March 2023 with monthly principal and interest payments of \$26,528. The loan bears interest at 5.10%.

6. Loans Payable (continued)***Loan Covenants***

Certain of the Company's loans payable have covenants with which the Company is required to comply. As of March 31, 2018, the Company has received a waiver through loan maturity for the debt to tangible net worth ratio on the Bank Line of Credit and a waiver on the debt service coverage ratio. As of March 31, 2018, the Company believes it is in compliance with all other applicable covenants.

Debt Maturity

The Company's scheduled principal repayments on indebtedness as of March 31, 2018, including assets held for sale, are as follows (in thousands, unaudited):

For the remaining nine months ended December 31, 2018	\$	37,561
December 31, 2019		80,641
December 31, 2020		21,249
December 31, 2021		10,236
December 31, 2022		7,736
December 31, 2023		67,722
Thereafter		154,000
Total principal repayments and debt maturities	\$	379,145

The Company has considered our short-term (one year or less) liquidity needs and the adequacy of our estimated cash flows from operating activities and other expected financing sources to meet these needs. In particular, we have considered our scheduled debt maturities and principal payments for the nine months ended December 31, 2018 of \$37.56 million, which includes the \$15.53 million maturity of the KeyBank line of credit. Management is in the process of refinancing properties off the KeyBank line of credit to reduce the line to under \$52.50 million prior to July 1, 2018 in accordance with the Amended and Restated Credit Agreement. Management is in the process of refinancing the \$6.81 million Revere Loan. All loans due to mature are collateralized by properties within our portfolio. Additionally, the Company expects to meet the short-term liquidity requirements, through a combination of the following:

- available cash and cash equivalents;
- cash flows from operating activities;
- refinancing of maturing debt; and
- intended sale of seven undeveloped land parcels and sale of additional properties, if necessary.

Management is currently working with lenders to refinance the loans noted above. The loans are expected to have customary interest rates similar to current loans. They are subject to formal lender commitment, definitive documentation and customary conditions.

Series A Preferred Stock

At March 31, 2018 and December 31, 2017, the Company had 562 shares of Series A Preferred Stock, without par value ("Series A Preferred") issued and outstanding and 4,500 shares authorized with a \$1,000 liquidation preference per share, or \$562 thousand in aggregate. The Series A Preferred accrues cumulative dividends at a rate of 9% per annum, which is paid quarterly. The Company has the right to redeem the 562 shares of Series A Preferred, on a pro rata basis, at any time at a price equal to 103% of the purchase price for the Series A Preferred plus any accrued but unpaid dividends.

Series B Preferred Stock

At March 31, 2018 and December 31, 2017, the Company had 1,875,748 and 1,875,848 shares, respectively, and 5,000,000 shares of Series B Convertible Preferred Stock, without par value ("Series B Preferred") issued and authorized with a \$25.00 liquidation preference per share, or \$46.90 million in aggregate. The Series B Preferred bears interest at a rate of 9% per annum. The Series B Preferred has no redemption rights. However, the Series B Preferred is subject to a mandatory conversion once the 20-trading day volume-weighted average closing price of our Common Stock, exceeds \$58 per share; once this weighted average closing price is met, each share of our Series B Preferred will automatically convert into shares of our Common Stock at a conversion price equal to \$40.00 per share of Common Stock. In addition, holders of our Series B Preferred also have the option, at any time, to convert shares of our Series B Preferred into shares of our Common Stock at a conversion price of \$40.00 per share of Common Stock. Upon any voluntary or involuntary liquidation, dissolution or winding up of our company, the holders of shares of our Series B Preferred shall be entitled to be paid out of our assets a liquidation preference of \$25.00 per share, plus an amount equal to all accumulated, accrued and unpaid dividends to and including the date of payment. The Series B Preferred has no maturity date and will remain outstanding indefinitely unless subject to a mandatory or voluntary conversion as described above.

In conjunction with the 2014 issuance of Series B Preferred, 1,986,600 warrants were issued. Each warrant permits investors to purchase 0.125 share of Common Stock at an exercise price of \$44 per share of Common Stock, subject to adjustment. The warrants expire in April 2019.

Series D Preferred Stock - Redeemable Preferred Stock

In January 2018, the Company, issued and sold 1,363,636 shares of no par value Series D Cumulative Convertible Preferred Stock, without par value ("Series D Preferred"), in a public offering. Each share of Series D Preferred Stock was sold to investors at an offering price of \$16.50 per share. Net proceeds from the public offering totaled \$21.16 million, which includes the impact of the underwriters' selling commissions and legal, accounting and other professional fees.

