CAUTIONARY STATEMENT ON FORWARD-LOOKING STATEMENTS

This Annual Report on Form 10-K (the "Form 10-K") of Wheeler Real Estate Investment Trust, Inc. (the "Trust," the "Company," "WHLR," "we," "our" or "us") contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act") that are subject to risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from future results, performance or achievements expressed or implied by such forward-looking statements. Forward-looking statements, which are based on certain assumptions and describe the Company's future plans, strategies and expectations, are generally identifiable by use of the words "may", "will", "should", "estimates", "projects", "anticipates", "believes", "expects", "intends", "future", and words of similar import, or the negative thereof. These statements are not guarantees of future performance and are subject to risks, uncertainties and other factors, some of which are beyond our control, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements.

Forward-looking statements that were true at the time made may ultimately prove to be incorrect or false. You are cautioned not to place undue reliance on forward-looking statements, which reflect our management's view only as of the date of this Form 10-K. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results.

Factors that could cause actual results, performance or achievements to differ materially from any forward-looking statements made in this Form 10-K include, but are not limited to:

- the use of and demand for retail space, including in relation to reductions in consumer spending, variability in retailer demand for leased space, adverse impact of e-commerce, ongoing consolidation in the retail sector and changes in economic conditions and consumer confidence;
 - general and economic business conditions, including the rate and other terms on which we are able to lease our properties;
 - the loss or bankruptcy of the Company's tenants;
 - the geographic concentration of our properties in the Mid-Atlantic, Southeast and Northeast;
 - availability, terms and deployment of capital;
 - substantial dilution of our common stock, par value \$0.01 ("Common Stock") and steep decline in its market value resulting from the exercise by the holders of our Series D Cumulative Convertible Preferred Stock (the "Series D Preferred Stock") of their redemption rights and downward adjustment of the Conversion Price (as defined below) on our outstanding 7.00% Subordinated Convertible Notes due 2031 (the "Convertible Notes"), each of which has already occurred and is anticipated to continue;
 - given the volatility in the trading of our Common Stock, whether we have registered and, as necessary, can continue to register sufficient shares of our Common Stock to settle redemptions of all Series D Preferred Stock tendered to us by the holders thereof;
 - the degree and nature of our competition;
 - our ability to hire, develop and/or retain talent;
 - changes in applicable laws and governmental regulations, including federal tax law and other regulatory provisions as a result of the One Big Beautiful Bill Act (the "OBBBA");
 - changes to accounting rules, tax rates and similar matters, including tariff-related measures;
 - the ability and willingness of the Company's tenants and other third parties to satisfy their obligations under their respective contractual arrangements with the Company;
 - the ability and willingness of the Company's tenants to renew their leases with the Company upon expiration;
 - the Company's ability to re-lease its properties on the same or better terms in the event of non-renewal or in the event the Company exercises its right to replace an existing tenant, and obligations the Company may incur in connection with the replacement of an existing tenant;
 - litigation risks generally;
 - the risk that shareholder litigation in connection with the Cedar Acquisition (defined below) may result in significant indemnification costs;
 - tax audits and other regulatory inquiries;
 - the Company's ability to maintain compliance with the financial and other covenants in its debt agreements and under the terms of its Series D Preferred Stock;
-

- financing risks, such as the Company's inability to obtain new financing or refinancing on favorable terms as the result of market volatility or instability and increases in the Company's borrowing costs as a result of changes in interest rates and other factors;
- the impact of the Company's leverage on operating performance;
- our ability to successfully execute strategic or necessary asset acquisitions and divestitures;
- our ability to repurchase noncontrolling interests and the price and timing of such repurchases;
- risks endemic to real estate and the real estate industry generally;
- the adverse effect of any future pandemic, endemic or outbreak of infectious diseases, and mitigation efforts, including government-imposed lockdowns, to control their spread;
- competitive risks;
- risks to our information systems - or those of our tenants or vendors - from service interruption, misappropriation of data, breaches of security or information technology, or other cyber-related attacks;
- the Company's ability to maintain compliance with the listing standards of the Nasdaq Capital Market ("Nasdaq");
- the effects on the trading market of our Common Stock of the one-for-24 reverse stock split effected on May 16, 2024 (the "May 2024 Reverse Stock Split"), the one-for-five reverse stock split effected on June 27, 2024 (the "June 2024 Reverse Stock Split"), the one-for-three reverse stock split effected on September 19, 2024 (the "September 2024 Reverse Stock Split"), the one-for-two reverse stock split effected on November 18, 2024 (the "November 2024 Reverse Stock Split" and collectively with the May 2024 Reverse Stock Split, the June 2024 Reverse Stock Split and the September 2024 Reverse Stock Split, the "2024 Reverse Stock Splits"), the one-for-four reverse stock split effected on January 27, 2025 (the "January 2025 Reverse Stock Split"), the one-for-five reverse stock split effected on March 26, 2025 (the "March 2025 Reverse Stock Split"), the one-for-seven reverse stock split effected on May 26, 2025 (the "May 2025 Reverse Stock Split"), the one-for-five reverse stock split effected on September 22, 2025 (the "September 2025 Reverse Stock Split") and the one-for-two reverse stock split effected on November 28, 2025 (the "November 2025 Reverse Stock Split"; and together with the January 2025 Reverse Stock Split, March 2025 Reverse Stock Split, May 2025 Reverse Stock Split and September 2025 Reverse Stock Split, the "2025 Reverse Stock Splits"); and the one-for-three reverse stock split effected on January 16, 2026 (the "January 2026 Reverse Stock Split"; and together with the 2025 Reverse Stock Splits and the 2024 Reverse Stock Splits the "Reverse Stock Splits") and any reverse stock splits the Company may effect in the future;
- damage to the Company's properties from catastrophic weather and other natural events, and the physical effects of climate change;
- the risk that an uninsured loss on the Company's properties or a loss that exceeds the limits of the Company's insurance policies could subject the Company to lost capital or revenue on those properties;
- the risk that continued increases in the cost of necessary insurance could negatively impact the Company's profitability;
- the Company's ability and willingness to maintain its qualification as a real estate investment trust ("REIT") in light of economic, market, legal, tax and other considerations;
- the ability of our operating partnership, Wheeler REIT, L.P. (the "Operating Partnership"), and each of our other partnerships and limited liability companies to be classified as partnerships or disregarded entities for federal income tax purposes;
- the impact of government shutdowns; and
- the inability to generate sufficient cash flows due to market conditions, competition, uninsured losses, changes in tax or other applicable laws.

Forward-looking statements in this Form 10-K should be read in light of these factors. Except for ongoing obligations to disclose material information as required by the federal securities laws, the Company undertakes no obligation to release publicly any revisions to any forward-looking statements to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events. All of the above factors are difficult to predict, contain uncertainties that may materially affect the Company's actual results and may be beyond the Company's control. New factors emerge from time to time, and it is not possible for the Company's management to predict all such factors or to assess the effects of each factor on the Company's business. Accordingly, there can be no assurance that the Company's current expectations will be realized.

Part I

Item 1. Business.

Overview

Wheeler Real Estate Investment Trust, Inc. is a Maryland corporation formed on June 23, 2011 in connection with the Company's initial public offering. The Trust serves as the general partner of Wheeler REIT, L.P. (the "Operating Partnership"), which was formed as a Virginia limited partnership on April 5, 2012. Prior to the Cedar Acquisition (as defined below), substantially all of our assets were held by, and all of our operations were conducted through, our Operating Partnership. At December 31, 2025, the Company owned 100% of the Operating Partnership.

On August 22, 2022, the Company completed a merger transaction with Cedar Realty Trust, Inc. ("Cedar" or "CDR"). As a result of the merger, the Company acquired all of the outstanding shares of Cedar's common stock (the "Cedar Acquisition"), which ceased to be publicly traded on the New York Stock Exchange ("NYSE"). Cedar's outstanding 7.25% Series B Preferred Stock ("Cedar Series B Preferred Stock") and 6.50% Series C Preferred Stock ("Cedar Series C Preferred Stock" and, together with the Cedar Series B Preferred Stock, the "Cedar Preferred Stock") remain outstanding and continue to trade on the NYSE. As a result, Cedar became a subsidiary of the Company. Cedar's assets are held by, and its operations are conducted through, its operating partnership, Cedar Realty Trust Partnership, LP.

The Company has elected to be taxed as a REIT under applicable provisions of the Internal Revenue Code of 1986, as amended (the "Code"). To qualify as a REIT under those provisions, the Company must have a preponderant percentage of its assets invested in, and income derived from, real estate and related sources. The Company is a fully-integrated, self-managed commercial real estate investment company that owns, leases and operates income-producing retail properties with a primary focus on grocery-anchored centers.

For additional information on recent business developments, see Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations in this Form 10-K.

Portfolio

Our portfolio contains retail properties in secondary and tertiary markets, with a particular emphasis on grocery-anchored retail centers. Our properties are in communities that have stable demographics and have historically exhibited favorable trends, such as well-established population and steady income growth. We generally lease our properties to national and regional retailers that offer consumer goods and services and generate regular consumer traffic. We believe our tenants carry goods and offer services that are less impacted by fluctuations in the broader U.S. economy and consumers' disposable income, generating more predictable property level cash flows.

The Company's portfolio of properties is dependent upon regional and local economic conditions. As of December 31, 2025, we own a portfolio consisting of sixty-five properties, including sixty-two retail shopping centers, totaling 7,018,837 leasable square feet which is 94.3% leased (our "Operating Portfolio"), and three undeveloped land parcels totaling approximately 7 acres. The properties are geographically located in the Mid-Atlantic, Southeast and Northeast, which markets represented approximately 47%, 45% and 8%, respectively, of the total annualized base rent of the properties in its portfolio as of December 31, 2025.

No tenant represents greater than approximately 6% of the Company's annualized base rent or 7% of gross leasable square footage. The top 10 tenants account for 22.5% or \$15.6 million of annualized base rent and 25.5% or 1.8 million of gross leasable square footage at December 31, 2025.

Human Capital Management

As of December 31, 2025, we have 49 full-time employees. We seek to hire experienced leaders and team members by offering competitive wages and benefit programs. Employees are offered flexibility to meet personal and family needs. In addition to medical insurance support, the Company offers wellness programs, including free short- and long-term disability insurance, free basic life insurance policy with accidental death and dismemberment coverage, employee assistance programs

that include emotional health support, gym memberships, volunteer time off and tuition assistance. Tuition assistance includes assistance to learn a new language as the Company identifies opportunities to better serve a diverse tenant base.

The Company takes steps to measure and improve upon its level of employee engagement all while creating value for our stakeholders. The Company's employees are expected to exhibit honest, ethical and respectful conduct in the workplace. Every year, the Company requires its employees to review and certify their compliance with the Company's various policies, including its *Code of Business Conduct and Ethics* (the "Code of Conduct").

Business Objectives and Investment Strategy

Our primary business objective is to maximize the value of our portfolio. We intend to achieve this objective utilizing the following investment strategies:

- **Focus on necessity-based retail.** We own and operate retail properties that serve the essential day-to-day shopping needs of the surrounding communities. These necessity-based centers attract high levels of daily traffic resulting in cross-selling of goods and services from our tenants. The majority of our tenants provide non-cyclical consumer goods and services that are less impacted by fluctuations in the economy. We believe these centers that provide essential goods and services such as groceries result in a stable, lower-risk portfolio of retail investment properties.
- **Focus on secondary and tertiary markets with strong demographics and demand.** Our properties are in markets that have strong demographics such as population density, population stability, consistent tenant sales trends and growth in household income. We seek to identify new tenants and renew leases with existing tenants in these locations that support the need for necessity-based retail and limited new supply. We aim to identify and pursue attractive investment opportunities in regions with low taxes and a pro-business environment.
- **Increase operating income through leasing strategies and expense management.** We employ intensive lease management strategies to optimize occupancy. Management has extensive expertise in acquiring and managing under-performing properties and increasing operating income through more effective leasing strategies and expense management. Our leases generally require the tenant to reimburse us for a substantial portion of the expenses incurred in operating, maintaining, repairing, and managing the shopping center and the common areas, along with the associated insurance costs and real estate taxes. In many cases, the tenant is either fully or partially responsible for all maintenance of the property, thereby limiting our financial exposure towards maintaining the center and increasing our net income. We refer to this arrangement as a "triple net lease."
- **Selectively utilize our capital to improve retail properties.** We intend to make capital investments where the risk adjusted returns on such capital is accretive to our stockholders. We allocate capital to value-added improvements of retail properties to increase rents, extend long-term leases with anchor tenants and increase occupancy. We selectively allocate capital to revenue enhancing projects that we believe will improve the market position of a given property.
- **Recycling and sensible management of our property portfolio.** We intend to sell non-income producing land parcels or non-core assets utilizing sales proceeds to deleverage the balance sheet and invest in higher yielding opportunities. Properties may be slated for disposition based upon management's periodic review of our portfolio, and approval by our Board of Directors (the "Board of Directors").
- **Strategy for optimizing capital structure.** The Company seeks to mitigate risk and optimize its capital structure through continuous focus on maintaining prudent leverage and lengthy average debt maturities, as well as access to a diverse selection of capital sources, including the secured and unsecured debt markets, unsecured lines of credit, and other sources. In addition, the Company has reduced and intends to continue to reduce the total outstanding preferred stock of the Company and that of Cedar through the following strategies:
 - Exchanging shares of its Common Stock for its Series B Convertible Preferred Stock ("Series B Preferred Stock") and/or its Series D Preferred Stock with the holders thereof as opportunities arise.
 - Repurchasing the Cedar Preferred Stock as both series of preferred stock are currently trading at a discount to their liquidation value, presenting a strategic opportunity to buy back shares at favorable prices. By reducing the number of shares outstanding that are eligible for dividend payments, we can offset the net operating income lost from the recent sales of certain properties.