At March 31, 2018 and December 31, 2017, the Company had 3,600,636 and 2,237,000 shares of Series D Preferred issued and authorized with a \$25.00 liquidation preference per share, or \$90.02 million and \$55.93 million in aggregate, respectively. Until September 21, 2023, the holders of the Series D Preferred are entitled to receive cumulative cash dividends at a rate of 8.75% per annum of the \$25.00 liquidation preference per share (equivalent to the fixed annual amount of \$2.1875 per share) (the "Initial Rate"). Commencing September 21, 2023, the holders will be entitled to cumulative cash dividends at an annual dividend rate of the Initial Rate increased by 2% of the liquidation preference per annum on each subsequent anniversary thereafter, subject to a maximum annual dividend rate of 14%. Dividends are payable quarterly in arrears on or before January 15th, April 15th, July 15th and October 15th of each year. On or after September 21, 2021, the Company may, at its option, redeem the Series D Preferred, for cash at a redemption price of \$25.00 per share, plus an amount equal to all accrued and unpaid dividends, if any, to and including the redemption date. The holder of the Series D Preferred may convert shares at any time into shares of the Company's Common Stock at an initial conversion rate of \$16.96 per share of Common Stock. On September 21, 2023, the holders of the Series D Preferred may, at their option, elect to cause the Company to redeem any or all of their shares at a redemption price of \$25.00 per share, plus an amount equal to all accrued and unpaid dividends, if any, to and including the redemption date, payable in cash or in shares of Common Stock, or any combination thereof, at the holder's option.

Accretion of Series D Preferred was \$148 thousand for the three months ended March 31, 2018.

Earnings per share

Basic earnings per share for the Company's common shareholders is calculated by dividing income (loss) from continuing operations, excluding amounts attributable to preferred stockholders and the net loss attributable to noncontrolling interests, by the Company's weighted-average shares of Common Stock outstanding during the period. Diluted earnings per share is computed by dividing the net income (loss) attributable to common shareholders, excluding amounts attributable to preferred shareholders and the net loss attributable to noncontrolling interests, by the weighted-average number of common shares including any dilutive shares.

As of March 31, 2018, the below shares are able to be converted to Common Stock. The common units, convertible preferred stock, cumulative convertible preferred stock, and warrants have been excluded from the Company's diluted earnings per share calculation because their inclusion would be antidilutive. In addition to the below, 750,000 shares of the Company's Common Stock may be issued upon exercise of a warrant, solely in the event of a default under a loan agreement in which we serve as a guarantor.

Insurance

The Company carries comprehensive liability, fire, extended coverage, business interruption and rental loss insurance covering all of the properties in its portfolio under a blanket insurance policy, in addition to other coverages, such as trademark and pollution coverage that may be appropriate for certain of its properties. Additionally, the Company carries a directors', officers', entity and employment practices liability insurance policy that covers such claims made against the Company and its directors and officers. The Company believes the policy specifications and insured limits are appropriate and adequate for its

9. Commitments and Contingencies (continued)

properties given the relative risk of loss, the cost of the coverage and industry practice; however, its insurance coverage may not be sufficient to fully cover its losses.

Concentration of Credit Risk

The Company is subject to risks incidental to the ownership and operation of commercial real estate. These risks include, among others, the risks normally associated with changes in the general economic climate, trends in the retail industry, creditworthiness of tenants, competition for tenants and customers, changes in tax laws, interest rates, the availability of financing and potential liability under environmental and other laws.

The Company's portfolio of properties is dependent upon regional and local economic conditions and is geographically concentrated in the Northeast, Mid-Atlantic, Southeast and Southwest, which markets represented approximately 3%, 20%, 76% and 1%, respectively, of the total annualized base rent of the properties in its portfolio as of March 31, 2018. The Company's geographic concentration may cause it to be more susceptible to adverse developments in those markets than if it owned a more geographically diverse portfolio. Additionally, the Company's retail shopping center properties depend on anchor stores or major tenants to attract shoppers and could be adversely affected by the loss of, or a store closure by, one or more of these tenants.

Regulatory and Environmental

As the owner of the buildings on our properties, the Company could face liability for the presence of hazardous materials (e.g., asbestos or lead) or other adverse conditions (e.g., poor indoor air quality) in its buildings. Environmental laws govern the presence, maintenance, and removal of hazardous materials in buildings, and if the Company does not comply with such laws, it could face fines for such noncompliance. Also, the Company could be liable to third parties (e.g., occupants of the buildings) for damages related to exposure to hazardous materials or adverse conditions in its buildings, and the Company could incur material expenses with respect to abatement or remediation of hazardous materials or other adverse conditions in its buildings. In addition, some of the Company's tenants routinely handle and use hazardous or regulated substances and wastes as part of their operations at our properties, which are subject to regulation. Such environmental and health and safety laws and regulations could subject the Company or its tenants to liability resulting from these activities. Environmental liabilities could affect a tenant's ability to make rental payments to the Company, and changes in laws could increase the potential liability for noncompliance. This may result in significant unanticipated expenditures or may otherwise materially and adversely affect the Company's operations. The Company is not aware of any material contingent liabilities, regulatory matters or environmental matters that may exist.

Litigation

The Company is involved in various legal proceedings arising in the ordinary course of its business, including, but not limited to commercial disputes. The Company believes that such litigation, claims and administrative proceedings will not have a material adverse impact on its financial position or its results of operations. The Company records a liability when it considers the loss probable and the amount can be reasonably estimated.

As discussed in Note 4, the Company loaned \$11.00 million for the partial funding of Pineland Station Shopping Center in Hilton Head, South Carolina to be known in the future as Sea Turtle Development and loaned \$1.00 million for the sale of land to be used in the development. At December 31, 2017, the Company recognized a \$5.26 million impairment charge on the note receivable as discussed in greater detail in Note 4. The Company has placed the notes receivable on nonaccrual status and has not recognized \$355 thousand of interest income due on the notes for the three months ended March 31, 2018. In February 2018, the Company's agreement to perform development, leasing, property and asset management services for Sea Turtle Development was terminated. Prior to the termination of the agreements, development fees of 5% of hard costs incurred were paid to the Company. Leasing, property and asset management fees were consistent with those charged for services provided to non-related properties.

The Company recovered \$77 thousand in amounts due from related parties for the three months ended March 31, 2018 which were previously reserved. The recovery is included in "provision for credit losses" on the condensed consolidated statements of operations. The total allowance on related party receivables at March 31, 2018 and December 31, 2017 is \$2.77 million and \$2.36 million, respectively. These amounts are included in "related party payables, net" on the condensed consolidated balance sheets.

Amounts due from Sea Turtle Development are reserved due to uncertainty surrounding the collectability given the information currently available to the Company. Amounts due from other non-REIT properties have been reserved based on available cash flows at the respective properties and payment history. The management agreements for these properties have been terminated.

On May 3, 2018, the Company filed a Certificate of Correction (the "Certificate of Correction") with the State Department of Assessments and Taxation of Maryland (the "SDAT") correcting an inadvertently omitted reference to "accumulated amortization" in "Section 10(a) (Mandatory Redemption for Asset Coverage)" of the Articles Supplementary for the Series D Preferred that was previously filed with SDAT on September 16, 2016.

The Certificate of Correction became effective upon filing.

Revere Loan

On May 3, 2018, the Company extended the \$6.81 million Revere Loan to May 15, 2018.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion of our financial condition and results of operations in conjunction with our unaudited condensed consolidated financial statements and the notes thereto included in this Form 10-Q, along with the consolidated financial statements and the notes thereto and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in our 2017 Form 10-K for the year ended December 31, 2017. For more detailed information regarding the basis of presentation for the following information, you should read the notes to the unaudited condensed consolidated financial statements included in this Form 10-Q.

This Form 10-Q contains forward-looking statements within the meaning of the federal securities laws, including discussion and analysis of our financial condition, anticipated capital expenditures required to complete projects, amounts of anticipated cash distributions to our shareholders in the future and other matters. These forward-looking statements are not historical facts but are the intent, belief or current expectations of our management based on its knowledge and understanding of our business and industry. Forward-looking statements are typically identified by the use of terms such as “may,” “will,” “should,” “potential,” “predicts,” “anticipates,” “expects,” “intends,” “plans,” “believes,” “seeks,” “estimates” or the negative of such terms and variations of these words and similar expressions, although not all forward-looking statements include these words. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements.

Forward-looking statements that were true at the time made may ultimately prove to be incorrect or false. You are cautioned not to place undue reliance on forward-looking statements, which reflect our management’s view only as of the date of this Form 10-Q. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results.

The forward-looking statements should be read in light of these factors and the factors identified in the “Risk Factors” sections in our most recent Annual Report on Form 10-K filed with the Securities and Exchange Commission (“SEC”) on March 7, 2018.

Executive Overview

As of March 31, 2018, the Trust, through the Operating Partnership, owned and operated sixty-five centers, one office building, seven undeveloped properties, and one redevelopment project in Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Oklahoma, Tennessee, Kentucky, New Jersey, Pennsylvania and West Virginia. Accordingly, the use of the word “Company” refers to the Trust and its consolidated subsidiaries, except where the context otherwise requires.