- Issuing shares of its Series D Preferred Stock in consideration for shares of Cedar Preferred Stock, as opportunities arise.

These strategies and transactions are intended to enhance the Company's financial stability, strengthen its balance sheet, optimize its capital allocation, and maximize shareholder value.

- **Strategy for integrating acquisitions.** As the Company undertakes acquisitions, we seek to thoughtfully integrate the acquired properties and any software and personnel to maximize efficiencies both at the property and corporate level.

Governmental Regulations Affecting Our Properties

We and our properties are subject to a variety of federal, state and local environmental, health, safety, tax and similar laws. The application of these laws to a specific property that we own depends on a variety of property-specific circumstances, including the current and former uses of the property, the building materials used at the property and the physical layout of the property. Neither existing environmental, health, safety and similar laws nor the costs of our compliance with these laws have had a material adverse effect on our financial condition or results of operations, and management does not believe they will for the fiscal year ending December 31, 2026. In addition, we have not incurred, and do not expect to incur, any material costs or liabilities due to environmental contamination at properties we currently own or have owned in the past. However, we cannot predict the impact of new or changed laws or regulations on properties we currently own or may acquire in the future. We have no current plans for substantial capital expenditures with respect to compliance with environmental, health, safety and similar laws and we carry environmental insurance that covers a number of environmental risks for most of our properties.

Competition

Numerous commercial developers and real estate companies compete with us with respect to the leasing of properties. Some of these competitors may possess greater capital resources than we do, although we do not believe that any single competitor or group of competitors in any of the primary markets where our properties are located are dominant in that market. This competition may interfere with our ability to attract and retain tenants, leading to increased vacancy rates and/or reduced rents and adversely affect our ability to minimize operating expenses.

Retailers at our properties also face competition from online retailers, outlet stores, discount shopping clubs, superstores, and other forms of sales and marketing of goods and services, such as direct mail. This competition could contribute to lease defaults and insolvency of tenants.

Climate

Some of our properties could be subject to natural or other disasters. In addition, we may acquire properties that are located in areas that are subject to natural disasters, such as earthquakes and droughts. Because of the geographic concentration of our properties, a single severe weather event or natural disaster could impact multiple of our properties. Properties could also be affected by increases in the frequency or severity of tornadoes, hurricanes or other severe weather, whether such increases are caused by global climate changes or other factors. The occurrence of natural disasters or severe weather conditions can increase investment costs to repair or replace damaged properties, increase operating costs, increase future property insurance costs, and/or negatively impact the tenant demand for lease space. If insurance is unavailable to us, or is unavailable on acceptable terms, or if our insurance is not adequate to cover business interruption or losses from such events, our earnings, liquidity and/or capital resources could be adversely affected. While several of our properties are located in areas that have experienced hurricanes, tornados, severe rain storms, or snow during the past two years, there has been no substantial damage or change in operations related to weather events.

Insurance

The Company carries comprehensive liability, property, fire, flood, wind, extended coverage, business interruption and rental loss insurance covering all of the properties in its portfolio under an insurance policy, in addition to other coverages, such as trademark and pollution coverage that may be appropriate for certain of its properties. The Company carries a directors', officers', entity and employment practices liability insurance policy that covers such claims made against the Company and its directors and officers. The Company also carries an auto policy to protect employees that use personal automobiles for work purposes above the employees insurance coverage and for the Company's protection against potential liability. The Company

believes the policy specifications and insured limits are appropriate and adequate for its properties and the other covered items given the relative risk of loss, the cost of the coverage, requirements from any and all lenders and general industry practice; however, its insurance coverage may not be sufficient to fully cover losses.

Available Information

We are subject to the information reporting requirements of the Exchange Act. Therefore, we file reports, proxy statements and other information with the Securities and Exchange Commission (the "SEC"). The SEC maintains a website (www.sec.gov) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC, including us.

Item 1A. Risk Factors.

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information under this item.

Item 1B. Unresolved Staff Comments.

None.

Item 1C. Cybersecurity.

Cybersecurity Risk Management and Strategy

The Company depends on the proper functioning, availability and security of its information systems, including financial, data processing, communications and operating systems. Several information systems are software applications provided by third parties. Although risks from cybersecurity threats have to date not materially affected us, our business strategy, results of operations or financial condition, like other companies in our industry, we could, from time to time, experience threats and security incidents related to our and our third-party vendors' information systems, including attempts to gain unauthorized access to our confidential data, and other electronic security breaches. Such cybersecurity attacks can range from individual attempts to gain unauthorized access to our information technology systems to more sophisticated security threats. While we employ a number of measures to prevent, detect and mitigate these threats, there is no guarantee such efforts will be successful in preventing a cybersecurity attack. A cybersecurity attack could compromise the confidential information of our employees, tenants and vendors. A successful cybersecurity attack could disrupt and otherwise adversely affect our business operations.

The Company does not believe that it has experienced any cybersecurity threats or incidents that have materially

affected or are reasonably likely to materially affect the Company and its business strategy, results of operations and/or financial condition.

Assessment, identification and management of cybersecurity related risks are integrated into our overall risk management process. Cybersecurity related risks are included in the risk universe we evaluate to assess top risks to the Company at least annually. To the extent our processes identify a heightened cybersecurity related risk, risk owners are assigned to develop risk mitigation plans, which are then tracked to completion.

Cybersecurity Governance

Our Board of Directors considers cybersecurity risk as part of its risk oversight function and has delegated oversight of cybersecurity risk strategy and governance and of other information technology risks to the Audit Committee of the Board of Directors (the "Audit Committee"). The Audit Committee reports to the full Board of Directors regarding its activities, including those related to cybersecurity. Senior management, including the Company's CEO and CFO, is responsible for assessing and managing cybersecurity risk, and provides briefings regarding the assessment and management of such risk to the Audit Committee, which then reports, as necessary, to the Board of Directors. Although members of our senior management do not have direct cybersecurity expertise obtained through certifications, their experience managing the Company, which includes consulting and coordinating as necessary with a third party information technology expert referred to below, enables them to effectively assess and manage material risks from cybersecurity threats.

The Company retained an information technology expert third party company to assist in managing relevant risks. In particular, the Company outsources its information technology function and monitoring to a third party provider whereby it benefits from a professionally managed network monitoring, management, maintenance, detection and response system and a 24/7 security operations center with both onsite and remote support services. Any cybersecurity incident would be reported to the Company promptly by our third party consultant and material and potentially material incidents would be assessed by management and the Audit Committee for remediation and future prevention and detection.

The Company, at least annually, updates its policies or procedures that could help mitigate cybersecurity risks. Notwithstanding the extensive approach we take to cybersecurity, we may not be successful in preventing or mitigating a cybersecurity incident that could have a material adverse effect on us. The Company has incorporated cybersecurity coverage in its insurance policies; however, there is no assurance that the insurance the Company maintains will cover all cybersecurity breaches or that policy limits will be sufficient to cover all related losses.

Property Management and Leasing Strategy

We self-administer our property management and substantially all of our leasing activities and operating and administrative functions (including leasing, legal, acquisitions, development, data processing, finance and accounting). On-site functions such as maintenance, landscaping, sweeping, plumbing and electrical are subcontracted out at each location and, to the extent permitted by their respective leases, the cost of these functions is passed on to the tenants.

We believe that focused property management, leasing and customer retention are essential to maximizing the revenue per square foot, operating cash flow and value of our properties. Our primary goal in property management is to maintain an attractive shopping environment on a cost effective basis for our tenants.

The majority of our property management and leasing functions are supervised and administered by us. We maintain regular contact with our tenants and frequently visit each asset to ensure the proper implementation and execution of our market strategies. As part of our ongoing property management, we conduct regular physical property reviews to improve our properties, react to changing market conditions and ensure proper maintenance.

Our leasing representatives are experienced in the markets in which we operate; they are familiar with current tenants and potential local, regional, and national tenants that would complement our current tenant base. We study demographics, customer sales, merchandising mix and cultivate tenant relationships to optimize the sales performance of our centers and thereby increase rents. We believe this hands-on approach maximizes the value of our shopping centers.

Dividend Policy

In March 2018, the Board of Directors suspended the payment of dividends on our Common Stock. The Board of Directors also suspended the quarterly dividends on shares of our Series A Preferred Stock ("Series A Preferred Stock")

As a result of the dividend suspension on the Series D Preferred Stock, our Charter provides that no dividends may be declared or paid on the Common Stock or on our other outstanding preferred until all accumulated accrued and unpaid dividends on the Series D Preferred Stock have been paid in full. At this time, the Company does not intend to pay dividends other than those required dividend distributions, if any, that will enable us to maintain our REIT status and to eliminate or minimize our obligation to pay income and excise taxes. Upon the 2025 disposition of Webster Commons, the Company paid down approximately \$9.1 million to release the property from collateral and paid a \$0.5 million loan prepayment premium.

April 2025 Cedar Bridge Loan

On April 4, 2025, Cedar entered into a bridge loan agreement with KeyBank National Association for \$10.0 million (the "April 2025 Cedar Bridge Loan"). The interest rate under the April 2025 Cedar Bridge Loan is the term SOFR rate plus the applicable margin of 1.30%. Interest payments are due monthly, and any outstanding principal is due at maturity. In August 2025, the maturity date was extended from January 4, 2026 to February 15, 2028. The April 2025 Cedar Bridge Loan is guaranteed by both Cedar and the Operating Partnership. Upon the 2025 dispositions of Carll's Corner and Fieldstone Marketplace, the Company paid down approximately \$4.0 million of the April 2025 Cedar Bridge Loan. The cash pledged as collateral is in an interest bearing account held by the Operating Partnership included in "restricted cash" on the Company's consolidated balance sheets as of December 31, 2025.

Winslow Plaza Payoff

August 2025 Cedar Credit Facility

On August 15, 2025, Cedar entered into a credit facility agreement with KeyBank National Association to draw up to \$20.0 million (the "August 2025 Cedar Credit Facility") pursuant to which a loan advance may be made no more frequently than once per calendar month. The interest rate under the August 2025 Cedar Credit Facility for each draw is at the Company's option of either a base rate, daily simple SOFR or term SOFR, plus an applicable margin. Interest payments are due monthly, and any outstanding principal is due at maturity on August 15, 2027. The total outstanding principal under the August 2025 Credit Facility must be reduced to no greater than \$10.0 million by February 15, 2027. The August 2025 Cedar Credit Facility was collateralized by three properties, consisting of Carll's Corner, Fieldstone Marketplace and South Philadelphia Parcels, and is guaranteed by Cedar and WHLR. Upon the 2025 dispositions of a South Philadelphia land parcel, Carll's Corner and Fieldstone Marketplace, they were released from collateral and the Company paid down approximately \$10.3 million of the August 2025 Cedar Credit Facility. Although the August 2025 Cedar Credit Facility provides for total borrowings of up to \$20.0 million, the Company did not have access to the full commitment as of December 31, 2025. Availability under the facility is subject to certain covenants and conditions established at origination, including requirements tied to projected asset sales and projected net sales proceeds.

Reverse Stock Splits

On June 20, 2025, in accordance with the Maryland General Corporation Law (the "MGCL"), our Board of Directors declared monthly reverse stock splits from August 21, 2025 to December 31, 2026 advisable, and directed that they be submitted to the Company's stockholders for consideration. The Company's stockholders approved monthly reverse stock splits from August 21, 2025 to December 31, 2026 at the annual meeting held on August 20, 2025.

The January 2025 Reverse Stock Split, the March 2025 Reverse Stock Split, the May 2025 Reverse Stock Split, the September 2025 Reverse Stock Split, the November 2025 Reverse Stock Split, and the January 2026 Reverse Stock Split were effected on January 27, 2025, March 26, 2025, May 26, 2025, September 22, 2025, November 28, 2025 and January 16, 2026 respectively, at the reverse stock split ratios of one-for-four, one-for-five, one-for-seven, one-for-five, one-for-two and one-for-three, respectively. The par value of each share of Common Stock remained unchanged after each such reverse stock split. No fractional shares were issued in connection with any Reverse Stock Split. Stockholders who would have otherwise been issued a fractional share of the Company's Common Stock as a result of each such reverse stock split instead received a cash payment in lieu of such fractional share in an amount equal to the applicable fraction multiplied by the closing price of the Company's Common Stock on Nasdaq on each effective date thereof, without any interest.