JANAF Acquisition

On January 18, 2018, the Company acquired JANAF, a retail shopping center located in Norfolk, Virginia, for a purchase price of \$85.65 million, paid through a combination of cash, restricted cash and debt assumption and the issuance of 150,000 shares of Common Stock at \$7.53 per share. The shopping center, anchored by BJ's Wholesale Club, totals 810,137 square feet and was 94% leased at the acquisition date.

Disposition

On January 12, 2018, the Company completed the sale of the Chipotle ground lease at Conyers Crossing for a contract price of \$1.27 million, resulting in a gain of \$1.06 million with net proceeds of \$1.16 million.

Assets Held for Sale

In February 2018, the Company’s management and Board of Directors committed to a plan to sell the Land Parcels as part of Company’s strategic initiative. Accordingly, the Land Parcels have been classified as held for sale.

Anchor Lease Modifications

During the three months ended March 31, 2018, the Company modified thirteen leases with Southeastern Grocer anchor tenants and recaptured four locations. These modifications include a combination of term adjustments, rent adjustments (decreases and increases), deferred landlord contributions for remodels, and adjusted lease language. The Company has elected to recapture Ladson Crossing, St. Matthews, South Park, and Tampa Festival in the second quarter of 2018. The Cypress Shopping Center lease expired on March 31, 2018. As part of the negotiated recaptures the Company received \$246 thousand in termination fees during the three months ended March 31, 2018. The remaining thirteen lease modifications remain subject to Southeastern Grocer's bankruptcy court approval. The initial annualized base rent impact of these modifications and recaptures, including the Cypress lease expiration, is approximately \$2.50 million.

Total Revenue

Total revenue was \$16.31 million for the three months ended March 31, 2018 compared to \$14.32 million for the three months ended March 31, 2017, a \$1.99 million increase. The increase in rental revenues and tenant reimbursements of \$2.11 million is attributable to a partial period of operations reported for the JANAF acquisition. The \$233 thousand increase in other revenues is a result of lease termination fees associated with the Southeastern Grocers store recaptures. The decrease in commissions, development income and asset management fees of \$351 thousand is primarily related to the February 2018 termination of the Company's agreement to perform these services for Sea Turtle Development and certain other non-REIT properties.

Total Operating Expenses

Total operating expenses for the three months ended March 31, 2018 were \$14.64 million, representing an increase of \$1.49 million over the three months ended March 31, 2017. Overall increases of \$1.08 million were noted in depreciation and amortization and \$605 thousand in property operations primarily resulting from the additional expenses associated with the JANAF acquisition. These amounts were offset by a decrease of \$235 thousand in non-REIT management and leasing services a result of the decline in non-REIT properties the Company manages. The provision for credit losses decreased \$231 thousand for the three months ended March 31, 2018, primarily related to \$77 thousand in recoveries in amounts due from related parties and increase collections on tenant accounts receivable.

Corporate general and administrative expenses increased \$276 thousand as a result of an increase of \$294 thousand in professional fees associated with hiring of KeyBanc Advisors, increased audit and legal costs in addition to an increase of \$220 thousand in compensation and benefits primarily driven by share based compensation for employees and directors, severance and reallocation of salary costs associated with acquisition personnel. These increases were offset by decreases in capital & debt financing costs as well as acquisition costs impacted by the adoption of ASU 2017-01.

Interest Income

Interest income was \$1 thousand for the three months ended March 31, 2018, which represents a decrease of \$355 thousand as compared to \$356 thousand for the three months ended March 31, 2017. The decrease is primarily attributable to the Company placing the notes receivable on non-accrual status and not recognizing \$355 thousand in interest income for the three months ended March 31, 2018 due to note impairment.

Interest Expense

Interest expense increased \$400 thousand or 9.58% for the three months ended March 31, 2018, compared to \$4.18 million for the three months ended March 31, 2017. The increase is primarily attributable to the incremental debt service associated with the additional borrowings utilized to acquire JANAF.

Discontinued Operations

Net loss from discontinued operations totaled \$1.53 million for the for the three months ended March 31, 2017. The income for 2017 primarily resulted from the sale of Ruby Tuesday's and Outback Steakhouse at Pierpont Centre whereas there was no 2018 discontinued operations activity,

Same Store and New Store Operating Income

Net operating income ("NOI") is a widely-used non-GAAP financial measure for REITs. The Company believes that NOI is a useful measure of the Company's property operating performance. The Company defines NOI as property revenues (rental and other revenues) less property and related expenses (property operation and maintenance and real estate taxes). Because NOI excludes general and administrative expenses, depreciation and amortization, interest expense, interest income, provision for income taxes, gain or loss on sale or capital expenditures and leasing costs, it provides a performance measure, that when compared year over year, reflects the revenues and expenses directly associated with owning and operating commercial real estate properties and the impact to operations from trends in occupancy rates, rental rates and operating costs, providing perspective not immediately apparent from net income. The Company uses NOI to evaluate its operating performance since NOI allows the Company to evaluate the impact of factors, such as occupancy levels, lease structure, lease rates and tenant base, have on the Company's results, margins and returns. NOI should not be viewed as a measure of the Company's overall financial performance since it does not reflect general and administrative expenses, depreciation and amortization, involuntary conversion, interest expense, interest income, provision for income taxes, gain or loss on sale or disposition of assets, and the level of capital expenditures and leasing costs necessary to maintain the operating performance of the Company's properties. Other REITs may use different methodologies for calculating NOI, and accordingly, the Company's NOI may not be comparable to that of other REITs.

The following table is a reconciliation of same store and new store NOI from the most directly comparable GAAP financial measure of net income (loss). Same stores consist of those properties we owned during all periods presented in their entirety, while new stores consist of those properties acquired during the periods presented. The discussion below focuses on same store results of operations since the JANAF acquisition occurred in January 2018 and there were no 2017 acquisitions.

Same store discontinued operations financial information reflects the activity for the following properties:

Property Revenues

Total same store property revenues for the three months ended March 31, 2018 were relatively flat at \$13.97 million, compared to \$13.91 million for the three months ended March 31, 2017.

The three months ended March 31, 2018 represents a partial period of activity for JANAF shopping center. This property (new stores) contributed \$2.28 million in revenues for the three months ended March 31, 2018, compared to no revenue for the three months ended March 31, 2017.

Property Expenses

Total same store property expenses for the three months ended March 31, 2018 were relatively flat at \$3.97 million, compared to \$3.99 million for the three months ended March 31, 2017. Total property expenses increased primarily due to new store increases of \$629 thousand.

There were no significant unusual or non-recurring items included in new store property expenses for the three months ended March 31, 2018.

Property Net Operating Income

Total property net operating income was \$11.56 million for the three months ended March 31, 2018, compared to \$9.66 million for the three months ended March 31, 2017, representing an increase of \$1.90 million over 2017. New stores accounted for the majority of this increase by generating \$1.65 million in property net operating income for the three months ended March 31, 2018, compared to no property net operating income for the three months ended March 31, 2017.

Funds from Operations (FFO)

We use FFO, a non-GAAP measure, as an alternative measure of our operating performance, specifically as it relates to results of operations and liquidity. We compute FFO in accordance with standards established by the Board of Governors of NAREIT in its March 1995 White Paper (as amended in November 1999 and April 2002). As defined by NAREIT, FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property, plus real estate related depreciation and amortization (excluding amortization of loan origination costs) and after adjustments for unconsolidated partnerships and joint ventures. Most industry analysts and equity REITs, including us, consider FFO to be an appropriate supplemental measure of operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company's real estate between periods, or as compared to different companies. Management uses FFO as a supplemental measure to conduct and evaluate our business because there are certain limitations associated with using GAAP net income alone as the primary measure of our operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, while historically real estate values have risen or fallen with market conditions. Accordingly, we believe FFO provides a valuable alternative measurement tool to GAAP when presenting our operating results.

Below is a comparison of same and new store FFO, which is a non-GAAP measurement, for the three month periods ended March 31, 2018 and 2017:

	Three Months Ended March 31,							
	Same Store		New Store		Total		Period Over Period Changes

Depreciation and amortization of real estate assets	6,495	6,400	981	—	7,476	6,400	1,076	16.81 %
Gain on disposal of properties	(1,055)	—	—	—	(1,055)	—	(1,055)	(100.00)%
Gain on disposal of properties-discontinued operations	—	(1,513)	—	—	—	(1,513)	1,513	100.00 %
FFO	\$ 3,508	\$ 3,727	\$ 1,041	\$ —	\$ 4,549	\$ 3,727	\$ 822	22.06 %

During the three month period ended March 31, 2018, same store FFO decreased \$219 thousand, primarily due to the following:

- \$355 thousand decrease in interest income as a result of presenting notes receivable on a non-accrual basis;
- \$116 thousand decrease in development, asset management and commission revenues, net savings on related non-REIT management and leasing services as a result of termination of related party agreements to perform services;
- \$267 thousand increase in corporate general and administrative expenses;
- Offset by increase in property net operating income of \$239 thousand.