Exchanges of Series B Preferred Stock and Series D Preferred Stock for Common Stock

During the year ended December 31, 2025, the Company has issued an aggregate amount of 465,770 shares of its Common Stock to unaffiliated holders of its securities in exchange for a total of 642,274 shares of its Series B Preferred Stock

and a total of 488,074 shares of its Series D Preferred Stock, retiring \$36.2 million in preferred stock liquidation value. The Company intends to continue to exchange shares of its Common Stock for its Series B Preferred Stock and/or its Series D Preferred Stock with the holders thereof as opportunities arise as an additional strategy to reduce the outstanding number of each security, enhance the Company's financial stability and optimize its capital allocation.

The fair market value of the Common Stock issued in exchange for Preferred Stock was less than the carrying value of the Preferred Stock retired in those transactions resulting in \$9.6 million for the year ended December 31, 2025, recognized as a deemed contribution within accumulated deficit in the consolidated balance sheet, with such deemed contributions included as a component of net loss attributable to common shareholders.

Series D Preferred Stock - Redemptions

During the year ended December 31, 2025, the Company processed redemptions of an aggregate of 375,289 shares of Series D Preferred Stock from the holders thereof. Accordingly, the Company issued 147,900 shares of Common Stock in settlement of an aggregate redemption price of approximately \$15.3 million.

At December 31, 2025, the Company had received requests to redeem 700 shares of Series D Preferred Stock with respect to the January 2026 Holder Redemption Date. As such, the redemption of these shares of the Series D Preferred Stock is considered certain at December 31, 2025 and the liquidation value associated with these shares of \$30 thousand is presented as a liability in the accompanying consolidated balance sheet.

Convertible Notes

During the year ended December 31, 2025, the Company issued an aggregate of 17,882 shares of its Common Stock to settle conversion requests of the holders of the Convertible Notes comprising an aggregate principal amount of \$1.5 million, which resulted in an aggregate net loss on conversion of Convertible Notes of \$0.9 million.

As of December 31, 2025, the Conversion Price for the Convertible Notes was approximately \$5.69 per share of the Company's Common Stock (approximately 4.40 shares of Common Stock for each \$25.00 of principal amount of the Convertible Notes being converted).

Subsequent to year-end, as a result of the February 2026 Series D Preferred Stock redemptions the Conversion Price was further adjusted for the Convertible Notes to approximately \$2.60 per share of the Company's Common Stock (approximately 9.62 shares of Common Stock for each \$25.00 of principal amount of the Convertible Notes being converted).

Interest expense on the Convertible Notes consists of the following (in thousands, except for shares):

Years ended December 31,	Series B Preferred Stock number of shares ⁽¹⁾	Series D Preferred Stock number of shares ⁽¹⁾	Convertible Note interest at 7% coupon	Fair value adjustment	Interest expense
2025	—	107,522	\$ 2,107	\$ 1,752	\$ 3,859
2024	—	187,410	\$ 2,163	\$ 1,970	\$ 4,133

(1) Shares issued as interest payment on Convertible Notes.

Subscription Agreement, Issuance of Series D Preferred Stock and Noncontrolling Interest Contributions

Starting in October 2025 the Company entered into four subscription agreements with certain investors pursuant to which the Company issued an aggregate 27,000 shares of its Series D Preferred Stock in consideration for an aggregate 54,000 shares of Cedar Series C Preferred Stock held by such investors. Immediately following the closing of each transaction, the Company contributed the acquired Cedar Series C Preferred Stock to Cedar Realty Trust, Inc. and those shares were retired.

Management evaluated the transactions under ASC 845, *Nonmonetary transactions*, and determined that the fair value of the Series D Preferred Stock issued was approximately the fair value of the Cedar Preferred Stock received as consideration. No gain or loss was recognized as a result of this exchange. The fair value of the Cedar Preferred Stock received and retired is compared to its carrying value, and as a result the Company recognized \$0.4 million in deemed distributions included as a component of net loss attributable to common shareholders.

Noncontrolling Interests - Consolidated Subsidiary

During the year ended December 31, 2025, Cedar repurchased and retired 1,925,472 shares of Cedar Series C Preferred Stock in a series of repurchase transactions. During the year ended December 31, 2025, Cedar repurchased and retired 592,372 shares, respectively, of Cedar Series B Preferred Stock through a tender offer. The shares of Cedar Series B Preferred Stock were repurchased for an aggregate of \$10.6 million. The repurchase of the noncontrolling interests caused the recognition of \$16.5 million in deemed distributions during the year ended December 31, 2025. See Liquidity and Capital Resources below, and Note 10 to the accompanying audited consolidated financial statements for additional details.

Critical Accounting Estimates and Policies

The following discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements included in this Form 10-K, which have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP"). The preparation of these consolidated financial statements requires us to make estimates, assumptions and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

The critical accounting estimates and policies summarized in this section are discussed in further detail in the notes to the consolidated financial statements appearing elsewhere in this Form 10-K. We believe that the application of these policies on a consistent basis enables us to provide useful and reliable financial information about our operating results and financial condition. The following accounting estimates are considered critical because they are particularly dependent on management's judgment about matters that have a significant level of uncertainty at the time the accounting estimates are made, and changes to those estimates could have a material impact on our financial condition or operating results.

Revenue Recognition

Principal components of our total revenues include base and percentage rents and tenant reimbursements. The Company combines lease and nonlease components in lease contracts, which includes combining base rent and tenant reimbursement revenue. We accrue minimum (base) rent on a straight-line basis over the terms of the respective leases which results in an unbilled rent asset or deferred rent liability being recorded on the balance sheet. Certain lease agreements contain provisions that grant additional rents based on tenants' sales volumes (contingent or percentage rent) which we recognize when the tenants achieve the specified targets as defined in their lease agreements. Although we periodically review the valuation of the asset/liability resulting from the straight-line accounting treatment of our leases in light of any changes in lease terms, financial condition or other factors concerning our tenants, they are subject to uncertainty. These assessments are inherently sensitive as they are based on the judgment of management and information available at the time of evaluation.

Rents and Other Tenant Receivables

We record a tenant receivable for amounts due from tenants such as base rents, tenant reimbursements and other charges allowed under the lease terms. We periodically review tenant receivables for collectability and determine the need for an allowance for the uncollectible portion of accrued rents and other accounts receivable based upon customer creditworthiness (including expected recovery of a claim with respect to any tenants in bankruptcy), historical bad debt levels and current economic trends. We consider a receivable past due once it becomes delinquent per the terms of the lease; our standard lease form considers a rent charge past due after five days. A past due receivable triggers certain events such as notices, fees and other allowable and required actions per the lease.

Acquired Properties and Lease Intangibles

We allocate the purchase price of the acquired properties to land, building and improvements, identifiable intangible assets and to the acquired liabilities based on their respective fair values. Identifiable intangibles include amounts allocated to acquired out-of-market leases, tenant relationships, the value of in-place leases and ground. We determine fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends and specific market and economic conditions that may affect the property. Management also estimates costs to execute similar leases including leasing commissions, tenant improvements, legal and other related expenses. Such amounts are based on estimates and forecasts which, by their nature, are highly subjective and may result in future changes in the event forecasts are not realized.

Impairment of Long-Lived Assets

We periodically review investment properties for impairment on a property-by-property basis or whenever events or changes in circumstances indicate that the carrying value of investment properties may not be recoverable, with an evaluation performed at least annually. These circumstances include, but are not limited to, declines in the property's cash flows, occupancy and fair market value. We measure any impairment of investment property when the estimated undiscounted future operating income before depreciation and amortization, plus its residual value, is less than the carrying value of the property. To the extent impairment has occurred, we charge to income the excess of carrying value of the property over its estimated fair value. We estimate fair value using unobservable data such as operating income, estimated capitalization rates or multiples, leasing prospects and local market information. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 2 and 3 inputs. Level 2 inputs are quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets in markets that are not active; and inputs other than quoted prices. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The Company may decide to sell properties. Properties classified as held for sale are reported at the lower of their carrying value or their fair value, less estimated costs to sell. When the carrying value exceeds the fair value, less estimated costs to sell, an impairment expense is recognized. The Company estimates fair value, less estimated closing costs, based on similar real estate sales transactions. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 2 and 3 inputs. Level 2 inputs are quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets in markets that are not active; and inputs other than quoted prices. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including stock purchase warrants and convertible notes, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the consolidated statement of operations. The assumptions used in these fair value estimates are based on the three-level valuation hierarchy for fair value measurement and represent Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Series D Preferred Stock

The Series D Preferred Stock was initially classified as mezzanine equity because the redemption provisions were conditional upon the occurrence of an event that was not certain. The Series D Preferred Stock was valued at net proceeds plus accrued and unpaid dividends. In 2023, this event became certain and in accordance with ASC 480, the Series D Preferred Stock was revalued at the redemption price which includes undeclared dividends, representing liquidation value. The adjustment to liquidation value was recognized in accumulated deficit as an adjustment to redemption value. Additionally, in accordance with ASC 480, as holders exercise their redemption rights the Series D Preferred Stock becomes mandatorily redeemable and the liquidation value of their exercise is classified as a liability.

Liquidity and Capital Resources

At December 31, 2025, our consolidated cash, cash equivalents and restricted cash totaled \$48.6 million compared to consolidated cash, cash equivalents and restricted cash of \$60.7 million at December 31, 2024. Cash flows from (used in) operating activities, investing activities and financing activities were as follows (in thousands):

	Years Ended December 31,		Changes	
	2025	2024	Dollars	Percent
Operating activities	\$ 21,132	\$ 25,988	\$ (4,856)	(18.7)%
Investing activities	\$ 32,137	\$ 15,480	\$ 16,657	107.6 %
Financing activities	\$ (65,356)	\$ (20,559)	\$ (44,797)	(217.9)%

Operating Activities

Net cash provided by operating activities, before net changes in operating assets and liabilities, was \$25.9 million and \$29.4 million for 2025 and 2024, respectively, primarily due to (1) a decrease of \$3.3 million in NOI of related to properties not defined as Same-Property (as defined below), (2) an increase of \$0.9 million in corporate general and administrative expense, (3) an increase of \$0.4 million in cash paid for interest expense and (4) an increase of \$0.1 million in other expense, partially offset by (5) an increase of \$1.0 million in Same-Property NOI (as defined below) and (6) an increase of \$0.5 million in interest income.

Investing Activities

Our cash flows from investing activities increased \$16.7 million, primarily due to (1) the \$59.2 million in net proceeds from the sale of 10 retail shopping centers and one land parcel sold in 2025 compared to three retail shopping centers and three

land parcels sold in 2024 resulting in net proceeds of \$38.5 million and (2) the decrease in capital expenditures of \$5.4 million, partially offset by (3) a \$10.0 million investment subscription with SAI in 2025 compared to \$0.5 million in 2024.

Financing Activities

Our cash flows used in financing activities were \$65.4 million during the year ended December 31, 2025, compared to cash flows used in financing activities of \$20.6 million for the comparable period in 2024.

The Company continues to endeavor to manage its debt prudently with the objective of achieving a conservative capital structure and minimizing leverage within the Company. Our debt balances, excluding unamortized debt issuance costs, consisted of the following (in thousands):

	December 31,	
	2025	2024
Fixed-rate notes	\$ 476,875	\$ 499,531
Variable-rate lines of credit	5,966	—
Total debt	\$ 482,841	\$ 499,531

The weighted average interest rate and term of our fixed-rate debt were 5.5% and 6.6 years, respectively, at December 31, 2025. The weighted average interest rate and term of our fixed-rate debt were 5.5% and 7.5 years, respectively, at December 31, 2024. We have \$6.5 million of debt maturing during the year ending December 31, 2026. While we anticipate being able to refinance all the loans at reasonable market terms upon maturity, our inability to do so may materially impact our financial position and results of operations. See Note 6 to the accompanying audited consolidated financial statements for additional mortgage indebtedness details.

Material Cash Requirements, Contractual Obligations and Commitments

Our expected material cash requirements for the year ended December 31, 2025 and thereafter are comprised of (i) contractually obligated expenditures; (ii) other essential expenditures; (iii) other investments; and (iv) the repurchases of noncontrolling interests.

The primary liquidity needs of the Company, in addition to the funding of our ongoing operations, at December 31, 2025 are \$6.5 million in principal and regularly scheduled payments due in the year ended December 31, 2026 as described in Note 6 to the accompanying audited consolidated financial statements.

In addition, the Company has \$0.4 million outstanding construction commitments at December 31, 2025.

In addition to liquidity required to fund debt payments and construction commitments, we may incur some level of capital expenditures during the year for our existing properties that cannot be passed on to our tenants.