Total FFO increased \$822 thousand for the three month period ended March 31, 2018 compared to the same period in 2017, primarily due to incremental new store FFO of \$1.04 million thousand attributable to the JANAF acquisition.

We believe the computation of FFO in accordance with NAREIT's definition includes certain items that are not indicative of the results provided by our operating portfolio and affect the comparability of our period-over-period performance. These items include, but are not limited to, legal settlements, non-cash share-based compensation expense, non-cash amortization on loans and acquisition costs. Therefore, in addition to FFO, management uses Adjusted FFO ("AFFO"), which we define to exclude such items. Management believes that these adjustments are appropriate in determining AFFO as they are not indicative of the operating performance of our assets. In addition, we believe that AFFO is a useful supplemental measure for the investing community to use in comparing us to other REITs as many REITs provide some form of adjusted or modified FFO. However, there can be no assurance that AFFO presented by us is comparable to the adjusted or modified FFO of other REITs.

Total AFFO for the three month periods ended March 31, 2018 and 2017, respectively, is shown in the table below:

	Three Months Ended March 31,

Acquisition expenses at March 31, 2017 were primarily related to compensation paid to personnel working directly on acquisitions related activities and other costs associated with due diligence of potential acquisitions currently in our pipeline. In 2018, the Company adopted ASU 2017-01 and external acquisition costs are now capitalized as part of the acquisition. The Company has ceased acquisition activities since acquiring JANAF. Thus, internal salaries previously related to acquisitions have been reallocated and not represented in acquisition costs. Other nonrecurring and non-cash expenses are miscellaneous costs we believe will not be incurred on a going forward basis including expenses such as vacation accrual, severance and consulting fees which are no longer under contract and are not expected to be under contract for the foreseeable future. Accrued interest income represents interest income on notes receivable due at maturity for the three months ended March 31, 2017 which have been fully reserved as of March 31, 2018.

The preferred stock accretion adjustments represent the amortization of offering costs associated with raising the Series B Preferred Stock and Series D Preferred Stock.

Liquidity and Capital Resources

At March 31, 2018, our consolidated cash, cash equivalents and restricted cash totaled \$17.35 million compared to consolidated cash, cash equivalents and restricted cash of \$12.29 million at December 31, 2017. Cash flows from operating activities, investing activities and financing activities for the three month period ended March 31, 2018 and 2017 were as follows:

	Three Months Ended March 31,		Period Over Period Change	
	2018	2017	\$	%
	(in thousands, unaudited)			
Operating activities	\$ 6,474	\$ 6,492	\$ (18)	(0.28)%

Financing activities	\$ 22,051	\$ (8,396)	\$ 30,447	362.64 %

Operating Activities

During the three months ended March 31, 2018, our cash flows from operating activities were \$6.47 million, compared to cash flows from operating activities of \$6.49 million during the three months ended March 31, 2017, representing a decrease of \$18 thousand.

Investing Activities

During the three months ended March 31, 2018, our cash flows used in investing activities were \$23.47 million, compared to cash flows provided by investing activities of \$1.38 million during the three months ended March 31, 2017, representing a decrease of \$24.84 million due to the following:

- \$23.15 million increase in cash outflows used for the acquisition of JANAF;
- \$711 thousand net decrease in cash received on disposal properties as a result of higher proceeds received on the 2017 sale of the Ruby Tuesdays/Outback at Pierpont Shopping Center as compared to the 2018 sale of the Chipotle ground lease sale at Conyers Crossing; and
- \$978 thousand increase in cash outflows on capital expenditures primarily a result of the redevelopment of Columbia Fire House and \$310 thousand for Perimeter Centre tenant improvements.

Financing Activities

During the three months ended March 31, 2018, our cash flows provided by financing activities were \$22.05 million, compared to \$8.40 million of cash flows used in financing activities during the three months ended March 31, 2017, representing an increase of \$30.45 million due to the following:

- \$21.18 million increase in proceeds from sale of preferred stock due to the 2018 Series D Preferred offering;
- \$1.22 million increase in loan proceeds due to the \$6.50 million JANAF Bravo Loan and \$903 thousand Columbia Fire House Construction Loan advance occurring in 2018 offset by a \$6.18 million increase in refinancing proceeds for Folly Road occurring in 2017;
- \$5.61 million decrease in loan principal payments due to the 2017 refinancing of the Folly Road collateralized portion of the KeyBank Credit Agreement;
- \$1.69 million decrease in cash flows used in discontinued operations for the pay-down of debt related to the sale of Ruby Tuesdays/Outback at Pierpont Shopping Center; and
- \$713 thousand decrease in cash outflows for dividends and distributions primarily as a result of the moving from monthly to quarterly dividend payments in the second quarter of 2017.