To meet these future liquidity needs, the Company:

- had \$23.7 million in cash and cash equivalents at December 31, 2025;
- had \$25.0 million held in lender reserves, which included \$6.0 million to secure the April 2025 Cedar Bridge Loan, as well as amounts reserved for the purpose of tenant improvements, lease commissions, real estate taxes and insurance at December 31, 2025; and
- intends to use cash generated from operations during the year ended December 31, 2026.

In 2024 and 2025, the Company repurchased and retired a total of 2,770,778 shares of Cedar Series C Preferred Stock and 592,372 shares of Cedar Series B Preferred Stock, which carried an aggregate liquidation value of \$84.1 million, for approximately \$53.4 million, including fees and expenses, and for 27,000 shares of Series D Preferred Stock. These repurchases were funded by asset sales, the April 2025 Cedar Bridge Loan and issuance of Series D Preferred Stock. The shares retired in 2024 and 2025 will reduce future annual dividend payments by \$5.6 million. The Company intends to continue repurchasing its Cedar Series B Preferred Stock and Cedar Series C Preferred Stock as both series are currently trading at a discount to their liquidation value, presenting a strategic opportunity to buy back shares at favorable prices. By reducing the number of shareholders eligible for dividend payments, the Company believes it can offset the net operating income lost from the recent sales of certain properties as it seeks to enhance its financial stability, strengthen its balance sheet, optimize its capital allocation and maximize shareholder value.

Additionally, the Company plans to undertake measures to grow its operations and increase liquidity through delivering space currently leased but not yet occupied, backfilling vacant anchor spaces, replacing tenants who are in default of their lease terms, increasing future lease revenue through tenant improvements partially funded by restricted cash, disposition of non-core assets in the ordinary course of business and refinancing properties.

In order to continue qualifying as a REIT, the Company is required to distribute at least 90% of its "REIT taxable income," as defined in the Code. Future dividend declarations will continue to be at the discretion of the Board of Directors, and will depend on the cash flow and financial condition of the Company, capital requirements, annual distribution requirements under the REIT provisions of the Code, and such other factors as the Board of Directors may deem relevant. The Company

intends to continue to operate its business in a manner that will allow it to qualify as a REIT for U.S. federal income tax requirements.

Our success in executing on our strategy will dictate our liquidity needs going forward. If we are unable to execute in these areas, our ability to grow may be limited without additional capital.

Convertible Notes

The Convertible Notes could have the effect of causing, if interest is paid in the future in shares of Series D Preferred Stock, substantial dilution of the Series D Preferred Stock and reduction in the value of any Series D Preferred Stock. In addition, depending on the prices at which the ongoing monthly redemptions of Series D Preferred Stock occur, the conversion price for the Convertible Notes could be repeatedly adjusted downwards, which has caused, and could continue to cause, significant downward pressure on the value of the Company's Common Stock.

Series D Preferred Stock

As of December 31, 2025, the outstanding Series D Preferred Stock had an aggregate liquidation preference of approximately \$37.6 million, with aggregate accrued and unpaid dividends in the amount of approximately \$25.6 million, for a total liquidation value of \$63.2 million. On a monthly basis, each holder of Series D Preferred Stock has the right, at such holder's option, to request that the Company redeem any or all of such holder's shares of Series D Preferred Stock.

As the holders of the Series D Preferred Stock continue to exercise their redemption rights on a monthly basis, the Company will continue to pay the aggregate redemption price in shares of our Common Stock. The Company does not believe it is in its interests to liquidate assets or incur indebtedness to fund cash redemptions of the Series D Preferred Stock and, accordingly, it has no intention of doing so. Therefore, the Company intends to continue to settle redemptions of the Series D Preferred Stock in Common Stock. We believe that the issuance of Common Stock to settle redemptions in Common Stock will continue to result in a substantial dilution of the outstanding Common Stock.

Revenues were lower primarily as a result of (1) a decrease of \$6.7 million in rental revenues and tenant reimbursements, net of credit adjustments on operating lease receivables, attributable to properties that were sold in 2024 and 2025, (2) a decrease of \$0.4 million in market lease amortization and straight line rent, partially offset by (3) an increase of \$2.1 million in rental revenues and tenant reimbursements, net of credit adjustments on operating lease receivables, attributable to Same-Properties (as defined below).

Property operating expenses were lower primarily as a result of (1) a decrease of \$3.3 million in operating expenses attributable to properties that were sold in 2024 and 2025, partially offset by (2) an increase of \$0.6 million in grounds and landscaping, primarily due to an increase in snow removal, (3) an increase of \$0.3 million in real estate taxes and insurance and (4) an increase of \$0.1 million in utilities.

Depreciation and amortization were lower primarily as a result of properties sold in 2024 and 2025.

Impairment was recorded for Carll's Corner, located in Bridgeton, New Jersey, and an outparcel at St. George Plaza, located in St. George Plaza in 2025 and Oregon Avenue, located in Philadelphia, Pennsylvania in 2024.

Corporate general and administrative expenses were higher primarily as a result of (1) an increase of \$0.6 million in salaries, (2) an increase of \$0.4 million in corporate administration, partially offset by (3) a decrease of \$0.1 million in advertising.

Gain on disposal of properties, net related to the sale of 10 retail shopping centers and one land parcel sold in 2025 compared to three retail shopping centers and three land parcels sold in 2024.

Interest income was higher primarily as a result of higher restricted cash balances, including restricted cash pledged as collateral for the April 2025 Cedar Bridge Loan.

Interest expense increased 3.5%. Below is a comparison of the components which make up interest expense (in thousands):

	December 31,		Changes

(1) Includes the fair value adjustment for the paid-in-kind interest.

(2) Includes the April 2025 Cedar Bridge Loan and the August 2025 Cedar Credit Facility.

Property debt interest inclusive of Cedar debt was relatively flat, a result of (1) an increase of \$0.6 million due to an increase in the overall average interest rate and (2) a decrease of \$0.6 million in the average principal property debt balance.

Net changes in the fair value of derivative liabilities was a \$4.7 million gain for the year ended December 31, 2025, which represents a non-cash adjustment from a change in the fair value, primarily related to the conversion rate on the Convertible Notes relative to market trade prices of the Convertible Notes and Common Stock. See Note 7 to the accompanying audited consolidated financial statements for additional details.

Gain on Preferred Stock redemptions is a result of the fair market value of the Common Stock issued on redemptions of the Company's Series D Preferred Stock compared to the Series D Preferred Stock's carrying value. During the years ended December 31, 2025 and 2024, the Company realized a gain of \$1.5 million and \$4.7 million in the aggregate, respectively.

Other expense represents expenses which are non-operating in nature. Other expenses were \$0.9 million for the year ended December 31, 2025, which primarily consisted of capital structure costs, including the registration of our Common Stock to issue in settlement of Series D Preferred Stock redemptions, expenses incurred in connection with the Reverse Stock Splits and redemptions of the Series D Preferred Stock by holders thereof. Other expenses were \$1.5 million for the year ended December 31, 2024, which primarily consisted of capital structure costs, including repurchase of Convertible Notes and legal and other expenses incurred for the 2024 Reverse Stock Splits, the registration of our Common Stock to issue in settlement of Series D Preferred Stock redemptions and redemptions of the Series D Preferred Stock by holders thereof.

Same-Property Net Operating Income

Same-property net operating income ("Same-Property NOI") is a widely-used non-GAAP financial measure for REITs. The Company believes that Same-Property NOI is a useful measure of the Company's property operating performance. The Company defines Same-Property NOI as property revenues (rental and other revenues) less property and related expenses (property operation and maintenance and real estate taxes). Because Same-Property NOI excludes above (below) market lease amortization, straight-line rents, general and administrative expenses, depreciation and amortization, gain or loss on sale or capital expenditures and leasing costs and impairment charges, it provides a performance measure, that when compared year over year, reflects the revenues and expenses directly associated with owning and operating commercial real estate properties and the impact to operations from trends in occupancy rates, rental rates and operating costs, providing perspective not immediately apparent from operating income. The Company uses Same-Property NOI to evaluate its operating performance since Same-Property NOI allows the Company to evaluate the impact of factors, such as occupancy levels, lease structure, lease rates and tenant base, have on the Company's results, margins and returns. Properties are included in Same-Property NOI if they are owned and operated for the entirety of both periods being compared ("Same-Property"). Consistent with the capital treatment of such costs under GAAP, tenant improvements, leasing commissions and other direct leasing costs are excluded from Same-Property NOI.

The most directly comparable GAAP financial measure is consolidated operating income. Same-Property NOI should not be considered as an alternative to consolidated operating income prepared in accordance with GAAP or as a measure of liquidity. Further, Same-Property NOI is a measure for which there is no standard industry definition and, as such, it is not consistently defined or reported on among the Company's peers, and thus may not provide an adequate basis for comparison among REITs.

The following table is a reconciliation of Same-Property NOI from operating income (the most directly comparable GAAP financial measure, in thousands):

	Years Ended December 31,	
	2025	2024
Operating Income	\$ 43,222	\$ 37,531
Add (deduct):		
Gain on disposal of properties, net	(14,354)	(5,550)

Above (below) market lease amortization, net	(2,466)	(3,434)
Other non-property revenue	(945)	(1,043)
NOI related to properties not defined as Same-Property	(900)	(4,242)
Same-Property Net Operating Income	\$ 60,195	\$ 59,235

Total Same-Property NOI was \$60.2 million and \$59.2 million for the years ended December 31, 2025 and 2024, respectively, representing an increase of 1.6% due to a 2.3% increase in property revenue, partially offset by a 3.7% increase in property expenses.

Funds from Operations

We use funds from operations ("FFO"), a non-GAAP measure, as an alternative measure of our operating performance, specifically as it relates to results of operations and liquidity. We compute FFO in accordance with standards established by the Board of Governors of the National Association of Real Estate Investment Trusts ("Nareit") in its March 1995 White Paper (as amended in November 1999, April 2002 and December 2018). As defined by Nareit, FFO represents net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property, plus real estate-related depreciation and amortization (excluding amortization of loan origination costs), plus impairment of real estate-related long-lived assets and after adjustments for unconsolidated partnerships and joint ventures. Most industry analysts and equity REITs, including us, consider FFO to be an appropriate supplemental measure of operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company's real estate between periods, or as compared to different companies. Management uses FFO as a supplemental measure to conduct and evaluate our business because there are certain limitations associated with using GAAP net income alone as the primary measure of our operating performance. Historical cost accounting for real estate assets in accordance with GAAP implicitly assumes that the value of real estate assets diminishes predictably over time, while historically real estate values have risen or fallen with market conditions. Accordingly, we believe FFO provides a valuable alternative measurement tool to GAAP when presenting our operating results.

We believe the computation of FFO in accordance with Nareit's definition includes certain items that are not indicative of the results provided by our Operating Portfolio and affect the comparability of our period-over-period performance. These items include, but are not limited to, legal settlements, non-cash amortization on loans and acquisition costs. Therefore, in addition to FFO, management uses Adjusted FFO ("AFFO"), which we define to exclude such items. Management believes that these adjustments are appropriate in determining AFFO as they are not indicative of the operating performance of our assets. In addition, we believe that AFFO is a useful supplemental measure for the investing community to use in comparing us to other REITs as many REITs provide some form of adjusted or modified FFO. However, there can be no assurance that AFFO presented by us is comparable to the adjusted or modified FFO of other REITs.

A reconciliation of net income to FFO available for common stockholders and AFFO is shown in the table below (in thousands):

AFFO per Common Share	\$ 96.28	\$ 112,359.38

Other non-recurring and non-cash expenses are costs of the Company that we believe will not be incurred on a go-forward basis. Other non-recurring expenses were \$1.3 million and \$0.4 million for the years ended December 31, 2025 and 2024, respectively, a result of loan prepayment premiums.

Macroeconomic Considerations

Evolving macroeconomic conditions, including global macroeconomic challenges such as changes in trade policies, sanctions, treaties, tariffs, regulatory requirements, uncertainty in the markets, economic instability and fluctuations in inflation and interest rates, may affect our business. Substantially all of the Company's leases contain provisions designed to partially mitigate the negative impact of inflation in the near term. Such lease provisions include clauses that require tenants to reimburse the Company for inflation-sensitive costs such as real estate taxes, insurance and many of the operating expenses it incurs. In addition, many of our leases are for terms of less than ten years, which permits us to seek increased rents upon re-rental at market rates. However, significant inflation rate increases over a prolonged period of time may have a material adverse impact on the Company's business. Conversely, deflation could lead to downward pressure on rents and other sources of income.

Fluctuations in interest rates and governmental tariff-related measures could significantly impact our Operating Portfolio and overall financial performance. Interest rate increases could result in higher incremental borrowing costs for the Company and our tenants. The duration of the Company's indebtedness and our relatively low exposure to floating rate debt have mitigated the direct impact of inflation and interest rate increases. In a low or stable interest rate environment, we may benefit from lower borrowing costs, enabling strategic investments, acquisitions, or capital returns to shareholders. Additionally, we monitor market conditions to adjust our capital allocation accordingly, maintain a disciplined financial approach and seek to optimize returns while managing exposure to interest rate volatility. The degree and pace of inflation and interest rate changes have had and may continue to have impacts on our business. Changes in tariffs could lead to construction

cost variances for the Company, additional tenant costs, which may affect rental rates, and shifts in tenant mix that may impact the Company's operating income.

Recent Tax Law Update

On July 4, 2025, President Trump signed the OBBBA into law. The OBBBA permanently extended certain provisions that were enacted in the Tax Cuts and Jobs Act of 2017. Such extensions included the permanent extension of the 20% deduction for “qualified REIT dividends” for individuals and other non-corporate taxpayers. The OBBBA also increased the percentage limit under the REIT asset test applicable to taxable REIT subsidiaries (the permissible value of taxable REIT subsidiary securities that a REIT may hold) from 20% to 25% of the value of the REIT’s total assets for taxable years beginning after December 31, 2025. The Company is currently evaluating this legislation to determine its potential impact on the Company’s consolidated financial statements and related disclosures.

Our management, under the supervision and with the participation of our principal executive officer and principal financial officer, has evaluated the effectiveness of our disclosure controls and procedures in ensuring that the information required to be disclosed in our filings under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, including ensuring that such information is accumulated and communicated to our management, as appropriate, to allow timely decisions regarding required disclosure. Management’s Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting, as defined in rules promulgated under the Exchange Act, is a process designed by, or under the supervision of, our CEO and CFO and effected by our Board of Directors, management and other personnel to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP. Internal control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;

- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that our receipts and expenditures are being made only in accordance with authorizations of our management and our Board of Directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Our internal control over financial reporting is evaluated on a regular basis by personnel in our organization. The overall goals of these various evaluation activities are to monitor our internal control over financial reporting and to make modifications as necessary, as disclosure and internal controls are intended to be dynamic systems that change (including improvements and corrections) as conditions warrant.

Management conducted an assessment of the effectiveness of our company's internal control over financial reporting as of December 31, 2025, utilizing the framework established in "INTERNAL CONTROL-INTEGRATED FRAMEWORK" issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013). Based on this assessment, management has determined that our internal controls over financial reporting as of December 31, 2025 were effective.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

This Form 10-K does not include an attestation report of our independent registered public accounting firm regarding internal controls over financial reporting. Management's report was not subject to attestation by our independent registered public accounting firm in accordance with SEC rules.

Item 9B. Other Information.

During the three months ended December 31, 2025, none of our officers or directors adopted or terminated any contract, instruction or written plan for the purchase or sale of our securities that was intended to satisfy the affirmative defense conditions of Rule 10b5-1(c) or any "non-Rule 10b5-1 trading arrangement," as defined in Item 408 of Regulation S-K.

Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections.

Not applicable.

Employment Agreement of M. Andrew Franklin

General Terms. On February 14, 2018, the Company, on its own behalf and on behalf of its subsidiaries, including the Operating Partnership, entered into an employment agreement with M. Andrew Franklin (the "Franklin Employment Agreement") for a period of three years beginning on February 14, 2018, and ending on February 13, 2021 (the "Initial Term"). At the end of the Initial Term, the Franklin Employment Agreement automatically renews for subsequent one-year terms on a year-over-year basis unless terminated pursuant to the terms of the Franklin Employment Agreement. Under the terms of the Franklin Employment Agreement, Mr. Franklin is entitled to the following compensation:

- Base salary of \$250,000 per annum (subsequently increased to \$400,000 effective upon Mr. Franklin's appointment as Chief Executive Officer and President); and
- Reimbursement of reasonable and necessary business expenses, and eligibility to participate in any current or future bonus, incentive, and other compensation and benefit plans available to the Company's executives.

Severance Terms. Under the Franklin Employment Agreement, if Mr. Franklin's employment were terminated by the Company without "Cause" (as defined in the Franklin Employment Agreement), then Mr. Franklin would generally be entitled to severance pay of the greater of (i) salary continuation payments at Mr. Franklin's current salary, less mandatory deductions, for six months plus one (1) additional month for each full calendar quarter remaining in the then-current term of Mr. Franklin's employment or (ii) salary continuation for a period equal to the remainder of the term of the Franklin Employment Agreement. Mr. Franklin would also be entitled to any annual bonuses that would have been earned based solely on his continued

employment for the remainder of the term of the Franklin Employment Agreement. In addition, Mr. Franklin would be entitled to disability, accident, and health insurance for a 12-month period following termination substantially similar to those insurance benefits Mr. Franklin was receiving immediately prior to the date of termination or the cash equivalent, offset by any comparable benefits actually received by Mr. Franklin.

If Mr. Franklin terminated his employment with "Good Reason" (as defined in the Franklin Employment Agreement), Mr. Franklin would generally be entitled to current base salary, less mandatory deductions for 12 months, plus any earned but unpaid bonus for the fiscal year prior to the year in which termination occurs. In addition, Mr. Franklin would be entitled to disability, accident, and health insurance for a 12-month period following termination substantially similar to those insurance benefits Mr. Franklin was receiving immediately prior to the date of termination or the cash equivalent, offset by any comparable benefits actually received by Mr. Franklin.

If Mr. Franklin terminated his employment with Good Reason following a "Change in Control" (as defined in the Franklin Employment Agreement) or was terminated by the Company without Cause and such termination occurred within six months of a Change in Control, Mr. Franklin would generally be entitled to a lump sum payment equal to 2.99 times Mr. Franklin's annual base salary less mandatory deductions payable within 90 calendar days of the termination (and, in the case of such a termination without Cause, a bonus amount based on any bonus determined by the Board of Directors and payable to other executives of the Company during the 12 months after the Change in Control). In addition, Mr. Franklin would be entitled to health care coverage pursuant to COBRA at Mr. Franklin's expense for up to 18 months.

Mr. Franklin would not be entitled to any severance benefits under the Franklin Employment Agreement in the case of the Company terminating his employment for Cause or Mr. Franklin terminating his employment without Good Reason.

Death and Disability. In the event of a termination of employment on account of death, Mr. Franklin's estate would be entitled to: (a) Mr. Franklin's regular base salary (determined on the date of death) for a period of 12 months following death; (b) the amount of any bonus remaining payable by the Company to Mr. Franklin for its fiscal year prior to death; and (c) any accrued and unpaid bonus determined by the Board of Directors for the year in which the death occurs prorated for the number of completed calendar months served prior to death.

In the event of a "Disability" (as defined in the Franklin Employment Agreement) by Mr. Franklin for 120 consecutive days or longer at any point during his employment, then the Company would pay to Mr. Franklin his regular base salary for a 12-month period following the date on which the Disability first begins, net of any benefits received by Mr. Franklin under any disability policy obtained by the Company or Mr. Franklin, the premiums for which were paid by the Company. Mr. Franklin would also be entitled to any bonus remaining payable to Mr. Franklin for his fiscal year prior to the date the Disability began and any unpaid bonus for the fiscal year in which the disability occurred prorated for the number of completed calendar months served prior to the date of Disability.

Under our Code of Conduct the Company's Chief Financial Officer (or, in his or her absence, the Company's General Counsel) must be made aware of the details of any related person transaction so that he or she can make a judgment as to the appropriateness of the transaction and refer it for approval to our RPT Committee. The RPT Committee reviews and approves any related person transaction.

Related Party Transactions

See Notes 4 and 12 to the accompanying audited consolidated financial statements.

Determination of Director Independence

The Board of Directors reviews the independence of each director yearly. During this review, the Board of Directors considers whether there are any transactions and relationships between any director (and his or her immediate family and affiliates) and the Company and its management to determine, to the extent such transactions and relationships exist, whether any such relationships or transactions are inconsistent with a determination that the director is independent in light of applicable law and listing standards.

Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical Audit Matters

The critical audit matters communicated below are matters arising from the current period audit of the consolidated financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matters below, providing separate opinions on the critical audit matters or on the accounts or disclosures to which they relate.

Evaluation of Real Estate for Impairment

Description of Matter

At December 31, 2025, the Company’s net real estate totaled \$484.7 million. As more fully described in Note 2 to the consolidated financial statements, the Company evaluates its real estate investments for impairment whenever events or changes in circumstances indicate that the carrying value of a real estate investment may not be recoverable. Management evaluates various qualitative factors, which some may involve quantitative aspects, in determining whether or not events or changes in circumstances indicate that the carrying amount of a real estate investment may not be recoverable. The Company

estimates undiscounted cash flows of net real estate using observable and unobservable inputs such as historical and forecasted cash flows, net operating income, leasing prospects, and local market information.

Auditing the Company's impairment assessment involved subjectivity due to the estimation required to assess significant assumptions utilized in the recoverability of the real estate based on undiscounted operating income and residual values, such as assumptions related to renewal and renegotiations of current leases, estimates of new leases on vacant spaces, and estimates of operating costs.

How We Addressed the Matter in Our Audit

To test the Company's evaluation of net real estate for impairment, we performed audit procedures that included, among others, obtaining an understanding of the internal controls and processes in place over the Company's net real estate impairment review process, assessing the methodologies applied, evaluating the significant assumptions discussed above and testing the completeness and accuracy of the underlying data used in the analysis. We compared the recoverability calculated to the remaining net book value of the assets to ensure recoverability over the properties' remaining useful lives. We compared the significant assumptions used by management to relevant market information and other applicable sources. As part of our evaluation, we performed sensitivity analyses of significant assumptions to evaluate the changes in the undiscounted cash flows of the related property that would result from changes in the assumptions. We performed site visits for a sample of tenants to verify there were no signs of physical impairment, or unexpected or undocumented vacancies.

Derivative Liabilities

Description of Matter

At December 31, 2025, the Company had convertible notes with an outstanding principal balance of \$29.4 million and related derivative liabilities with a balance of \$7.2 million. Calculations and accounting for the notes payable and embedded conversion features require management's judgments related to initial and subsequent recognition, use of a valuation model, and determination of the appropriate inputs used in the selected valuation model. As more fully described in Note 7 to the consolidated financial statements, the Company utilizes a binomial lattice model valuation technique in measuring the fair value of the notes' conversion features.

Auditing management's valuations of the derivative liabilities was challenging due to the complexity of valuation model and the inputs that are highly sensitive to changes such as the common stock market price, volatility, risk free rates, and yields.

How We Addressed the Matter in Our Audit

To test the accounting for the derivative liabilities resulting from the issuance of convertible notes, our audit procedures included, among others, obtaining an understanding of the internal controls and processes in place over the Company's derivatives liabilities review process, inspection of the contracts, and testing completeness and accuracy of the data used as well as management's application of the relevant accounting guidance. We also involved our valuation specialists to evaluate the Company's determination of the fair value of the derivative liabilities specific to the convertible notes, including testing the appropriateness of the methodology used and assessing the reasonableness of the underlying inputs.

/s/ Cherry Bekaert LLP

We have served as the Company's auditor since 2012.

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated Financial Statements

1. Organization and Basis of Presentation and Consolidation

Wheeler Real Estate Investment Trust, Inc. is a Maryland corporation formed on June 23, 2011. The Trust serves as the general partner of the Operating Partnership, which was formed as a Virginia limited partnership on April 5, 2012. At December 31, 2025, the Company owned 100.00% of the Operating Partnership. As of December 31, 2025, the Trust owned and operated sixty-five properties, including sixty-two retail shopping centers and three undeveloped properties. Eighteen of these properties are located in South Carolina, eleven in Georgia, ten in Virginia, seven in Pennsylvania, five in North Carolina, two in New Jersey, two in Florida, two in Connecticut, two in Kentucky, two in Tennessee, one in Massachusetts, one in Alabama, one in Maryland, and one in West Virginia. These centers and undeveloped properties include the properties acquired through the Cedar Acquisition. Accordingly, the use of the word "Company", "we," "our" or "us" refers to the Trust and its consolidated subsidiaries, except where the context otherwise requires. The Company includes the Trust, the Operating Partnership, the entities included in the REIT formation and the entities acquired since November 2012. The Company prepared the accompanying consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, or GAAP. All material balances and transactions between the consolidated entities of the Company have been eliminated.

The Company owns, leases and operates income producing grocery-anchored centers, neighborhood centers, community centers and free-standing retail properties with a strategy to acquire high quality retail properties that generate attractive risk-adjusted returns. The Company targets properties in communities that have stable demographics. The Company considers properties that are generally located in the most prominent shopping districts in their respective markets, ideally situated at major "Main and Main" intersections. The Company generally leases its properties to national and regional supermarket chains and selects retailers that offer necessity and value-oriented services and items, and generate regular consumer traffic. The Company's tenants carry goods and offer services that are less impacted by fluctuations in the broader U.S. economy and consumers' disposable income, which it believes generates more predictable property-level cash flows.