We intend to continue managing our debt prudently so as to maintain a conservative capital structure and minimize leverage within our company. As of March 31, 2018 and December 31, 2017, our debt balances, excluding unamortized debt issuance costs, consisted of the following (in thousands):

	March 31, 2018	December 31, 2017
	(unaudited)	
Fixed-rate notes	\$ 281,084	\$ 216,240
Adjustable-rate mortgages	29,336	29,506
Fixed-rate notes, assets held for sale	693	—
Floating-rate line of credit	68,032	68,032
Total debt	<u>\$ 379,145</u>	<u>\$ 313,778</u>

The weighted-average interest rate and term of our fixed-rate debt including assets held for sale are 4.74% and 5.86 years, respectively, at March 31, 2018. We have \$37.56 million of debt maturing, including scheduled principal repayments, during the nine months ending December 31, 2018. While we anticipate being able to refinance our maturing loans at reasonable market terms upon maturity, our inability to do so may materially impact our financial position and results of operations. See Footnote 6 included in this Form 10-Q for additional mortgage indebtedness details.

Future Liquidity Needs

In addition to the funding of our ongoing operations, the primary liquidity needs of the Company at March 31, 2018 are \$37.56 million in debt maturities and principal payments due for the remaining nine months ended December 31, 2018 including debt service payments, Series B and Series D Preferred Stock dividends (approximately \$12.1 million), and margin covenant requirements as detailed in our Amended and Restated Credit Agreement as described in Note 8. Included in the \$37.56 million of debt maturities and principal payments is the \$15.53 million maturity of the KeyBank Line of Credit. Management is in the process of refinancing properties off the KeyBank Line of Credit to reduce the line to under \$52.50 million prior to July 1, 2018 in accordance with the Amended and Restated Credit Agreement. Management is in the process of refinancing the \$6.81 million Revere Loan. The KeyBank Line of Credit and all loans due are collateralized by properties within our portfolio. Management is currently working with lenders to refinance these loans. Based on our proven ability to refinance debt and obtain alternative

sources of capital, and existing market conditions, we believe it to be probable that our plans to meet these obligations will be successful.

In addition to refinancing of debt, the Company is in the process of marketing the Land Parcels. The proceeds can be used to pay debt in addition to a savings of approximately \$52 thousand annually in net operating income, primarily a result of real estate taxes. As part of an overall cost reduction strategy, the Company plans to close the Charleston office, a savings of \$100 thousand annually. The Company continues to work to increase cash flows from properties through increasing occupancy by reducing tenant turnover, obtaining rental rate increases on new leases and monitoring operating expenses.

Our success in refinancing the debt, and executing on our strategy will dictate our liquidity needs going forward. If we are unable to execute in these areas, our ability to grow and pay future dividends may be limited without additional capital.

In addition to liquidity required to fund debt payments and distributions we may incur some level of capital expenditures during the year for our existing properties that cannot be passed on to our tenants. The majority of these expenditures occur subsequent to acquiring a new property that requires significant improvements to maximize occupancy and lease rates, with an existing property that needs a facelift to improve its marketability or when tenant improvements are required to make a space fit a particular tenant's needs. Significant capital expenditures could also impact our ability to grow and pay future dividends.

Off-Balance Sheet Arrangements

As of March 31, 2018, we have no off-balance sheet arrangements that are likely to have a material effect on our financial condition, revenues or expenses, results of operations, liquidity, capital resources or capital expenditures.

Recent Accounting Pronouncements

See Note 2 to the condensed consolidated financial statements beginning on page 8 of this Current Report on Form 10-Q.

Critical Accounting Policies

In preparing the condensed consolidated financial statements, we have made estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amounts of revenue and expenses during the reported periods. Actual results may differ from these estimates. A summary of our critical accounting policies is included in our 2017 Form 10-K under "Management's Discussion and Analysis of Financial Condition and Results of Operations." There have been no significant changes to these policies during the three months ended March 31, 2018. For disclosure regarding recent accounting pronouncements and the anticipated impact they will have on our operations, please refer to Note 2 of the condensed consolidated financial statements included in this Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The primary market risk to which we are exposed is interest rate risk. Our primary interest rate exposure is LIBOR. We primarily use fixed interest rate financing to manage our exposure to fluctuations in interest rates.