The Trust through the Operating Partnership owns Wheeler Interests, LLC ("WI") and Wheeler Real Estate, LLC ("WRE") (WRE and, together with WI, the "Operating Companies"). The Operating Companies are Taxable REIT Subsidiaries ("TRS") to accommodate serving the Non-REIT Properties since applicable REIT regulations consider the income derived from these services to be "bad" income subject to taxation. The regulations allow for costs incurred by the Company commensurate with the services performed for the Non-REIT Properties to be allocated to a TRS.

Acquisition of Cedar Realty Trust

On August 22, 2022, the Company completed the merger transaction with Cedar. As a result of the merger, the Company acquired all of the outstanding shares of the Cedar's common stock, which ceased to be publicly traded on the NYSE. The Cedar Series B Preferred Stock and Cedar Series C Preferred Stock remain outstanding and continue to trade on the NYSE. As a result Cedar became a subsidiary of the Company.

We have determined that this acquisition is not a variable interest entity, as defined under the consolidation topic of the FASB ASC, and we evaluated such entity under the voting model and concluded we should consolidate the entity. Under the voting model, we consolidate the entity if we determine that we, directly or indirectly, have greater than 50% of the voting rights and that other equity holders do not have substantive participating rights.

2. Summary of Significant Accounting Policies

Real Estate Investments

The Company records investment properties and related intangibles at fair value upon acquisition. Investment properties include both acquired and constructed assets. Improvements and major repairs and maintenance are capitalized when the repair and maintenance substantially extends the useful life, increases capacity or improves the efficiency of the asset. All other repair and maintenance costs are expensed as incurred.

The Company allocates the purchase price of acquisitions to the various components of the asset based upon the fair value of each component which may be derived from various observable or unobservable inputs and assumptions. Also, the Company may utilize third party valuation specialists. These components typically include buildings, land and any intangible

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Continued)

assets related to out-of-market leases, tenant relationships and in-place leases the Company determines to exist. The Company determines fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends and specific market and economic conditions that may affect the property. Factors considered by management in the analysis of determining the as-if-vacant property value include an estimate of carrying costs during the expected lease-up periods considering market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and estimates of lost rentals at market rates during the expected lease-up periods, tenant demand and other economic conditions. Management also estimates costs to execute similar leases including leasing commissions, tenant improvements, legal and other related expenses. Intangibles related to out-of-market leases, tenant relationships and in-place lease value are recorded at fair value as acquired lease intangibles and are amortized as an adjustment to rental revenue or amortization expense, as appropriate, over the remaining terms of the underlying leases.

The Company records depreciation on buildings and improvements utilizing the straight-line method over the estimated useful life of the asset, generally 5 to 40 years. The Company reviews depreciable lives of investment properties periodically and makes adjustments to reflect a shorter economic life, when necessary. Tenant allowances, tenant inducements and tenant improvements are amortized utilizing the straight-line method over the term of the related lease or occupancy term of the tenant, if shorter.

Amounts allocated to buildings are depreciated over the estimated remaining life of the acquired building or related improvements. The Company amortizes amounts allocated to tenant improvements, in-place lease assets and other lease-related intangibles over the remaining life of the underlying leases. The Company also estimates the value of other acquired intangible assets, if any, and amortizes them over the remaining life of the underlying related intangibles. If a lease were to be terminated prior to its stated expiration or not renewed, all unamortized amounts relating to that lease would be recognized in depreciation and amortization expense at that time.

The Company reviews investment properties for impairment on a property-by-property basis or whenever events or changes in circumstances indicate that the carrying value of investment properties may not be recoverable. These circumstances include, but are not limited to, declines in the property's cash flows, occupancy and fair market value. The Company measures any impairment of investment property when the estimated undiscounted future operating income before depreciation and amortization, plus its residual value, is less than the carrying value of the property. Estimated undiscounted operating income before depreciation and amortization include renewal and renegotiations of current leases, estimates of new leases on vacant spaces, estimates of operating costs and fluctuating market conditions. The renewal and renegotiations of leases in some cases must be approved by additional third parties outside the control of the Company and the tenant. If such renewed or renegotiated leases are approved at amounts below current estimates, then impairment adjustments may be necessary in the future. To the extent impairment has occurred, the Company charges to income the excess of the carrying value of the property over its estimated fair value. The Company estimates fair value using unobservable data such as operating income, estimated capitalization rates, or multiples, leasing prospects for vacant spaces and local market information. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 2 and 3 inputs. Level 2 inputs are quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets in markets that are not active; and inputs other than quoted prices. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Assets Held For Sale and Discontinued Operations

The Company may decide to sell properties that are held for use. The Company records these properties as held for sale when management has committed to a plan to sell the assets, actively seeks a buyer for the assets, and the consummation of the sale is considered probable and is expected within one year. Properties classified as held for sale are reported at the lower of their carrying value or their fair value, less estimated costs to sell. When the carrying value exceeds the fair value, less estimated costs to sell, an impairment expense is recognized. The Company estimates fair value, less estimated closing costs, based on similar real estate sales transactions. These valuation assumptions are based on the three-level valuation hierarchy for fair value measurement and represent Level 2 and 3 inputs. Level 2 inputs are quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets in markets that are not active; and inputs other than quoted prices. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Continued)

Assets held for sale are presented as discontinued operations in all periods presented if the disposition represents a strategic shift that has, or will have, a major effect on the Company's financial position or results of operations. This includes the net gain (or loss) upon disposal of property held for sale, the property's operating results, depreciation and interest expense.

Conditional Asset Retirement Obligation

A conditional asset retirement obligation represents a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement depends on a future event that may or may not be within the Company's control. Currently, the Company does not have any conditional asset retirement obligations. However, any such obligations identified in the future would result in the Company recording a liability if the fair value of the obligation can be reasonably estimated. Environmental studies conducted at the time the Company acquired its properties did not reveal any material environmental liabilities, and the Company is unaware of any subsequent environmental matters that would have created a material liability. The Company believes that its properties are currently in material compliance with applicable environmental, as well as non-environmental, statutory and regulatory requirements. The Company did not record any conditional asset retirement obligation liabilities as of December 31, 2025 and 2024.

Cash and Cash Equivalents and Restricted Cash

The Company considers all highly liquid investments purchased with an original maturity of 90 days or less to be cash and cash equivalents. Cash equivalents are carried at cost, which approximates fair value. Cash equivalents consist primarily of bank operating accounts and money markets. Financial instruments that potentially subject the Company to concentrations of credit risk include its cash and cash equivalents and its trade accounts receivable. The Company places its cash and cash equivalents with institutions of high credit quality.

Restricted cash represents amounts held by lenders for real estate taxes, insurance, reserves for capital improvements, leasing costs and tenant security deposits.

The Company places its cash and cash equivalents and restricted cash on deposit with financial institutions in the United States, which are insured by the Federal Deposit Insurance Company ("FDIC") up to \$250 thousand. The Company's loss in the event of failure of these financial institutions is represented by the difference between the FDIC limit and the total amounts on deposit. Management monitors the financial institutions credit worthiness in conjunction with balances on deposit to minimize risk.

Tenant Receivables

Tenant receivables include base rents, tenant reimbursements and receivables attributable to recording rents on a straight-line basis. The Company determines an allowance for the uncollectible portion of accrued rents and accounts receivable based upon customer credit-worthiness (including expected recovery of a claim with respect to any tenants in bankruptcy), historical bad debt levels, and current economic trends. The Company considers a receivable past due once it becomes delinquent per the terms of the lease. The Company's standard lease form considers a rent charge past due after five days. A past due receivable triggers certain events such as notices, fees and other allowable and required actions per the lease.

Above and Below Market Lease Intangibles, net

The Company determines the above and below market lease intangibles upon acquiring a property. Above and below market lease intangibles are amortized over the life of the respective leases. Amortization of above and below market lease intangibles is recorded as a component of rental revenues.

Deferred Costs and Other Assets, net

The Company's deferred costs and other assets consist primarily of leasing commissions, leases in place, capitalized legal and marketing costs, tenant relationships and ground lease sandwich interest intangibles associated with acquisitions. The Company's lease origination costs consist primarily of the portion of property acquisitions allocated to lease originations and commissions paid to third parties in connection with lease originations. The Company generally records amortization of lease origination costs on a straight-line basis over the terms of the related leases. Amortization of deferred costs and other assets represents a component of depreciation and amortization expense.

Derivative Financial Instruments

The Company does not use derivative instruments to hedge exposures to cash flow, market, or foreign currency risks. The Company evaluates all of its financial instruments, including stock purchase warrants and convertible notes, to determine if such instruments are derivatives or contain features that qualify as embedded derivatives. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value and is then re-valued at each reporting date, with changes in the fair value reported in the consolidated statements of operations. The assumptions used in these fair value estimates are based on the three-level valuation hierarchy for fair value measurement and represent Level 3 inputs. Level 3 inputs are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Debt Issuance Costs

The Company may incur debt issuance costs in connection with raising funds through debt. These costs may be paid in the form of cash, or equity (such as warrants and convertible notes). These costs are amortized to interest expense over the life of the debt. If a conversion of the underlying debt occurs, a proportionate share of the unamortized amounts is immediately expensed. Debt issuance costs are presented as a direct deduction from the carrying value of the associated debt liability in the consolidated balance sheets.

Series D Preferred Stock

The Series D Preferred Stock was initially classified as mezzanine equity because the redemption provisions were conditional upon the occurrence of an event that was not certain. The Series D Preferred Stock was valued at net proceeds plus accrued and unpaid dividends. In 2023, this event became certain and in accordance with ASC 480, the Series D Preferred Stock was revalued at the redemption price which includes undeclared dividends, representing liquidation value. The adjustment to liquidation value was recognized in accumulated deficit as an adjustment to redemption value. Additionally, in accordance with ASC 480, as holders exercise their redemption rights the Series D Preferred Stock becomes mandatorily redeemable and the liquidation value of their exercise is classified as a liability.

Operating Partnership Purchase of Stock

The Operating Partnership purchased 71,343 shares of the Series D Preferred Stock on September 22, 2020 from an unaffiliated investor. The Company considers the purchase of the Trust's equity securities to be retired in the consolidated financial statements.

Revenue Recognition

Lease Contract Revenue

The Company has two classes of underlying assets relating to rental revenue activity, retail and office space. The Company retains substantially all of the risks and benefits of ownership of these underlying assets and accounts for these leases as operating leases. The Company combines lease and nonlease components in lease contracts, which includes combining base rent and tenant reimbursement revenue.

The Company accrues minimum rents on a straight-line basis over the terms of the respective leases which results in an unbilled rent asset or deferred rent liability being recorded on the balance sheet. Additionally, certain lease agreements contain provisions that grant additional rents based on tenants' sales volumes (contingent or percentage rent). Percentage rents are recognized when the tenants achieve the specified targets as defined in their lease agreements as variable lease income.

The Company's leases generally require the tenant to reimburse the Company for a substantial portion of its expenses incurred in operating, maintaining, repairing, insuring and managing the shopping center and common areas (collectively defined as Common Area Maintenance or "CAM" expenses). This significantly reduces the Company's exposure to increases in costs and operating expenses resulting from inflation or other outside factors. These reimbursements are considered nonlease components which the Company combines with the lease component. The Company calculates the tenant's share of operating costs by multiplying the total amount of the operating costs by the tenant's pro-rata percentage of square footage to total square

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Continued)

footage of the property. The Company also receives payments for these reimbursements from substantially all its tenants throughout the year. The Company recognizes tenant reimbursements as variable lease income when earned, which include reimbursements to the Company from tenants for common area maintenance costs and other operating expenses.

Additionally, the Company has tenants who pay real estate taxes directly to the taxing authority. The Company excludes these Company costs paid directly by the tenant to third parties on the Company's behalf from both variable revenue payments recognized and the associated property operating expenses. The Company does not evaluate whether certain sales taxes and other similar taxes are the Company's costs or tenants' costs. Instead, the Company accounts for these costs as tenant costs.

The Company recognizes lease termination fees, which are included in "other revenues" on the consolidated statements of operations, in the year that the lease is terminated and collection of the fee is reasonably assured. Upon early lease termination, the Company records losses related to unrecovered intangibles and other assets.

Income Taxes

The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Internal Revenue Code and applicable Treasury regulations relating to REIT qualification. In order to maintain this REIT status, the regulations require the Company to distribute at least 90% of its taxable income to stockholders and meet certain other asset and income tests, as well as other requirements. If the Company fails to qualify as a REIT, it will be subject to tax at regular corporate rates for the years in which it fails to qualify. If the Company loses its REIT status it could not elect to be taxed as a REIT for five years unless the Company's failure to qualify was due to reasonable cause and certain other conditions were satisfied.

Management has evaluated the effect of the guidance provided by generally accepted accounting principles on *Accounting for Uncertainty of Income Taxes* and has determined that the Company had no uncertain income tax positions.

Financial Instruments

The carrying amount of financial instruments included in assets and liabilities approximates fair market value due to their immediate or short-term maturity.

Use of Estimates

The Company has made estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses during the reported periods. The Company's actual results could differ from these estimates.

Other Expense

Other expense represents expenses which are non-operating in nature. Other expenses were \$0.9 million for the year ended December 31, 2025, which primarily consisted of capital structure costs, including the registration of our Common Stock to issue in settlement of Series D Preferred Stock redemptions, expenses incurred in connection with the Reverse Stock Splits and redemptions of the Series D Preferred Stock by holders thereof. Other expenses were \$1.5 million for the year ended December 31, 2024, which primarily consisted of capital structure costs, including repurchase of Convertible Notes and legal and other expenses incurred for the 2024 Reverse Stock Splits, the registration of our Common Stock to issue in settlement of Series D Preferred Stock redemptions and redemptions of the Series D Preferred Stock by holders thereof.

Segment Information

The Company's chief operating decision maker ("CODM") is our Chief Executive Officer. The Company's primary business is the ownership and operation of grocery-anchored shopping centers. The CODM reviews operating and financial information for each property on an individual basis and, accordingly, each property represents an individual operating segment. The CODM uses net operating income ("NOI" or "Net Operating Income") to assist in making decisions on how to allocate resources and assess the Company's financial performance. The Company defines NOI as revenues (rental and other revenues), less real estate and other property-related taxes, insurance and property operating expenses. CAM expenses, utilities, ground rent and management fees are reviewed by the CODM collectively as property operating expenses. The Company has no operations outside of the United States of America. Therefore, the Company has aggregated its properties into one reportable

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Continued)

segment as the properties share similar long-term economic characteristics and have other similarities including the fact that they are operated using consistent business strategies, are typically located in similar markets, and have similar tenant mixes.

Lease Commitments

The Company determines if an arrangement is a lease at inception. Operating leases, in which the Company is the lessee, are included in operating lease right-of-use ("ROU") assets and operating lease liabilities on our consolidated balance sheets.

ROU assets represent the right to use an underlying asset for the lease term and the lease liabilities represent our obligation to make lease payments arising from the lease. Operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of the Company's leases do not provide an implicit rate, the Company uses its incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. The operating lease ROU assets include any lease payments scheduled to be paid and excludes lease incentives. The Company's lease terms may include options to extend the lease when it is reasonably certain that the company will exercise that option. Lease expense for lease payments is recognized on a straight-line basis over the lease term.

The Company elects the practical expedient to combine lease and associated nonlease components. The lease components are the majority of its leasing arrangements and the Company accounts for the combined component as an operating lease. In the event the Company modifies existing ground leases or enters into new ground leases, such leases may be classified as finance leases.

Noncontrolling Interests

Noncontrolling interests is the portion of equity in the Operating Partnership not attributable to the Trust and noncontrolling interest attributable to the acquisition of Cedar. The ownership interests not held by the parent are considered noncontrolling interests. Accordingly, noncontrolling interests have been reported in equity on the consolidated balance sheets but separate from the Company's equity. On the consolidated statements of operations, the subsidiaries are reported at the consolidated amount, including both the amount attributable to the Company and noncontrolling interests. Consolidated statements of equity include beginning balances, activity for the period and ending balances for stockholders' equity, noncontrolling interests and total equity.

The noncontrolling interest of the Operating Partnership common unit holders is calculated by multiplying the noncontrolling interest ownership percentage at the balance sheet date by the Operating Partnership's net assets (total assets less total liabilities). The noncontrolling interest percentage is calculated at any point in time by dividing the number of units not owned by the Company by the total number of units outstanding. The noncontrolling interest ownership percentage will change as additional units are issued or as units are exchanged for the Company's Common Stock. In accordance with GAAP, any changes in the value from period to period are charged to additional paid-in capital.

The noncontrolling interest attributable to the acquisition of Cedar represents the fair value of the outstanding Cedar Preferred Stock as of August 22, 2022, the date of acquisition. The valuation assumption was based on the three-level valuation hierarchy for fair value measurements and represents Level 1 inputs. Level 1 inputs represent observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Reclassifications

The Company has reclassified certain prior period amounts in the accompanying consolidated financial statements in order to be consistent with the current period presentation. These reclassifications had minimal effect on the net loss attributable to common shareholders. The results from exchanges of the Company's Common Stock for the Company's Preferred Stock are now presented as a \$56 thousand deemed contribution related to preferred stock exchanges on the consolidated statements of operations as an adjustment after net income and before net loss attributable to common shareholders. All share and share-related information presented in this Form 10-K, including our consolidated financial statements, has been retroactively adjusted to reflect the decreased number of shares resulting from the Reverse Stock Splits, unless otherwise noted.

Recent Accounting Pronouncements

In November 2024, the FASB issued ASU 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*. ASU 2024-03 requires public companies to disclose, in the notes to financial statements, specified information about certain costs and expenses at each interim and annual reporting period. This ASU is effective for annual reporting periods beginning after December 15, 2026, and interim reporting periods within annual reporting periods beginning after December 15, 2027. Early adoption is permitted. ASU 2024-03 should be applied prospectively to financial statements issued for reporting periods beginning after the effective date but entities may elect to apply the ASU retrospectively to any or all prior periods presented in the financial statements. The Company is currently evaluating the impact of this guidance on its consolidated financial statements and related disclosures.

Other accounting standards that have been recently issued or proposed by the FASB or other standard-setting bodies are not currently applicable to the Company or are not expected to have a significant impact on the Company's financial position, results of operations and cash flows.

3. Real Estate

A significant portion of the Company's land, buildings and improvements serve as collateral for its secured term loans. Accordingly, restrictions exist as to the encumbered property's transferability, use and other common rights typically associated with property ownership.

The Company's depreciation expense on real estate assets was \$18.2 million and \$18.7 million for the years ended December 31, 2025 and 2024, respectively.

Impairment

The Company recorded impairment charges for the year ended December 31, 2025 of \$2.9 million on Carll's Corner, located in Bridgeton, New Jersey, and an outparcel at St. George Plaza, located in St. George, South Carolina. The Company recorded impairment charges for the year ended December 31, 2024 of \$1.2 million on Oregon Avenue, located in Philadelphia, Pennsylvania. The valuation assumptions were based on the three-level valuation hierarchy for fair value measurement and represent Level 2 inputs. These impairment charges are included in operating income in the accompanying consolidated statements of operations.

4. Investment Securities - Related Party

In 2023, the Company subscribed for an investment in the amount of \$10.0 million for limited partnership interests in SAI. On June 1, 2024 and December 3, 2025, the Company subscribed for additional investments in the amount of \$0.5 million and \$10.0 million, respectively, for limited partnership interests in SAI. The investment objective of SAI is to seek long-term capital appreciation through investing primarily in publicly-traded undervalued financial institutions or businesses with a strong

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Continued)

financial component, or the securities of any of them, and pursuing an activist shareholder agenda with respect to those institutions.

Stilwell Value LLC ("Value") is the general partner of SAI. Joseph Stilwell, a member of the Company's Board of Directors, is the managing member of Value and a limited partner in funds advised by Value. Additionally, E.J. Borrack, a member of the Board of Directors, serves as the General Counsel to Value and its affiliated entities, including SAI and related funds, and is a limited partner in one of the funds advised by Value. Megan Parisi, a member of the Company's Board of Directors, serves as the Director of Communications to Value and its affiliated entities, including SAI and related funds, is a non-managing member of Value and is a limited partner in one of the funds advised by Value.

The Company's subscriptions were approved by the disinterested directors of the Company, and, after the formation of the RPT Committee, by that Committee.

A portion of SAI's underlying investments are in the Company's own equity and debt securities. At December 31, 2025 and 2024, approximately 38.0% and 38.0% of SAI's underlying investments were in the Company's own equity and debt securities, respectively, and approximately 0.0% and 6.2% were in the equity securities of the Company's consolidated subsidiary, respectively.

SAI records investment transactions based on trade date. Realized gains and losses from investment transactions are determined on a specific identification basis. Dividend income, net of withholding taxes, and dividend expense are recognized on the ex-dividend date, and interest income and expense are recognized on an accrual basis. Discounts and premiums to the face amount of debt securities are accreted and amortized using the effective interest rate method over the lives of the respective debt securities.

A limited partner in SAI may request a withdrawal after the expiration of the first anniversary of the date its investment was accepted into SAI. After the expiration of this lock-up period, withdrawal requests can be made quarterly and are generally paid out on a quarterly basis in accordance with the terms of the SAI limited partnership agreement.

In consideration for management, administrative and operational services, limited partners of SAI pay a management fee to an affiliate of Value each calendar quarter, in advance, equal to 0.25% (an annualized rate of 1%) of each limited partner's capital account balance on the first day of such calendar quarter. In addition, as of the last day of each specified performance period, an incentive allocation of 20% of the amount by which the "positive performance change," if any, that has been credited to the capital account of a limited partner during such period exceeds any positive balance in such limited partner's "carryforward account," is debited from the limited partner's capital account and is simultaneously credited to the capital account of Value.

The Company's SAI investment continues to be measured at net asset value as a practical expedient and has not been classified within the fair value hierarchy. Effective in the first quarter of 2025, the Company voluntarily changed its accounting policy for unrealized holding gains and losses from the Company's SAI investment. Under the new accounting policy the unrealized gains/(losses) are recorded through other comprehensive income and continue to be presented net of investment fees as noted above. This change in accounting policy has been applied prospectively.

As of December 31, 2025 and 2024, the net asset value of the Company's SAI investment was \$24.4 million and \$12.0 million, respectively. For the year ended December 31, 2025, the Company recorded \$2.4 million in unrealized holding gains through other comprehensive income, net of investment fees as noted above. For the year ended December 31, 2024, the unrealized gain on investment securities was \$0.8 million, net of investment fees.

Upon the 2025 dispositions of Carl's Corner and Fieldstone Marketplace, the Company paid down approximately \$4.0 million of the April 2025 Cedar Bridge Loan. The cash pledged as collateral is in an interest bearing account held by the Operating Partnership included in "restricted cash" on the Company's consolidated balance sheets as of December 31, 2025.

Winslow Plaza Payoff

On June 26, 2025, the Company paid the remaining loan balance of \$4.2 million on the Winslow Plaza loan in conjunction with the Winslow Plaza disposition and paid a \$28 thousand loan prepayment premium.

August 2025 Cedar Credit Facility

On August 15, 2025, Cedar entered into the August 2025 Cedar Credit Facility to draw up to \$20.0 million pursuant to which a loan advance may be made no more frequently than once per calendar month. The interest rate under the August 2025 Cedar Credit Facility for each draw is at the Company's option of either a base rate, daily simple SOFR or term SOFR, plus an applicable margin. Interest payments are due monthly, and any outstanding principal is due at maturity on August 15, 2027. The total outstanding principal under the August 2025 Credit Facility must be reduced to no greater than \$10.0 million by February 15, 2027. The August 2025 Cedar Credit Facility was collateralized by three properties, consisting of Carl's Corner, Fieldstone Marketplace and South Philadelphia Parcels, and is guaranteed by Cedar and WHLR. Upon the 2025 dispositions of a South Philadelphia land parcel, Carl's Corner and Fieldstone Marketplace, they were released from collateral and the Company paid down approximately \$10.3 million of the August 2025 Cedar Credit Facility.

Although the August 2025 Cedar Credit Facility provides for total borrowings of up to \$20.0 million, the Company did not have access to the full commitment as of December 31, 2025. Availability under the facility is subject to certain covenants and conditions established at origination, including requirements tied to projected asset sales and projected net sales proceeds.

Convertible Notes

The Company's Convertible Notes bear interest at a rate of 7.00% per annum. Interest on the Convertible Notes is payable semi-annually in arrears on June 30 and December 31 of each year, at the Company's election: (a) in cash; (b) in shares of its Series B Preferred Stock; (c) in shares of its Series D Preferred Stock; or (d) in any combination of (a), (b), and/or (c). For purposes of determining the value of the Series B Preferred Stock and the Series D Preferred Stock paid as interest on the Convertible Notes, each share of Series B Preferred Stock and Series D Preferred Stock shall be deemed to have a value equal to the product of (x) the average of the volume-weighted average price (as defined in the Indenture) for the Series B Preferred Stock or the Series D Preferred Stock, as the case may be, for the 15 consecutive trading days ending on the third business day immediately preceding the relevant interest payment date, and (y) 0.55.

Interest expense on the Convertible Notes consists of the following (in thousands, except for shares):

Years ended December 31,	Series B Preferred Stock number of shares ⁽¹⁾	Series D Preferred Stock number of shares ⁽¹⁾	Convertible Note interest at 7% coupon	Fair value adjustment	Interest expense
2025	—	107,522	\$ 2,107	\$ 1,752	\$ 3,859
2024	—	187,410	\$ 2,163	\$ 1,970	\$ 4,133

(1) Shares issued as interest payment on Convertible Notes.

On January 17, 2024, the Company paid down \$0.6 million of the Convertible Notes through an open market purchase of 23,280 units at a total purchase price of \$1.3 million. As a result of this transaction, the Company recognized a \$0.7 million loss for the year ended December 31, 2024, which represents the fair value of the purchase price over the amount of principal reduction. The loss is included in "other expense" on the consolidated statements of operations.