At March 31, 2018, approximately \$281.78 million, or 74.32%, of our debt had fixed interest rates and approximately \$97.37 million, or 25.68%, had variable interest rates. Assuming no increase in the level of our variable rate debt, if interest rates increased by 1.0%, our cash flow would decrease by approximately \$974 thousand per year. At March 31, 2018, LIBOR was approximately 188 basis points. Assuming no increase in the level of our variable rate debt, if LIBOR was reduced to zero basis points, our cash flow would increase by approximately \$1.83 million per year.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The management of the Trust or the Company, under the supervision and with the participation of our principal executive and financial officers, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, including ensuring that such information is accumulated and communicated to the Trust's management, as appropriate, to allow timely decisions regarding required disclosure. Based on such evaluation, our principal executive and financial officers have concluded that such disclosure controls and procedures were effective as of March 31, 2018 (the end of the period covered by this Form 10-Q).

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are subject to various legal proceedings and claims that arise in the ordinary course of business. These matters are generally covered by insurance. While the resolution of these matters cannot be predicted with certainty, management believes the final outcome of such matters will not have a material adverse effect on our financial position, results of operation or liquidity.

Item 1A. Risk Factors.

There have been no material changes from the risk factors disclosed in Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2017 other than the revision of the following risk factor:

The majority of our properties are retail shopping centers and depend on anchor stores or major tenants to attract shoppers and could be adversely affected by the loss of, or a store closure by, one or more of these tenants.

Large, regionally or nationally recognized tenants typically anchor our properties. At any time, our tenants may experience a downturn in their business that may significantly weaken their financial condition. As a result, our tenants, including our anchor and other major tenants, may fail to comply with their contractual obligations to us, seek concessions in order to continue operations or declare bankruptcy, any of which could result in the termination of such tenants' leases and the loss of rental income attributable to the terminated leases. In addition, certain of our tenants may cease operations while continuing to pay rent, which could decrease customer traffic, thereby decreasing sales for our other tenants at the applicable retail property. In addition to these potential effects of a business downturn, mergers or consolidations among large retail establishments could result in the closure of existing stores or duplicate or geographically overlapping store locations, which could include stores at our retail properties.

Loss of, or a store closure by, an anchor or major tenant could significantly reduce our occupancy level or the rent we receive from our retail properties, and we may not have the right to re-lease vacated space or we may be unable to re-lease vacated space at attractive rents or at all. Moreover, in the event of default by a major tenant or anchor store, we may experience delays and costs in enforcing our rights as landlord to recover amounts due to us under the terms of our agreements with those parties. The occurrence of any of the situations described above, particularly if it involves an anchor tenant with leases in multiple locations, could seriously harm our performance and could adversely affect the value of the applicable retail property.

As of March 31, 2018, approximately 25.96% of the contractual base revenue of our total portfolio was derived from our ten largest tenants. The largest tenant as of March 31, 2018, Bi-Lo, LLC ("BI-LO"), a subsidiary of Southeastern Grocers, LLC ("Southeastern Grocers"), leased thirteen BI-LO grocery store locations from us with an aggregate of 468,913 leased square feet for an aggregate annualized base rent of approximately \$4.38 million, which together represents 8.16% of our gross leasable area and 8.57% of our total annualized base rent. In addition, subsidiaries of Southeastern Grocers lease three Winn Dixie locations and two Harvey's locations from us with an aggregate of 208,175 leased square feet for an aggregate annualized base rent of approximately \$1.46 million, which together represents 3.62% of our gross leasable area and 2.86% of our total annualized base rent. During the second quarter of 2018, the Company has agreed to recapture, three of the BI-LO and a Harvey's location, representing 133,838 square feet and \$1.44 million in aggregate annualized base rent. In addition to these recaptures, the Company has modified leases with Southeastern Grocers which are subject to bankruptcy court approval, resulting in a decrease of \$624 thousand or 1.22% of aggregate annualized base rent. If the lease modifications with Southeastern Grocers are not accepted by the bankruptcy court, our efforts to collect rental payments could be delayed and, ultimately, precluded. Any modification by the bankruptcy court could result in an additional reduction in our cash flow and the amount of cash available to distribute to our stockholders.

During Southeastern Grocers' bankruptcy proceedings, there can be no assurance that Southeastern Grocers, or the bankruptcy trustee would assume our leases. If any lease is not assumed or we cannot lease the space to another tenant, our cash flow and the amounts available for distributions to our stockholders may be adversely affected.

The loss of these anchor tenants at the properties being recaptured may result in decrease customer traffic for our other tenants at these properties, thereby decreasing sales for such tenants and may make it more difficult for us to secure tenant lease renewals or new tenants for these properties. Management is currently in negotiations with potential backfills on the three BI-LO and Harvey's location..

Quarterly Certification
Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, David Kelly, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Wheeler Real Estate Investment Trust, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