Prior to September 21, 2023, the Convertible Notes were convertible, in whole or in part, at any time, at the option of the holders of the Convertible Notes, into shares of the Company's Common Stock at a conversion price of \$189,000,000 per share of the Company's Common Stock (the "Conversion Price"). After September 21, 2023, as a result of the Company being required to redeem (payable in cash or stock) in the aggregate at least 100,000 shares of Series D Preferred Stock, the Conversion Price adjusted to the lower of (i) 55% of the Conversion Price or (ii) a 45% discount to the lowest price at which any Series D Preferred Stock was converted into the Common Stock. Upon a change of control, each Convertible Note will mandatorily convert into shares of the Company's Common Stock equal to: (i) the principal amount of each Convertible Note divided by (ii) the product of (x) the average of the per share volume-weighted average prices for the Common Stock for the 15 consecutive trading days ending on the third business day immediately preceding the date of such change of control, and (y) 0.55. After January 1, 2024, the Company may redeem the Convertible Notes at any time (in whole or in part) at the Company's option at a redemption price equal to 100% of the principal amount thereof plus accrued and unpaid interest as of the redemption date (the "Note Redemption Price"). The Note Redemption Price may be paid: (a) in cash; (b) in shares of Common Stock; or (c) in any combination of (a) and (b).

During the years ended December 31, 2025 and 2024, the Company issued an aggregate of 17,882 shares and 4 shares, respectively, of its Common Stock, having an aggregate fair value of \$2.4 million and \$0.5 million, respectively, to settle conversion requests of the holders of the Convertible Notes comprising an aggregate principal amount of \$1.5 million and \$0.1 million, respectively, which resulted in an aggregate net loss on conversion of Convertible Notes of \$0.9 million and \$0.4 million, respectively.

As of December 31, 2025, the Conversion Price for the Convertible Notes was approximately \$5.69 per share of the Company's Common Stock (approximately 4.40 shares of Common Stock for each \$25.00 of principal amount of the Convertible Notes being converted).

The Convertible Notes are subordinate and junior in right of payment to the Company's obligations to the holders of senior indebtedness, and that in the case of any insolvency, receivership, conservatorship, reorganization, readjustment of debt, marshalling of assets and liabilities or similar proceedings or any liquidation or winding-up of or relating to the Company as a whole, whether voluntary or involuntary, all obligations to holders of senior indebtedness shall be entitled to be paid in full before any payment shall be made on account of the principal or interest on the Convertible Notes.

Fair Value Measurements

The fair value of the Company's fixed rate secured term loans was estimated using available market information and discounted cash flow analyses based on borrowing rates the Company believes it could obtain with a similar term and maturities, which are Level 3 inputs. As of December 31, 2025 and 2024, the fair value of the Company's fixed rate secured term loans, which were determined to be Level 3 within the valuation hierarchy, was \$445.5 million and \$451.0 million, respectively, and the carrying value of such loans, was \$436.7 million and \$456.1 million, respectively. As of December 31, 2025, the fair value of the April 2025 Cedar Bridge Loan approximated its carrying value as it is a variable-rate loan.

The fair value of the Convertible Notes was estimated using available market information. As of December 31, 2025 and 2024, the fair value of the Convertible Notes, which were determined to be Level 1 within the valuation hierarchy, was \$102.7 million and \$179.6 million, respectively, and the carrying value, was \$25.8 million and \$26.5 million, respectively.

7. Derivative Liabilities

Fair Value of Warrants

The Company utilized the Black-Scholes valuation method to calculate the fair value of the warrants noted below. Significant observable and unobservable inputs include stock price, conversion price, risk-free rate, term, likelihood of an event of contractual conversion and expected volatility. The Black-Scholes valuation method simulation is a Level 3 valuation technique because it requires the development of significant internal assumptions in addition to observable market indicators. The warrants noted below contain terms and features that give rise to derivative liability classification.

The Company's warrants to purchase shares of Common Stock (the "Warrants") were issued to the holders thereof in three tranches: Warrant Tranche A to purchase Common Stock at an exercise price of \$700,846 per share, Warrant Tranche B to purchase Common Stock at an exercise price of \$841,015 per share, and Warrant Tranche C at an exercise price of \$1,401,692 per share, each exercise price was as of December 31, 2025 and 2024. Warrants had an expiration date of March 12, 2026.

In measuring the Warrant liability, the Company used the following inputs:

	December 31, 2025	December 31, 2024
Common Stock price	\$1.70 ⁽¹⁾	\$3.37 ⁽²⁾
Weighted average contractual term to maturity (years)	0.2 years	1.2 years
Expected market volatility %	238.4%	258.1%
Risk free interest rate	3.7%	4.2%

(1) Common Stock price as of December 31, 2025 and was not restated for any subsequent stock splits.

(2) Common Stock price as of December 31, 2024 and was not restated for any subsequent stock splits.

Fair Value of Conversion Features Related to Convertible Notes

The Company identified certain embedded derivatives related to the conversion features of the Convertible Notes. In accordance with ASC 815-40, *Derivatives and Hedging Activities*, the embedded conversion options contained within the Convertible Notes were accounted for as derivative liabilities at the date of issuance and shall be adjusted to fair value through each reporting date. The Company utilized a binomial lattice model to calculate the fair value of the embedded derivatives. Significant observable and unobservable inputs include conversion price, stock price, dividend rate, expected volatility, risk-free rate, optional conversion price and term. The binomial lattice model is a Level 3 valuation technique because it requires the development of significant internal assumptions in addition to observable market indicators.

In measuring the embedded derivative liability, the Company used the following inputs:

8. Commitments and Contingencies

Lease Commitments

The Company is the lessee under several ground leases and for its corporate headquarters; all are accounted for as operating leases. Most leases include one or more options to renew, with renewal terms that can extend the lease term from 5 to 50 years. As of December 31, 2025 and 2024, the weighted average remaining lease term of our leases, excluding liabilities held for sale, was 39 years and 36 years, respectively. Rent expense under the operating lease agreements was \$0.9 million and \$0.9 million for the years ended December 31, 2025 and 2024, respectively.

The following table represents a reconciliation of the Company's undiscounted future minimum lease payments for its ground lease and corporate headquarters lease agreements applicable to lease liabilities as of December 31, 2025 (in thousands, excluding liabilities held for sale):

Insurance

Wheeler Real Estate Investment Trust, Inc. and Subsidiaries
Notes to Consolidated Financial Statements (Continued)

The Company carries comprehensive liability, property, fire, flood, wind, extended coverage, business interruption and rental loss insurance covering all of the properties in its portfolio under an insurance policy, in addition to other coverages, such as trademark and pollution coverage, that may be appropriate for certain of its properties. In addition, the Company carries a directors', officers', entity and employment practices liability insurance policy that covers such claims made against the Company and its directors and officers. The Company also carries an auto policy to protect employees that use personal automobiles for work purposes above the employees insurance coverage and for the Company's protection against potential liability. The Company believes the policy specifications and insured limits are appropriate and adequate for its properties given the relative risk of loss, the cost of the coverage, requirements from any and all lenders and general industry practice; however, its insurance coverage may not be sufficient to fully cover losses.

Concentration of Credit Risk

The Company is subject to risks incidental to the ownership and operation of commercial real estate. These risks include, among others, the risks normally associated with changes in the general economic climate, trends in the retail industry, creditworthiness of tenants, competition for tenants and customers, changes in tax laws, interest rates, the availability of financing and potential liability under environmental and other laws.

The Company's portfolio of properties is dependent upon regional and local economic conditions and is geographically located in the Mid-Atlantic, Southeast, and Northeast, which markets represented approximately 47%, 45% and 8%, respectively, of the total annualized base rent of the properties in its portfolio as of December 31, 2025. The Company's geographic concentration may cause it to be more susceptible to adverse developments in those markets than if it owned a more geographically diverse portfolio. Additionally, the Company's retail shopping center properties depend on anchor stores or major tenants to attract shoppers and could be adversely affected by the loss of, or a store closure by, one or more of these tenants.

Regulatory and Environmental

As the owner of the buildings on our properties, the Company could face liability for the presence of hazardous materials (e.g., asbestos or lead) or other adverse conditions (e.g., poor indoor air quality) in its buildings. Environmental laws govern the presence, maintenance, and removal of hazardous materials in buildings, and if the Company does not comply with such laws, it could face fines for such noncompliance. Also, the Company could be liable to third parties (e.g., occupants of the buildings) for damages related to exposure to hazardous materials or adverse conditions in its buildings, and the Company could incur material expenses with respect to abatement or remediation of hazardous materials or other adverse conditions in its buildings. In addition, some of the Company's tenants routinely handle and use hazardous or regulated substances and wastes as part of their operations at our properties, which are subject to regulation. Such environmental and health and safety laws and regulations could subject the Company or its tenants to liability resulting from these activities. Environmental liabilities could affect a tenant's ability to make rental payments to the Company, and changes in laws could increase the potential liability for noncompliance. This may result in significant unanticipated expenditures or may otherwise materially and adversely affect the Company's operations. The Company is not aware of any material contingent liabilities, regulatory matters or environmental matters that may exist.

Litigation

The Company is involved in various legal proceedings arising in the ordinary course of its business, including, but not limited to commercial disputes. The Company believes that such litigation, claims and administrative proceedings will not have a material adverse impact on its financial position or its results of operations. The Company records a liability when it considers the loss probable and the amount can be reasonably estimated. In addition, the below legal proceedings are in process:

Daniel Khoshaba v. Joseph D. Stihwell, et al., Civil Action No. 2:24CV237 in the United States District Court for the Eastern District of Virginia. On April 10, 2024, Daniel Khoshaba, a holder of the Company's Common Stock and former CEO of the Company, filed a derivative action on behalf of the Company and putative class action on behalf of common stockholders who had not purchased the Convertible Notes in a rights offering alleging that the current and certain former directors of the Company and the Company's CEO (the "Individual Defendants") each breached their duty to the Company and its common stockholders, and that certain of those directors and an officer of the Company were unjustly enriched. The complaint primarily asserted the Individual Defendants failed to take sufficient action to mitigate the potential dilution that could be caused by the redemption rights of holders of Series D Preferred Stock and that they should not have authorized dividends on the Convertible Notes sold in the rights offering to be paid in Series

D Preferred Stock. The Individual Defendants denied any liability and raised affirmative defenses. The Company was named as a nominal defendant in the case, and no claims were asserted against it. The Company provided indemnification (including legal fees and costs) to the Individual Defendants. On June 10, 2024, the Individual Defendants and the other Defendants in the case filed motions to dismiss the complaint. On September 13, 2024, the District Court granted in part and denied in part those motions. The parties thereafter conducted substantial fact discovery and exchanged expert reports. Plaintiff filed a motion for class certification which the Defendants opposed. The parties engaged in settlement discussions resulting in a settlement agreement dated October 21, 2025. In the agreement, the Defendants denied any wrongdoing and members of a settlement class provide full releases of liability to all Defendants. The settlement class is defined to include all persons other than Defendants and certain related parties who held Company common stock as of August 16, 2021 or purchased Company common stock between August 16, 2021 and September 20, 2023. On December 4, 2025, the Court entered an Order preliminarily approving the settlement as fair, reasonable and adequate, certified a settlement class and authorized plaintiff's counsel to provide notice to members of the settlement class. The Court has a scheduled a hearing for March 31, 2026 to consider final approval of the settlement. The settlement will not be final unless and until the court grants final approval after class notice. The Company is not responsible for any portion of the settlement payment.

Preferred stockholders of Cedar have filed a putative class action suit against the directors of Cedar prior to the Cedar Acquisition (collectively, the "Former Cedar Directors") in the Circuit Court for Montgomery County, Maryland captioned *Anthony Aquino, et al. v. Bruce Schanzer, et al.*, Case No.: C-15-CV-25-000731 (the "Aquino Action"). The Aquino Action alleges that the Former Cedar Directors breached their duties to Cedar's preferred stockholders through the Cedar Acquisition. The claims in the Aquino Action mirror the breach of duty claims that were a subject of the putative class action complaint entitled *Kim, et al., v. Cedar Realty Trust, Inc., et al.* (the "Kim Action"), which was dismissed with prejudice in 2023 by the United States District Court for the District of Maryland. The dismissal was affirmed on appeal to the United States Court of Appeals for the Fourth Circuit in 2024. The plaintiffs in the Aquino action have alleged as damages the decline in value of Cedar preferred stock after the Cedar Acquisition was announced. The Court in the Aquino Action denied the Former Cedar Directors' motion to dismiss. The parties are currently engaging in discovery. The Company has a contractual obligation to indemnify the Former Cedar Directors, including for reasonable costs and legal fees. At this juncture, the outcome of the litigation remains uncertain and the Company is unable to predict whether a class will be certified, whether the claims will survive dispositive motions, or the amount of damages that may be awarded in the event of an adverse verdict after trial.
